

# Chapter II—Review and Revision

This chapter responds to Section 65588 of the State Government Code. A thorough review facilitates a comprehensive update and ensures the element can be effectively implemented in the next planning period. By comparing the number of units added, rehabilitated, and conserved between 2006 and 2009, against the City’s Regional Housing Needs Allocation (RHNA) housing targets, the resulting differences provide insight into any possible revisions to the policies of the previous Housing Element Update.

## A. Effectiveness of the Element

1. **Regional Housing Needs Allocation Targets by Income Levels:** Table II-1, quantifies the new housing production targets under the “**CONSTRUCTION**” column. Respectively, the “**REHABILITATION**” targets set the expected efforts needed to physically extend the useful life of the existing housing stock; and the “**CONSERVATION**” targets set the number of units with contractual requirements for providing housing affordability, which needed to be kept or replaced.

The 2006 Housing Element quantified its progress toward achieving the target numbers for New Construction through 2005. Santa Maria’s initial target allocation of 4,837 new dwelling units was set by the Santa Barbara County Association of Governments (SBCAG) in the 2001-2007 Regional Housing Needs Allocation Plan. Of the 4,837 target allocation in the previous Housing Element, 2,521 units were built, which means that 2,316 were targeted but not yet constructed. Similar to the new housing construction, the City set quantified target numbers for rehabilitation (153 dwelling units targeted, but not completed) and conservation (112 dwelling units targeted, but not completed).

After quantifying the units (by income) constructed, rehabilitated, and conserved in the planning period, the remaining allocations represent the unmet housing needs identified in the previous Housing Element. Table II-1 shows the City’s targets (by income), which established housing targets quantified by the Housing Element Update (2006).

To implement the new construction, rehabilitation and conservation goals of the 2006 Housing Element, the following programs were identified for implementation:

- Economic Development Program
- Annexation Program
- Mixed-Use Development / Adaptive Re-use
- Density Bonus
- Land Banking
- Housing Incentives Program
- Code Compliance Program Expansion
- Prioritization of Services
- Permit Processing
- Accommodations for Persons with Special Needs
- Facilitation of Projects for Homeless Individuals
- Neighborhood Conservation Program
- Code Compliance Program
- Single Room Occupancy
- Project-Based Tenant Assistance Programs
- Tenant-Based Tenant Assistance Payments Programs
- Supportive Housing For Homeless Persons
- Fair Housing Program
- Energy Compliance and Conservation

## **B. Progress in Implementation**

1. **Background:** For each program listed above, the analysis compare differences between what was projected or planned in the previous Housing Element and what was achieved, during that element's planning period.
  - a. **New Construction:** Programs used to implement the **CONSTRUCTION** targets of the 2006 Housing Element were:
    - Annexation Program
    - Mixed-Use Development / Adaptive Re-use
    - Density Bonuses
    - Housing Incentives Program
    - Prioritization of Services
    - Permit Processing

- Facilitation of Projects for Homeless Individuals
- Project-Based Tenant Assistance
- Energy Compliance and Conservation

In the review of the 2006 Housing Element, the remaining production numbers were counted for period from 2006 through June 2009. By income groups, Table II-2 identifies the actual new construction for the period covered by the 2006 Housing Element. A total of 24 units were constructed in the Very Low (10 units) and Low (14 units) income groups.

**Very Low and Low Income Households:** All 24 of the units were constructed by the Housing Authority for the Ted Zenich Gardens project, which was supported under the Housing Incentives Program. Table II-2 shows 10 units that are affordable to qualified “Very Low” income households and 14 units that are affordable to qualified “Low” income households.

The City’s efforts to facilitate Projects for Homeless Individuals (Program 11) were not always successful in production of new housing. During the first round of applications for 2008 California Tax Credit Allocation Committee (CTCAC) 9% funding, the Rancho Hermosa application was not ranked high enough to qualify for a tax credit reservation; the tax credit financing process is extremely competitive. However, lack of success does not indicate a program failure. The Rancho Hermosa Project proposed to construct a transitional shelter for homeless men in 45, three-bedroom, residential units. In support of the project, the City Council adopted a TEFRA (Tax Equity and Fiscal Responsibility Act) Resolution and reserved City HOME funds for the project.

