## EXHIBIT A

### AUTHORITY, PURPOSE AND SCOPE OF WORK

#### 1. Authority & Purpose

The California Department of Housing and Community Development (hereinafter "Department") is the lead and responsible entity for administering the Community Development Block Grant – Mitigation (hereinafter "CDBG-MIT") funds appropriated under Public Law 115-123 and allocated to the State of California by the U.S. Department of Housing and Urban Development (hereinafter "HUD"). CDBG-MIT supports the State of California to carry out strategic and high-impact activities to mitigate disaster risks and reduce future losses in areas impacted by the Federal Emergency Management Agency's Major Disaster Declaration DR-4344 in October 2017 and DR-4353 in December 2017/January 2018. CDBG-MIT Planning and Public Services Program (hereinafter "MIT-PPS") projects are funded by CDBG-MIT funds to address risks to, or across, community lifelines that support human health and safety and provide mitigation for individual and community-based systems.

#### 2. Scope of Agreement

##### A. **Grant Funds**

Subject to the terms and conditions of this Standard Agreement (hereinafter "Agreement"), the Department has allocated and agrees to provide grant funds in the maximum amount identified below to the subrecipient identified as "Contractor" on page 1, Section 1 of the STD 213 form (hereinafter "Subrecipient") for all Work (defined below) identified in this Agreement (hereinafter "Subrecipient Award"). All payments made to the Subrecipient will adhere to the provisions described in Exhibit B, Section 4 (Method of Payment) herein. In no instance shall the Department be liable for any costs in excess of this amount, nor for any unauthorized or ineligible costs or expenses. The Subrecipient Award is and shall not exceed \$500,000 per project and \$2,500,000 per subrecipient.

This Agreement governs the Subrecipient Award and each individual Project thereafter proposed by the Subrecipient and approved by the Department (each an "Approved Project", and collectively the "Approved Projects"), the budget for each of which is to constitute some portion of the Subrecipient Award. The cumulative total amount of all Approved Projects shall not exceed the total amount of the Subrecipient Award.

##### B. **Implementation of Agreement**

By entering into this Agreement and thereby accepting the Award of grant funds, the Subrecipient agrees to comply with and implement this Agreement in a manner satisfactory to the Department and HUD and consistent with all

## EXHIBIT A

applicable laws, regulations, policies and procedures that may be required from time to time as a condition of the Department providing the grant funds, including but not limited to, all applicable CDBG-MIT Program Administration and Compliance requirements set forth by this Agreement, and in accordance with the Application documentation previously provided by the Subrecipient and made a part hereof. The Department's providing of grant funds under this Agreement is specifically conditioned on Subrecipient's compliance with this provision and all terms and conditions of this Agreement, the most recently published version of the Department's CDBG- MIT Action Plan for 2017 disasters (<https://www.hcd.ca.gov/community-development/disaster-recovery-programs/cdbg-dr/cdbg-mit-2017/index.shtml>) and any amendments thereto, related Federal Register notices, and the requirements of the authorities cited above, as the same may be amended from time to time.

This Agreement is subject to written modification and termination as necessary by the Department in accordance with requirements contained in any future state or federal legislation and/or state or federal regulations. All other modifications must be in written form and approved by both parties.

### 3. **Subrecipient Scope of Work**

The Subrecipient scope of work (hereinafter "Work") for this Agreement shall consist of the following:

The Subrecipient shall perform the funded activities described in the Work, as detailed in Exhibit F. All written materials or alterations submitted as addenda to the original Application and which are approved in writing by the Department are hereby incorporated as part of the Application. The Department reserves the right to require the Subrecipient to modify any or all parts of the Application in order to comply with CDBG-MIT program requirements. The Department reserves the right to monitor all Work to be performed by the Subrecipient, its contractors, and subgrantees in relation to this Agreement. Any proposed revision to the Work must be submitted in writing for review and approval by the Department and may require an amendment to this Agreement. Approval shall not be presumed unless such approval is made by the Department in writing.

- A. For the purposes of performing the Work, the Department agrees to provide the amount(s) identified in Exhibit B Budget as detailed in Exhibit F, Additional Provisions. Unless amended, the Department shall not be liable for any costs in excess of the total approved budget. The Department shall not, under any conditions, be liable for any unauthorized or ineligible costs.
- B. Planning activity(ies), as defined in the MIT-PPS Policies and

The Department reserves the right to reallocate unobligated grant funds within the MIT-PPS program, in its sole and absolute discretion if the Department determines the Subrecipient is unable to meet the performance milestones in a timely manner following the failure to meet said milestones. The Department reserves all rights and remedies available to it in case of a default by Subrecipient of its responsibilities and obligations under the terms of this Agreement. Approved Activity – An Activity that has been submitted to the Department through the Notice of Funding Availability and reviewed and approved to fund with the Subrecipient Award by the Department.

Area Median Income (AMI) - means the median family income for specific geographic areas, adjusted for household size, as calculated by HUD, and published annually by the Department at <https://www.hcd.ca.gov/grants-funding/income-limits/state-and-federal-income-limits.shtml>.

California Environmental Quality Act (CEQA) - is a state statute that requires state and local agencies to identify the significant environmental impacts of their actions and to avoid or mitigate those impacts, if feasible.

Department – means the California Department of Housing and Community Development.

Disaster Recovery Grant Reporting System (DRGR) – The electronic system primarily used by the Department to access grant funds from HUD and report performance accomplishments for grant-funded activities to HUD. The DRGR system is used by HUD to review grant-funded activities, prepare reports to Congress and other interested parties, and monitor program compliance.

Duplication of Benefits (DOB) - Financial assistance received from another source that is provided for the same purpose as the CDBG Mitigation-MIT funds, in accordance with Federal Register Notices 84 FR 28836 and 84 FR 28848.

Eligible Expenses – Those necessary and reasonable costs under 2 CFR 200.400 through 475, and applicable notices and waivers, and as identified in Section 1.13 of the

## EXHIBIT D

MIT-PPS Policies and Procedures Manual, and as approved by the Department. Eligible Expenses do not include any costs which are disallowed or otherwise deemed ineligible by the State of California and/or HUD.

Financial Reports (Funds Requests) - the forms and processes required for a Subrecipient to request the drawdown of grant funds.

