Purpose

RHNA

- Planning requirement to accommodate projected housing need via general plan housing element
- Key in implementing state housing goals, a “matter of statewide interest”

SCS

- Planning strategy to meet, if feasible, the GHG emissions reduction target via a forecasted development pattern for the region
- Does not supersede the land use authority of cities and counties within the region – GC 65080(b)(2)(K)
- Must consider state housing goals - GC 65080(b)(2)(B)
## Three Stages of RHNA Process

<table>
<thead>
<tr>
<th>RHNA Determination</th>
<th>RHNA Plan</th>
<th>RHNA Allocation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Issued by HCD</td>
<td>Issued by COG</td>
<td>Issued by COG</td>
</tr>
<tr>
<td>For a county or multi-county region</td>
<td>By jurisdiction</td>
<td>Individual jurisdiction’s allocation</td>
</tr>
<tr>
<td>By 4 income categories</td>
<td>By 4 income categories</td>
<td>By 4 income categories</td>
</tr>
<tr>
<td>Issued by HCD as result of HCD-COG consultation</td>
<td>Subject to HCD Review and Approval</td>
<td>To be accommodated in the housing element</td>
</tr>
</tbody>
</table>
SB 375: RHNA - SCS Relationship

Intent

“…housing planning be coordinated and integrated with the [RTP].” (GC 65584.04(i)(1))

RHNA-Plan

- Must be consistent with the SCS’ development pattern.  
  (GC 65584.04)

SCS

- Must accommodate the RHNA-Determination.  
  (GC 65080(b)(2)(B))
SB 375 shall not preclude jurisdictions to meet their existing or pending RHNA obligations.[1].

[1] 2010 Regional Transportation Plan Guidelines, California Transportation Commission, April 2010, pg. 129
Planning Horizons and Frequency

**RHNA-Plan**
- Projects 8+ years, subset of the RTP horizon
- Updated at least every 8 years (relative to RTP update)

**SCS**
- Forecasts at least 20 years
- Updated at least every 4 years
Coverage - Boundaries

RHNA-Plan

- Distributes individual allocation to each jurisdiction
- Authority limited to jurisdictional boundaries, does not designate location of housing within jurisdiction

SCS

- Regional focus
- Identifies the general location of uses, residential densities, and building intensities within the region
Projection vs. Forecast

RHNA-Determination- Projection

- Demographic-based projection of regional housing need to zone land use capacity to accommodate growth
- Not a production requirement, statute recognizes production may be lower than RHNA

SCS- Forecast

- Identifies areas to house all economic segments of the population
- Identifies areas sufficient to house the regional housing need determination
- Sets forth development pattern integrated with transportation measures to achieve GHG target, if feasible
Unconstrained vs. Constrained

**RHNA Determination**
- Independent of constraints from existing general plans, zoning and growth control measures
- Demographic-based assessment

**RTP-SCS**
- The transportation network must be fiscally constrained, based on revenues reasonably expected to be available
- RTP must be internally consistent
- Assumptions to consider most recent planning assumptions considering local general plans, zoning and other factors (GC65080(b)(2)(B)).
- Relationship of land use assumptions & transportation network are to be reasonable
Income-related Components

**RHNA Plan**
- Income distribution requirement
- Mandated adjustment for overconcentration
- Required to “increase the housing supply and the mix of housing types, tenure, affordability in all cities and counties within the region in an equitable manner” (GC65584(d))

**SCS**
- Identify areas sufficient to house all economic segments of the population, over the RTP planning period

**Other relevant statutes**
- Fair housing requirements of federal & state law
- Environmental justice requirements re: disparate impact
CEQA Requirements

**RHNA-Plan**
- Statutorily exempt from CEQA

**RTP/SCS**
- Subject to CEQA
- Additional CEQA options for Transit Priority Projects specific to SB 375
Applicability and Accountability

**RHNA**
- State, COGs & local governments required by State law to implement
- Local governments required to report RHNA progress

**SCS**
- MPOs required by federal & state law to update RTPs
- Subject to federal conformity review in non-attainment areas
- Local government participation is discretionary
Review Authority

RHNA
- Governed by State law relative to projections by DOF and determination of HCD/COG
- Determination based on consultation HCD-COG-DOF
- RHNA Plan subject to acceptance by HCD

RTP-SCS
- Subject to federal air quality conformity regulations
- Reasonableness determined through inter-agency consultation; federal conformity review of RTP
- Review of SCS re: GHG target by CARB