**Moderate Income Households:** The General Plan Annual Reports, for the years 2006, 2007, and 2008, categorically classified various types of “infill-housing” as being built for “moderate” income household units. Such units consist of rental houses converted into multi-family units, new multi-family housing, mixed-use apartments or caretaker employee housing, and houses added to property with existing residential uses. Table II-2 shows that 234 moderate income units were built during the period.

**Above Moderate Income Households:** The previously cited annual reports categorically classified all ownership housing construction (e.g., single-family residential, condominium, townhouse, etc.) as “above moderate” income units. The new construction targets for the “Above Moderate” income households were achieved in 2003—before the 2006 Housing Element was adopted. Accordingly, the discussion of “Above Moderate” income housing production requires no further elaboration.

The resulting remainder targets for (994) very low- and (601) low-income housing units (Table II-3) could still be achieved in the City of Santa Maria without rezoning sites for affordable housing. This conclusion is supported by the land-use amendments and zoning changes reported in the General Plan Annual Progress Reports filed with the State.

**b. Housing Rehabilitation:** Programs used to implement the **REHABILITATION** targets of the 2006 Housing Element were:

- Mixed-Use Development / Adaptive Re-use
- Housing Incentives Program
- Code Compliance Program Expansion
- Facilitation of Projects for Homeless Individuals
- Code Compliance Program
- Single Room Occupancy
- Energy Compliance and Conservation

Housing rehabilitation seeks to extend the useful life of the City existing housing stock. As with all permitted construction, the City enforces Building Energy Efficiency Standards (Title 24). Residential rehabilitation loans require energy and water conservation. Depending on the age and condition of a structure, the code compliance and housing rehabilitation programs of the City of Santa Maria effectively ensure that housing is improved for the residents. When an older unit remains viable, more opportunity is afforded to the low-income residents of the City.

With tax credit and HOME assistance through the Housing Incentives Program, the Central Plaza Apartments were rehabilitated by the Housing Authority of Santa Barbara County, which previously acquired the site under the land-banking program. In addition to the rehabilitation, the Housing Authority constructed a new community room and offices for onsite management. As targeted, the useful life of the 112 apartments has been extended and will be maintained by the Housing Authority.

The City supported the Vizcaya Apartments (CA-2007-864) application to the California Tax Credit Allocation Committee (CTCAC). The application sought 4% Federal Tax Credits to assist the private property acquisition and refurbishing all 236 apartments. According to Table B-5 of the 2007 CTCAC Annual Report, the Vizcaya Apartments received 4% Federal Tax Credits.

c. **Affordable Housing Conservation:** Programs used to implement the **CONSERVATION** targets of the 2006 Housing Element were:

- Land Banking
- Tenant-Based Rental Assistance
- Supportive Housing for Homeless Persons
- Fair Housing Program
- Energy Compliance and Conservation

The 112-unit Central Plaza Apartment project acquisition by the Housing Authority removes the Central Plaza Apartments from the at-risk category. Additionally, the Vizcaya Apartment Federal tax credit funding resets the affordability restrictions for the property at 55 years.

Rancho Hermosa proposed to construct a transitional shelter with 45, three-bedroom, residential units. The City Council adopted a TEFRA (Tax Equity and Fiscal Responsibility Act) Resolution and reserved City HOME funds for the project.

The Annual Action Plan, reports that Fair Housing Program contractors receive CDBG funding each year. The Consolidated Annual Performance and Evaluation Report (CAPER), which is filed with HUD annually, reports the levels of service received by the low-income clients of each agency that received block grant funding through the City.

2. **Implementation Review Summary:** Table II-4, which was formatted consistent with the State Housing and Community Development Department publication, “Building Blocks for Effective Housing Elements,” provides a summary of critical information pertaining to housing element implementation. This Table summarizes the Goals and Policies of the 2006 Housing Element. To the degree that such Programs are recommended to be continued into the present Housing Element, these Programs are reorganized and presented in Chapter VII.

