CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

INTRODUCTION

Purpose of a General Plan

A General Plan is intended to provide a future vision for, and to guide the growth and development of a city. A General Plan is a comprehensive document that provides goals, policies, objectives, and actions for developing and preserving our community. General Plans typically contain goals, objectives, policies, and programs all intended to support the City's desire to develop in a particular manner and to attain the vision of the plan. A General Plan is intended to be a statement of how citizens view their community, how they want it to be in the future, and how they intend to deal with the planning and development issues facing the community.

The General Plan identifies policies and programs that address the development and redevelopment of the City, preservation of parks and open space, provision of housing to meet future needs, and improvement of the circulation system. The programs and policies are aimed towards addressing the changing needs of the city and to serve as a map for the future that will guide the development and growth in the City.

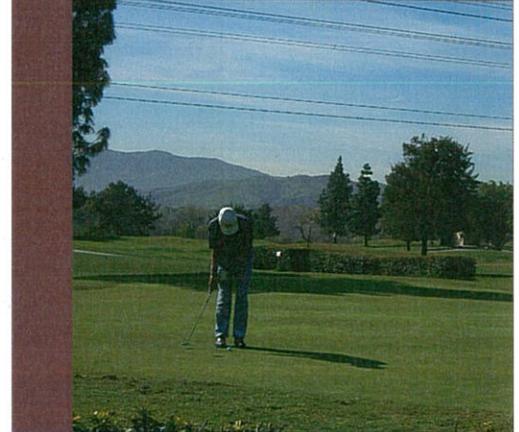

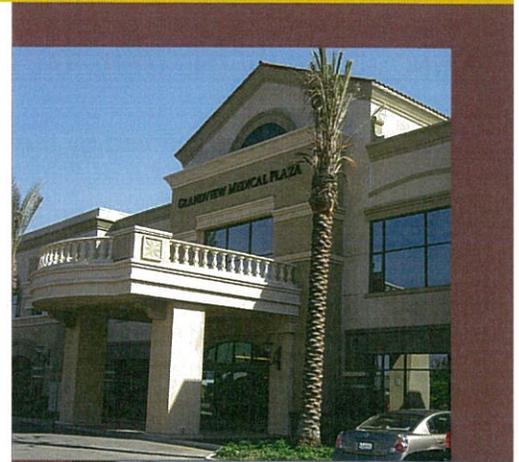

State Law

Section 65300 et seq. of the California Government Code requires that each planning jurisdiction (i.e. city or county) shall prepare, and the legislative body shall adopt, a comprehensive, long-term, general plan for the physical development of the city. Section 65302 requires that each general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards and plan proposals.

Legal Framework and Content

Government Code Section 65400 mandates that certain cities and all 58 counties submit an annual report on the status of the General Plan and progress in its implementation to their legislative bodies, the Governor's Office of Planning and Research (OPR) and the State Department of Housing and Community Development (HCD).

The Annual Progress Report (APR) provides local legislative bodies with information regarding the implementation of the General Plan during the 12-month calendar year. The APR explains how land use decisions relate to adopted goals, policies, and implementation measures of the General Plan. The General Plan Implementation Program is attached as Exhibit A, and the Housing Element Annual Report is attached as Exhibit B.

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

AMENDMENTS TO THE GENERAL PLAN IN 2015

One application was approved by the City Council in 2015. This is further described below:

File No. PL13-0745- A General Plan Amendment to change the land use designation for 12.75 acres of land from GC (General Commercial) to RD 12 (Residential, 12 units/acre), located on the west side of Central Avenue, north of Francis Avenue. approximately 600 feet north of Francis Avenue. The application was approved by the voters on March 24, 2015.

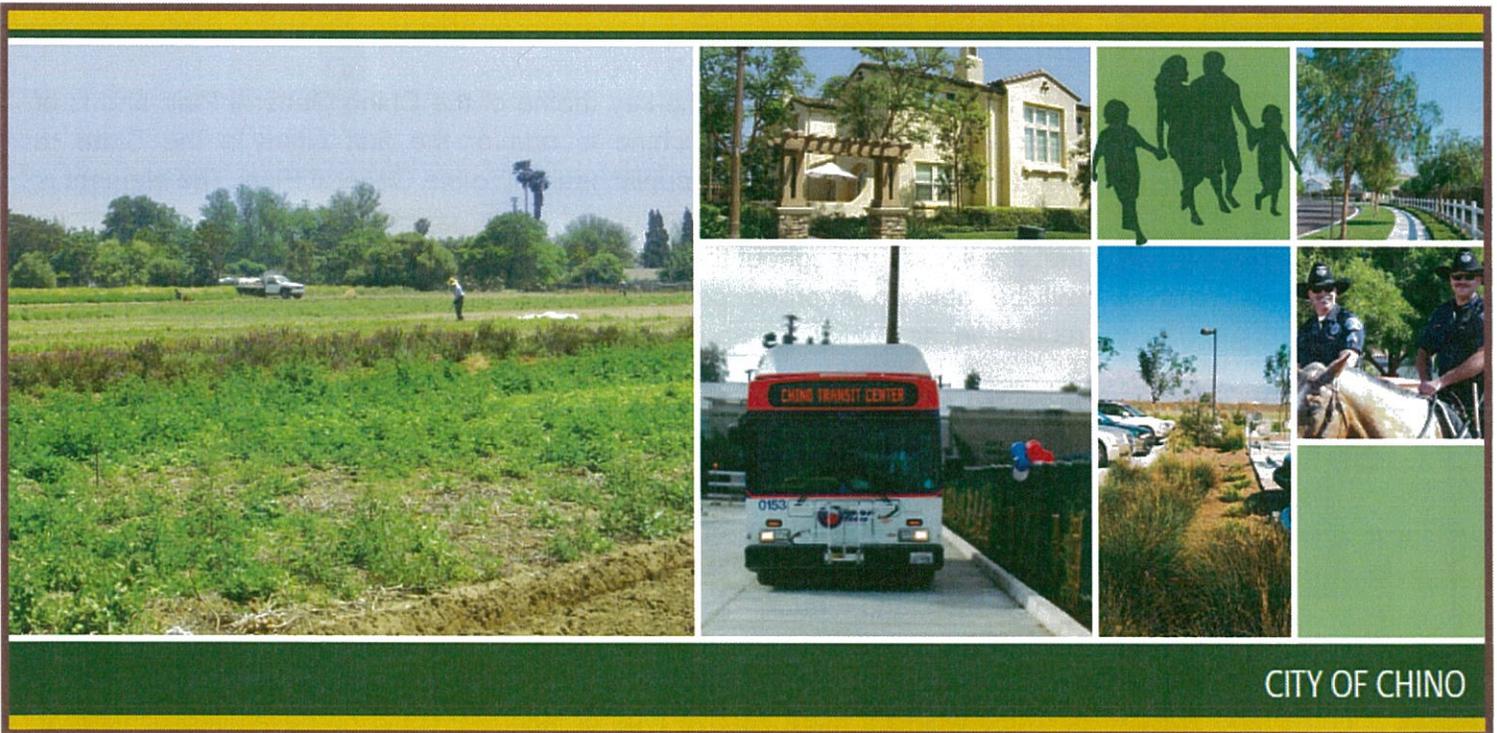

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

2010 COMPREHENSIVE GENERAL PLAN UPDATE

The Envision Chino General Plan Update was adopted by the Chino City Council on July 6, 2010. The General Plan is based upon the vision created by the community. The vision for Chino was developed through the General Plan process, and the Vision Statement - *"The City of Chino will continue to be a vibrant, safe city, with a small-town feel, emphasizing healthy, active lifestyles"* is an integral part of each of the General Plan Elements. The General Plan Elements include six elements required by State Law - Land Use, Housing, Transportation, Open Space and Conservation, Safety, and Noise; and six optional elements – A Healthy City, Community Character, Economic Development, Parks and Recreation, Public Facilities and Services, and Air Quality.

With the adoption of the Envision Chino 2025 General Plan, the City was able to establish goals and policies that meet State mandates while retaining the City's "small town feel". The General Plan's ability to work within the confines of Housing Element and Climate Change laws, but also preserve Chino's sense of place, will serve current and future residents of the City well. Our participation with the Southern California Association of Governments' Compass Blueprint program, San Bernardino Associated Governments' Regional Greenhouse Gas Inventory and Reduction Plan, as well as the timely certification of our Housing Element by the State Department of Housing and Community Development, are examples of Chino working within a regional context while continuing to improve the quality of life for our citizens. The Envision Chino 2025 General Plan provides a roadmap that will allow the City to continue to make strides in all of these areas, now and into the future.

GENERAL PLAN IMPLEMENTATION PROGRAM

In 2010, following the adoption of the General Plan Update, an Implementation Program was established to ensure the overall direction provided in the General Plan for City growth and development is translated from general terms to specific actions. It is used as a monitoring tool to assess annual performance in achieving the targeted goals and actions. Over the past year, further progress has been made on the action items, which work toward achieving the various general plan goals. This progress is noted in the General Plan Implementation Program Table for 2015 which is attached as Exhibit A to this report.

The comprehensive list of adopted goals and policies of the General Plan are reviewed each year to determine the priorities of the action items in conjunction with the City's annual budget process and the development of departmental work programs. In addition, consideration is also given as to whether the goals or actions are related to state or federally-mandated provisions or are priorities of the City Council. The Implementation Program was created as a freestanding document that is directly linked and cross-referenced to the General Plan, and because it is separate from the General Plan, the City maintains flexibility to regularly update it without the necessity of amending the General Plan. This flexibility is important to the City as a means to address the changes that occur over time and that may affect the City's vision, the availability of funding and staffing for new programs, and the use of future tools and technology that may become available to implement the General Plan.

The specific goals and action items contained in the General Plan Implementation Program Table were derived based on the underlying purpose of each of the elements, as stated in the adopted General Plan:

Healthy City Element:

Planning for public health is the key theme of the Chino General Plan and is of particular significance since Chino is one of the first cities in the State to incorporate policies regarding public health into the General Plan. The element is a summary of the public health related goals, objectives, policies, and actions that are spread throughout the various elements of the Plan. In this way, the City will be able to improve public health in several different areas, such as recreation, air quality, transportation, development, and community design.

Land Use Element:

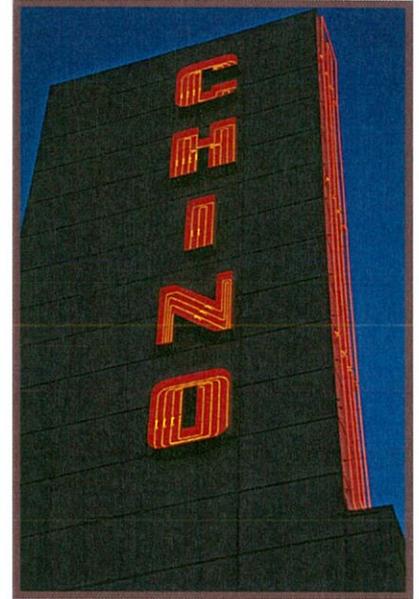

The purpose of the Land Use Element is to shape the future physical development of the City of Chino and to preserve, protect, and enhance Chino's current quality of life. The General Plan goals focus on the development, preservation, and rehabilitation of residential neighborhoods and commercial and industrial areas throughout the City. One unique component of the Land Use Element is the Future Growth Vision. The Future Growth Vision indicates places in Chino where a more intense type of land use could be developed consistent with the City's overall vision. There are three general locations in the City that have been identified as focused growth areas, where an alternative land use

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

designation could be implemented to provide for a more intense type of development that would support smart growth in the future principles – a range of housing opportunities, a mix of land uses, a variety of transportation options, a compact building design, preservation of open space, and attractive neighborhoods designed with a strong sense of place.

Community Character Element:

The goals and policies of the Community Character Element are intended to protect the physical and visual resources within the City. This element includes policy statements that will help the City continue to maintain its small town character, improve community design, and achieve improved public health. Chino began as an agricultural community, and today Chino maintains a strong sense of its agrarian roots even though it displays a diverse economy. Chino residents take pride in their involvement in youth sports, religious groups, schools, and other community organizations, and value the City's small town character, even while its population has grown and experienced economic expansion. These key elements of Chino's community character have built a strong foundation as the City has worked toward creating a healthy city. This Element specifies how new development should look, feel, and function, and provides guidance for ongoing improvements of established areas of the City.

Housing Element:

The Chino Housing Element contains eighteen implementing actions designed to provide and maintain housing that is affordable to all economic segments of the community and meets the needs of individuals and families with special needs. A detailed description of the Housing policies and programs are included in Exhibit "B" – The Annual Progress Report on the implementation of the City of Chino 2013-21 Housing Element.

Transportation Element:

The purpose of the Transportation Element is to demonstrate how people and goods will move through the City. The transportation system should support travel within Chino and connect to regional transportation options, reduce the impacts of transportation on the region's environment, and provide a variety of options so individuals can choose to travel by car, bicycle, foot, or public transportation. They support Chino's vision of remaining a safe, attractive community that provides opportunities for healthy, active lifestyles, with walkable neighborhoods, vibrant retail districts, and economically strong employment areas.

