2021-2029 Housing Element Organization

Part 1: Housing Plan

Part 1 of the 2021-2029 Housing Element is the City's "Housing Plan" which includes the goals, policies, and programs the City will implement to address constraints and needs. The City's overarching objective is to ensure that decent, safe housing is available to all current and future residents at a cost that is within the reach of the diverse economic segments which comprise Rancho Santa Margarita.

Part 2: Background Report

Part 2 of the 2021-2029 Housing Element is the "Background Report" which identifies the nature and extent of Rancho Santa Margarita's housing needs, including those of special populations, potential housing resources (land and funds), potential constraints to housing production, and energy conservation opportunities. By examining the City's housing, resources, and constraints, the City can then determine a plan of action for providing adequate housing, as presented in Part 1: Housing Plan. In addition to identifying housing needs, the Background Report also presents information regarding the setting in which these needs occur. This information is instrumental in providing a better understanding of the community, which in turn is essential for the planning of future housing needs.

Appendix A: Housing Sites Inventory

The Housing Element must include an inventory of land suitable and available for residential development to meet the City's regional housing need by income level.

Appendix B: Public Engagement Summary

As part of the Housing Element Update process, the City hosted numerous opportunities for the community and key stakeholders to provide feedback on existing housing conditions, housing priorities, priority areas for new residential growth, and topics related to fair housing. Public participation played an important role in the refinement of the City's housing goals and policies and in the development of new housing programs, as included in Part 1: Housing Plan. The public's input also helped to validate and expand upon the contextual information included in Part 2: Background Report. The City's efforts to engage the community in a meaningful and comprehensive way are summarized in Appendix B.

Table HP-2: Quantified Objectives – 2021-2029	21

This page intentionally left blank.

1. Introduction

This section presents the City's Housing Plan, including goals, policies, and programs the City will implement to address constraints and needs for the 2021-2029 planning period. The Housing Plan focuses on:

1. Housing diversity and opportunities;
2. Maintenance and preservation of housing and neighborhoods;
3. Housing assistance; and
4. Fair housing.

Quantified Objectives for new construction, rehabilitation and conservation are also identified for this planning period.

2. Goals and Policies

This Housing Plan (Part 1) reflects the City's experience during the past eight years (as summarized in Part 2, the Housing Element Background Report) and sets forth the goals, policies, and programs to address the identified housing needs and issues for the 2021–2029 planning period. Quantified Objectives for new construction, rehabilitation and conservation are also identified for this planning period.

The goals and policies that guide the City's housing programs and activities are as follows:

2A. Housing Diversity and Opportunities

Persons and households of varying ages, types, income levels and lifestyles have different housing needs and preferences that change over time. Maintaining diversity in types of housing allows all persons, regardless of family type or income, to have the opportunity to find housing suitable to their needs.

Goal 1: Plan for a range of housing opportunities to adequately meet the existing and projected needs of the entire community.

Policy 1.1: Allow for a variety of housing types and prices throughout the City to increase housing choice and ensure that households of all types and income levels have the opportunity to find suitable housing.

Policy 1.2: Maintain adequate capacity to accommodate the City's unmet Regional Housing Needs Allocation (RHNA) for all income categories throughout the planning period.

Policy 1.3: Encourage a geographic dispersal of units affordable to all income levels throughout the City.

- Policy 1.4:** Ensure that new residential development and modifications to existing development continue to honor the master plan's vision of the community in an objective manner.
- Policy 1.5:** Reduce actual and potential constraints to the development, maintenance, and improvement of housing.
- Policy 1.6:** Support the concept of "aging in place" by maintaining a range of housing that allows people to remain in the community as their housing needs change.
- Policy 1.7:** Ensure that new housing developments provide their share of adequate parks and recreational facilities to meet community needs.
- Policy 1.8:** In accordance with State Housing Law, allow by-right approval for housing developments proposed for non-vacant sites included in one previous housing element inventory and vacant sites included in two previous housing element inventories, provided that the proposed housing development consists of at least 20 percent lower income and affordable housing units.

2B. Maintenance and Preservation of Housing and Neighborhoods

Housing and neighborhood condition is an important indicator of the quality of life in a community. As the community ages, Rancho Santa Margarita may be confronted with issues of deteriorating housing, public improvements and community facilities. The existing high-quality, well-planned development and neighborhoods need to be maintained and preserved. Multi-faceted strategies will be used to address the needs of the community as it ages.

Goal 2: Maintain and improve existing neighborhoods and housing stock.

- Policy 2.1:** Work with Homeowner Associations and community foundations to promote the maintenance of the housing stock to enhance the quality-of-life in established neighborhoods and promote community identity and pride.
- Policy 2.2:** Maintain the quality of ownership and rental housing by enforcing compliance with housing and property maintenance standards.
- Policy 2.3:** Through public-private partnerships and collaborative efforts, rehabilitate substandard housing where needed.
- Policy 2.4:** Support public education programs that promote property maintenance.

2C. Housing Assistance

Certain segments of the population may have more difficulty in finding decent, affordable housing due to special circumstances. These “special needs” groups include lower-income households, the elderly, disabled persons, large families, single-parent households, persons at-risk of homelessness, and the homeless. The City of Rancho Santa Margarita works to provide a variety of affordable housing opportunities for all economic segments of the community.

Goal 3: Use public-private partnerships and collaborative efforts to ensure that all segments of the community have access to safe and decent housing that meets their special needs.

Policy 3.1: Participate in programs assisting in the production and conservation of decent, safe, and attractive housing affordable to lower- and moderate-income households and other special needs groups.

Policy 3.2: Encourage the provision of housing for homeless persons through the use of State and federal programs and through public-private partnerships and collaborative efforts.