The program assisted 4 households to become first-time homeowners in Santa Maria	Due to declining affordability and fewer assistance requests, the County suspended the program administration in FY 2007-08. At this time, the County does not provide down-payment assistance.	In order to participate with the County if their first-time buyer's program resumes, the City will <u>continue</u> the program.
<b>6: <u>Promote Rental to Section 8:</u></b> <b>Timing:</b> partnership with the Housing Authority (HASBarCo) <b>Responsibility:</b> Administrative Services/Special Projects	Objective is stated as a general need.	In FY 2006-09, the City assisted the Housing Authority's at-risk acquisition (112 du) project and new construction (24 du) project	The acquisition project removed 112 units listed as being at-risk of conversion to market rents; the 24-unit new construction project added affordable units to the rental housing stock of the City. ### C. Appropriateness of Goals, Objectives and Policies

This Section discusses changes to the City's Action Steps. The rationale for making each change is discussed below that change.

1. **Change to Action Step H-1A-1:** This Action Step, "*The Downtown Specific Plan seeks to revitalize ... approved after certification.*" was deleted.

Reason for the change: The former policy has been implemented with the adoption of the Downtown Specific Plan.

2. **Change to Action Step H-1A-2:** The sentence, "*The City's Density Bonus ordinance will be amended to comply with State Legislation SB1818 (Hollingsworth) in 2006.*" was deleted.

Reason for the change: The Action Step has been completed. The City Council adopted Ordinance 2006-17, which amended Chapter 12-48 (Density Bonus) of the Santa Maria Municipal Code, to comply with State Law.

3. **Change to Action Step H-1D-3:** The text was revised to delete references to the Ted Zenich Gardens project. The revised text follows, below.

*The City of Santa Maria and the County of Santa Barbara allocate HOME funds to the Housing Authority of the County of Santa Barbara or other qualified non-profit housing providers for construction of apartments that house low- and moderate-income families.*

Reason for the change: The Ted Zenich Gardens project used the HOME funds and the project was completed in 2008.

4. **Change to Action Step H-2A-4:** The text was revised to delete specific dollar amounts and references to non-profit agencies. The revised text follows, below.

*Rehabilitation: The City will continue to provide CDBG funds for the operation of a residential rehabilitation loan program for low-income homeowners. Repair and maintenance projects will include heating units, kitchen remodels, plumbing, roofing, window and door replacements, painting, and garage conversions. All loans are secured by a deed of trust recorded against the property. Proceeds from payments and payoffs will be recycled into future building and repair projects.*

Reason for the change: The references to non-profit agencies and specific dollar amounts were removed because these actions already occurred. The revised text maintains the Residential Rehabilitation Program, increases flexibility, and eliminates discussion that occurs in the Consolidated Plan.

5. **Change to Action Step H-3A-3:** This Action Step, *“The Housing Authority of Santa Barbara County completed acquisition of the Central Plaza Apartments project in 2005, and construction of a new on-site community building in 2006. Renovation of the housing units is currently underway.”* was deleted.

Reason for the change: The Action Step has been completed. The housing renovations were completed.

6. **Change to Action Step H-4A-4:** Under Fees and Exactions, a paragraph was modified as shown below. The revised paragraph was rewritten to convey the essence of the action step without including obsolete information.

*The City will continue to grant a Subdivision/Residential In-Lieu Park Fee credit of up to 100% of the fee for existing facilities that convert to senior projects, provided the projects have on-site recreational facilities that meet certain criteria. In limited cases, the City plans to continue its policy of deferring payment of a portion of the fees on projects affordable to lower income persons. The City also plans to continue to offer a reduced traffic impact fee of \$796 per single family dwelling unit to affordable and senior housing projects. ~~The traffic impact fee for all other single family residential units is \$3,981.~~ City fees for projects funded under the HOME Program will be waived where legally permitted by City ordinances, on a case-by-case basis.*

Reason for the change: The references to specific dollar amounts change over time because the City’s Growth Mitigation Fees are updated every two years. The revision eliminates potential misinformation in the document.

#### **D. Summary / Conclusions**

In December 2006, the City’s Housing Element was last updated, with approximately fifty Programs and/or Action Steps. Approximately three years later, only five Action Steps have been modified or deleted. The primary reason for these minor changes is to remove out of date information if these Action Steps were completed. The analysis presented in this Chapter reinforces the overall validity and currency of the policies of the previous Housing Element, which are now carried forward into the present Housing Element Update.