Grant Funds – The CDBG-MIT funds allocated to the Subrecipient for the implementation of the MIT-PPS program and eligible Approved Projects. Grant funds include Activity Funds and Activity Delivery Funds.

Household - One or more persons occupying a housing unit.

HUD – The United States Department of Housing and Urban Development.

Indirect Costs - means those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect costs. Indirect cost pools must be distributed to benefitted cost objectives on bases that will produce an equitable result in consideration of relative benefits derived.

Indirect Cost Rate Proposal - means the documentation prepared by a governmental unit or subdivision thereof to substantiate its request for the establishment of an indirect cost rate as further defined in 2 CFR 200.56 and 2 CFR 200.57.

Low- to Moderate- Income (LMI) – Low to moderate income people are those having incomes not more than the “moderate-income” level (80% Area Median Family Income) set by the federal government for the HUD-assisted housing programs. This income standard changes from year to year and varies by Household size, county and the metropolitan statistical area.

Standard Agreement (“Agreement”) – The contractual arrangement between the Department and the Subrecipient which sets forth the terms and conditions by which CDBG-MIT funds must be utilized with regards to Approved Projects.

National Environmental Policy Act (NEPA) – The federal law and associated regulations which establishes a broad national framework for protecting the environment. NEPA's basic policy is to assure that all branches of government consider the environment prior to undertaking any major federal action that could significantly affect the environment.

Subrecipient – A ‘Subrecipient’ is a non-State or Federal entity receiving a direct award of grant funds from the Department for the purpose of funding Approved Projects to carry out activities that produce a plan or meet a National Objective.

## EXHIBIT D

Subrecipient Award – The amount of grant funds allocated to the Subrecipient for Approved Activities.

### 2. **National Objectives**

In accordance with 24 CFR 570.208, Section 104(b)(3) of the Housing and Community Development Act of 1974, and as further outlined within the waivers and alternative requirements at Federal Register Notice 84 FR 45838, all CDBG-MIT funded activities, with the exception of Planning activities, must satisfy either the Low-to Moderate Income (LMI) or the Urgent Need Mitigation (UNM) national objective. HUD created a new National Objective - Urgent Need Mitigation (UNM) – for CDBG-MIT programs. This National Objective provides a better fit for CDBG-MIT activities that aim to address risks that do not tie back to the disaster events of the 2017 CDBG-DR funding or subsequent disasters. Projects using the UNM national objective must provide documentation that demonstrates a measurable and verifiable impact on reducing risks at the completion of the activity.

- Address the current and future risks as identified in the Mitigation Needs Assessment of the most impacted and distressed areas; and
- Result in a measurable and verifiable reduction in the risk of loss of life and property.

Planning activities do not require a national objective be established. HUD's Federal Register Notice (84 FR 45838) governing the MIT allocation describes planning efforts as addressing the national objectives without the limitation of any circumstances. All Public Services activities must meet one national objective criterion, LMI or UNM, related to its specific mitigation impact and defined direct benefits or service area.

Upon completion of the Approved Project(s) funded under this Agreement and prior to the funding expiration date of this Agreement, the Subrecipient must document that the Approved Project(s) met the LMH National Objective. The Department shall review the actual National Objective achievements of the Subrecipient. If the Subrecipient does not or cannot satisfactorily document the National Objective achievement of an Approved Project, the Approved Project may be deemed ineligible and repayment of funds may be required of the Subrecipient.

### 3. **Duplication of Benefits**

A Duplication of Benefits (DOB) occurs when a program beneficiary receives assistance from multiple sources for a cumulative amount that exceeds the total need for a particular recovery purpose. The amount of the duplication is the amount of assistance provided in excess of the total need for the same purpose. It is the Department's responsibility to ensure that MIT-PPS provides assistance only to the extent that the disaster recovery need has not been fully met by funds that have already been paid, or will be paid, from another source.

## EXHIBIT D

The Subrecipient must report all funds obtained for the activity from any source from the date of the disaster until the Project is completed.

The Subrecipient agrees to repay to the Department immediately upon demand any assistance later received for the same purpose as the CDBG–MIT funds and that exceeds the total need for the particular recovery purpose.

### 4. **Remedies and Termination for Noncompliance**

A. **Remedies for Noncompliance:** In addition to any other rights and remedies the Department may have under this Agreement, at law, or in equity, the Department may initiate remedies for noncompliance as identified in 2 CFR 200.339 at any time it has been determined that the Subrecipient is no longer meeting the terms and conditions of this Agreement. Remedies for noncompliance may be required in addition to, in lieu of, or prior to termination. Such remedies for noncompliance with a federal statute or regulation, a state statute or regulation, an assurance, in a State plan or application, or elsewhere may include, as appropriate:

1. Temporarily withhold cash payments pending correction of the deficiency by the Subrecipient.
2. Disallow all or part of the cost of the action not in compliance.
3. Wholly or partly suspend or terminate the Subrecipient's grant funds.
4. Withhold further and/or future awards for CDBG-MIT funds and/or any other funds administered by the Department.
5. Request that the Federal Awarding Agency initiate suspension or debarment proceedings.
6. Take other remedies that may be legally available, such as:

In the case of costs incurred without meeting a National Objective, require repayment of all funds reimbursed and/or paid to the Subrecipient, including Activity Delivery, as appropriate.

In the case of Duplication of Benefits, require repayment of all CDBG-MIT funds reimbursed and/or paid to the Subrecipient where other financial assistance was received for the same purpose or in excess of the need.

In taking an action to remedy noncompliance, the Department will provide the Subrecipient an opportunity for such hearing, appeal, or other administrative proceeding to which the Subrecipient is entitled under any statute or regulation

## EXHIBIT D

applicable to the action involved as per 2 CFR 200.342. Such appeal shall be governed by, and conducted in accordance with, the appeal processes and procedures set forth in section 5 herein.

Effects of Suspension and Termination. Subrecipient costs resulting from obligations incurred by the Subrecipient or any of the Subrecipient's Contractors during a suspension or after termination of an Agreement are not allowable unless otherwise authorized by the Department in a written notice or as allowable in 2 CFR 200.343. The enforcement remedies identified in this Section do not preclude a Subrecipient or any of the Subrecipient's Contractors from being subject to 2 CFR Part 2424. CDBG-MIT funds may not be provided to excluded or disqualified persons pursuant to 24 CFR 570.489(l) and 2 CFR 200.339.