Economic Development:

The Economic Development Element reflects the community's desire to maintain and nurture Chino's diverse economy through the next 20 years. The element seeks to set a policy framework to ensure that Chino stays

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

competitive in the evolving Inland Empire economy, attracts successful and local-serving businesses, provides stable employment opportunities, and contributes to the fiscal vitality of the City. This element contains goals, objectives, policies, and actions to encourage the development of the kinds of business and commercial activities suitable for Chino's quality of life and economic viability, while preserving Chino's small-town character.

Air Quality Element:

Air quality has important impacts on public health and quality of life throughout the Southern California region. Air quality conditions in a city or region are shaped by a number of land use and transportation patterns. The Land Use and Transportation Elements include a variety of policies that complement those found in this Element seeking to reduce single-passenger vehicle trips, increase neighborhood services so residents can access services without driving, and increase the safety and convenience of walking, bicycling, and transit use. In turn, these efforts reflect the overall theme of this General Plan, to move Chino toward becoming a Healthy City.

Open Space and Conservation Element:

The purpose of the Open Space and Conservation Element is to plan for comprehensive and long-range preservation of open space and agriculture, and conservation of natural resources. The element seeks to maintain Chino's small town character by preserving agricultural and open space lands in the periphery of the City and maintaining Chino's connection to its agricultural past. The element also furthers the purpose of creating a healthy City by providing open space for recreational opportunities, encouraging the use of healthy building materials, and preserving agricultural land that will provide fresh local produce to the community.

Beginning in 2006, the State of California enacted several pieces of climate action legislation that created a framework for Greenhouse Gas (GHG) emission reductions and identified local governments as having a vital role in assisting the State to meet these mandates. The most significant of these is the Global Warming Solutions Act (Assembly Bill (AB) 32), which established a limit on GHG emissions to reduce state-wide emissions to 1990 levels by 2020. The Climate Action Plan (CAP), which was adopted by the City Council on November 19, 2013, was prepared in response to this legislation, and it represents the City's long-range plan to reduce its proportionate share of GHG emissions to help meet the statewide targets identified in AB 32. The following bullets highlight the City's progress in 2015 in implementing a few of the more significant City GHG reduction measures:

- **Energy Efficiency for Existing Buildings (Required Upgrades with Remodels)** – Fifty-seven projects requesting additions or alterations met the criteria of this measure and were required to provide energy efficiency upgrades. The total valuation of these projects was \$9,520,748, resulting in \$1,732,874 in energy upgrades. The various types of upgrades include replacing windows, HVAC equipment, lighting, and roofing,

and the addition of solar panels.

- **Solar Installations for New Housing** – 449 building permits were issued in 2015 for new residential housing units. With 112 solar permits issued for new housing in 2015, over 25% of the 2015 housing stock has been built with solar installations, exceeding the target of 10%. In addition, a number of housing projects approved in 2015 have included improvements to make the homes “solar ready”, where the developer installs the conduit and connection points during construction of the home, thus making it easier for homeowners to install solar in the future.
- **Solar Installation for Existing Housing** – 400 building permits for solar on existing housing units were issued in 2015. With the 2010 Census showing 21,797 housing units in Chino, solar systems have been installed on 4.5% of the existing housing units. Future efforts in 2016 may include providing information on available programs and rebates offered through utility companies, or other ways to create incentives to install solar.
- **Bicycle & Pedestrian Master Plan** – In 2014, Chino staff applied for and was awarded a grant to prepare a Bicycle & Pedestrian Master Plan. Staff worked with a consultant to prepare a Bicycle and Pedestrian Master Plan that identifies the specific improvements necessary to make bicycling a practical alternative in Chino. The Bicycle & Pedestrian Master Plan was adopted by our City Council on January 19, 2016.

Safety Element:

The Safety Element addresses the protection of the community from unreasonable risks from natural and human-made hazards. This Element provides information about these risks in Chino and establishes goals, objectives, policies, and actions to prepare and protect the community as much as possible from the effects of geologic hazards (includes earthquakes, ground failure, subsidence and slope instability), flooding and dam failure, wildland fires, hazardous materials and waste, airport operations, and disaster and terrorism preparedness.

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

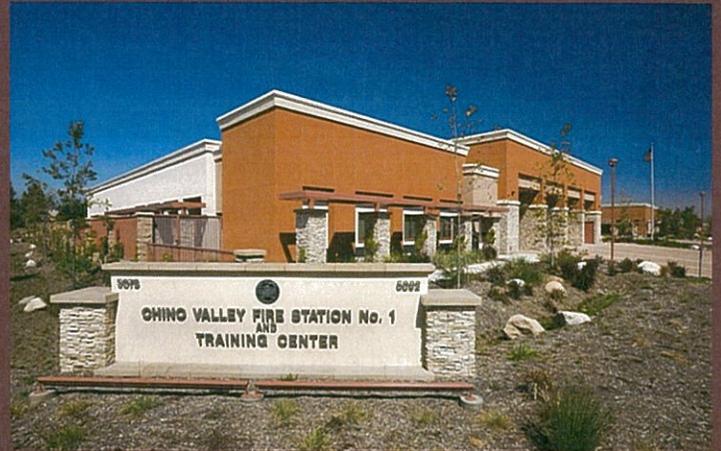

Noise Element:

The purpose of the Noise Element is to identify and evaluate noise generation in the City of Chino in order to minimize problems from intrusive sound and to ensure that development does not expose people to unacceptable noise levels. This Noise Element provides baseline information on the existing noise environment, including noise measurements taken throughout the City; identifies noise-sensitive uses in Chino; provides goals, objectives, policies, and actions for controlling noise in existing and future development; and provides an indicator for monitoring Chino's noise-control efforts.

Public Facilities and Services Element:

The Public Facilities and Services Element provides information and policy guidance to ensure public facilities and services to support existing and new development in the City of Chino. This Element addresses the changing public services and infrastructure needs of Chino and provides for the logical and timely extension of these services to keep pace with growth. Policies supporting quality schools and libraries, excellent police and fire services, and well-maintained infrastructure are essential to achieve the City's development objectives and to support the future envisioned by the residents of Chino.

Since 2004, the City constructed three state-of-the-art fire stations, and a fire training center. These facilities were built in conjunction with the Chino Valley Fire District's long-term Master Plan for Facilities Development, and are designed to meet the Fire District's facility needs through build-out of the City.

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

CITY ACCOMPLISHMENTS FOR 2015

Each year during the formulation of the City's budget, each department identifies a variety of goals that can be accomplished during the following year. These goals relate both directly and indirectly to the General Plan objectives. There were a number of accomplishments the City achieved this past year that address the goals adopted with the 2015/16 City budget. One significant factor that impacted the City's ability to implement some of the planned programs and achieve some of the identified goals was the dissolution of the Chino Redevelopment Agency. This loss of Redevelopment has been and will continue to be a significant challenge to stay true to the vision outlined in the City's General Plan.

Some of the important activities and achievements of 2015 include:

- Healthy Chino continues to provide various special events and programs for the community, such as Healthy Family day, Children's Discovery Workshops, and Hike the Valley. New programs were added in 2015 that include Mobile Fresh (grocery store on wheels), Walk & Roll events, and Chino Bike Days.
- All after school programs continue to promote healthy lifestyle options by incorporating the following activities and/or partnerships in the monthly curriculum: Chino Walks, Sports, Play and Active Recreation for Kids (SPARK) program, weekly nutritional snack lessons and activities, gardening, and daily free play outdoors to promote exercise.
- The Chino Climate Action Plan has been implemented, which will help Chino meet its required greenhouse gas reduction target.
- The Bicycle & Pedestrian Master Plan was adopted by our City Council on January 19, 2016.
- Completed the entitlement phase and began implementation of the development phase for Majestic Realty, Bridge Ivy Affordable Apartments, and Kaiser Medical Office Building.
- Facilitating the continued development within the Preserve and College Park Specific Plans through the entitlement and construction to date of approximately 2,400 residential units in the Preserve and 1,700 residential units in College Park.
- The Chino Police Department initiated community outreach programs such as "Coffee with a Cop" and "Breaking Barriers United" that are specifically tailored to reach members of the community who have limited contact with the police and to create a positive relationship with them.
- The Community Services Department continues to provide before school care at two school sites, and after school care at ten sites. These programs provide a structured, safe environment with enrichment opportunities, education support, healthy food, and fitness programs.
- 2011 and 2012 CalHome grants in the amount of \$440,000 and \$600,000 were processed for Home Improvement Loans and down payment assistance. The City received 19 applications, resulting in 14 households qualifying.

LOOKING FORWARD TO 2016

There are a number of large residential and industrial projects that are currently in the development review process, and which should be receiving entitlements this year, or will be in the construction process. The Preserve and College Park Specific Plan master planned communities have both experienced increased activity in 2015, and it is anticipated that this will continue into 2016. At the end of 2015, 2,446 units have been constructed in the Preserve and 1,777 units in College Park. The housing development activity in these areas continues to provide a wide variety of housing types for all segments of the population. Some of the more significant projects include:

- **Homecoming Community**

This project is for the development of a 799-multi family housing community located on 49.5 acres. The Homecoming Apartment Community is a proposed master-planned lifestyle community featuring villas, townhomes, and apartments for rent in The Preserve at Chino. It includes one, two, and three bedroom apartments, townhomes, and villas. The development will be a gated residential rental community with private streets, private open space/recreational facilities, trails, and a clubhouse recreation center. Phases 2 & 3 are currently under construction. Phase 4 is currently in the entitlement process for an additional 455 units located at the southeast corner of East Preserve Loop and Market Street.

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

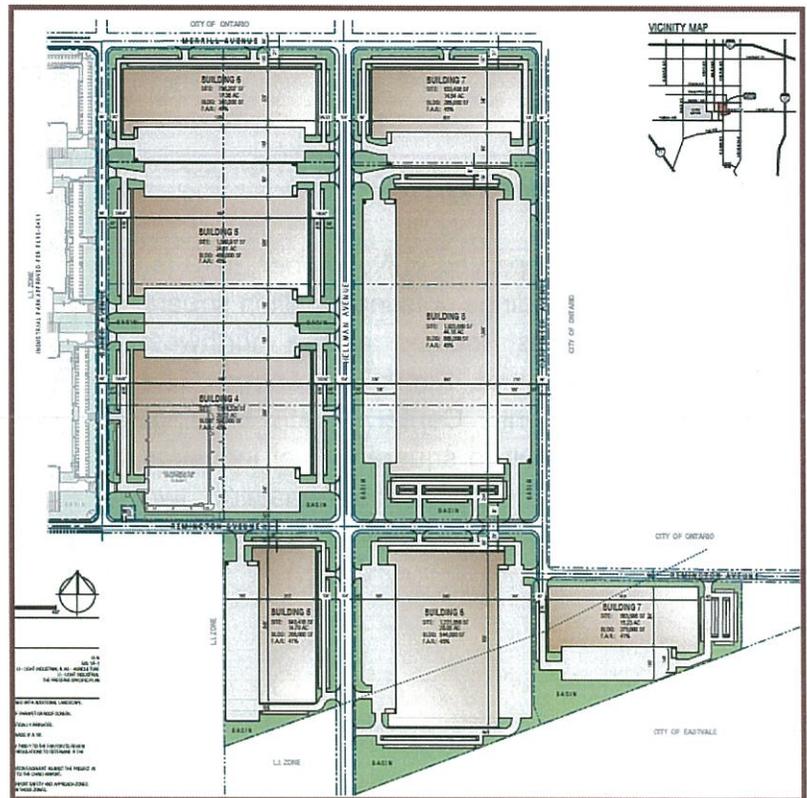

- **Ivy II at College Park**

This project is for the development of 200 family affordable apartment units by Bridge Housing on 9.23 acres of land at a density of 21.67 dwelling units per acre in the Mixed Use (MU) land use designation within the College Park Specific Plan, located at northeast corner of Notre Dame Avenue and Satterfield Way. The project is currently under construction and is anticipated to be completed by the end of the year.

- **Watson Industrial Park**

The applicant is requesting to change the General Plan and land use designations from Agriculture to Light Industrial for 189.1 acres of land to accommodate a warehouse distribution center consisting of 8 industrial buildings, totaling 3,872,000 square feet located on the south side of Merrill Avenue in between Baker and Carpenter Avenues.

