

INSTRUCTIONS

HOSN: Verification of Environmental Review

The environmental review verification form is required when applying for a CalHome or Serna homeownership development project loan. It is used to verify that an environmental review has been completed for the project.

To complete the verification, the applicant must submit the form to the agency or department of local government responsible for the administration of NEPA (National Environmental Policy Act) and/or CEQA (California Environmental Quality Act) environmental clearance and obtain an authorized signature from the agency or department confirming the dates and other information entered on the form. If NEPA or CEQA clearance is not required, the applicant should explain this in the designated area on the form and attach any additional pages as necessary. If the administration of NEPA and CEQA clearances is handled by different agencies or departments, separate forms should be submitted for each clearance. If the NEPA responsible entity is not a local government, the applicant should also submit a separate form for NEPA clearance.

Upload the completed form to the portal with your other application documents.