The remedies available to the Department under this Agreement are cumulative and not exclusive.

- B. Termination for Noncompliance: Grant funds provided by this Agreement may be terminated in whole or in part as per federal regulation at 2 CFR 200.340 by HUD or by HCD if Subrecipient fails to comply with the terms and conditions of the Agreement that include the terms and conditions of the federal award. All terminations shall include written notification setting forth the reason(s) for such termination, the effective date, and the portion to be terminated in the case of partial terminations and will follow termination notification requirements identified in 2 CFR 200.341.
- C. Termination Without Cause: This Agreement may be terminated by the Department in whole or in part at any time without cause only with the consent of the Subrecipient. In the case of a termination of the whole Agreement, the parties shall agree upon termination conditions, including the effective date. In the case of a partial termination, the parties shall agree upon termination conditions, including the portion to be terminated and the effective date.
- D. Termination With Cause: This Agreement may be terminated by the Department in whole or in part at any time for cause by giving at least 14 days' prior written notice to the Subrecipient. Termination with cause includes termination prior to the end of the period of performance for failure to comply with the terms and conditions of this Agreement, and pursuant to 2 CFR 200.340(c), such termination shall be reported to the appropriate federal program integrity and performance system accessible through the System for Award Management. Termination with cause also includes, without limitation, a failure by Subrecipient to comply with the Project Schedule, Project and Activity Performance Milestones, Reporting Requirements, and/or Special Conditions issued for a Project to use CDBG-MIT funds.

## EXHIBIT D

5. Appeals Process for Finding of Noncompliance: If Subrecipient disagrees with a finding of noncompliance and/or any accompanying remedy and/or termination that are associated with such finding, the Subrecipient may appeal the disputed decision to the Department in writing via U.S. Mail no later than thirty (30) calendar days from the date of HCD's issuance of the disputed decision. In the event the 30th day falls on a weekend or a recognized state or federal holiday, the Subrecipient's written request for appeal shall be due by 5:00 pm Pacific Time the following business day.

There are two levels of appeal available to aggrieved subrecipients:

- Level I Request for Reconsideration, and
- Level II Request for Official Review

A Subrecipient must first submit a written Level I Request for Reconsideration to the Program Manager within thirty (30) calendar days from HCD's issuance of the underlying decision as described above. If the written request is timely submitted, the Program Manager then has ten (10) calendar days of receipt of such request within which to issue any stay requested by the Subrecipient, in full or in part, and thirty (30) calendar days within which to issue a written reconsideration decision. Submitting a timely Level I Request for Reconsideration (and receiving a subsequent reconsideration decision from the Program Manager) is a necessary predicate to the Subrecipient having a right to initiate a Level II Request for Official Review.

A Subrecipient who disagrees with a Reconsideration decision may submit a Level II Request for Official Review to the Disaster Recovery Section Chief or Designee within thirty (30) calendar days from the issuance of the underlying reconsideration decision, as described above. The Section Chief or Designee will conduct an independent review and has thirty (30) calendar days within which to issue a written Official Review decision, which shall be final and binding and not subject to further appeal.

Time is of the essence with regards to the Subrecipient's obligation to timely file appeals or requests to the Department within the time periods set forth in this Appeals Process. As such, any appeal by Subrecipient that is not timely made in strict accordance herewith shall be void and not considered, and the initial decision or finding shall automatically remain as originally issued.

## 6. Severability

- A. If any provision of this Agreement, or an underlying obligation, is held invalid by a court of competent jurisdiction, such invalidity may not affect any other provisions of this Agreement and the remainder of this Agreement shall remain in full force

## EXHIBIT D

and effect. Therefore, the provisions of this Agreement are, and shall be, deemed severable.

- B. The Subrecipient shall notify the Department immediately of any claim or action undertaken by or against it which affects or may affect this Agreement or the Department and shall take such action with respect to the claim or action as is consistent with the terms of this Agreement and the interests of the Department.

### 7. **Waivers**

No waiver or any breach of this Agreement shall be held to be a waiver of any prior or subsequent breach. The failure of the Department to enforce, at any time, the provisions of this Agreement or to require, at any time, performance by the Subrecipient of these provisions shall in no way be construed to be a waiver of such provisions nor to affect the validity of this Agreement or the right of the Department to enforce these provisions. All waivers by the Department must be in writing in order to be valid.

### 8. **Uniform Administrative Requirements**

The Subrecipient, its agencies or instrumentalities, shall comply with the policies, guidelines and Administrative Requirements of 2 CFR Part 200, et seq., as applicable, as they relate to the cost principles, audit requirements, acceptance and use of federal funds under this part.

- A. **Single Audit Compliance:** Funds will not be disbursed to any Subrecipient identified by the State Controller's Office (SCO) as non-compliant with the Federal Single Audit Act, as described in the Uniform Administrative Requirements, Cost Principles, And Audit Requirements for Federal Awards at 2 CFR 200 Sub-Part F. No funds may be disbursed until compliance with the Uniform Guidance is demonstrated to the satisfaction of the Department.
- B. **Accounting Standards:** The Subrecipient agrees to comply with, and administer the activity in conformance with, 2 CFR Part 200.300, et seq., and agrees to adhere to the accounting principles and procedures required therein, utilize adequate internal controls and maintain necessary source documentation for all costs incurred.
- C. **Suspension and Debarment:** By executing this Agreement, Subrecipient verifies and affirms that it has not been suspended or debarred from participating in or receiving federal government contracts, subcontracts, loans, grants, or other assistance programs. Subrecipient further agrees to verify that its Developers and Contractors have not been suspended or debarred from participating or receiving federal government contracts, subcontracts, loans, grants, or other assistance programs.

## EXHIBIT D

### 9. **Compliance with State and Federal Laws and Regulations**

- A. The Subrecipient, its agencies or instrumentalities, Contractors shall comply with all local, state, and federal laws, statutes, and regulations, as well as policies and procedures established by the Department for the administration of MIT-PPS, as the same may be amended from time to time.
- B. The Subrecipient shall comply with the requirements of 24 CFR 570, the HUD regulations concerning Community Development Block Grants, 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Final Guidance, adopted by HUD at 2 CFR 2400, and all federal regulations, rules, and policies issued pursuant to these regulations. The Subrecipient further agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available.