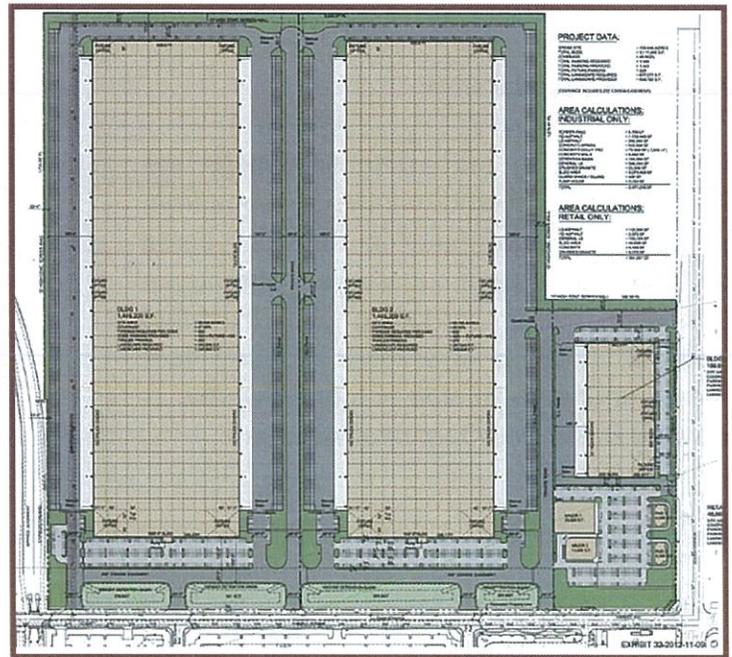

- **Stark in The Preserve**

The entitlement phase for this project was underway in 2014, and the project was approved in February 2015 for the development of 110 single family residential units and a 6 acre community park, located at the southwest corner of Kimball and Rincon Meadows Avenues. Construction is anticipated to begin in 2016.

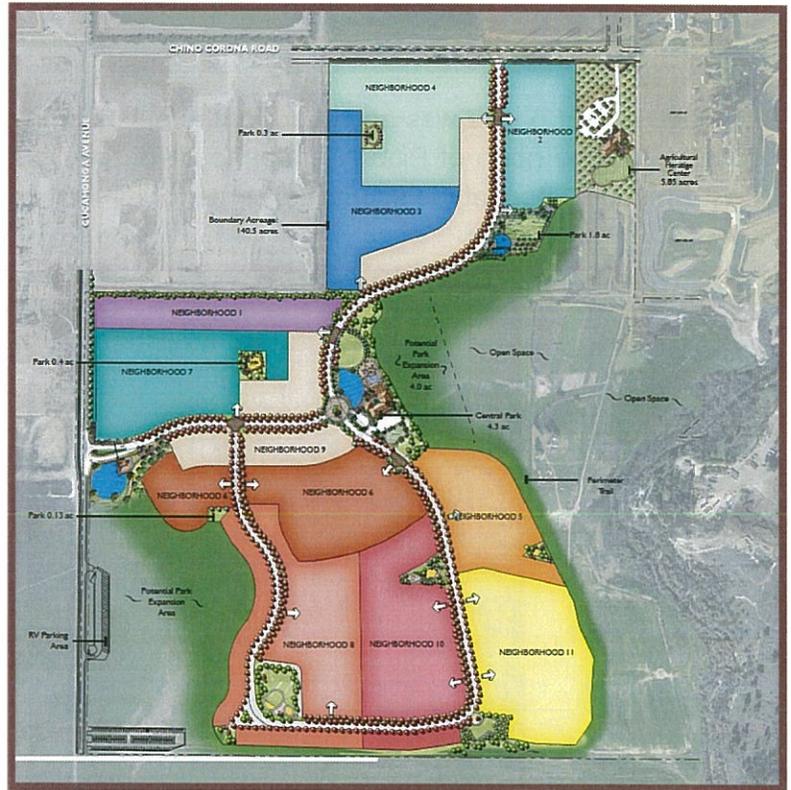

- **Majestic Chino Gateway**

The project was approved in November 2013 for three industrial buildings, totaling 3 million square feet on 155 acres, located at the northwest corner of Euclid and Kimball Avenues. The Walmart Fulfillment Center (1st building) consisting of 1.2 million square feet of industrial space was built in 2015. The remaining two buildings are anticipated to begin construction in 2016.

- **Rancho Miramonte at the Preserve**

This project is a master plan and subdivision on approximately 273 acres at the southern most portion of the Preserve Specific Plan at various densities within the Low Density Residential (LDR), Medium Density Residential (MDR), and High Density Residential (HDR) - for a total of up to 1,051 residential units with mixed use development within the Community Core (CC) land use designations of The Preserve Specific Plan. The General Plan Amendment, Specific Plan Amendment and Environmental Impact Report have been in the review process since 2012, and were approved in March 2016.

- **Harvest at the Preserve**

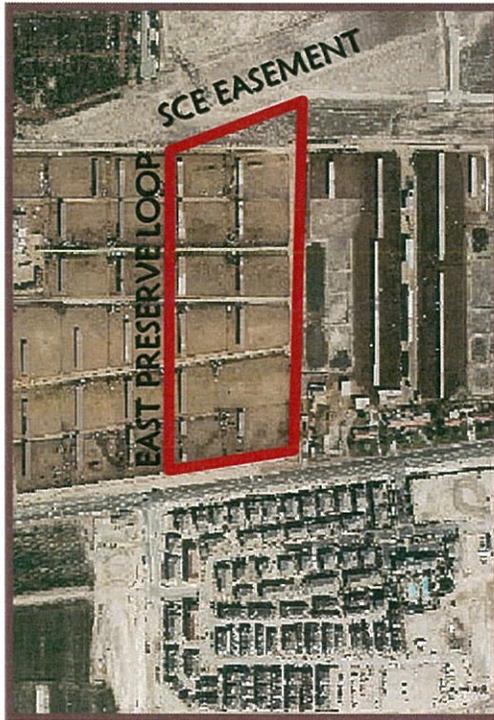

This project is a master plan community for a 600 unit residential development based on amenities for gardening/outdoor living, including a gated community. The project is utilizing a portion of the Southern California Edison easement to accommodate pedestrian trails and edible garden landscaping for the community to harvest and enjoy. Construction is expected to begin next year.

CITY OF CHINO GENERAL PLAN ANNUAL PROGRESS REPORT

- **Falloncrest**

The entitlement phase was approved for the subdivision of 205 single family residential lots on 20.25 acres of land, located north of Pine Avenue, south of the Southern California Edison Easement and east of the East Preserve Loop, at the southwest corner of Kimball and Rincon Meadows Avenues.

- **Richland Communities**

Richland Communities received approval for a Master Site Approval and subdivision in 2015 for a mix of residential and industrial development on 33.4 acres of land, located south of Kimball Avenue and north of Bickmore Avenue. Entitlements for the industrial portion is currently in for review.

In addition to these development projects, the City continues to closely coordinate with the Southern California Association of Governments (SCAG) on the Sustainable Communities Strategy (SCS) and with San Bernardino Associated Governments (SanBag) on the Regional Greenhouse Gas Inventory and Reduction Plan. These work efforts are further described below:

- **Regional Transportation Plan (RTP)**

Federal and state regulations require the Southern California Association of Governments (SCAG), as the Regional Transportation Planning Agency (RTPA) and Metropolitan Planning Organization (MPO), to develop a Regional Transportation Plan (RTP) every four years in order for our region's transportation projects to qualify for federal and state funding. The RTP is updated to reflect changes in trends, progress made on projects, and to adjust the growth forecast for population changes. The last RTP was adopted by SCAG's Regional Council in 2012, but work has already begun in preparation for the 2016 RTP. The City of Chino takes an active role in projecting growth and analyzing transportation impacts to assist SCAG in developing this plan.

- **Sustainable Communities Strategy (SCS)**

Senate Bill 375 (SB 375) was enacted to reduce greenhouse gas emissions from automobiles and light trucks through integrated transportation, land use, housing, and environmental planning. Under the law, SCAG was tasked with developing a Sustainable Communities Strategy (SCS), a newly required element of the 2012 RTP that provides a plan for meeting emissions reduction targets set forth by the California Air Resources Board (ARB). The City of Chino participated in this effort by providing growth projections.

- **San Bernardino County Greenhouse Gas (GHG) Inventory and Reduction Plan**

This project includes the development and adoption of The Greenhouse Gas (GHG) Reduction Plan and Environmental Impact Report (EIR) for the regional and local reduction of GHG's that provides a foundation to tier and streamline legally defensible CEQA analysis of climate change impacts of development projects in the City, in conformance with the mandates set forth in SB 375. This effort is being managed by the San Bernardino Associated Governments (SANBAG) and Chino is one of 21 partnership cities. In 2011, the City of Chino participated in various phases of the project including review and training of the Municipal

Government Greenhouse Gas Inventory and Reduction Planning Tool, review and comment on the proposed “candidate reduction measures” for greenhouse gas reduction, and review of the GHG Inventory and Forecast Report. In 2012, the City participated in the final phases of this project, which include review and confirmation of SCAG’s draft RTP socioeconomic data, review of the draft and final GHG Community Inventory and Forecast Report, and review of the cost analysis of the GHG Reduction Strategies. The review of the Draft EIR for the GHG Reduction Plan was completed at the end of 2013 and adoption of the plan occurred in March 2014.

- **Chino Climate Action Plan**

Chino Climate Action Plan was adopted by the City Council on November 19, 2013. It represents the City’s long-range plan to reduce its proportionate share of GHG emissions to help meet the statewide targets identified in AB 32. Refer to pages 7 and 8 for some highlights on how the City has proceeded with implementing the CAP.

- **San Bernardino County Land Use**

City staff will be working closely with San Bernardino County staff to ensure the land use plans of both agencies are consistent in the City’s sphere of influence.

- **Ontario Airport Land Use Compatibility Plan**

City staff has been coordinating with City of Ontario staff on the adoption of the Ontario Airport Land Use Compatibility Plan (ONT-ALUCP). The City of Chino will be adopting General Plan policies to implement the ONT-ALUCP for the areas within Chino that are located within the Ontario Airport Influence Area.

EXHIBIT A

2015 GENERAL PLAN IMPLEMENTATION PROGRAM TABLE

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
<p>Healthy Chino Element Goal HC-1 Foster Chino resident's health. HC-1.1 A1</p>	<p>Develop programs to foster collaboration between local health officials and City staff and elected officials.</p>	<p>The Healthy Chino Coalition program, in place since 2004, continues to meet quarterly with over 40 active Coalition members including local health officials, physicians, nurses, educators, business owners, and City staff. The City actively participates in the CVUSD Health Council meetings, IEHP Healthy Kids meetings, San Bernardino County's Healthy Communities meetings, and Public Health meetings. Healthy Chino continues to participate at the monthly Focus on Youth collaborative meetings. These meetings include members from various health organizations, City staff, local service providers, and faith-based organizations. These meetings foster new partnerships and create opportunities to expand new and existing programming. Healthy Chino staff attends the City of Chino quarterly Safety Committee Meetings.</p>
<p>HC-1.1 A2</p>	<p>Develop a list of best practices related to promoting healthy communities.</p>	<p>Ideas on best practices are gained through the on-going attendance by Healthy Chino staff at the Healthy Communities workshops, meetings, and conferences. Programs that are currently in place that promote healthy practices are the Hike the Valley Program, established in 2013, where participants are guided through local trails, hikes average 2-5 miles in length and range from easy to advance levels. The Healthy Chino Kids Program, initiated in 2009 is active at nine after school program sites, with over 800 students participating each week. The City will be relocating the Chino Community Garden to its permanent home in July 2016. The community will be able plant fruits/vegetables and learn gardening, nutrition, and sustainability through the garden's educational programs. New educational programs will include demonstrations gardens, cooking classes, a children's storytime, a hands-on learning and volunteer program for college students (i.e. Cal Poly Pomona). The community garden will continue to offer its popular garden workshops and Children's Discovery workshops as well. Bark Around Ayala Park continues to bring in over 200 participants and their dogs for a fun, active morning. Healthy Chino contributes to and promotes the Chino Valley Y 5K Reindeer Romp, Run for Russ 5K, and the Chino Youth Museum 5K DairyAire each year. The City, Chino Valley Y, and Chino Police Department partner on Healthy Family Day and hosted this fun, free annual community event on April 2, 2016 at Ayala Park. Over 750 participants were able to enjoy fitness demonstrations, kids' activities, inflatable obstacle course and activities, smoothie bike, bike obstacle course, food, health/nutrition/fitness vendors, water/environmental vendors, and two community bikes, 7-mile and 15-mile. Healthy Chino partnered with the Inland Empire Utilities Agency and Public Works Department to host two Earth Day events on April 20 and 21 at the Chino Creek Wetlands & Educational Park. Over 3,500 people attended the event over the two days. Healthy Chino staff worked in collaboration with Community Development Department to help provide input, promote and outreach to residents about the Master Bicycle and Pedestrian Plan.</p>

