

## **APPENDIX M**

### **COST CATEGORY TABLES FOR CDBG ELIGIBLE ACTIVITIES**

The documents provided in this Appendix provide general guidance on different eligible costs for different eligible CDBG activities. Jurisdictions can use these charts to plan for payment of project or program costs under proposed NOFA application or as part of implementing eligible CDBG activities. The costs in the charts are general in nature and any specific activity costs that are questionable, should be discussed with Department staff. The NOFA also provides lists of eligible and ineligible costs.