### 10. **Authority to Impose Additional Special Conditions**

In accordance with 2 CFR 200.208, Department reserves the right and authority to impose additional specific conditions issued under this Standard Agreement under any of the following circumstances:

- A. When, in HCD's sole discretion, HCD finds that Subrecipient has a history of failure to comply with the general or specific terms and conditions applicable to the CDBG-MIT funds allocated under this agreement or to other awards of federally-funded grant or loan assistance passed through the Department.
- B. When Subrecipient fails to meet expected performance goals under this agreement.
- C. When Subrecipient poses an increased risk for noncompliance based on factors including, but not limited to, financial stability, quality of management systems, history of performance under Federal awards, history of timeliness under Federal awards, history of conformance with terms and conditions of previous federal awards, and reports and findings from audits.
- D. When, in the Department's sole discretion, such conditions are necessary to ensure timely and compliant performance under the federal award.

Such specific conditions, or special conditions, may include, withholding of authority to proceed to the next phase of an Approved Project until receipt of evidence of acceptable performance within a given period of performance, requiring additional detailed financial reports, requiring additional project monitoring, requiring the Subrecipient to obtain technical or management assistance, establishing additional prior

## EXHIBIT D

approvals, or any other condition HCD deems reasonable and necessary to safeguard Federal funds.

### 11. **Equal Opportunity Requirements and Responsibilities**

The obligations undertaken by Subrecipient include, but are not limited to, the obligation to comply with all federal laws and regulations described in Subpart K of 24 CFR Part 570 and specifically with each of the following, among other things, as the same may be amended from time to time:

- A. **Title VI of the Civil Rights Act of 1964:** This act provides that no person shall be excluded from participation, denied program benefits, or subject to discrimination based on race, color, and/or national origin under any program or activity receiving federal financial assistance.
- B. **Title VII of the Civil Rights Act of 1968 (The Fair Housing Act):** This act prohibits discrimination in housing on the basis of race, color, religion, sex and/or national origin. This law also requires actions which affirmatively promote fair housing.
- C. **Restoration Act of 1987:** This act restores the broad scope of coverage and clarifies the application of the Civil Rights Act of 1964. It also specifies that an institution which receives federal financial assistance is prohibited from discriminating on the basis of race, color, national origin, religion, sex, disability or age in a program or activity which does not directly benefit from such assistance.
- D. **Section 109 of Title 1 of the Housing and Community Development Act of 1974 [42 U.S.C. 5309]:** This section of Title 1 provides that no person shall be excluded from participation (including employment), denied program benefits, or subject to discrimination on the basis of race, color, national origin, or sex under any program or activity funded in whole or in part under Title 1 of the Act.

- F. **The Age Discrimination Act of 1975:** This act provides that no person shall be excluded from participation, denied program benefits, or subject to

## EXHIBIT D

- discrimination on the basis of age under any program or activity receiving federal funding assistance. Effective January 1987, the age cap of 70 was deleted from the laws. Federal law preempts any State law currently in effect on the same topic.
- G. **Section 504 of the Rehabilitation Act of 1973:** It is unlawful to discriminate based on disability in federally assisted programs. This Section provides that no otherwise qualified individual shall, solely by reason of his or her disability, be excluded from participation (including employment), denied program benefits, or subjected to discrimination under any program or activity receiving federal funding assistance.
- H. **The Americans with Disabilities Act of 1990 (ADA):** This act modifies and expands the Rehabilitation Act of 1973 to prohibit discrimination against "a qualified individual with a disability" in employment and public accommodations. - I. **Executive Order 11063:** This executive order provides that no person shall be discriminated against on the basis of race, color, religion, sex, or national origin in housing and related facilities provided with federal assistance and lending practices with respect to residential property when such practices are connected with loans insured or guaranteed by the federal government.
- J. **Executive Order 12259:** This executive order provides that the administration of all federal programs and activities relating to housing and urban development be carried out in a manner to further housing opportunities throughout the United States.
- K. **The Equal Employment Opportunity Act:** This act empowers the Equal Employment Opportunity Commission (EEOC) to bring civil action in federal court against private sector employers after the EEOC has investigated the charge, found "probable cause" of discrimination, and failed to obtain a conciliation agreement acceptable to the EEOC. It also brings federal, state, and local governments under the Civil Rights Act of 1964.
- L. **The Uniform Guidelines on Employee Selection Procedures adopted by the Equal Employment Opportunity Commission in 1978:** This manual applies to employee selection procedures in the areas of hiring, retention, promotion, transfer, demotion, dismissal and referral. It is designed to assist employers, labor organizations, employment agencies, licensing and certification boards in complying with the requirements of federal laws prohibiting discriminatory

- M. **The Vietnam Era Veterans' Readjustment Act of 1974 (revised Jobs for Veterans Act of 2002):** This act was passed to ensure equal employment opportunity for qualified disabled veterans and veterans of the Vietnam War. Affirmative action is required in the hiring and promotion of veterans.

- A. Implementing procedures designed to notify Section 3 residents within the neighborhood service area of the project about training and employment opportunities generated by Section 3 covered assistance and Section 3 business concerns about contracting opportunities generated by Section 3 covered assistance.
- B. Notifying potential Contractors for Section 3 covered projects of the requirements of Part 75, Subpart C and incorporating the Section 3 clause set forth below in all solicitations and contracts in excess of \$100,000 as required at 24 CFR 75.27.

#### **Section 3 Clause**

The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to

## EXHIBIT D

low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

The parties to this contract agree to comply with HUD's regulations in 24 CFR. Part 75, which implement Section 3. As evidenced by their execution of this contract, the parties to this contract certify that they are under no contractual or other impediment that would prevent them from complying with the Part 75 regulations.

The contractor agrees to send to each labor organization or representative of workers with which the contractor has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the contractor's commitments under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and subrecipients for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

The contractor agrees to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR Part 75 and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR Part 75. The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR Part 75.