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
HC-1.2 A1	Develop a program to disseminate information about healthful eating habits.	There are a number of methods that are used in the Healthy Chino Program to distribute information about healthy eating habits. These include: Healthy Family Day, with over 400 participants and 30 vendors; Grilling Classes offered to the community to help promote healthy eating habits; and partnering with CVUSD in recognizing National Nutrition Month. Healthy Chino also disseminates monthly emails on health tips to over 500 community members. City employees, Health Council members, Focus on Youth members, and CVUSD employees. Staff continues to visit local businesses to provide materials to educate and promote health and wellness to their employees, as well as continues to promote healthy snack and breakfast options in all City after school and before school programs. The Healthy Chino Program has also begun to use Social Media to distribute Healthy Tips and program announcements.
HC-1.2 A2	Model best practices related to promoting healthy eating habits at government offices and government-organized events by serving only healthy snacks and refreshments.	The City hosts programs for employees to promote healthy eating habits including Healthy and Wellness Workshops, the Stairwell Art Program, and "Snack Attack" to promote healthy snack alternatives. The 10-week weight loss/fitness program, Ready, Set, Get Fit Challenge! was once again offered to the employees to help start off the new year healthy. Healthy Chino also encourages employees to offer healthy snacks and refreshments during meetings and trainings. Healthy Chino offers healthy snacks and water to participants at all of its programs including Children's Discovery Workshops, Hike the Valley, and bike events to name a few.
HC-1.2 A3	Promote government and school purchase of locally-produced and/or organic food.	Healthy Chino has supported the Chino Community Garden, and the school gardens at Anna Borba, Cortez, Dickson, Newman, and Walnut Elementary Schools to encourage the community and students to grow their own food and to promote eating healthy. Healthy Chino staff provide tools and resources to these gardens as well as offers programming support throughout the year.
HC-1.2 A4	Work with vendors at the farmer's market to develop programs under which vendors can accept food stamps and other public benefits.	Currently, the City-sponsored Farmer's Market that is held during the summer months includes vendors that accept the Supplemental Nutrition Program for Women and Infant Children (WIC) Vouchers and Senior Farmers Market Nutrition Vouchers. Healthy Chino is researching ways to support families through case management by providing vouchers for fruits and vegetables to clients as needed. Additional opportunities to expand these and other types of vendor programs will be considered in the departmental work programs prepared each year. The Farm Share program is a 6 week farmers market style program offered to residents and employees.
Land Use Element		
Goal LU-3 Revitalize older commercial and industrial areas in the center of Chino.		
LU-3.1 A1	Study the use of graduated-density zoning, which encourages parcel assembly by allowing higher densities for larger sites, or other policy-based mechanisms to encourage the development of projects on more than one parcel that are consistent with the Focused Growth Plan.	The concept of graduated-density zoning was studied during the General Plan Update. At that time, it was determined that it would not be incorporated into specific General Plan policies or Zoning Ordinance provisions, and would be evaluated again in future updates.
LU-3.1 A2	Work with the Southern California Association of Governments (SCAG) when it prepares its Sustainable Communities Strategy (SCS) to ensure that sites from the Focused Growth Plan are included in the SCS.	The City is currently working with SCAG on the preparation of the SCS. Sites from the Focused Growth Plan are being discussed with SCAG for inclusion of these sites into the SCS.
LU-3.1 A3	Consider revising the Focused Growth Plan if SCAG's ultimate SCS map is not consistent with it.	The City is currently working with SCAG on preparation of the SCS. The Focused Growth Plan land uses will be suggested. This action will be revisited upon completion of the SCS.

GENERAL PLAN IMPLEMENTATION PROGRAM

Action Number	Action	Status of Progress/Comments
LU-3.2 A1	Provide expedited review of projects on the four corners of Walnut and Central Avenues that meet both the land use regulations and the design guidance provided for these properties and for mixed-use properties in general.	Expedited review will be considered for any projects that are proposed in this area. There has not been any development activity at this intersection during this reporting period.
LU-3.3 A1	Work with landowners along Riverside Drive to consolidate parcels so they can create large enough spaces for new development of either mixed-use or multi-family residential buildings. On some portions of Riverside Drive where the parcels are very shallow due to dedications for the street right-of-way, this will need to include consolidation with parcels that do not currently front upon Riverside Drive. In this case, the landowners will need to enter into an agreement to share profits according to the original size of each parcel before right-of-way has been dedicated.	There has not been any development activity in this area during this reporting period. In the future, if interest in development of properties in this area is received, the City will explore opportunities to coordinate with other landowners along Riverside Drive to encourage consolidation of parcels.
LU-3.4 A1	Existing uses south of the Civic Center are permitted to continue, but are encouraged to upgrade their facilities to provide better pedestrian amenities on sidewalks and open areas.	The City will work with land owners to ensure pedestrian facilities are upgraded with any future development in this area. However, there has not been any development activity in this area during this reporting period.
LU-3.4 A2	Work with residential, commercial, and industrial landowners to consolidate parcels so they can create large enough spaces for development of live-work lofts on the block bounded by Central Avenue, F, 5th, and G streets.	In the future, if interest in development in this area is received, the City will explore opportunities to coordinate with other landowners to encourage consolidation of parcels.
<p>Goal LU-4 Provide a clear transition for properties within the Sphere of Influence (SOI).</p>		
LU-4.1 A1	Work with San Bernardino County to revise the County's General Plan to reflect the land use designations shown in the City's Land Use Map.	Upon adoption of the City's new General Plan, City staff transmitted updated land use information to the County. The County has indicated that they will be updating their General Plan to reflect the land use designations shown in the City's Land Use Map.
<p>Goal LU-5 Reduce Chino's greenhouse gas emissions.</p>		
LU-5.2 A1	Develop a program to provide incentives for projects that support smart growth goals and reduce greenhouse gases, such as mixed-use, infill, and transit-oriented development projects.	At this time, incentives are being offered for development consistent with the General Plan Focused Growth Plan, including expedited review and waiver of General Plan Amendment fees.
<p>Goal LU-8 Ensure convenient access to healthy foods for all residents.</p>		
LU-8.1 A2	Identify and prioritize neighborhoods underserved by healthy food sources for development of healthy food sources.	There are existing programs in place that serve low-income neighborhoods in the City. The Summer Lunch Program held in Monte Vista Park offered in July and August for children and youth 18 years or younger.
LU-8.1 A4	Identify appropriate locations for farmers markets and community-supported agriculture drop-off sites and prioritize such uses in these areas.	The City doesn't currently have a City-sponsored farmers market. No work has begun on identifying or prioritizing starting a farmers market or agriculture drop-off sites (CSA Farm Share). Previously, the City offered a farmers market at City Hall and then at the Preserve Community Center but was deemed unsustainable due to low sales. Healthy Chino staff experimented with a CSA farm share program in 2015 but was also canceled due to declined sales.
<p>Community Character Element</p>		
<p>Goal CC-2 Preserve and enhance areas that create community identity and support Chino's small town character.</p>		
CC-2.3 A1	Develop a list of key entryways to Chino and establish a program to provide entry features for each of them. Entryways shall incorporate landscaping, trees, and/or architectural elements to enhance a sense of arrival to the City.	There are currently enhanced entryway landscape and signage treatments along Central Avenue at the Pomona 60 Freeway and in the southerly part of the City. The identification of additional key locations for enhanced entryways will be considered for possible implementation in the departmental work programs prepared each year.
<p>Housing Element - Refer to Housing Element Annual Report</p>		

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
Transportation Element		
Goal TRA-1 A roadway system that meets the needs of Chino's residents and visitors, provides safe, convenient, and efficient travel in, around, and through the City, and preserves and/or enhances the City's distinctive qualities.		
TRA-1.2 A1	Conduct a signal timing study for all intersections with Level of Service (LOS) E and F. Coordinate and implement study recommendations with adjacent jurisdictions as well as California Department of Transportation (Caltrans), if applicable.	A comprehensive signal timing study has not been done; however, signal timing studies are done on an on-going basis for intersections that are congested, and modifications are made by the City as deemed appropriate and feasible. Coordination is done with adjacent jurisdictions and Caltrans if needed.
TRA-1.3 A1	Establish criteria for which developments will be allowed to construct private streets.	The Specific Plans for College Park and The Preserve master-planned communities identify where private streets can be utilized, and include design standards for private streets. As new development proposals are reviewed in these Specific Plan areas, the benefits and/or impacts of designating proposed streets as private are evaluated. When development proposals are reviewed for areas outside of these Specific Plan areas where infill development might occur, the street types will be reviewed on a case-by-case basis to determine the benefits and/or impacts of designating them as private.
TRA-1.3 A4	Identify possible funding sources for traffic calming treatments, including grants to investigate the feasibility of establishing a residential assessment district to allow residents to participate in funding construction of traffic calming treatments in their neighborhood.	Opportunities to apply for grant funding for traffic calming improvements or grants for the establishment of a residential assessment district are regularly monitored, and where appropriate, grant applications are applied for.
Goal TRA-3 Freight transportation that provides efficient service to businesses and industry while limiting impacts to residents and visitors.		
TRA-3.1 A1	Develop a truck loading policy for new development that ensures new truck-dependent businesses limit their impact on neighborhoods and business districts.	The Chino Zoning Ordinance contains existing provisions for industrial businesses that are located adjacent to non-industrial uses to require appropriate buffering techniques, such as increased setbacks, screening and dense landscaping to be provided to mitigate any negative effects of industrial operations such as truck loading. In addition, as industrial development applications are reviewed, the locations of loading areas are evaluated to mitigate any potential impacts to adjacent uses.
Goal TRA-6 Improve the convenience, intuitiveness, and safety of Chino's street network.		
TRA-6.2 A2	Study individual accident locations, especially "hot spots" with multiple accidents, and identify necessary upgrades to reduce the incidence of accidents.	Accident reports are regularly reviewed on an ongoing basis to develop a priority list of intersections that need improvements.
TRA-6.3 A1	Develop an Americans with Disabilities Act (ADA) Transition Plan which identifies locations and funding commitments to provide access to public rights-of-way, including curb cuts and other improvements targeted toward persons with disabilities.	The City does not have an existing ADA Transition Plan; however, on an annual basis, the City applies for Community Development Block Grant (CDBG) funding and Transportation Development Act (TDA) funding for sidewalk and ADA ramp improvements for locations throughout the City in need of sidewalk and ADA improvements.
Goal TRA-10 Foster bicycling as a convenient, healthy and environmentally-friendly travel choice in Chino.		
TRA-10.2 A1	Prepare a Bicycle Master Plan for the City of Chino that establishes where and how the City's bicycle network will be expanded, including standards to guide review of roadway enhancements or other changes to the roadway system. This plan should be consistent with requirements for allocation of State Bicycle Transportation Account funds and federal funding for bicycle improvements that cannot be allocated without an approved Bicycle Master Plan. The plan should also include criteria for funding prioritization of improvements.	In 2014, staff applied for and was awarded a grant to prepare a Bicycle & Pedestrian Master Plan. Staff worked with a consultant to prepare a Bicycle and Pedestrian Master Plan that identifies the specific improvements necessary to make bicycling a practical alternative in Chino. The Bicycle Pedestrian Master Plan was adopted by our City Council on January 19, 2016.
TRA-10.2 A2	Develop maps or signage indicating local and regional bicycle routes, including distances to key destinations, such as parks and schools.	City staff received a grant through SCAG to prepare a Bicycle & Pedestrian Master Plan. Work has begun this year for the Bicycle & Pedestrian Master Plan.

