HUD Definition

***Housing First** is an approach where homeless persons are provided **immediate access** to housing and then **offered the supportive services** that may be needed to foster long-term stability and prevent a return to homelessness. This approach removes unnecessary barriers and assumes that supportive services are more effective in addressing needs when the individual or family is housed – when the daily stress of being homeless is taken out of the equation.*

Ann Marie Oliva
Director, Office of Special Needs Assistance Programs
August 21, 2016

A Systemwide Housing First Approach

All programs lower barriers – shelter, services, and housing

Most vulnerable – **including those with complex service needs, disabilities, mental health and active substance use issues** – prioritized for and admitted to shelter and housing programs

Housing-focused services and engagement begin immediately – on the street and in shelters

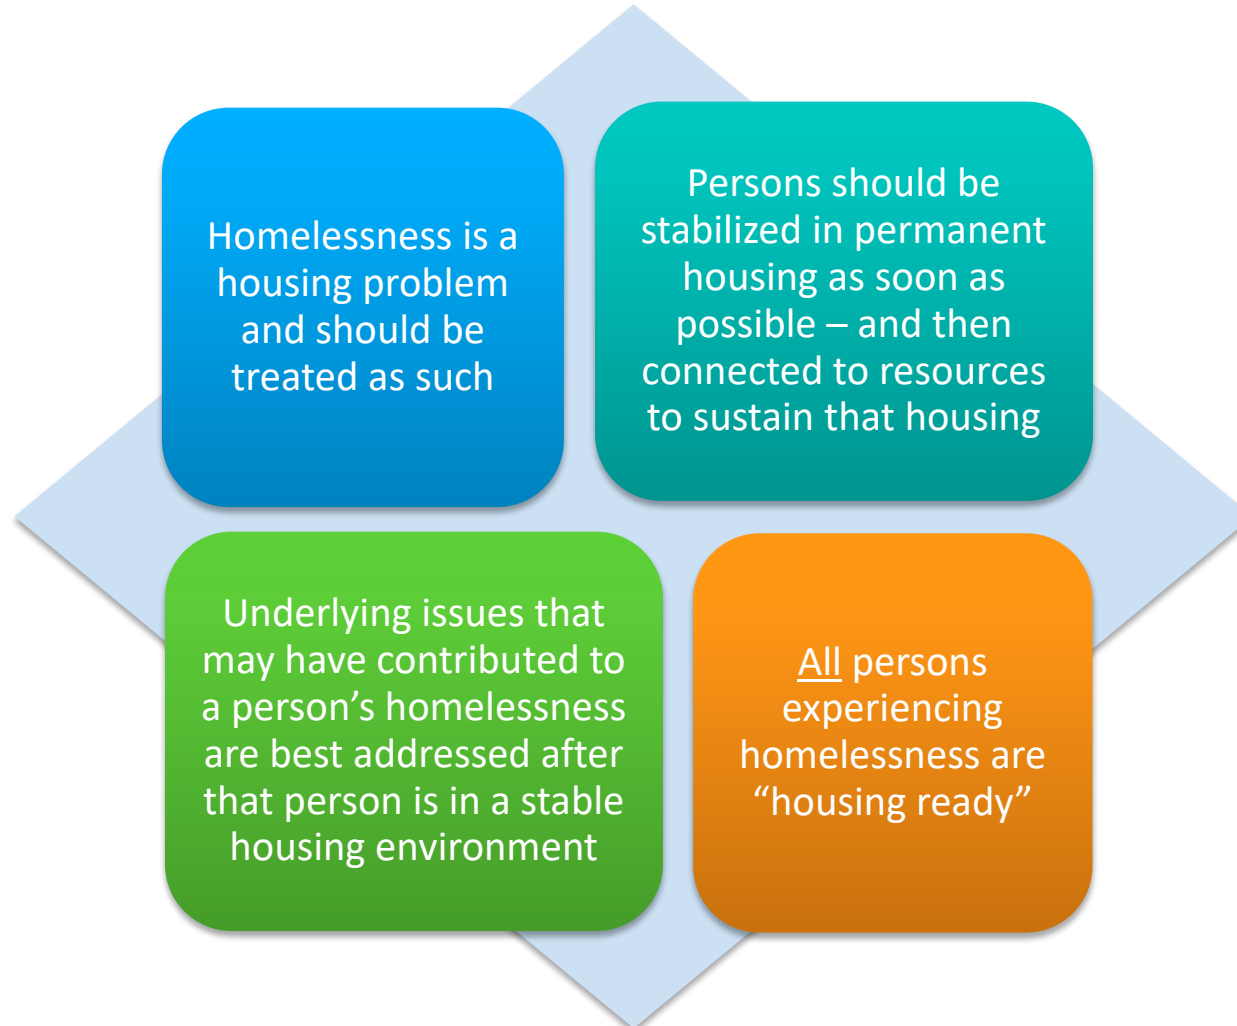

Increase supportive services to help gain and maintain housing

Services are **client-focused and voluntary**

Programs engage in evidence-based practices: harm-reduction, trauma-informed care, motivational interviewing, and other evidence-based approaches