The contractor acknowledges that subrecipients, contractors, and subcontractors are required to meet the employment, training, and contraction requirements of 24 CFR 75.19, regardless of whether Section 3 language is included in recipient or subrecipient agreements, program regulatory agreements, or contracts.

The contractor will certify that any vacant employment positions, including training positions, that are filled (1) after the contractor is selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR Part 75 require employment opportunities to be directed, were not filled to circumvent the contractor's obligations under 24 CFR Part 75.

Noncompliance with HUD's regulations in 24 CFR Part 75 may result in sanctions, termination of this contract for default, and debarment or suspension from future HUD assisted contracts.

## EXHIBIT D

The contractor agrees to submit, and shall require its subcontractors to submit to them, annual reports detailing the total number of labor hours worked on the Section 3 Project, the total number of labor hours worked by Section 3 Workers, and the total number of hours worked by Targeted Section 3 Workers, and any affirmative efforts made during the quarter to direct hiring efforts to low- and very low-income persons, particularly persons who are Section 3 workers and Targeted Section 3 workers.

As of September 29, 2020, the minimum Section 3 benchmark is twenty-five (25) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Section 3 workers; and five (5) percent or more of the total number of labor hours worked by all workers on a Section 3 project are Targeted Section 3 workers.
- D. Documenting actions taken to comply with the foregoing requirements, the results of those actions taken and impediments, if any.

The Subrecipient agrees that any construction or rehabilitation of residential structures with assistance provided under this Agreement shall be subject to HUD Lead-Based Paint Regulations at 24 CFR 570.608, and 24 CFR Part 35, Subpart B. Such regulations pertain to all CDBG-assisted housing and require that all owners, prospective owners, and tenants of properties constructed prior to 1978 be properly notified that such properties may include lead-based paint. Such notification shall point out the hazards of lead-based paint and explain the symptoms, treatment and precautions that should be taken when dealing with lead-based paint poisoning and the advisability and availability of blood lead level screening for children under seven. The notice should also point out that if lead-based paint is found on the property, abatement measures may be required.

Subrecipient shall not receive authority to incur activity costs until they have successfully documented compliance with the applicable NEPA requirements, including public noticing and publishing.

The subrecipient understands and agrees that this Agreement does not constitute a commitment of funds or site approval, and the commitment of funds or approval may occur only upon satisfactory completion of environmental review and receipt by the Department of an approval of the request for release of funds and certification from HUD or the Department under 24 CFR Part 58. The provision of any funds to the project is expressly conditioned on the Department's determination to proceed with, modify or cancel the project based on the results of the environmental review.

### 15. Procurement

Approved Date: 7/16/2021  
Prep Date: 5/25/2022

## EXHIBIT D

The Contractor shall procure items designated in the EPA guidelines that contain the highest percentage of recovered materials practicable unless the Contractor determines that such items: (1) are not reasonably available in a reasonable period of time; (2) fail to meet reasonable performance standards, which shall be determined on the basis of the guidelines of the National Institute of Standards and Technology, if applicable to the item; or (3) are only available at an unreasonable price.

This clause shall apply to items purchased under this Agreement where: (1) the Contractor purchases in excess of \$10,000 of the item under this contract; or (2) during the preceding Federal fiscal year, the Contractor: (i) purchased any amount of the items for use under a contract that was funded with Federal appropriations and was with a Federal agency or a State agency or agency of a political subdivision of a State; and (ii) purchased a total of in excess of \$10,000 of the item both under and outside that contract.

California Green Buildings Standards Code (CALGreen) (Title 24, Part 11 of the California Code of Regulations)

## EXHIBIT D

All new construction of residential buildings or reconstruction of substantially damaged buildings must incorporate California Green Buildings Standards Code (CALGreen).

### Sustainability Requirements

All rehabilitation, reconstruction, and new construction must be designed to incorporate principles of sustainability, including water and energy efficiency, resilience, and mitigating the impact of future disasters. Wherever feasible, the Subrecipient, Subrecipient's and Contractors must follow best practices, such as those provided by the U.S. Department of Energy.

### National Floodplain Elevation Standards

Subrecipients and Contractors must comply with the national floodplain elevation standards for new construction, repair of substantially damaged structures, or substantial improvements to residential structures in flood hazard areas. All structures designed for residential use within a 100-year (or one percent annual chance) floodplain will be elevated with the lowest floor at least two feet above the base flood elevation level and comply with the requirements of 83 FR 5850 and 83 FR 5861.

### Wildland-Urban Interface Building Codes (WUI Codes)

All Approved Projects under this program that are located in a CAL FIRE high fire zone must comply with applicable WUI codes, found in Title 24, Chapter 7a of the California Building Code, which offer specific material, design and construction standards to maximize ignition- resistance.

## 18. Federal Labor Standards Provisions

The Subrecipient and the Developer shall at all times comply, and cause all Project contractors to comply, with applicable federal labor standards, including without limitation, the following:

- A. Davis-Bacon Act (40 U.S.C. §§ 3141-3148), which requires that workers receive no less than the prevailing wages being paid for similar work in their locality. Prevailing wages are computed by the Federal Department of Labor and are issued in the form of federal wage decisions for each classification of work. The law applies to most construction, alteration, or repair contracts over \$2,000.
- B. "Anti-Kickback Act of 1986" (41 U.S.C. §§ 51-58), which prohibits attempted as well as completed "kickbacks," which include any money, fees, commission, credit, gift, gratuity, thing of value, or compensation of any kind. The act also provides that the inclusion of kickback amounts in contract prices is prohibited

## EXHIBIT D

conduct in itself. This act requires that the purpose of the kickback was for improperly obtaining or rewarding favorable treatment. It is intended to embrace the full range of government contracting.

- C. Contract Work Hours and Safety Standards Act - CWHSSA (40 U.S.C. § 3702), which requires that workers receive "overtime" compensation at a rate of one and one-half (1-1/2) times their regular hourly wage after they have worked forty (40) hours in one week.
- D. Title 29, Code of Federal Regulations CFR, Subtitle A, Parts 1, 3 and 5, which are the regulations and procedures issued by the Secretary of Labor for the administration and enforcement of the Davis-Bacon Act, as amended.