CITY OF CHINO

GENERAL PLAN IMPLEMENTATION PROGRAM

Action Number	Action	Status of Progress/Comments
TRA-10.2 A3	Promote bicycle-related programs for the community.	Since 2015, Healthy Chino staff has begun offering bicycle-related programs in the community. Healthy Chino staff has partnered with the Chino Police Department and BOBie Cycling Club in planning and running these programs. Chino Bike Day events were hosted in May 2015 (Founders Park), September 2015 (Walk & Roll event), January 2016 (Newman Elementary), April 2016 (through Healthy Family Day event), and May 2016 (Cal Aero Preserve Academy). Another event is planned for September 2016 at Ayala Park. These Bike Day events usually include a family (5-7-miles) and/or community bike ride (15-25 miles), bicycle safety workshop, helmet giveaway/fitting, bike giveaway, bike obstacle course, smoothie bike, and kids' activities.
Goal TRA-11	Enhance the convenience, intuitiveness, and safety of Chino's pedestrian network.	City staff received a grant through SCAG to prepare a Bicycle & Pedestrian Master Plan. Work has begun this year for the Bicycle & Pedestrian Master Plan.
TRA-11.1 A1	Develop a Pedestrian Master Plan that evaluates the pedestrian transportation system for discontinuities and prioritizes streetscape improvements such as street trees, sidewalks, benches, planter boxes, ADA access, trails, and other amenities in existing neighborhoods. Key pedestrian corridors and potential funding sources to complete the Plan should be identified as part of the Plan.	City staff received a grant through SCAG to prepare a Bicycle & Pedestrian Master Plan. Work has begun this year for the Bicycle & Pedestrian Master Plan.
TRA-11.1 A2	Develop a set of criteria for funding prioritization of planned pedestrian improvements, based on need/deficiency, anticipated demand, anticipated cost/benefit ratio, geographic equity, and funding opportunity.	City staff received a grant through SCAG to prepare a Bicycle & Pedestrian Master Plan. Work has begun this year for the Bicycle & Pedestrian Master Plan.
TRA-11.1 A3	Develop maps or signage indicating local and regional pedestrian routes, including distances to key destinations, such as parks and schools.	City staff received a grant through SCAG to prepare a Bicycle & Pedestrian Master Plan. Work has begun this year for the Bicycle & Pedestrian Master Plan.
TRA-11.1 A4	Develop an ADA Transition Plan specifying a timeline and funding commitments to provide access to public rights-of-way, including curb cuts and other improvements targeted toward persons with disabilities.	The City does not have an existing ADA Transition Plan; however, on an annual basis, the City applies for Community Development Block Grant (CDBG) funding and Transportation Development Act (TDA) funding for sidewalk and ADA ramp improvements for locations throughout the City in need of sidewalk and ADA improvements.
Economic Development Element		
Goal ED-1	Strengthen Chino's economy in order to provide jobs and maintain a fiscally-positive General Fund.	Monthly workshops and seminars, along with one-on-one consulting is available and is provided in partnership with business assistance agencies, including SB County, Econ. Dev. Agency, CMTC, Chaffey College and Small Business Development Center, to address specific needs and general information. Through business visits and meeting, an internal survey questionnaire is utilized to record discussion with businesses to determine if additional assistance is required.
ED-1.2 A1	Maintain ongoing communication with manufacturing firms to make sure their operating needs are being met.	The City maintains a current industrial building list which contains for lease or sale buildings, and is updated quarterly. The City provides the list to potential tenants and/or real estate brokers through various means, such as: 1) on the City's website for interested tenants and/or brokers; 2) via email, fax or hard copy for walk-in, phone or email requests; and 3) at local, regional and national trade events focused on the industrial market.
ED-1.2 A5	Identify vacant sites appropriate for industrial uses, provide a list of those sites to potential businesses seeking to locate in Chino, and consider advertising those sites to potential tenants.	The City's retail recruitment and marketing efforts are focused in these primary retail market areas. Outreach efforts include, but are not limited to: 1) maintaining an up-to-date database of available retail space vacancies contained within the Shopping Center Guide & Vacancy Survey booklet which is updated semi-annually; 2) maintaining current retail market area demographic information, updated annually, which is available to real estate professionals and retailers' tenant representatives; and 3) attendance at least three (3) retail-focused trade events held throughout the year.
ED-1.4 A1	Focus retail recruitment and business attraction efforts around existing concentrations like the North Central Avenue Area, the Spectrum, City Hall and The Preserve.	

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
ED-1.4 A3	To attract retail that is currently jacking, such as grocery stores, work with brokers and existing stores to identify sites that could be appropriate for a specific store, and actions or investments that could be taken to attract them.	The City maintains an annual Retail Gap Analysis Report that identifies retailers not found or lacking market share within the City or retail market areas. This report, along with a current list of available for lease or sale retail space, allows City staff to target marketing efforts to specific retailers identified within the report. The City meets with real estate professionals, specific retailers' tenant representatives and retail developers throughout the year in the City, and at several retail-focused trade events throughout the year to focus on attracting specific retail uses to the City.
ED-1.4 A4	Monitor vacancy rates and sales tax performance for retail areas in the City in comparison to regional and statewide averages. If vacancy rates and sales tax performance fall below average, work with property and business owners to either improve performance or determine an alternative use for the site.	The City maintains a database of available retail space vacancies and leasing contact information, updated semi-annually. Quarterly retail sales tax data for the City, SB County, and the State. This data along with other retail and demographic data provides staff with pertinent information to provide to retail center leasing representatives, center managers and other retail real estate representatives to help identify methods to improve their performance or determine an alternative use for their space or site.
ED-1.4 A5	Actively recruit retail stores by marketing available sites and devoting staff time to working with potential tenants.	Recruitment of retailers is ongoing through various outreach efforts, including attending and hosting a trade show booth at 2 regional/national and 1 local International Council of Shopping Centers (ICSC) retail trade events, providing current demographic and vacant retail property information available through various mediums, including on the City's website, specific retail marketing brochures, and meeting throughout the year with retail brokers, local retail tenant reps. and local shopping center management staff.
ED-1.4 A7	Maintain ongoing communication with the property owner of the Spectrum Marketplace and Spectrum Town Center developments to foster the potential for a public-private response to various changes in the market and to the specific challenges that these changes might create for the Spectrum.	City staff maintains on-going communication throughout the year with the two centers ownership, management and leasing representatives of the Spectrum Shopping Centers to discuss any issues affecting the two centers.
Goal ED-2 Maintain a good jobs-housing balance and jobs-skills match.		
ED-2.1 A2	Periodically study the skills and education levels of Chino residents and use the information as a guide for recruiting new firms to the City.	Demographic information including education levels is provided to the City and updated annually through Nielsen Inc. a private demographic information service. The information is used and provided on the City's website and handouts distributed at industrial and retail trade events, to commercial brokers, tenant representatives and others associated with the commercial property sectors who may be looking to expand or relocate a business to Chino.
ED-2.1 A3	Encourage local businesses to hire local residents. Strategies to do this could include developing a local job board to advertise vacancies to local residents and working with local educational institutions to provide job fairs.	Chino Valley Jobs, which is a program for local businesses to provide their job openings, is provided within City Hall human resources area, and also provided to SB County Workforce Investment Board staff. The City also participates in job fairs, hosted by SB County and the other I.E. cities. The City also coordinates the recruitment and hiring services provided by San Bernardino County Workforce Investment Board, which provides its database of local and regional job seekers looking to work closer to their City of residence.
ED-2.1 A4	Study whether the City should give preference to local suppliers and firms when issuing requests for goods or services.	The City currently has a Local Business Preference ordinance. This ordinance affords a qualified business located within the City, a five-percent reduction of an original submitted bid when comparing to next lowest bidder, thus allowing the local business to be considered as submitting the preferred, lowest bid.
Open Space and Conservation Element		
Goal OSC-4 Minimize the consumption of energy and nonrenewable resources, and promote environmental sustainability.		
OSC-4.1 A1	Adopt a Construction and Demolition Ordinance requiring recycling of at least 50% of all construction and demolition waste.	In December 2012, the City adopted the Tier 1 voluntary measures of the California 2010 Green Building Code, which includes a requirement to increase the amount of construction and demolition waste to be recycled from 50% to 65%.

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
<p>Goal OSC-5 Reduce greenhouse gas emissions by 15 percent below 2005 levels by 2030. OSC-5.1 A1</p>	<p>Adopt a Climate Action Plan within 18 months of adoption of this General Plan that demonstrates how the City will achieve the needed reductions of greenhouse gas emissions. The Climate Action Plan shall be developed in coordination with SANBAG and SCAQMD.</p>	<p>The City Council adopted the Chino Climate Action Plan on November 19, 2013. This plan utilized inventory and reduction measures that were developed in coordination with SANBAG through their regional greenhouse gas inventory and reduction planning effort. SCAQMD did not actively participate, but was aware of the planning effort.</p>
<p>Goal OSC-6 Prepare Chino for the expected impacts of global climate change. OSC-6.1 A1</p>	<p>Develop a program to prepare for extreme heat events, including outreach and notification focused on sensitive populations and the establishment of new and maintenance of existing cooling centers.</p>	<p>There is no formal program to prepare for extreme heat events. However, currently, the Senior Center, Neighborhood Activity Center, and Monte Vista Park Center are all utilized as cooling centers. Information regarding cooling centers is published on the City's website during the summer months.</p>
<p>Parks and Recreation Element</p>	<p>Goal PR-1 Maintain existing park and recreational areas and create new ones in and around the City. PR-1.2 A1</p>	<p>A joint-use agreement was executed for the Preserve Community Center located in the Preserve Specific Plan, which is a joint-use facility between the City and Chino Valley School District and provides a gymnasium, fitness room and multi-purpose room. Other opportunities to implement this action will be evaluated on an on-going basis and will be considered for possible implementation in the departmental work programs prepared each year.</p>
<p>Public Facilities and Services Element</p>	<p>Goal PFS-2 Maintain a safe environment in Chino through law enforcement and crime prevention. PFS-2.3 A1</p>	<p>The Department continues to utilize the Crystal Reports software to create custom-automated reports of various types. This has been a viable resource for personnel to proactively address crime and quality of life issues by crime type and/or location. Examples of how we utilize the Crystal Reports include: monitoring activity at Alcoholic Beverage Control licensed locations, DUI reports, communicating issues at Crime Free Housing locations and monitoring nuisance houses. Additionally, with the Intelligence Led Policing model, personnel of all levels and assignments are able to collaboratively share intelligence, monitor criminal activity and address criminal and quality of life issues from a streamlined multi-faceted approach. Further, individual units (i.e. Traffic, Detectives, Crime Prevention, Special Enforcement Team, etc.) conduct routine strategy meetings to discuss crime/quality of life issues in the City and come up with a comprehensive approach to address them. Our CAS/RMS system (dispatch and records management system) is another useful tool that allows data to queried and analyzed in new and more efficient ways; thus allowing for better monitoring of crime trends and statistics. Last, another way the Department is able to monitor crime rates from a public partnership perspective is through the use of crimemapping.com. This free online program allows members of the public to access information on crime reports based on date/time, location and crime type. This also makes it very easy for personnel to view visual maps of information which can be shared with the public. This resource is routinely utilized in conjunction with neighborhood watch meetings.</p>
<p>PFS-2.3 A2</p>	<p>Maintain volunteer opportunities for residents in order to provide additional opportunities for community engagement with the Police Department.</p>	<p>There are many volunteer programs currently offered through the Chino Police Department. Some of these include: 1) A Citizen Police Academy and Youth Citizen Police Academy for teens; 2) The Police Explorer program for teens; 3) The Mounted Posse; 4) The Police Chaplains; and 5) The Crime Prevention Unit Volunteer Internship Program</p>

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
PFS-2.3 A3	Seek grant funding for community policing, commercial vehicle enforcement, and other programs that will improve service levels within the City.	Opportunities for grant-funding for various programs are pursued on an on-going basis. Currently, the Chino Police Department utilizes grant funds to assist with crime prevention/education programs, alcohol prevention/education/enforcement (Alcohol and Beverage Control grant), Alcohol/DUI education for high school teens (Every 15 Minutes program – California Highway Patrol and Office of Traffic Safety grant), National Night Out / Neighborhood Watch grant from Target, multiple state-funded DUI education/enforcement grants, and the Click it or Ticket (Seatbelt enforcement grant). An additional grant application has been submitted for the FY 14-15 - a Selective Traffic Enforcement Program (STEPS) Grant to reduce the number of persons killed and injured in collisions involving alcohol, speed, red light running and other primary collision factors. These strategies are designed to earn media attention thus enhancing the overall deterrent effect.
Goal PFS-7 Ensure an adequate supply of water for all types of users.		
PFS-7.1 A1	Consider participation and/or support of proposed conjunctive use programs and Chino Basin storage and recovery programs that allow the distribution of water between jurisdictions during periods of excess supply. These programs would be administered through participation in the Chino Basin Watermaster and Water Facilities Authority.	The City is involved in discussions with MWD, IEUA, and other local water purveyors to implement additional conjunctive use programs.
PFS-7.1 A2	Evaluate the feasibility of establishing interconnections or water conveyance plans between the Chino water system and the water systems of the following neighboring water agencies: <ul style="list-style-type: none"> • Monte Vista Water District • City of Ontario (a connection currently exists at Benson Avenue) • City of Chino Hills • Jurupa Community Services District • San Antonio Water Company • City of Upland • City of Pomona • The Inland Empire Utilities Agency 	Discussions between the City and various local water agencies regarding water system interconnections are ongoing. A dedicated interconnection exists between Chino and Ontario. Chino currently has the ability to receive water from Water Facilities Authority (WFA) member agencies (i.e. Monte Vista Water District, Upland, Ontario, and Chino Hills) through the WFA surface water treatment plant. Similarly, Chino has an ability to receive desalinated groundwater not used by Chino Basin Desalter Authority member retail agencies, Jurupa Community Services District, Santa Ana River Water Company, Norco, Ontario, and Chino Hills.
PFS-7.5 A1	Work with the Inland Empire Utilities Agency to provide recycled water systems, including pipelines, pump stations, and storage facilities to serve primarily public facilities, schools, and parks as funding becomes available.	The Inland Empire Utilities Agency (IEUA) currently supplies recycled water to the City at several locations. The City meets with IEUA representatives on a regular basis to discuss recycled water plans and activities.
PFS-7.5 A2	Develop a plan to irrigate agricultural lands with recycled water, both inside and outside of the City's service area, where feasible.	Recycled water is currently used to irrigate agricultural lands in the City. The City maintains a plan that identifies the users already connected to a recycled water line as well as those potential users.
Air Quality Element		
Goal AQ-1 Preserve and improve air quality in Chino and the region.		
AQ-1.1 A1	Implement traffic features such as roundabouts or the use of integrated signalization to improve traffic flow and reduce emissions from vehicle idling and stop and start.	Roundabouts and integrated signalization have been implemented in the City on a limited basis. Additional implementation of these features will be evaluated as opportunities arise, and considered in future development proposals.
AQ-1.1 A2	Install LED traffic signals throughout Chino to reduce the City's electricity consumption.	100% of the traffic signals in the City are LED. There is currently a program in place whereby the lights are replaced every 5 years, and each year, the replacement is scheduled and budgeted for rotating sectors of the City.

