Training Agenda

Part I
- Review of Direct and Indirect Costs
- How to Calculate Indirect Costs
- Q/A

Part II
- Request by Grant Administrators regarding Indirect Costs
- Next Steps
- Q/A
Applicability to ESG-CV

- The ESG-CV program regulations require grantees to adhere to the Uniform Administrative Requirements at 2 C.F.R. §200.

These requirements also apply to grantees utilizing subrecipients.
Review of Direct and Indirect Costs

- Direct Costs
- Indirect Costs
- Indirect Cost Methods and Rates
Direct vs. Indirect Costs

- There is no universal rule for classifying certain costs as either direct or indirect under every accounting system.
- A cost may be direct with respect to some specific service or function, but indirect with respect to the ESG-CV award.
- Treat costs consistently to avoid possible double-charging of Federal awards.
The Uniform Administrative Requirements at 2 CFR §200.413 define direct costs as:

“those costs that can be identified specifically with a particular final cost objective, such as a Federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect (F&A) costs. See also §200.405.”

For the ESG and ESG-CV programs, most expenses are direct costs.
Direct Costs

Example Direct Costs:

- Payroll costs incurred to administer the ESG-CV award, supported by timesheets and payroll records detailing the date and time the employee worked on the ESG-CV award.
- Costs incurred by subrecipients performing services solely for the ESG-CV award.
- The purchase of supplies and equipment used solely for the ESG-CV award.
- Direct awards to eligible ESG-CV beneficiaries for eligible ESG-CV activities.
Other Possible Direct Costs

- **Clerical Staff (2 CFR 200.413)**
  - Clerical support should normally be treated as indirect costs.
  - Charging as direct cost may be appropriate if:
    - Integral to the project
    - Specifically identified with project
    - Explicitly included in budget or with CA HCD’s prior written approval

- **Computing Devices (2 CFR 200.453)**
  - Materials and supplies used for the performance of the ESG-CV award, including computing devices, may be charged as direct costs, even if not solely dedicated to the performance of the ESG-CV award, so long as the devices are essential and allocable.
Indirect Costs Definition

The Uniform Administrative Requirements at 2 CFR §200.1 define indirect costs as:

“those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect (F&A) costs. Indirect (F&A) cost pools must be distributed to benefitted cost objectives on bases that will produce an equitable result in consideration of relative benefits derived.”
Examples Indirect Costs:
- Rent and utility costs
- Accounting and administrative staff
- Internal auditing costs
- Motor pools
- Computers and software

For the ESG-CV program, indirect costs are reimbursable as a percentage of direct costs.
Direct vs. Indirect Costs

**Direct Costs**
Staff Member A is fully dedicated to ESG-CV (100%)

**Direct Costs**
Staff Member B works on ESG-CV and another federal grant, and documents their hours spent per grant on timesheets

**Indirect Costs**
The Payroll and Human Resources departments process payroll for all of the grantee or subrecipient
Indirect Costs: Three Options

To charge indirect costs to an ESG-CV award, one of the three options must be followed and documented (2 C.F.R. §200.331(a)(d)):

- 10% De Minimis Rate
- Cost Allocation Plan
- Indirect Cost Rate

Each standard agreement includes requirements and provisions for charging indirect costs

- If a standard agreement allows for indirect costs, grantees must first submit supporting documentation for one of the three options to CA HCD and receive written approval prior to requesting reimbursement for indirect costs

These requirements also apply to grantees utilizing subrecipients
Indirect Costs: De Minimis Rate

- Grantees and subrecipients may elect to charge a de minimis rate of 10% of Modified Total Direct Costs (MTDC) which may be used indefinitely.

- Grantees receiving over $35 million in direct Federal funding may not use the 10% De Minimis Rate.

- If chosen, this methodology once elected must be used consistently for all Federal awards until the grantee or subrecipient chooses to negotiate for an indirect rate.

- No documentation is required to justify the 10% De Minimis rate.
Indirect Costs: Cost Allocation Plans

- Most governmental units provide certain services, such as motor pools, computer centers, purchasing, accounting, etc., to operating agencies on a centralized basis.

- Since federally-supported awards are performed within the individual operating agencies, cost allocation plans provide the process whereby these central service costs can be identified and assigned to benefitted activities on a reasonable and consistent basis.

This Indirect Cost Method is limited to States, Local Governments, and Indian Tribes.
Indirect Costs: Cost Allocation Plans

What is a Cost Allocation Plan?