The Subrecipient shall maintain documentation that demonstrates compliance with hour and wage requirements of this part. Such documentation shall be made available to the Department for review upon request. Subrecipient shall be responsible for monitoring Developer, contractors, and subcontractors, as applicable, for compliance with these provisions.

### 19. State Prevailing Wages

- A. The Subrecipient shall ensure that the requirements of California Labor Code (LC), Chapter 1, commencing with Section 1720, Part 7 [LC Section 1720-1743] pertaining to the payment of prevailing wages and administered by the California Department of Industrial Relations are met.
- B. All construction work shall be done through the use of a written contract with a properly licensed building contractor incorporating these requirements (the "Construction Contract"). Where the Construction Contract will be between the Subrecipient and a licensed building contractor, the Subrecipient shall serve as the "awarding body" as that term is defined in the LC. Where the Subrecipient will provide funds to a third party that will enter into the Construction Contract with a licensed building contractor, the third party shall serve as the "awarding body." Prior to any disbursement of funds, including but not limited to release of any final retention payment, the Department may require a certification from the awarding body that prevailing wages have been or will be paid.
- C. The applicable wage rate determination on construction work will be the more restrictive of the rate prescribed in LC Section 1770-1784 or the Davis-Bacon Wage Determination.

### 20. Agreements with Contractors

## Mendocino County – Fire-Hazard Abatement Ordinance Implementation Planning and Capacity Building

### Detailed Activity Description

Develop a Planning and Capacity Building project to enable the County to implement a new ordinance concerning the abatement of hazardous vegetation and combustible material to reduce fire hazards. The project will research, prepare plans, and identify future actions through gathering data on the need for abatement as well as develop a system, or plan, of addressing the problem through community training, education, and facilitated action.

The Planning and Capacity Building project would provide for setting in place basic software and protocols for trained members of the public to log and assess potential issues, and to generate educational warning notices to landowners who need to reduce fire hazards on their properties. The project will result in a plan that evaluates steps required to enforce the hazard-abatement ordinance and proposes procedures for reporting and implementing abatement activities.

The project was developed to meet the requirements of a new ordinance, County Code Chapter 8/77, which provides for the abatement of hazardous vegetation and combustible material to reduce fire hazards. The project's plan and capacity building activities will allow the County to meet the risk reduction requirement of the ordinance. The data from the plan will help the County understand the scope of abatement problems and assess future staffing needs related to resolving problems. The software will increase the County's capacity to implement the new ordinance. Using the software, the County will be able to receive and analyze data related to fire hazards requiring abatement.

The project takes place in Mendocino County, including zip code 95470, a MID area. The project will benefit the entire county, including LMI populations. According to HUD data, Mendocino County is 45.87% LMI.

**What project type are you applying for?**

Planning

**Do you commit to having capacity to carry out program activities?**

Yes

**If yes, please describe the capacity and staffing in detail.**

This is a proposal to establish capacity for implementing enforcement of Mendocino County's new fire-hazard abatement ordinance.

\*Updated by NX (5/4/21)

Information received by HCD via email from ungx@mendocinocounty.org (4/12/21)

See more information in attachment titled "CBDG Abatement - Round 1 Draft 2"

Question:

The application indicates that this Project is to build capacity. Can you please confirm that you have enough capacity to implement this Project?

Answer:

Mendocino County does not currently have sufficient resources to implement or enforce our recently adopted Fire-Hazard Abatement Ordinance. The requested funds would provide capacity for the program to be implemented on a trial basis, so that we can develop supporting methods and processes and train a corps of volunteers who could support certain aspects of the program on an ongoing basis. It would also allow us to gain concrete data about the need for mitigation beyond what can be accomplished through education and outreach, and to document the costs and benefits of sustaining an ongoing enforcement program. Partnerships have already been developed with the Mendocino County Fire Safe Council (MCFSC) and Fire Aside consultants to proceed with this Project once funded.

Question:

How will this Project build capacity and lead into MIT-RIP round 2?

Answer:

This project will not lead into a MIT-RIP round 2 application. It is a complete project in itself. The entry in our original application stating that there would be a subsequent MIT-RIP application was in error.

**Project Title**

Mendocino County Fire-Hazard Abatement Ordinance Implementation Planning and Capacity Building

**Org Name**

County of Mendocino

**Provide a snapshot summary of the project.**

On February 9, 2012 the Mendocino County Board of Supervisors voted unanimously to adopt a new ordinance creating County Code Chapter 8.77 to provide for the abatement of hazardous vegetation and combustible material to reduce fire hazards. The new ordinance stems, in part, from years of complaints from rural residents concerned about neighboring properties that are endangering their community with neglected and overgrown flammable vegetation and invasive species, as well as accumulations of flammable rubbish and litter. Because most home ignition in a wildfire event is caused by drifting embers, which can travel up to a mile and still be an ignition danger, property owners who do not adequately reduce hazards on their properties increase risk for a wide area of the surrounding community.

Unfortunately, the County of Mendocino does not currently have available staff or funding to support this important new ordinance with an enforcement program. The current request is for funding to research, prepare plans, identify actions, and trial, on an outsourced basis, the eventual implementation of an efficient code-enforcement program to actualize the new ordinance. This funding would also allow Mendocino County to begin gathering data on the extent of the need for abatement and, equally importantly, to simultaneously develop and test a system of addressing the problem through community training, education and facilitated action.

The program would provide for setting in place basic software and protocols for trained members of the public to log and assess potential issues, and to generate educational warning notices to landowners who need to reduce fire hazards on their properties. The Mendocino County Fire Safe Council (MCFSC) would assess and trial steps required to enforce the new hazard-abatement ordinance, including accepting online reporting of fire hazards using a system co-developed with Fire Aside Inc; issuing notices to property owners to make them aware of hazards and maintenance steps required to mitigate them; and tracking follow-up actions including evaluations and inspections, setting the stage for possible future issuing of citations, penalties, and enforcement actions. This program can enable tremendous progress toward reduction of damage and suffering countywide, extrapolated indefinitely into the future. It will educate landowners about how to better protect their properties and neighbors from losses of life and property in a major wildfire event, enhance aesthetics and community pride, and most likely improve neighbor relations and general community resiliency at the same time.

