Worksheet 1: Determining Demographic Groups Least Likely to Apply for Housing Opportunities (See AFHMP, Block 3b)

In the respective columns below, indicate the percentage of demographic groups among the project's residents, current project applicant data, census tract, housing market area, and if applicable, expanded housing market area (if necessary to conduct marketing to reach a more diverse housing market area in terms of race, color, national origin, religion, sex, disability, or familial status). Wherever possible, please use statistics from a local planning office, Community Development Block Grant Consolidated Plan, or another official source such as the U.S. Census Bureau, http://factfinder.census.gov, click on factfinder2.census.gov; to find information about demographics in a certain state: click 2010 Census Summary File 1 (at the top of the page). If data is not available for your state, please use the 2005-2009 American Community Survey (ACS) data (see http://www.census.gov/acs/www/).

If there is significant under-representation of any demographic group among project residents or current applicants in relation to the housing/expanded housing market area, then targeted outreach and marketing should be directed toward these individuals least likely to apply, and these individuals should be indicated in Block 3b of the AFHMP. See Part 3 of the instructions for further guidance. Please attach maps showing both the housing market area, and the expanded housing market area if applicable.

Demographic Characteristics	Project's Residents %	Project Applicant Data%	Census Tract %	Housing Market Area %	Expanded Housing Market Area% (if used)

Worksheet 2: Establishing a Residency Preference Area (See AFHMP, Block 4a)

Complete this Worksheet if you wish to continue, revise, or add a residency preference, which is a preference for admission of persons who reside or work in a specified geographic area (see 24 CFR 5.655(c)(1)(ii)). If a residency preference is utilized, the preference must be in accordance with the non-discrimination and equal opportunity requirements contained in 24 CFR 5.105(a). This Worksheet will help show how the percentage of the population in the residency preference area compares to the demographics of the project 's residents, applicant data, census tract, and housing market area. Please attach a map clearly delineating the residency preference geographical area.

Worksheet 4: Proposed Marketing Activities - Methods of Advertising (See AFHMP, Block 4c)

Complete the following table by identifying your targeted marketing population(s), as indicated in Block 3b, as well as the methods of advertising that will be used to market to that population. For each targeted population, state the means of advertising that you will use, as applicable to that group and the reason for choosing this media. In each block, in addition to specifying the media that will be used (e.g., name of newspaper, television station, website, location of bulletin board, etc.) state any language(s) in which the material will be provided, identify any alternative format(s) to be used (e.g. Braille, large print, etc.), and specify the logo(s) (as well as size) that will appear on the various materials. Attach additional pages, if necessary, for further explanation. Please attach a copy of the advertising or marketing material.