**CITY OF CHINO
GENERAL PLAN IMPLEMENTATION PROGRAM**

Action Number	Action	Status of Progress/Comments
Safety Element		
Goal SAF-2 Reduce hazards related to flooding and inundation.		
SAF-2.1A 1	Annually review any new information available from the Federal Emergency Management Agency and the state Department of Water Resources to determine if updated flood zone information is available.	The City receives updates to flood zone maps from FEMA every year, and this information is reviewed to determine if there are any updates to the maps.
Goal SAF-6 Reduce the risk to the community from natural and man-made disasters and terrorism events.		
SAF-6.1 A1	Regularly update and implement the Emergency Operations Plan (EOP) and the Local Hazard Mitigation Plan (HMP).	The City of Chino is waiting for approval from the State of California for the most recent update of their Emergency Operations Plan. Upon approval from the State, the City will ask their Council to adopt the updated EOP. Portions of the HMP were used in updating the EOP. The City will continue to review both plans regularly and make updates as needed.

INTRODUCTION

This report summarizes the progress made during calendar year 2015 towards meeting the goals and objectives of the City of Chino 2013-21 Housing Element (effective November 30, 2013). Government Code Section 65400 requires the preparation and submission of an annual report of this type to the California Department of Housing and Community Development (HCD). The City of Chino 2013-21 Housing Element was adopted on October 1, 2013, and certified by HCD on November 30, 2013 as being in full compliance with State housing element law (Article 10.6 of the Government Code).

The City of Chino 2013-21 Housing Element contains eighteen implementing actions designed to provide and maintain housing that is affordable to all economic segments of the community and meets the needs of individuals and families with special needs. A description of the progress made towards implementing each of the programs contained in the 2013-21 Housing Element can be found in Table C.

HIGHLIGHTS OF THE CITY OF CHINO HOUSING PROGRAM (2015)

The past calendar year saw progress on many of the affordable housing projects and programs sponsored by the City. These projects and programs serve the broad spectrum of needs in our community – from preventing homelessness to assisting first time homebuyers.

College Park Affordable Housing Program

In 2003, the State of California designated 710 acres of vacant land adjacent to the California Institution for Men as surplus property. In response, the City of Chino prepared and adopted the College Park Specific Plan to guide the future development of the property. The adopted College Park Specific Plan, along with a development agreement between the City and the project's developer (LS College Park LLC), provides for 2,200 housing units, a 140-acre regional park, a 100-acre community college campus and a 7.5 acre mixed-use site that will provide for a mixture of commercial, office, civic, and residential uses.

In regards to affordable housing, the College Park Development Agreement requires that 15% of the units developed within the plan area must be sold/rented at affordable prices/rents. This requirement will provide for the development of 330 affordable units within the College Park community, 132 of which will be affordable to very low-income households and 195 of which will be affordable to moderate-income households. Development of the very low-income units is required no later than July 1, 2016, while development of the moderate-income units is required no later than July 1, 2018.

In 2013, the apartment community, named Ivy at College Park was completed and provides affordable housing to very low-income families, and satisfies the requirement for affordable housing to very low-income households contained within the College Park Development Agreement.

In 2014, Bridge Housing began pursuing the second phase of development consisting of development of 195-unit apartment complex for moderate income families. Entitlements for the project were processed and approved in the fall of 2015 and construction began in 2016 with an estimated completion date targeted in 2017.

Infill Affordable Housing Development Program

In 2001, the City of Chino adopted and began implementing its Infill Affordable Housing Development Program. The primary goal of the program is to facilitate the development of affordable single-family homes on undeveloped and substandard/underdeveloped lots located within established neighborhoods. Prior to 2012, twenty (20) such properties were developed/redeveloped under this program. Additionally, a development agreement providing for the development of three additional (3) homes was executed.

In 2012, no new homes were developed under the Infill Affordable Housing Development Program. However, the City is moving forward with development of the "G" Street project consisting of three (3) new single family homes for First Time Homebuyer low income qualified households. The three homes will be constructed and occupied by the end of 2016. The City has pledged \$180,000 in CalHOME grant funds for down payment assistance (3 homes @ \$60,000 each).

In addition, the City owns two residentially-zoned parcels located at the southeast corner of Chino Avenue and Monte Vista Avenue that are being reviewed for potential development of affordable single-family homes. During 2014, engineering and design studies commenced on the Chino-Monte Vista site to determine if development is feasible. Due to design issues of offsite public improvement expenses, the project was put on hold pending further review and analysis.

Multi-Family Acquisition/Rehabilitation Program

In 2007, the City of Chino began the process of developing and implementing a multi-family acquisition and rehabilitation program. The program envisions working with developers and existing owners to improve the quality of Chino multi-family housing stock while creating affordable housing opportunities for current and future tenants. The goal of the program is to revitalize existing multi-family neighborhoods throughout the City to provide safe, desirable and affordable rental housing opportunities to Chino residents.

Thirty-two existing multi-family communities throughout the City were evaluated and ranked using crime statistics and property condition surveys. Following the ranking of these neighborhoods, the City Council's Housing Subcommittee directed City staff to pursue redevelopment (acquisition/rehabilitation) opportunities within the top quartile of neighborhoods (eight neighborhoods).

One of the stated goals of the City's adopted 2013-21 Housing Element is to convert and rehabilitate 100 units of market rate multi-family housing into affordable housing. Over the past several years, the City has on two occasions entered into negotiations to purchase apartment communities in furtherance of achieving this goal. However, in neither case did these negotiating

efforts result in acquisition terms that the City considered fair and reasonable. With the elimination of redevelopment and 20% Set-Aside funds, it will be difficult to meet these goals. In any event, staff continues to seek development opportunities in furtherance of this goal.

Neighborhood Stabilization Program

In the summer of 2008, the United States Congress and President approved the Housing and Economic Recovery Act of 2008 (HERA), which provided for the establishment and funding of the Neighborhood Stabilization Program (NSP). The primary goal of the NSP is to assist states and units of local government with the redevelopment of foreclosed homes.

In December 2009, the City of Chino was awarded \$1,041,323 in NSP funding to implement an Acquisition/Rehabilitation/Resale (ARR) program. Under the ARR program, NSP funds are used to purchase and rehabilitate foreclosed homes, and subsequently resell those homes to very low, low and moderate income families at affordable prices. In 2010, one moderate income household was able to purchase an affordable single-family home that was redeveloped under this program. In 2011, three additional households were able to purchase affordable single-family homes under this program. In 2012, four additional households were able to purchase affordable single-family homes under this program. A balance of approximately \$80,000 was processed and returned to the Federal Government in 2014.

PROGRESS IN MEETING REGIONAL HOUSING NEEDS

California law requires that local jurisdictions, through their Housing Element, must make “adequate provision for the existing and projected housing needs of all economic segments of the community.” On an intermittent basis, HCD determines the projected regional housing need for each regional Council of Governments, which in the Inland Empire is the Southern California Association of Governments (SCAG). This regional housing need projection is known as the Regional Housing Needs Allocation (RHNA). SCAG then allocates to each jurisdiction its “fair share” of the RHNA for the upcoming housing element cycle. The timeline covered by the City of Chino’s current Housing Element covers the period from July 1, 2013 to June 30, 2021.

The “fair share” allocation assigned to each local jurisdiction is broken out into four income categories: extremely low/very low-income, low-income, moderate income, and above moderate income. It is this regional housing needs allocation that communities must use when making adequate provision for their housing needs in their housing elements.

Table A (page 11), **Table A2** (page 12) and **Table A3** (page 12), the “Annual Building Activity Report Summary”, quantify, by income category, all building permits issued during calendar year 2015. **Table B** (page 13) summarizes the City’s progress towards meeting its Regional Housing Needs Allocation for the 2013-21 Housing Element cycle. Finally, **Table C** (pages 14-26) highlights the progress made towards the goals and objectives contained within the City’s 2013-21 housing element.

Status and Effectiveness of Housing Element Programs (2013-21 Housing Element)

On October 1, 2013, the City of Chino adopted its 2013-21 Housing Element and submitted it to HCD for final certification. On November 30, 2013, the City of Chino received notice from HCD that its 2013-21 Housing Element had been certified as being in full compliance with State housing element law (Article 10.6 of the Government Code).

Table C (pages 14-26) summarizes each program contained within the City’s 2013-21 Housing Element, along with its adopted schedule, its status as of December 31, 2015, and the cumulative progress made towards its implementation during the reporting period.

Progress Made Towards Mitigating Governmental Constraints

A number of factors may constrain the development of housing, particularly housing affordable to lower-income households. These factors can generally be divided into “governmental constraints” - those that are controlled by federal, state, or local governments - and “nongovernmental constraints,” factors that are not generally created or cannot be affected by government controls.

Governmental regulations and exactions are designed to achieve desirable land use patterns, coordinate development with infrastructure expansion, finance capital improvements, equitably distribute the cost of public services, maintain the ambiance of existing neighborhoods, improve the urban environment, and preserve open space and unique ecosystems. However, under State law, the Chino Housing Element must address, and where legally possible, remove governmental constraints affecting the maintenance, improvement, and development of housing. The City of Chino 2013-21 Housing Element identified the following governmental constraint on the availability or affordability of housing being built and made recommendations as to how these constraints could be removed:

1. Housing for Persons with Special Needs

The City recognizes the need for a range of housing options to meet the varied needs of all segments of the community, including seniors, persons with disabilities, large households, farmworkers, students, and the homeless. To encourage and facilitate the development of housing for persons with special needs, the City will amend the Zoning Ordinance to address the following:

- **Transitional Housing:** Differentiate transitional housing in the form of group quarters versus multi-family rental housing developments, and expand the scope of transitional housing to include all users. For transitional housing facilities that operate as multi-family rental housing developments, such uses will be permitted by right where multi-family housing is permitted. For transitional housing facilities that operate as group quarters, such facilities will be permitted as residential care facilities.
- **Supportive Housing:** Specify the provisions for supportive housing and differentiate between supportive housing in the form of multi-family rental apartments versus group quarters. The former will be permitted by right where multi-family is permitted. The latter will be permitted as residential care facilities.

- **Emergency Shelters:** Identify emergency shelters as a permitted use in the Service Commercial (SC) zone (see detailed discussion in Needs Assessment on page 55). Objective and specific management standards, similar to those for other lodging uses, will be established for emergency shelters to provide clear understanding of requirements and therefore facilitate the development of or conversion to emergency shelters.
- **Single Room Occupancy (SRO):** Specify SRO as a conditionally permitted use in the General Commercial (CG) zone. Conditions for approval will relate to the performance of the facility, such as parking, security, and management.
- **Residential Care Homes:** Expand the definition of residential care homes to include facilities that do not require licensing by the State, such as homes for battered women and children, and pregnant teens.
- **Reasonable Accommodation:** Continue to implement the City's reasonable accommodation ordinance through approving requests at an administrative (staff) level.

Recommendation

1. Amend the Zoning Ordinance within twelve months of adopting the Housing Element to address special needs housing.

In 2010, the City of Chino completed a comprehensive update of its General Plan and Zoning Ordinance. The newly updated General Plan and Zoning Ordinance added and/or amended various provisions to support special needs housing. These changes 1) differentiate transitional housing in its various forms; 2) permit transitional housing that operates as multi-family developments by right; 3) permit emergency shelters in the Service Commercial (SC) Zone; and 4) continue the City's practice of providing reasonable accommodation for special needs housing projects.

LOOKING FORWARD TO 2016

Preface

In accordance with AB 1x 26, the Redevelopment Agency of the City of Chino (Chino RDA) was dissolved on February 1, 2012. The dissolution of the Chino RDA presents a considerable challenge to the City of Chino's efforts to meet state affordable housing mandates, as redevelopment funding represented the single largest source of funding used in the implementation of the City's affordable housing programs. The loss of this critical funding source, combined with the near exhaustion of Proposition 1C funds available to local jurisdictions for affordable housing programs and projects, will likely result in a significant reduction in the output of the City's housing programs.

Housing Program Funding

During FY 2016-17, Housing staff will evaluate existing affordable housing programs and recommend to the Housing Committee the allocation of unrestricted Housing funds for specific programs to meet the needs of the Chino community.

Seasons Senior Villas Expansion

In 1997, the City of Chino, in partnership with the Redevelopment Agency of the City of Chino, developed the Seasons Senior Villas, a 104-unit affordable senior housing community. The community is located at the northwest corner of 6th and "D" Streets in downtown Chino. Immediately adjacent to the Seasons Senior Villas is a 0.34 acre parcel owned by the Chino Redevelopment Agency that is currently being used as a community garden.

In 2011, the City retained an architectural and engineering consultant to prepare plans for the expansion of the existing Seasons Senior Villas development onto the adjacent undeveloped parcel. Land use entitlements for the project have since been approved, and the City is currently seeking to identify viable options for project funding, as development of the project was originally to have occurred with redevelopment financing.