Running an initial process relying on community-initiated input and informal requests for abatement will allow the County to develop data about the scope of abatement problems and assess future staffing needs before hiring full-time staff for resolving problems that the informal process cannot address.

Question:

Can you provide more detail and clarification on the Community Training/ Education referenced in the application and if it's included in this Project? If not, is this Project planning for those items?

Answer:

The current project is primarily a Community Training/Education effort that will also serve to build capacity and expertise for an eventual County enforcement program. The program includes two levels of Community Training/Education. First, we would provide training to members of the significant countywide network of Neighborhood Fire Safe Councils (NFSCs) and other interested community members in evaluating reported fire hazards that potentially violate state or county codes. These trained volunteers would then issue practice notices, to be evaluated by program staff and provide further training if needed to improve future evaluations.

Secondly, after approval by the program manager, educational notices would be issued to homeowners who need to abate hazards on their properties. Staff would be available to work with those homeowners to verify that they understand the hazards their property poses for themselves and their community, and follow up to determine whether the educational notice resulted in remedial action.

**Project Location Description**

This activity benefits Mendocino County

**Does the project fall into one of these zip codes/counties?**

95470 – Mendocino County

Public Services projects must select a National Objective. Planning projects do not require a National Objective. The Urgent Need Mitigation (UNM) national objective is for CDBG-MIT activities that aim to address risks that do not tie back to the disaster events of the 2017 CDBG-DR funding, or subsequent disasters. Projects using the UNM national objective must provide documentation that demonstrates a measurable and verifiable impact on reducing risks at the completion of the activity. Projects using the LMI national objective are those that have a benefit to Low to moderate income person, which is defined as persons having incomes not more than the “moderate-income” level (80% Area Median Family Income) set by the federal government for the HUD-assisted Housing Programs.

**Does the project benefit an LMI population or area?**

Yes

**Describe how the project benefits a LMI area (additional material and information may be required)**

This project benefits the entirety of Mendocino County, including all areas/populations designated as LMI. Overall, the County of Mendocino population is 45.87% LMI.

**Upload document of data supporting the LMI population to be benefitted and/or a map of the service area (Optional)**

Mendocino County Block Groups.pdf

**Does the project service area benefit the MID?**

Yes

**Describe how the project benefits a MID area (additional material and information may be required)**

Mendocino County includes MID areas within FEMA-designated disaster DR-4344, the Redwood Complex Fire that began on the night of October 8-9, 2017. Our MID area residents have become particularly sensitive to fire hazards in their neighborhoods, and are eager for support where risks are identified. The County Supervisor who represents the population within the designated disaster area was in fact the main proponent of the recently adopted ordinance. The current proposed project would allow the County to begin effectively addressing hazards in that area, which includes a high proportion of vulnerable populations, to prevent the 2017 severity of damage and distress from ever occurring again.

**What Census Tracts/Block Groups are served by this project?**

The project serves all Census Block Groups in Mendocino County. The block numbers can be found in the pdf Mendocino County Block Groups.

**Anticipated CDBG-MIT funding need (\$ amount)**

This is a planning and public service program grant whose deliverable is an abatement-reporting and education program, including an assessment of the need for formal county enforcement action and the creation of a plan for implementing that formal program. The budget labor estimates are in four primary sections: 1) an estimate of time that will be required for County or contract personnel to plan both the abatement reporting process and for the county to develop a formal enforcement process; 2) the cost of Fire Aside Inc software to automate the reporting and tracking of abatement requests and send notice to homeowners; 3) labor for MCFSC to provide overall local management of the project, and for a half-time MCFSC abatement officer; and 4) labor for County of Mendocino personnel to administer and report on the grant.

Budget details are provided in the attached file.

Question:

Can you please provide additional detail on the budget and information about the software budget line item?

Answer:

The software budget information is based on a quote from Fire Aside, a company that specializes in customer software to support fire-hazard mitigation projects. Fire Aside has developed software for conducting defensible-space home inspections for Marin County. The MCFSC has met with Fire Aside to discuss the specific needs of Mendocino County's project. Adapting this highly congruous software will enable the program to launch quickly and efficiently once funding is available. Fire Aside can supply their supporting detail on request.

**Describe prior experience and previous success in implementing planning and/or public services projects.**

This project will be similar to the County of Mendocino's Planning and Building Services' enforcement of the County Building Code. The scale and scope of the current project can be expected to be smaller than that process, which has been operating successfully for decades.

**Is the proposed project identified as a priority project in your hazard mitigation plan?**

Yes

**What community lifeline will this project protect? Health and Safety are prioritized in the Planning and Public Services program.**

Safety & Security

**How will this project reduce risk to community lifeline(s)?**

This proposal squarely addresses the Safety and Security lifeline; abatement of significant fire hazards is critical to reducing and potentially even eliminating safety and security risks to lives and property. However, abatement cannot happen without encouragement. Educating and spurring landowners toward mitigating the County's most grievous fire hazards will make the entire region better prepared for wildfire, potentially slowing or stopping its spread far beyond the effects of current efforts.

This project will ultimately make responders' jobs far easier during a major wildfire incident, and reduce damage and destruction to essential County infrastructure and key community resources in other Community Lifeline categories: emergency-shelter venues (Food, Water & Shelter), hospitals and clinics (Health & Medicine), cell towers and emergency-alert systems (Communications), and roads, bridges and transit features (Transportation).

**How will this project improve resilience for protected classes, underserved communities, and vulnerable populations?**

Many of the County's low-income residents live in areas of highest wildfire risk outside cities, among steep hills reached by one-lane dirt roads, limited telecommunications access, little neighborhood organization, and other critical vulnerabilities. Pushing

landowners to take responsibility for fire hazards on their properties will make residences safer for low-income renters who could otherwise become the victims of neglected maintenance. Low-income landowners can take advantage of assistance programs provided by the Mendocino County Fire Safe Council.

These efforts will make vulnerable community members' homes, as well as their neighbors' homes, more fire-safe countywide. Notices generated by this project will also provide education about improving fire safety, increasing awareness, preparedness and resiliency throughout the community and reducing the impact of future disasters.

Question:

Can you please provide additional detail on how this project will improve resilience for protected classes, underserved communities, and vulnerable populations?

