 Sonora, CA 95370

Please forward a copy of any resulting reports from this project to the office as soon as possible. Due to the sensitive nature of archaeological site location data, we ask that you do not include resource location maps and resource location descriptions in your report if the report is for public distribution. If you have any questions regarding the results presented herein, please contact the office at the phone number listed above.

The provision of CHRIS Data via this records search response does not in any way constitute public disclosure of records otherwise exempt from disclosure under the California Public Records Act or any other law, including, but not limited to, records related to archeological site information maintained by or on behalf of, or in the possession of, the State of California, Department of Parks and Recreation, State Historic Preservation Officer, Office of Historic Preservation, or the State Historical Resources Commission.

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the CHRIS Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

Should you require any additional information for the above referenced project, reference the record search number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the California Historical Resources Information System (CHRIS).

**Note:** Billing will be transmitted separately via email by our Financial Services office, payable within 60 days of receipt of the invoice.

**If you wish to include payment by Credit Card, you must wait to receive the official invoice from Financial Services so that you can reference the CMP # (Invoice Number), and then contact the link below:**

## NATIVE AMERICAN HERITAGE COMMISSION

**Via Email to: [cindy@naturalinvestigations.com](mailto:cindy@naturalinvestigations.com)**

**Re: Tuolumne Biomass – Project 1001, Tuolumne County**

Dear Ms. Arrington:

A record search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed for the information you have submitted for the above referenced project. The results were negative. However, the absence of specific site information in the SLF does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Attached is a list of Native American tribes who may also have knowledge of cultural resources in the project area. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated; if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call or email to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from tribes, please notify me. With your assistance, we can assure that our lists contain current information.

If you have any questions or need additional information, please contact me at my email address: [Nancy.Gonzalez-Lopez@nahc.ca.gov](mailto:Nancy.Gonzalez-Lopez@nahc.ca.gov).

Sincerely,

Nancy Gonzalez-Lopez  
Cultural Resources Analyst

**PROPOSED**

**PROJECT:** Tuolumne BioEnergy Project, Tuolumne County, California

**USGS**

**QUAD:** The APE within which the direct and indirect impacts of the proposed Project may have an effect on cultural resources totals approximately 3.27 acres. The maximum vertical APE for the facility will be 3 feet. The APE is located in Section 10 of Township 1 North, Range 15 East, as shown on the 1948 Standard (Photorevised 1987) USGS 7.5-minute quadrangle (Figure 1).

Natural Investigations Company, Inc. (Natural Investigations) was retained to provide cultural resources services for the Tuolumne BioEnergy, Inc. (TBI) Project (Project) in southwestern Tuolumne County, California. TBI proposes to construct a wood pelletizing facility that will use a direct combustion of woody biomass from local forests to power the facility with both electricity and process heat (for drying the wood prior to pelletizing) and produce the merchantable product (wood pellets).

Tuolumne County is the State Lead Agency for the Project. Because the Biomass Utilization Fund (BUF) from the U.S. Department of Housing and Urban Development (HUD) will be used, the Project is considered a Federal undertaking. The California Department of Housing and Community Development (HCD) administers the funds and is responsible for federal environmental reviews. This study was thus completed in compliance with Section 106 of the National Historic Preservation Act (NHPA) and the California Environmental Quality Act (CEQA).

The proposed Project by TBI would construct a wood pelletizing facility that will use woody biomass from local forests to produce the merchantable product (wood pellets). A 400 KW electricity generating facility will use direct combustion of woody biomass to produce the electricity and also 2000 KW of thermal heat to dry the woody biomass before it is pelletized. As the electrical generating component of the power plant is a closed loop oil heating system, there is no wastewater discharge.

The Native American Heritage Commission (NAHC) returned the results of a Sacred Lands File search conducted for the Project on April 15, 2021, stating that records were negative for the presence of Native American cultural resources in the Project Area. The NAHC recommended that we contact you for additional information on the potential for indigenous cultural resources in the vicinity of the Project.

We would greatly appreciate any comments that you may have on potential cultural resources in the area and invite you to raise any other concerns relating to the Project should you have them. All information provided regarding

specific sites or tribal cultural resources will remain confidential. Please contact me by phone or email at your earliest convenience.

Thank you for your assistance.
