

RE-EVALUATION OF AN ENVIRONMENTAL REVIEW (§ 24 CFR 58.47)

Grantee Name:		Date:	
Activity/Project Name:		Contract Number:	
Date of Original ROF:			

Description of the project change:

Did the project change result in the level of review change? Yes No

If no, update the statutory checklist (for CEST reviews) or EA to reflect the change by completing any additional consultation and adding any additional documentation. Submit the updated ERR along with this form to your HCD project manager via the eCivis system.

If yes, the changed project will need to be evaluated with either the statutory checklist or EA depending on the new level of review. The new review should follow the same evaluation and approval process as if it was a new project. Submit the updated ERR along with this form to your HCD project manager via the eCivis system.

CONCLUSION:

- Based on the re-evaluation above, a new environmental review must be initiated.
- Based on the re-evaluation above, the original level of review and finding remains in effect.
