

**2011 ESG Application Errata Sheet #1**  
**May 8, 2012**

**Page 29, the Emergency Shelter chart has been revised.**

The original chart was missing a column for "projections" for Questions A, 5-16. This revision is necessary to provide the applicant a space for the required projections used for rating and ranking of the ESG Applications. Please use the revised ESG application on the website.

Except for the chart on page 29, the 2011 ESG Application shall remain unchanged.