- An accounting report that calculates agency-wide indirect costs to departments, and grants that receive services from other departments.
- A document that identifies and explains the distribution of allowable direct and indirect costs and declares the allocation methods used for distribution.
- All costs and other data used to distribute the costs included in the plan should be supported by formal accounting and other records that will support the propriety of the costs assigned to Federal awards.
- Each local government receiving $100 million or more in direct federal funding is required to submit a cost allocation plan to its cognizant agency for indirect costs on an annual basis.
Negotiated Indirect Cost Rates are like Cost Allocation Plans, but can be used by non-profits and institutions of higher education.

A separate indirect cost rate is usually necessary for each department or agency of the non-profit claiming indirect costs under Federal awards.

This Indirect Cost Method is limited to Non-Profits and Institutions of Higher Education.
What is a Negotiated Indirect Cost Rate Proposal?

- Grantees and subrecipients wishing to claim indirect costs under federal awards must prepare an Indirect Cost Rate Proposal to support those costs.
- The Indirect Cost Rate Proposal is used to calculate the rate (expressed as a percentage) that can be applied to a program or grant to determine the amount that can be recovered, and to justify the establishment of an Indirect Cost Rate.
- Agencies that receive $35 million or more in direct federal funding must submit an Indirect Cost Rate Proposal to their cognizant agency for indirect costs.
Cognizant Agencies

What is a cognizant agency?

- A cognizant agency is the Federal agency responsible for reviewing, negotiating, and approving Cost Allocation Plans and Indirect Cost Rate Proposals
- All negotiated rates must be approved by the grantee’s cognizant agency
- The cognizant agency is the Federal agency that awards the most funds to the grantee
- If awards provided by HUD represent the largest amount of funds awarded by Federal agencies, then the cognizant agency is the US Department of Health and Human Services (HHS)
Other Considerations

- Grantees able to allocate and charge 100% of their costs directly may do so.
- Claiming reimbursement for indirect costs is never mandatory.
- CA HCD cannot require grantees to use one method over another or prohibit the reimbursement of indirect costs.
Direct and Indirect Costs

- Are my agency’s staff able to differentiate between direct and indirect costs?
- Does my agency intend to seek reimbursement for indirect costs?
- If so, which Indirect Cost Method do we use, and what is our rate?
Uniform Administrative Requirements

How to Calculate Indirect Costs

- How to Calculate Indirect Costs
- Modified Total Direct Costs (MTDCs)
Calculating Indirect Costs

- To calculate indirect costs, grantees need:
  - Indirect Cost Rate
  - Modified Total Direct Costs (MTDCs)

- An Indirect Cost Rate is a tool for determining the proportion of indirect costs each program should bear and it is the ratio (expressed as a percentage) of the indirect costs.

- Modified Total Direct Costs are the direct costs subject to the Indirect Cost Rate.

Not all Direct Costs are used to calculate Indirect Costs.
Calculating Indirect Costs

- The Indirect Cost Rate is NOT applied to the overall ESG-CV award; but rather, the direct cost base (Modified Total Direct Costs)

\[
\text{Indirect Costs} = \text{Modified Total Direct Costs} \times \text{Indirect Cost Rate (\%)}
\]
The Uniform Administrative Requirements at 2 CFR §200.1 defines Modified Total Direct Costs (MTDC) as:

“all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first $25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of $25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.”
Modified Total Direct Costs

**MTDCs:**
- Direct salaries, wages and fringe benefits
- Supplies and Materials
- Services
- Travel
- Up to first $25,000 of each subaward

**Not MTDCs:**
- Equipment
- Capital expenditures
- Participant support costs
- Rental costs
- Portion of each subaward >$25,000
Grantees and subrecipients using Cost Allocation Plans or Indirect Cost Rates may use a different cost base to determine their Indirect Cost Rate, and therefore, may have a different definition of MTDCs.

It is important to analyze Indirect Cost Rates and MTDCs on a case-by-case basis.
Indirect Costs can be Activity Delivery Costs (ADCs) or Administration Costs

**Activity Delivery Costs (ADCs)**
- Costs incurred for the implementation, management or oversight of an eligible activity

**Administrative Costs**
- Costs incurred for the general management, oversight, and coordination of the ESG-CV award
Determining Indirect Costs

- Which of my agency’s direct costs are MTDCs?
- How do I determine how much my agency can be reimbursed for indirect costs from the ESG-CV award?
Direct vs. Indirect Costs

How to Calculate Indirect Costs