Staff is working with the investors and managers of the existing Seasons Senior Villas project to determine the best manner in which to develop the 9-unit expansion and incorporate the management and administration of the new units into the existing project. It is anticipated that the ground lease governing the existing project will be amended to provide for the management and administration of the new units, and that the terms of a ground lease amendment will be completed during FY 2016-17.

Multi-Family Acquisition/Rehabilitation Program

In 2007, the City of Chino completed the groundwork necessary to begin implementing a multi-family acquisition/rehabilitation program. This effort involved the evaluation and ranking of 32 existing multi-family neighborhoods in the City using crime statistics and property condition surveys. Following the completion of this evaluation, staff presented this data to the City Council Housing Committee, and received approval from the committee to begin targeting the eight highest ranked neighborhoods for acquisition and/or rehabilitation projects. While previous efforts to acquire multi-family assets have failed to produce fair and reasonable deal terms, staff will continue to seek development opportunities in furtherance of this goal in 2016.

It should be noted that Redevelopment Low-and Moderate-Income Housing Funds had been budgeted in prior years to provide the funding necessary to undertake a significant multi-family acquisition/ rehabilitation project. Unfortunately, these funds are no longer available as a result of the dissolution of all redevelopment agencies in California. Staff is now working to identify alternate sources of funding to finance this program.

Infill Housing Development Program

As detailed earlier in this report, the City of Chino has had great success in implementing its Infill Housing Development Program. This success was due largely in part to the provision of program funding by the City's redevelopment agency, which as discussed above, has since been dissolved. The loss of this significant funding source, combined with the fact the City has largely met the original goals and objectives of the Infill Housing Development Program, may result in the termination of the program.

The Preserve Affordable Housing Program

With the completion of the 250-unit affordable family housing project in 2008, the sole remaining component of the Preserve affordable housing plan consists of 250 units affordable to very low, low and moderate-income households. Staff does not anticipate any activity under the program during 2016.

College Park Affordable Housing Program

With the construction of College Park's first affordable housing community (Ivy at College Park) now complete, attention has now turned to developing the remaining 195 moderate income units required by the College Park Development Agreement. Under the College Park Development Agreement, LS College Park LLC has until July 1, 2018 to complete development of these remaining units. With the completion of Ivy at College Park Phase I in 2013, Bridge Housing is under construction of Ivy at College Park Phase II which is anticipated to be completed in late 2017. Based on this timeframe, LS College Park, LLC will have met its affordable housing commitments as required under the College Park Development Agreement.

Neighborhood Stabilization Program

The City of Chino will continue to recycle its original Neighborhood Stabilization Program (NSP) grant through the sale of homes purchased with the original grant proceeds. The NSP program officially expired in 2013 and all remaining NSP funds were returned to the Federal Government. No additional affordable homeownership opportunity through the NSP funded Acquisition/Rehabilitation and Resale (ARR) program will be processed and all remaining funds have been returned.

**ANNUAL ELEMENT PROGRESS REPORT
Housing Element Implementation**

(CCR Title 25 §6202)

Jurisdiction: City of Chino
Reporting Period: January 1, 2015 - December 31, 2015

Table A2

Annual Building Activity Report Summary - Units Rehabilitated, Preserved and Acquired pursuant to GC Section 65583.1(c)(1)

Please note : Units may only be credited to the table below when a jurisdiction has included a program it its housing element to rehabilitate, preserve or acquire units to accommodate a portion of its RHNA which meet the specific criteria as outlined in GC Section 65583.1(c)(1)

Activity Type	Affordability by Household Incomes				TOTAL UNITS	(4) The Description should adequately document how each unit complies with subsection (c)(7) of Government Code Section 65583.1
	Extremely Low-Income*	Very Low-Income	Low-Income			
(1) Rehabilitation Activity	0	7	6		13	N/A
(2) Preservation of Units At-Risk	0	0	0		0	N/A
(3) Acquisition of Units	0	0	0		0	N/A
(5) Total Units by Income	0	7	6		13	

* Note: This field is voluntary

TABLE C
Program Implementation Status

Program Description (by HE Program Names)	Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.	Housing Programs Progress Report - Government Code Section 65583	
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Ownership Rehabilitation Programs (Action 1)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Assist 10 households annually. <input checked="" type="checkbox"/> Annually evaluate the need to apply for Proposition 46 and Proposition 1C funds to support/expand home improvement efforts. 	<p>On-going</p> <p>On-going</p>	<p>Effectiveness: Between July 1, 2008 and December 31, 2012 the City provided rehabilitation assistance to 162 households using Redevelopment Housing funds, CalHOME Program funds, CDBG funds and City Affordable Housing Funds financed with in-lieu fees. Additionally, in November 2012, the City was awarded \$600,000 and in January 2014, an additional \$440,000 was awarded in CalHOME Program funding to finance home improvement loans and mortgage assistance loans.</p> <p>Continued Appropriateness: The City recognizes the need to preserve its housing stock and will continue to provide rehabilitation assistance to income qualified residents. The dissolution of the City's redevelopment agency presents a significant challenge to the continued effectiveness of this program as redevelopment agency funding was the single largest source of funding for the City's Home Improvement Program.</p>
Dangerous Properties Abatement Program (Action 2)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> On an as-needed basis, work with Code Compliance to identify abandoned and/or substandard buildings that present threats to public health and safety. 	<p>On-going</p>	<p>Effectiveness: Under its partnership with the Code Compliance division, the Housing Division has been able to redevelop several abandoned and/or substandard properties that presented a threat to public health and safety. No new projects have been undertaken in 2015.</p> <p>Continued Appropriateness: This program has proven very successful. However, the primary source of funding for the program (RDA Housing Funds) is no longer available. As such, it is unlikely that the City will be able to complete additional projects.</p>

Housing Programs Progress Report - Government Code Section 65583			
Program Description (by HE Program Names)	Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.		
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Acquisition/Conversion (Action 3)	<p><input checked="" type="checkbox"/> Convert 100 market rate units into affordable housing for extremely low (at least 10 units), very low, low and moderate income households.</p>	2021	<p>Effectiveness: Despite entering into negotiations on two separate occasions for the purchase of multi-family apartment communities, the City of Chino has been unable to secure deal terms that it considered fair and reasonable, and as such, did not acquire either of the properties. Furthermore, the City no longer is able to budget this program as a result of the dissolution of the City's redevelopment agency.</p> <p>Continued Appropriateness: The loss of redevelopment funding combined with the exhaustion of Prop 1C funds for many programs including the Multi-family Housing Program (MHP) have removed two primary tools used by local jurisdictions to finance multi-family acquisition/conversion projects. The City will continue to monitor and support appropriate legislative efforts to create funding resources for affordable housing programs. Should such funding programs become available, the City will seek to identify potential projects for acquisition/conversion and apply for funding to finance any such projects.</p>

Program Description (by HE Program Names)	Housing Programs Progress Report - Government Code Section 65583 Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.		
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Code Compliance (Action 4)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Coordinate with Housing Division staff to identify opportunities for acquisition/rehabilitation. <input checked="" type="checkbox"/> Ensure that Code Compliance staff provides information on home improvement programs to eligible households. <input checked="" type="checkbox"/> Develop and implement a nuisance and hazard abatement program for multi-family properties. 	<p>On-going</p> <p>On-going</p> <p>On-going</p>	<p>Effectiveness: The City places a high priority on its code compliance program, and in doing so, is successful at addressing code violations and controlling the physical deterioration of its housing stock. In light of the current poor economic conditions and the costs associated with establishing a rental housing inspection program and implementing a nuisance hazard abatement program for multi-family properties, the City has not yet begun its evaluation of these programs and will wait until an improvement in local economic conditions to do so. That being said, code enforcement regularly visits the multi-family communities located in the City, and believes that it is able to successfully address most nuisances and hazards without the aid of a formal program.</p> <p>Continued Appropriateness: The City recognizes the need to ensure that its neighborhoods remain safe and desirable places to live and work and as such will continue to provide code compliance services.</p>

Housing Programs Progress Report - Government Code Section 65583 Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.			
Program Description (by HE Program Names)	Objective	Timeframe in H.E.	Status of Program Implementation
Affordable Housing Development (Action 5)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Grant priority processing status based on percentage of affordable and/or special needs units in a development. No special application for priority processing will be required. <input checked="" type="checkbox"/> As funding permits, engage in land banking activities to acquire sites appropriate for affordable housing development. <input checked="" type="checkbox"/> Monitor HCD website quarterly for funding availability under Prop. 46/Prop. 1C programs. Evaluate the need to pursue such funds based on project readiness, competitiveness, and financial feasibility. <input checked="" type="checkbox"/> Explore the development of an inclusionary housing ordinance. <input checked="" type="checkbox"/> Through development agreements, acquisition/conversion (Action 3), and City assistance, ensure that 10 percent of all lower income affordable units created be affordable to extremely low income households. 	<p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p>	<p>Effectiveness:</p> <ol style="list-style-type: none"> 1. Priority processing of affordable and/or special needs projects - The City continues to grant priority processing to affordable housing projects where the applicant requests and demonstrates that priority processing is necessary to support the project. 2. Land banking – The City regularly seek to acquire vacant parcels suitable for development under the Infill Housing Development Program. 3. Monitoring of Prop. 46/Prop. 1C program – each month, City staff checks HCD’s website for new Notices of Funding Availability. During 2015, no new funding programs were available. 4. Inclusionary Housing Ordinance – the City has opted to delay consideration of an inclusionary housing ordinance at this time due to the poor economic conditions. 5. Acquisition/Conversion – See “Acquisition/Conversion (Action 3)” – page 14. <p>Continued Appropriateness: The City will continue to expand affordable housing opportunities through its already established programs, and will evaluate new programs as needed to take advantage of new opportunities.</p>

Program Description (by HE Program Names)	Housing Programs Progress Report - Government Code Section 65583 Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.	
Name of Program	Objective	Timeframe in H.E.
<p>Infill Housing Development (Action 6)</p>	<p><input checked="" type="checkbox"/> Promote the Infill Housing Development Program to developers and landowners in targeted neighborhoods by publicizing information on City website and at public counters.</p> <p><input checked="" type="checkbox"/> Through the Dangerous Properties Abatement and Code Enforcement programs, identify opportunities for infill development in single-family neighborhoods. Distribute program information to property owners and provide potential sites information to interested developers.</p> <p><input checked="" type="checkbox"/> As funding permits, engage in land banking activities to acquire sites appropriate for affordable housing development.</p> <p><input checked="" type="checkbox"/> Achieve two infill units annually.</p> <p><input checked="" type="checkbox"/> Promote infill development "gap financing" to landowners.</p> <p><input checked="" type="checkbox"/> Work with Habitat for Humanity and other qualified non-profit and for-profit housing developers to identify and pursue infill opportunities.</p>	<p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p>
	<p>Effectiveness:</p> <p>1. Infill Housing Development Program - From 2001 to 2013, twenty new affordable single-family homes were constructed under the City's Infill Housing Development Program. While no new homes were completed during 2015, the City continues to implement existing development agreements that will provide for three new affordable homes. Completion of those homes is anticipated in 2016.</p> <p>2. Dangerous Properties Abatement and Code Enforcement Program - The City's Code Compliance officers regularly refer property owners to the City's Housing Division when an opportunity exists for the owner's participation in either the City's Home Improvement Program or the Infill Housing Development Program.</p> <p>3. Land Banking – See "Action 5" – page 17.</p> <p>4. Identify Infill Housing Opportunities - The City of Chino, under its Infill Housing Development Program, continues to promote "gap financing" availability to landowners, and partners with non-profits, including Habitat for Humanity, on all of its Infill Housing Program projects where the City is the landowner.</p> <p>Continued Appropriateness: This program provides affordable housing opportunities for lower and moderate income households and helps abate blighted conditions in the downtown area. With the dissolution of the City's redevelopment agency, the City will seek new sources of funding for these programs to ensure their continuation.</p>	<p>Status of Program Implementation</p>

Housing Programs Progress Report - Government Code Section 65583			
Program Description (by HE Program Names)	Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.		
Name of Program	Objective		
	Timeframe in H.E.		
	Status of Program Implementation		
Homebuyer Assistance Program (Action 7)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Provide homebuyer assistance to 3 homebuyers. <input checked="" type="checkbox"/> As home prices decline in the City, evaluate the feasibility of using CalHOME Program funds to support a city-wide homebuyer assistance program. 	On-going On-going	<p>Effectiveness:</p> <p>1. CalHOME Program funding of Homebuyer Assistance Program – In November 2012, the City was awarded CalHOME funding to provide first-time homebuyer loans to three low income households.</p> <p>Continued Appropriateness: The City recognizes the importance of providing affordable homeownership to first-time buyers, and will seek to identify and secure new funding resources to continue the implementation of its homebuyer assistance program.</p>
Section 8 Housing Choice Vouchers (Action 8)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Promote the use of Section 8 by publicizing the program on the City website and make information available at public counters and community locations. Encourage non-profit service providers to refer eligible clients, especially those with extremely low incomes, to the Section 8 program for assistance. <input checked="" type="checkbox"/> Coordinate with the Housing Authority for the prioritizing of vouchers to be set aside for extremely low income households. <input checked="" type="checkbox"/> Provide Section 8 information to owners of small rental properties to encourage acceptance of Section 8 vouchers. 	On-going On-going On-going	<p>Effectiveness: The City continued to participate in the Section 8 Housing Choice Vouchers program through the San Bernardino County Housing Authority. As of September 30, 2010, 102 very-low income households in Chino were participating in the Section 8 Housing Choice Voucher program, while an additional 70 households were residing within affordable housing units owned and operated by the SB County Housing Authority. The City continues to market the Section 8 Housing Choice Voucher program and the availability of affordable public housing via its website.</p> <p>Appropriateness: Section 8 is one of the most significant housing programs available for very low and extremely low income households. The City will continue to participate in and promote this program.</p>

