HISTORY:
1. Amendment of subsection (r) filed 6-19-80; effective thirtieth day thereafter (Register 80, No. 23).
2. Amendment filed 10-3-81; effective thirtieth day thereafter (Register 81, No. 40).
3. Amendment filed 11-5-82; effective thirtieth day thereafter (Register 82, No. 45).
4. Amendment filed 6-3-85; effective thirtieth day thereafter (Register 85, No. 23).
5. Amendment filed 3-17-87; effective thirtieth day thereafter (Register 87, No. 12).
7404. Eligibility Criteria.

(a) The local entity shall have available, and commit to the extent feasible, CHFA funds, CDBG grants and BMIR loans, HUD 312 loans, Marks-Foran rehabilitation and refinancing funds, FmHA loans or other funds to be used in combination with commitments from the Fund in designated areas. Local entities that are operating or will operate one or more of the following rehabilitation programs in conjunction with this program are eligible to apply for Fund commitments from the Department pursuant to the provisions of this subchapter.

(1) A rehabilitation loan program conducted in a CHFA Concentrated Rehabilitation Area designated pursuant to Section 51302 of the Health and Safety Code.

(2) A residential rehabilitation financing program conducted pursuant to the Marks-Foran Program commencing with Section 37910 of the Health and Safety Code.

(3) A city-wide or county-wide systematic enforcement program pursuant to which the CHFA has allocated sufficient funds for improvement loans for rehabilitation of housing pursuant to Section 51311 of the Health and Safety Code.

(4) A code enforcement agency repairing substandard structures following the owner’s failure to commence work following a final notice or order from the enforcement agency.

(5) A program conducted by the CHFA in a mortgage assistance area as defined in Section 50085, Health and Safety Code, provided such area is located in a rural area.

(6) A rehabilitation or code enforcement program being undertaken by a local entity in an area in which federal funds are being used or will be used in conjunction with the Deferred Payment Rehabilitation Loan Program.

(b) Local entities applying for fund commitments to lend to local borrowers must demonstrate upon application:

(1) capacity to undertake or operate a rehabilitation loan program; and

(2) capacity to manage, monitor, and enforce the terms and conditions of this subchapter.

(c) When a local entity proposes, in an application for commitments from the Fund, to make rehabilitation loans within the jurisdiction of a city or county which has made or is considering its own application for funds from the Fund, the local entity must receive prior written authorization for such application from the governing body of the city or county. Such written authorization shall be included with the application made by the local entity.

(d) Applications by nonprofit corporations for new commitments or loans from new commitments from the Fund shall include approval for such applications from the governing body of each city or county having jurisdiction over the area or areas in which loans are to be made. Said approval shall specifically authorize the nonprofit corporation to make rehabilitation loans in the designated area or areas.

(e) The Department may provide deferred payment loans directly to the owner-occupant of a dwelling unit or owner of a rental housing development pursuant to Section 50668(b) of the California Health and Safety Code.

(f) An owner-occupant household of low or moderate income which satisfies the following criteria is eligible for a deferred payment loan pursuant to the provisions of this subchapter:

(1) It is the owner-occupant of the unit to be assisted.

(2) The property is eligible under a rehabilitation program designated under subsection (a) of this section. For projects which directly benefit from funds of
programs designated under (a)(1)–(a)(5) borrowers may be low or moderate income households. For projects which directly benefit from funds of programs designated under (a)(6), owner-occupant borrowers shall be low income households only, except that where program areas designated under (a)(6) overlap with other eligible program areas, the least restrictive income limits for borrowers shall apply.

(3) The monthly payments required by any combination of loans available through CHFA, Marks-Foran, CDBG, HUD 312, FmHA and rehabilitation/refinancing by private lending institutions or other sources to cover the cost of meeting rehabilitation standards would result in the total shelter expense exceeding the owner’s ability to afford such shelter expenses.

(g) An owner of rental units which satisfies the following criteria is eligible for a deferred payment loan pursuant to the provisions of this subchapter:

(1) It owns a single-family or multi-family rental residential property in which the units are, or will be, occupied by low-income households pursuant to Section 7416(b).