Client choice and voice are engaged and respected

Four Overarching Principles:

Housing First Myths and Reality

HOUSING FIRST IS NOT	HOUSING FIRST IS
Just one type of program (not just PSH)	A system-wide philosophical approach to many types of homeless assistance interventions
One-size fits all	A philosophy that values flexibility, individualized supports, client choice, and autonomy
Housing only	Supportive services that people choose for themselves are a critical part of a Housing First approach
Setting people up for failure	The provision of a foundation of stability and health through permanent housing
A way to prioritize one population over another	A way to provide a housing intervention for everyone regardless of the severity of their needs

Housing First is mandated or encouraged across the CA system of care:

■ Housing First Prioritization

COC WRITTEN STANDARDS

Housing, shelter, prevention, outreach, other CoC programs or those with reference in grant agreement

STATE-FUNDED HOUSING PROGRAMS

Permanent supportive housing, Rapid Re-Housing, No Place Like Home, CESH, HEAP, HHAP, ESG and ESG-CV, CalWORKS HSP, CDSS programs, new state funding (CA Welfare and Institutions Code Section 8255)

CA ESG ESG-CV

Shelters, outreach, prevention, Rapid Re-Housing (25 CCR 8409)

Core Components of Housing First

Under California state law, the “core components” of Housing First include:

1

Tenant screening and selection practices that promote **accepting applicants** regardless of their **sobriety or use of substances, completion of treatment, or participation in services**

2

Applicants are **not rejected** based on **poor credit or financial history, poor or lack of rental history, criminal convictions** unrelated to tenancy, or behaviors that indicate a **lack of “housing readiness”**

3

Acceptance of referrals directly from shelters, street outreach, drop-in centers, and other parts of **crisis response systems frequented by vulnerable people** experiencing homelessness

Core Components of Housing First

Under California state law, the “core components” of Housing First include:

4

Supportive services that **emphasize engagement and problem solving** over therapeutic goals and service plans that are **highly tenant-driven** without predetermined goals

5

Participation in services is not a condition of permanent housing tenancy

6

Tenants have a **lease** and **all the rights and responsibilities** of tenancy, as outlined in California’s Civil, Health and Safety, and Government codes

7

The **use of alcohol or drugs** in and of itself, without other lease violations, is **not a reason for eviction**

Core Components of Housing First

Under California state law, the “core components” of Housing First include:

8

In communities with **coordinated assessment and entry systems**, incentives for funding promote tenant selection plans for supportive housing that **prioritize eligible tenants based on criteria other than “first-come-first-serve,”** including, but not limited to, the **duration or chronicity of homelessness, vulnerability to early mortality, or high utilization of crisis services** and prioritization may include triage tools, developed through local data, to identify high-cost, high-need homeless residents

9

Case managers and service coordinators who are **trained in and actively employ evidence-based practices for client engagement**, including, but not limited to, motivational interviewing and client-centered counseling

Core Components of Housing First

Under California state law, the “core components” of Housing First include:

10

Services are informed by a **harm-reduction philosophy** that recognizes drug and alcohol use and addiction as a part of tenants’ lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses

11

The project and specific apartment may include **special physical features** that accommodate disabilities, reduce harm, and promote health and community and independence among tenants

- 1 Ensuring low-barrier, easily accessible assistance to all people, including, but not limited to, people with no income or income history, and people with active substance abuse or mental health issues
- 2 Helping participants quickly identify and resolve barriers to obtaining and maintaining housing
- 3 Seeking to quickly resolve the housing crisis before focusing on other non-housing related services
- 4 Allowing participants to choose the services and housing that meets their needs, within practical and funding limitations
- 5 Connecting participants to appropriate support and services available in the community that foster long-term housing stability
- 6 [When] offering financial assistance and supportive services,... the type, duration, and amount of assistance offered shall be based on an individual assessment of the household, and the availability of other resources ... to resolve their housing crisis and stabilize them in housing

COMMON CHALLENGES

- **Myths about requirements:** Housing First does not equal no rules - but rules must be based on behavior, not status (ie, behavior like threats to staff vs. positive drug test)
- **Community misperceptions:** Housing First means introducing crime into their neighborhood
- **Not one-size-fits-all:** Housing First looks different in different places - congregate shelter vs. permanent housing, for example; property managers might have a different lens than street outreach workers
- **Need for supportive services:** Many communities struggle to provide the supportive services to enable success in gaining housing (ie alignment with behavioral health services, robust housing navigation, credit/criminal background cleanups, ongoing support)
- **Landlord reluctance:** Landlord dependence on requiring criminal background and credit checks and imposing lease restrictions targeted to people on subsidies
- **Fear of failure:** Past experience leaves case managers/housing providers worried that housing most vulnerable won't be successful