Answer:

Mendocino County's population is highly vulnerable by many measures, with high proportions in protected classes and underserved communities. Our population is 45.87% LMI, and compared to California as a whole, it is significantly older (23.23% over 65 vs. 15.24%), and poorer (median household income \$54.4K, with 14.28% of households in poverty, compared to \$82.6K and 9.39% statewide). Our unemployment rate is 6.59% (vs. 5.76 statewide) and our population is less educated, with only 23.94% having attained a BA degree or higher compared to 33.9% statewide. (ref.

<http://www.healthymendocino.org/demographicdata?id=260> accessed 4/4/21). 16.7% of Mendocino's population is disabled, compared to 12.6% statewide. 34% of Mendocino's population is non-white or Hispanic, and 9.2% have limited English proficiency. Also, 59% of homes in Mendocino County are considered to be at high or very high risk from wildfire. (<https://www.listoscalifornia.org/wp-content/uploads/2020/11/MendocinoDD9.19.pdf>)

Mendocino's local economy is also struggling under the impact of numerous challenges, including changes in the cannabis industry, a freeway bypass, and recent wildfire disasters with no significant relief in sight. Making homes and neighborhoods better protected from wildfire damage will clearly increase resilience for disadvantaged communities during future events.

The proposed program aims at educating residents who are not adequately addressing wildfire hazards—and eventually abating those hazards. Vulnerable homes and properties make all nearby homes more vulnerable as well. A recent analysis conducted by the University of California Extension found that individual home loss from the 2018 Camp Fire in Paradise was directly linked to distance from the nearest burned home, i.e., more vulnerable houses mean more vulnerable neighborhoods. This program is directly targeted at reducing hazard levels at the County's most vulnerable properties.

As noted in our application, most of our population is in high or very high wildfire risk zones. Mendocino County is a mostly rugged mountainous area of 3,878 square miles—nearly 30% larger than Delaware and Rhode Island combined—with a population of 86,801 and a population density of only 22.4 people per square mile. It has no interstate highway, and the narrow, winding roads connecting coastal and inland communities are often washed out or blocked by landslides.

Most of Mendocino's population is in high or very high wildfire risk zones, as illustrated by recent wildfire events. During the 2017 Redwood Complex Fire alone, more than 8,500 people fled for their lives from hurricane-force firestorms that struck suddenly in the middle of the night, with hundreds fleeing on foot because roads were blocked by flaming trees. Nine people lost their lives, and more than 500 families were left homeless. On July 27, 2018, the Ranch and River fires started within hours of each other near the communities of Ukiah and Hopland respectively. Both fires grew rapidly, nearly merging. In order to more effectively manage the fires, officials combined them into the Mendocino Complex Fire. It spread through portions of Mendocino, Lake, Colusa, and Glenn Counties, and caused the evacuation of more than ten communities.

The Mendocino Complex Fire burned 459,123 acres, a record-breaking size at the time; the Ranch Fire alone reached 410,203 acres to become the largest modern California wildfire at the time. It destroyed 280 structures while damaging 37 others, causing at least \$267 million in damages. It also forced the closure of Highway Routes 20 and 175 in Mendocino County and Routes 20, 29 and 175 in Lake County. The impact to the transportation system included extensive damage to Highways 20 and 175 in both counties. The cost of removing hazardous trees, replacing metal beam guard rails, signage, fencing, and drainage systems, unclogging ditches and stabilizing denuded slopes, and other roadway impacts in both Mendocino and Lake Counties, totaled over

\$10,500,000.

The August (2020) Complex Fire, which burned 298,000 acres inside the Mendocino National Forest as well as considerable acreage in five other counties, is now the largest fire in modern California history, destroying 935 buildings and resulting in 1 firefighter death. The Oak Fire north of Willits last fall burned 1,100 acres and resulted in the evacuation of over 3,200 people and the destruction of 56 structures.

These data indicate that Mendocino County's population is underserved, vulnerable and at high risk. This project is essential to help remove mitigate hazards from high-risk properties in the middle of our communities, where they are most likely to put homes and lives at risk.

**Can this project be replicated in other communities?**

Yes

**If yes, provide a description.**

This Project can be replicated in two main areas. First, we will develop and document a process for allowing concerned residents to assist in an informal process to encourage the reduction of dangerous fuel build-up. Successful rollout of this trial system will provide an inexpensive option for other communities to replicate. Secondly, Mendocino County will be developing a plan to implement its new ordinance in cases that require formal enforcement. That process should be repeatable as well.

**Will you be able to quantitatively measure the impact the proposed project will have on current and future risk?**

Yes

**Explain how you will quantitatively measure the impact of the proposed project on current and future risk.**

We will track all instances of submitted complaints, responses, notices sent, citations issued, inspections triggered, and compliance steps taken. These data will ultimately measure how many properties have been successfully brought into compliance with basic fire-safety requirements.

**Upload quantitative data showing a project's anticipated impact on current and future risks.**

**Given a 3 year Period of Performance and Assuming Spring 2021 start date, what is your expected period of performance? (anticipated start date and completion date)**

Summer 2021 will be spent in planning and developing procedures for the new program, hiring the project lead and adapting and testing of the tracking software. We are requesting staffing for an 18-month development period beginning in fall 2021. Completion date is projected as June 30, 2023.

The County of Mendocino receives millions in State and Federal grant funding annually for a variety of projects, programs, and activities and therefore has significant experience administering grant-funded projects to ensure adequate oversight, compliance, and execution. CDBG-DR

MIT-RIP projects will be directed and overseen by the County Executive Office Disaster Recovery Department. The Disaster Recovery Director will be responsible for managing the project, with support from Administrative Analysts and Finance personnel. The County also maintains contracts for on-call Project Management support via third party consultants who may be called upon to support County staff depending on workload and other active projects. The County will provide documentation of the procurement process used to engage these consultants for approval from HCD prior to utilizing consultants on CDBG-DR projects.

In addition, the County of Mendocino is a non-entitlement jurisdiction for standard CDBG funding and is familiar with the record keeping and documentation requirements for that funding source. The County routinely conducts, either in-house or via consultants, environmental review of proposed projects to ensure compliance with all applicable environmental regulations, including the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA). All new procurement of consultants and contractors for CDBG-DR projects will be conducted in compliance with state, federal, and local procurement regulations.