(2) The property is in a rehabilitation program designated under subsection (a).

(3) The owner agrees to rent to low-income households pursuant to Section 7416.

(4) The owner agrees to limit rent increases pursuant to Section 7412(c).

(5) The loan is necessary to avoid increases in monthly debt service, necessitated by any combination of loans available through CHFA, Marks-Foran, CDBG, HUD 312, FmHA, refinancing/rehabilitation by private lending institutions, or local agency lending programs, which are necessary to cover the cost of meeting rehabilitation standards, as determined by increased rents, which either would exceed the affordable rents for low-income households residing in the rental property at the commencement of rehabilitation work funded by the local agency or by others; or which would make it economically infeasible to use available subsidies, such as Section 8, in order to provide affordable rents to low-income households.

(h) The Loan Committee may modify income requirements and definitions to allow a local entity to use standards more compatible with those used in local programs if the purpose of this program is furthered by such modification.

HISTORY:
1. Amendment filed 10-2-81; effective thirtieth day thereafter (Register 81, No. 40).
2. Amendment filed 11-2-82; effective thirtieth day thereafter (Register 82, No. 45).
3. Amendment filed 6-3-85; effective thirtieth day thereafter (Register 85, No. 23).
4. Amendment if subsections (e) and (f) (2) filed 3-17-87; effective thirtieth day thereafter (Register 87, No. 12).

7406. Loan Limits.

The following limitations shall apply to all Fund commitments or deferred payment loans made by local entities:

(a) The Loan Committee shall authorize no more than 10 percent of the appropriation to the Fund for rehabilitation activities of code enforcement agencies pursuant to Section 7404(a) (4). Not less than 20 percent of the appropriations to the Fund on or after January 1, 1980 shall be expended in rural areas.

(b) Loans for direct rehabilitation and repairs by code enforcement agencies.
(1) The maximum amount of funds loaned to a local entity shall be $10,000 per unit.
(2) Funds received pursuant to this subsection shall be applied to the total permitted by subsection (a) of this section.
(3) The maximum loan from the Fund plus other indebtedness against the property shall not exceed 90 percent of the anticipated after-rehabilitation value of the property.
(c) Loans to low and moderate income owner-occupants of a unit to be assisted.
(1) The maximum deferred payment loan per unit shall be $10,000 or $20,000 when there are room additions subject to the limitation of subdivisions (2) and (3), and may be subordinate to prior loans and liens.
(2) The maximum deferred payment loan plus other indebtedness against the property shall not exceed 90 percent of the anticipated after-rehabilitation value of the property. The existence of senior citizen tax deferral liens shall not be included in the calculation of indebtedness.
(3) Loans shall be limited to the amount necessary to cover the cost of meeting rehabilitation standards which cannot be financed by any combination of funds otherwise available without exceeding the borrower's ability to afford shelter expenses. Such funds may be derived from sources such as Marks-Foran, CHFA, CDBG, HUD 312, FmHA, or funds from private lenders. A loan to an elderly owner-occupant of low income may be permitted without requiring the other financing specified in subsection 7404(f)(3). With Department permission, this requirement may also be waived where its enforcement would require loans from other sources in such small amounts that the local entity determines that the administration and processing of such other loans is impractical or unreasonable.
(4) The borrower shall receive only one deferred payment loan.
(5) Exceptions to subparagraphs (c)(1), (c)(2), and (c)(4) may be recommended by a vote of the Loan Committee if it finds the presence of extraordinary circumstances, such as where the existing loan limit is not sufficient to cover costs attributed to retrofitting a unit for the handicapped, or where there are urgent health and safety needs, such as a polluted water supply or severe foundation problems. In either case, the local entity must document that no other funds are available for this purpose.
(d) Loans to owners of rental units.

(1) The maximum deferred payment loan to an owner of rental units shall be $10,000 per unit, or $20,000 when there are room additions, $5,000 per residential hotel room, and $200,000 per housing development, subject to the limitations of subdivisions (2) and (3). Maximum loan amounts shall be based on the number of units after rehabilitation. The deferred payment loan may be subordinate to prior loans and liens.