<p>Housing Programs Progress Report - Government Code Section 65583</p> <p>Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.</p>			
<p>Program Description (by HE Program Names)</p>	<p>Objective</p>		
<p>Name of Program</p>	<p>Timeframe in H.E.</p>	<p>Status of Program Implementation</p>	
<p>Preservation of At-Risk Housing (Action 9)</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Preserve all 124 very low income units (84 units for seniors and 40 units for families). <input checked="" type="checkbox"/> Notify property owners of the availability of Prop. 46/1C funds and HUD funds to extend rent subsidies and/or restructure project financing. <input checked="" type="checkbox"/> Work with tenants of at-risk units and inform them of their rights and conversion procedures. <input checked="" type="checkbox"/> Ensure tenants are notified at least 12 months prior to potential conversion to market-rate housing or expiration of subsidies and adequate relocation assistance is provided. 	<p>On-going</p> <p>On-going</p> <p>On-going</p> <p>On-going</p>	<p>Effectiveness: Both Steelworkers Oldtimers (84 units) and Vista Park Chino (40 units) have extended their Section 8 contracts with HUD and therefore continue to be operated as affordable housing. As a result of these extensions, neither property is at eminent risk of conversion in the near-term.</p> <p>Continued Appropriateness: The City recognizes the importance of preserving the existing affordable housing stock. In the event that either the Steelworkers or Vista Park projects appear at risk of conversion, the City will proactively work with project ownership to preserve on-going affordability, and will assist at-risk tenants of their rights should conversion occur.</p>
<p>Condominium Conversion (Action 10)</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Ensure compliance with the City's Condominium Conversion ordinance. <input checked="" type="checkbox"/> Monitor the rate of conversion to determine if modifications to the ordinance are needed to maintain a healthy rental housing market. 	<p>On-going</p> <p>On-going</p>	<p>Effectiveness: The City continued to enforce the Condominium Conversion Ordinance to preserve the rental housing stock, ensure quality conversion, and provide tenant protection.</p> <p>Continued Appropriateness: The City will continue to implement its condominium conversion ordinance to ensure that a balance is struck between the need for high quality rental housing and affordable homeownership opportunities.</p>
<p>The Preserve Specific Plan Amendment (Action 11)</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Ensure additional capacity accommodates the City's remaining Regional Housing Needs Allocation of 993 units (536 very low and 457 low income units). 	<p>On-going</p>	<p>Effectiveness: This program was completed.</p> <p>Continued Appropriateness: N/A</p>

Program Description (by HE Program Names)	Housing Programs Progress Report - Government Code Section 65583 Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.		
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
Land Use Element and Zoning Ordinance (Action 12)	<p><input checked="" type="checkbox"/> Adopt General Plan 2025 by November 2010 to create new residential/mixed use designations and provide for additional growth potential at targeted locations.</p> <p><input checked="" type="checkbox"/> Update the Zoning Ordinance within twelve months of adopting the Housing Element to implement the new RD30, Mixed Use Medium Density, and Mixed Use High Density designations. Appropriate development standards will be established to facilitate and encourage a variety of housing types and densities in these zones. Specifically, parking requirements and height limitations will be reviewed to ensure that densities permitted in RD30, Mixed Use Medium Density, and Mixed Use High Density can be achieved.</p> <p><input checked="" type="checkbox"/> Update the Zoning Ordinance within twelve months of adopting the Housing Element to revise the current development standards for multi-family housing in the RD 8, RD 12 and RD 20 zones, specifically through: reducing minimum public and private open space requirements; revising standards for the amount and type of on-site parking required; modifying the requirements for the amount and type of recreational amenities provided on-site, especially when sites are within 1/4 mile of public parks; and other amendments.</p> <p><input checked="" type="checkbox"/> Update the Zoning Ordinance within twelve months of adopting the Housing Element to permit Emergency Shelters within the</p>	<p>NA</p> <p>NA</p> <p>NA</p> <p>NA</p>	<p>Effectiveness:</p> <p>1. General Plan Update - The City completed the update of its General Plan ("Envision Chino: General Plan 2025") in 2010. The update included creation of the new residential/mixed-use designations included in the City's 2013-21 Housing Element. In 2012, the City retained a Housing Consultant to commence work on the update to the Housing Element as required by law.</p> <p>2. Zoning Ordinance Update - The City completed a comprehensive update of its Ordinance in August 2010. The update a) implemented standards for the new RD 30, Mixed Use Medium Density, and Mixed Use High Density land use designations; b) revised on-site parking standards; c) left unchanged minimum public and private open space requirements and recreational amenity requirements as the City determined that variances from the adopted standards should be considered on a project by project basis; and d) permitted and established procedures and development standards for Emergency Shelters with the Service Commercial (SC) zone.</p> <p>3. Support affordable housing development with available funds – The City continues to support affordable housing development with available funding. The City was successful in retaining former RDA funding totaling \$10 million that was previously committed to help construct a total of 330 units of affordable housing in College Park. The first phase of development was approved in 2012 pursuant to an Affordable Housing Agreement with Bridge Housing to develop a 135-unit very low income residential apartment community. \$7.2 million was pledged to the project.</p> <p>Continued Appropriateness: The City will continue to evaluate the City's Zoning Ordinance during annual updates to</p>

Housing Programs Progress Report - Government Code Section 65583			
Program Description (by HE Program Names)	Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.		
Name of Program	Objective	Timeframe in H.E.	Status of Program Implementation
	<p>Service Commercial (SC) zone and to contain procedures and development standards that will facilitate the development of emergency shelters within the zone.</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Make available affordable housing funds, CDBG, HOME, and other funding resources to assist with affordable housing development. As funding permits, engage in land banking activities to acquire sites appropriate for affordable housing development. <input checked="" type="checkbox"/> Utilize discretionary (non-housing) funds to assist in economic development, off-site improvements, and lot assemblage to encourage private reinvestment and mixed use development along Riverside Drive and Central Avenue. 	<p>On-going</p>	<p>determine whether additional amendments are necessary to accommodate affordable and special needs housing. Furthermore, staff will continue to evaluate opportunities to use non-housing redevelopment funds to assist in lot assemblage and encourage private re-investment and mixed-use development along Riverside Drive and Central Avenue.</p>
<p>Specific Plan/Planned Development (Action 13)</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Continue to provide for flexible development standards in the Planned Development Overlay district and through the use of specific plans. 	<p>On-going</p>	<p>Effectiveness: During the previous housing element cycle, the City effectively provided flexible development standards in the Planned Development Overlay district and through the use of specific plans. This flexibility is evidenced in the fact that two major specific plans were adopted – College Park and The Preserve – which provide for the development of over 11,900 new units in a variety of densities and types.</p> <p>Continued Appropriateness: Specific plans offer flexibility in development standards and facilitate the development of a variety of housing types and price ranges. As such, the City will, where appropriate, continue to utilize specific plans in support of future development.</p>

Housing Programs Progress Report - Government Code Section 65583 Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.			
Program Description (by HE Program Names)	Objective	Timeframe in H.E.	Status of Program Implementation
Housing for Persons with Special Needs (Action 14)	<input checked="" type="checkbox"/> Review possible amendment to the zoning ordinance to address special needs housing.	As needed	Effectiveness: An update to Zoning Ordinance will be necessary to add various provisions to support special needs housing, including a) differentiates transitional housing in its various forms; b) permits transitional housing that operates as multi-family developments by right; c) permits emergency shelters in the Service Commercial (SC) Zone; and d) continues the City's practice of providing reasonable accommodation for special needs housing projects.

Permit Processing (Action 15)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Continue to evaluate and improve the one-stop processing system to facilitate residential development. <input checked="" type="checkbox"/> Establish a threshold as part of the Zoning update in 2010 based on percentage of affordable and/or special needs units in a development project to qualify for priority processing. No special application for priority processing status will be required. 	On-going 2010	<p>Effectiveness:</p> <ol style="list-style-type: none"> 1. One-stop processing system - The City has and continues to evaluate its one-stop processing system in an effort to provide quick project entitlement processing. 2. Priority Processing Threshold - The City did not, as part of its 2010 Zoning Ordinance update, establish a threshold based on percentage of affordable and/or special needs units in a development project, for priority processing. That being said, the City has always granted priority processing to affordable housing projects where the applicant requests and demonstrates that priority processing is necessary to support the project. This is best exemplified by the recent priority processing of entitlements for a 195-unit affordable housing community proposed by Bridge Housing. By granting priority processing of the projects' entitlement applications, all planning and engineering entitlements were approved within nine weeks, as opposed to the sixteen weeks that it typically takes to entitle a project of that nature. Going forward, the City will continue to grant priority processing, where appropriate, when requested by a project's developer, and will continue to consider the establishment of a formal threshold within the Zoning Ordinance. <p>Continued Appropriateness: As providing priority processing to developers of affordable and special needs housing will further the development of such housing, the City will continue to offer priority processing of affordable and special needs housing applications.</p>

Name of Program	Objective	Timeframe in H.E.
Development Fees (Action 16)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Continue to use Affordable Housing funds and CDBG funds to help offset fees for affordable and special needs housing. <input checked="" type="checkbox"/> Explore the feasibility of deferring payment of fees upon issuance of building permits or waiving fees for affordable and special needs housing. <input checked="" type="checkbox"/> Pursue Prop. 46/1C funds for infrastructure improvements needed to support affordable and special needs housing. 	<p>Effectiveness:</p> <ol style="list-style-type: none"> 1. Offset fees for affordable and special needs housing - The City continues to support affordable housing development with available funding. This is best exemplified by the RDA's \$10 million commitment to help construct 330 units of affordable housing in College Park, and on-going implementation of the City's Infill Housing Development Program. Unfortunately, the dissolution of the City's redevelopment agency as required by state law will severely hamper the City's ability to undertake such efforts going forward. 2. Fee deferral – During the reporting period, the City evaluated the potential deferral/waiver of fees for affordable and/or special needs projects and has decided to consider such deferrals/waivers on a case by case basis. 3. Pursue Prop. 46/1C funds for infrastructure improvements – City staff regularly check for and review Notices of Funding Availability for affordable housing and/or special needs projects. 4. Continued Appropriateness: With the dissolution of the City's redevelopment agency, the City will now seek to identify a new funding source to finance fee waivers for affordable and special needs housing. The City will also consider fee deferrals for affordable and special needs housing if requested by the project owner/developer.

Housing Programs Progress Report - Government Code Section 65583			
Describe progress of all programs including progress in removing regulatory barriers as identified in Housing Element.			
Program Description (by HE Program Names)	Objective	Timeframe in H.E.	Status of Program Implementation
Fair Housing Program (Action 17)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Continue to provide fair housing and tenant/landlord counseling services. <input checked="" type="checkbox"/> Provide fair housing resources on City website and make fair housing brochures available at public counters and community locations. <input checked="" type="checkbox"/> Update the Analysis of Impediments to Fair Housing Choice to ensure that the fair housing program addresses the changing needs of residents. 	<p>On-going</p> <p>On-going</p> <p>2015</p>	<p>Effectiveness: The City updated the Analysis of Impediments (AI) to Fair Housing Choice in 2013. Recommendations in the AI were used to craft the scope of work for the fair housing program. The City continues to contract with the Inland Fair Housing and Mediation Board to mediate tenant/landlord disputes and promote fair housing practices.</p> <p>Continued Appropriateness: Affirmatively furthering fair housing choice is a requirement under both State and Federal law. As such, the City will continue to implement this program.</p>
Affirmative Marketing Plan (Action 18)	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Continue to require an affirmative marketing plan as a condition of approval for all subdivisions. <input checked="" type="checkbox"/> Require an affirmative marketing plan and require apartment managers to provide evidence of training in fair housing and landlord/tenant laws as conditions for the issuance of a business license. 	<p>On-going</p> <p>On-going</p>	<p>Effectiveness: The City continued the practice of requiring an affirmative marketing plan for all subdivisions. Issuance of business permit for rental properties also requires proof of completing training on fair housing and landlord/tenant laws.</p> <p>Continued Appropriateness: Affirmatively furthering fair housing choice is a requirement under both State and Federal law. As such, the City will continue to implement this program.</p>