(2) The maximum deferred payment loan plus other indebtedness against the property shall not exceed 90 percent of the anticipated after-rehabilitation value of the property.

(3) Loans qualifying under Section 7404(g)(5) shall be limited to the amount of the cost of meeting rehabilitation standards which exceed the amount which can be financed by any combination of funds otherwise available without exceeding monthly debt service, as determined by increased rents, which either would exceed the affordable rents for one or more low-income households residing in the rental property or having been displaced from the rental property at the commencement of rehabilitation work funded by the local entity or by CHFA; or make it economically infeasible to accept subsidies, such as Section 8, available to provide affordable rents to low-income households. With Department permission, this requirement may be waived where its enforcement would require loans from other sources in such small amounts that the local entity determines that the administration and processing of such other loans is impractical or unreasonable.

(4) The borrower shall receive only one deferred payment loan for each housing development assisted.

(5) Exceptions to subparagraphs (d)(1), (d)(2), and (d)(4) may be recommended by a vote of the Loan Committee if it finds the presence of extraordinary circumstances, such as where the existing loan limit is not sufficient to cover costs attributed to retrofitting a unit for the handicapped, or where there are urgent health and safety needs, such as a polluted water supply or severe foundation problems. In either case, the local entity must document that no other funds are available for this purpose.

HISTORY:
1. Amendment filed 10-2-81; effective thirtieth day thereafter (Register 81, No. 40).
2. Amendment of subsection (d) filed 11-2-82; effective thirtieth day thereafter (Register 82, No. 45).
3. Editorial correction of subsection (d)(3) filed 1-6-83 (Register 83, No. 2).
4. Amendment filed 6-3-85; effective thirtieth day thereafter (Register 85, No. 23).

7406. Rates and Terms.
The following rates and terms apply to all commitments and loans from the Fund.

(a) Commitments of funds to local entities for borrowers.

(1) All funds committed from the Fund to local entities shall be loaned to borrowers within a period to be determined by the Department.

(2) The Loan Committee may provide for a waiver of interest payments when, and to the extent that, a local entity remits to the Department, in advance on behalf of the borrower, a sum equal to not less than 15 percent of the original principal balance of the loan to the borrower. This sum shall be in lieu of interest. Local entities may choose to make such advance payments when they make loans to borrowers at less than 3 percent.
(3) Funds, including loan principal and interest, including any interest attributable to delinquency paid thereon by borrowers, shall be repaid by local entities to the Department promptly as borrowers repay loans to local entities.

(b) Loans to local entities for direct rehabilitation and repair by code enforcement agencies.

1. Loans made pursuant to this subsection shall not bear interest, except as provided under (b)(2).

2. Any rehabilitation expenditures pursuant to this subsection shall be made a special assessment or lien against the properties affected and shall require that the full amount collected by the local entities, up to the cost of rehabilitation, and any interest collected on that sum, be promptly repaid to the Fund.

3. Loan funds shall be expended within a period to be determined by the Department.

(c) Loans to low or moderate-income owner-occupants of units to be assisted.

1. Loans from local entities to borrowers shall bear simple interest at the rate of 3 percent per annum on the original balance which shall be payable to the local entities when the loan is due.

2. Payment of interest by the borrower may be waived or adjusted to less than 3 percent only when a local entity complies with the requirements of subsection (a)(3).

3. Loans to elderly borrowers shall be due and repayable to the local entity upon sale, conveyance or transfer of the property or any interest therein, although the borrower may repay the entire amount of the loan earlier at his or her discretion. Loans shall also be due and repayable if the elderly borrower no longer occupies the unit as his or her principal residence for reasons other than medical treatment or disability, requiring a temporary alternative residence for the elderly borrower.

4. Loans to non-elderly owner-occupants shall be due and repayable to the local entity if the borrower no longer occupies the unit as his or her principal residence or upon sale, conveyance or transfer of the property or any interest therein to any person other than a person of low or moderate income who is eligible pursuant to Section 7404(f). Loans shall have five-year terms, which may be renewed as long as the property is not transferred, the borrower continues to occupy the property and the borrower's income and assets are such that the deferred payment loan could not be feasibly repaid by refinancing from other sources. A local entity shall only renew loans for one five-year period at a time. A borrower may repay the entire amount of the loan earlier at his or her discretion. If the borrower becomes elderly during the term of the loan, the loan shall be repaid pursuant to subsection (3).

5. Local entities may not approve or agree to any refinancing, assumption or subordination with respect to a Program loan or real property securing the loan without the prior approval of the Department.

(d) Loans to owners of rental units.

1. Loans from local entities to borrowers shall bear simple interest at the rate of 3 percent per annum on unpaid principal balance which shall be payable to the local entity when the loan is due.
(2) Loans shall have five-year terms unless the local entity and the Department determine that a longer term is required to ensure the economic feasibility of obtaining other rehabilitation financing or accepting subsidies. The initial five-year term may be renewed up to five additional five-year periods for a total term of up to thirty years, as long as the local entity determines that low income households residing in the rental units will benefit, pursuant to the loan agreement. Local entities shall renew loans only for one five-year period at a time unless multiple five-year periods are essential to the feasibility of continuing to benefit low-income households.

(3) Local entities may not approve, or agree to any refinancing, assumption or subordination with respect to a Program loan or real property securing the loan without the prior approval of the Department.

(e) Incremental repayments to either the Department or local entities shall not be permitted.

HISTORY:
1. Amendment filed 10-2-81; effective thirtieth day thereafter (Register 81, No. 40).

4. Amendment filed 6-3-85; effective thirtieth day thereafter (Register 85, No. 23).

7410. Conditions of Fund Commitments to Local Entities.

The following special conditions shall apply to all fund commitments made to local entities.

In addition, local entities shall agree not to discriminate, due in whole or in part to the consideration of conditions, characteristics or trends in the neighborhood or geographic area surrounding the housing development, unless it can demonstrate that such consideration in the particular case is required to avoid an unsafe and unsound business practice.

(c) Local entities shall agree not to substitute commitments from the Fund for similar local funds. This requirement applies to the local entities overall rehabilitation activities in the jurisdiction, rather than on a loan-by-loan basis.

(d) The Standard Agreement with local entities shall specify, in addition to the other items in this section, conditions including, but not limited to:

Reports shall be submitted on a semi-annual basis or at other intervals required by the Department. The Department shall determine the required contents of the reports.

(f) Pertinent information on each loan to borrowers shall be provided promptly to the Department in the form required by the Department. All loan documents and agreements related to loans to borrowers shall be kept on file by the local entity as directed by the Department.

(g) Primary responsibility for monitoring and enforcing conditions of the loans shall be taken by local entities, and such enforcement shall be taken promptly by the local entity to protect the security of the loan or the benefits to low-income tenants. Local entities shall provide that inspections of the premises to be rehabilitated by loan proceeds are performed and that such work meets applicable code standards.

(h) Notwithstanding any other provisions of these regulations, and any amendments thereto, or any terms of any documents, agreements or notes executed by and between the Department and the local public entity, the obligation of the local public entity to repay principal and interest on a commitment made under these regulations shall be limited to that amount actually recovered from each loan made by the local public entity.

The following general conditions shall apply to all loans made by local entities to borrowers.

(1) A loan agreement, which, in the case of loans to rehabilitate rental units, shall be recorded or referenced in a recorded document;
(2) A promissory note;
(3) A security instrument to be recorded;
(4) Truth-in-lending disclosure; and
(5) Other documents required by the Department or required by the local entity and approved by the Department.

(5) Terms and conditions relating to defaults in repayment or compliance with the loan agreement;
(6) Provisions allowing the local entity or Department, their agents or employees, with the prior consent of the borrower and the occupant in each instance, to enter upon and inspect the lands, buildings, and equipment of the borrower at any time during or after rehabilitation of the subject property; or to inspect the books and records of the owner related to the subject loan funds, at any time during or after rehabilitation of the property assisted by the loan;

(8) Terms and conditions related to extensions, refinancing, assumptions, or subordination of the loan; and
(9) Provisions that enforcement shall be by proceeding at law or in equity, at the option of the local entity or department, against any person or persons violating or attempting to violate any covenant, either to restrain violation or to recover damages.
(c) The loan agreement with borrowers to rehabilitate rental units shall include, in addition to the provisions contained in subdivision (b), provisions covering the following special conditions:
(1) Pursuant to Section 7416(a)–(d), rental units in the residential property shall be rented to low income households;
(2) Loans pursuant to Section 7404(a) (1) shall be made only if the borrower agrees to restrict rents as required by regulation of the California Housing Finance Agency pursuant to subdivision (g) of Section 51307;
(3) Loans pursuant to Section 7404(a) (2) shall be made if the borrower contracts during the term of the loan to limit rent increases as provided in Section 37922.5 of the Health and Safety Code;

In the event such index is no longer published or available, an alternative index shall be selected by the Department. The alternative shall be based on the same factors which determine the CPI to the extent possible. However, if the units are located in a community which has adopted rent stabilization ordinances which would require a lower increase in rents, the local provisions shall apply.

(6) Where program areas under Section 7404(a)(5) and (6) overlap with other eligible program areas, the provisions which require the lowest increase in rents shall apply.

(7) Loans to rehabilitate one or more units for which Section 8 Housing Assistance Payments will be used, shall be made only if the borrower agrees during the term of the loan not to raise rents by an amount greater than the annual rent adjustments for Section 8 units as determined and published by the U.S. Department of Housing and Urban Development;

(8) Terms and conditions related to tenancy standards and procedures pursuant to Section 7416.

(9) The loan agreement shall be binding on the borrower and successors in interest for the full term of the loan, regardless of sale, transfer or prepayment.

(2) the additional units or conversions are necessary to make rehabilitation and continued maintenance economically feasible. 

In cases where nonresidential structures are converted to residential use, the borrower must agree to execute documents to ensure that units created will be reserved for occupancy by low-income households pursuant to Section 7416 for a period of at least fifteen years by agreeing to extend the loan after each five-year term as provided for in Section 7408(d).

(b) Borrowers shall agree to rent 100 percent of the residential units in a housing development rehabilitated with loans from the Fund, other than owner-occupied residences or units, to low-income households during the term of the loan, except where it is necessary to preserve the economic feasibility of the development or avoid displacement. In such cases, the Department may approve a lower percentage, however, in no case shall less than 50 percent of the units be designated for low-income households. If the designated number of low-income units are initially occupied by non-low income households but subsequently become vacant, the borrower shall agree to rent such units to low-income households. The borrower shall affirmatively seek such households by contacting the local housing authority. Where the borrower cannot obtain such low-income tenants by contacting the local housing authority, the borrower shall contact the local entity for guidance. The local entity shall contact the Department if its efforts do not result in low-income tenants for the vacant units.

(c) If rental subsidies are available, borrowers may accept rent subsidies for assisted units.

(d) Rents shall remain at pre-loan application levels until rehabilitation is completed. After rehabilitation, increases in rents shall be limited to avoid displacement of low and moderate income households pursuant to Government Code Section 7263.3(b). Proposed after-rehabilitation rents shall be established by the local entity and borrower prior to approval of the loan agreement by the Department. Rents shall be set at levels in accordance with the provisions set forth in Section 7412(c) and consistent with the economic feasibility of the housing development and a fair rate of return to the owner of the housing development as determined by the Department.

(f) The borrower and tenants shall comply promptly and fairly with their responsibilities under law and as set forth in the lease. In addition, the borrower shall make every effort feasible to ensure the stability and security of tenants.

(g) If a tenant’s income exceeds the standard pursuant to which he or she was accepted for tenancy, that fact alone shall neither cause the tenant’s eviction nor be a violation of the borrower’s loan agreement or these regulations.