Policy 3.3: Support collaborative partnerships of nonprofit organizations, affordable housing developers, major employers, and for-profit developers to conserve affordable housing.

Policy 3.4: Encourage housing design standards that promote the accessibility of housing for persons with special needs.

Policy 3.5: Accommodate persons with disabilities who seek reasonable waiver or modification of land use controls and/or development standards pursuant to procedures and criteria set forth in the Rancho Santa Margarita's Zoning Code (RSMZC).

Policy 3.6: Ensure that units produced for lower- and moderate-income households are made available to those groups and maintained as affordable units.

2D. Fair Housing

In order to make provisions for the housing needs of all segments of the community, the City must affirmatively further fair housing and ensure that equal and fair housing opportunities are available to all residents.

Goal 4: Affirmatively further fair housing, providing equal housing opportunity for all residents.

Policy 4.1: Encourage and support the enforcement of laws and regulations prohibiting discrimination in lending practices and insurance practices to purchase, sell, rent, and lease property.

Policy 4.2: Support fair housing efforts to ensure that all income segments of the community have unrestricted access to appropriate housing.

Policy 4.3: Assist in affirmatively furthering and enforcing fair housing laws by providing support to organizations that provide outreach and education regarding fair housing rights, receive and investigate fair housing allegations, monitor compliance with fair housing laws, and refer possible violations to enforcing agencies.

3. Housing Programs

Rancho Santa Margarita offers a variety of housing opportunities to meet the needs of the community. This section of the Housing Plan addresses the issues identified in the Background Report (Part 2) of this Housing Element and provides a strategy to achieve the City's housing goals. The housing programs are discussed in detail below.

3A. Provide Adequate Housing Sites

A key element in satisfying the housing needs of all segments of the community is the provision of adequate sites for housing. This is an important function of both the General Plan and zoning.

Program 1. Regional Housing Needs Allocation (RHNA): The Land Use Element of the Rancho Santa Margarita General Plan and the City of Rancho Santa Margarita's Zoning Code (RSMZC) designate land within the City for a range of residential densities. The City of Rancho Santa Margarita received a RHNA of 680 units for the 2021-2029 6th Cycle Housing Element planning period. The City has identified the projected development of up to 40 accessory dwelling units (ADUs) as a credit towards meeting a portion of the City's State-mandated RHNA. After accounting for ADUs, the City has a remaining RHNA of 640 units, including 302 lower income units (extremely/very low and low), 113 moderate income units, and 225 above moderate income units.

The City must identify adequate sites with appropriate density and development standards to accommodate this RHNA. Without adjustments to the City's land use policy and zoning standards, the City would not be able to fully accommodate the remaining RHNA. As part of this Housing Element update, the City has identified candidate sites to be designated with either a Workforce Housing Overlay or Mixed-Use Housing land use/zoning designation. A summary of RHNA strategies is shown in Table HP-1 and further described in Section 5A of the Background Report (Part 2) of this Housing Element. Detailed information on the candidate sites is provided in Appendix A.

Table HP-1: RHNA Sites Strategy

	Extremely/ Very Low	Low	Moderate	Above Moderate	Total
RHNA	209	120	125	226	680
Credits (ADUs)	10	17	12	1	40
Workforce Housing Overlay	107	62	62	113	344
Mixed-Use Housing	97	58	58	113	326
Total	214	137	132	227	710
Surplus¹	5	17	7	1	30
Percentage of Total Sites that are Surplus	2%	12%	5%	<1%	4%

1. HCD recommends buffer in the housing element inventory of at least 15 to 30 percent capacity more than required, especially to accommodate the lower income RHNA. A modest surplus also allows various sites identified in the Housing Element to identify at different income levels than those anticipated, while still maintaining an adequate supply of available sites.

The RHNA Sites Strategy shown in Table HP-1 provides the capacity to accommodate at least 710 new units at all income levels, exceeding the total RHNA allocation for Rancho Santa Margarita by 30 units, or 8%. This small buffer is necessary to address the No Net Loss (SB 166, codified in Government Code Section 65863) requirement of maintaining an inventory of sites adequate to accommodate the City's RHNA throughout the planning period, as development occurs on the selected sites that may result in fewer units (or units at different income levels) than assumed in this inventory. The candidate sites can accommodate the RHNA for all income levels through year 2029. The City will continue to maintain an inventory of available sites for residential development and will continue to make it available on the City's website; it will also be provided to prospective residential developers upon request.

Program Objectives and Timeframe:

- As part of the annual General Plan Implementation Report, the City will monitor and report on progress made toward meeting the 2021-2029 RHNA allocation at all income levels.
- Continue to maintain an inventory of sites suitable for residential development affordable at all income levels and provide that information online and to interested developers.

- Within three years of Housing Element adoption, and no later than October 2024, amend the RSMZC to establish the Workforce Housing Overlay and amend the General Plan and RSMZC to establish the Mixed-Use Housing land use/zoning designation in order to designate adequate candidate sites with the objective of meeting the City's remaining RHNA of 640 units. All candidate sites are anticipated to accommodate a portion of the City's remaining lower-income RHNA of 302 units, the Workforce Housing Overlay and Mixed-Use Housing land use/zoning designation must meet the requirements of Government Code 65583.2. Among other things, the sites must have a density of at least 30 units per acre, be large enough to permit at least 16 units, and be zoned to allow housing by-right with at least 20 percent of the units affordable to lower-income households.
- Support applications by qualified housing developers to pursue local, State and federal funds for the rehabilitation and/or construction of housing targeted for persons with disabilities, including persons with developmental disabilities, provided the proposed project is consistent with the City's General Plan.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 2. Adequate Sites Monitoring (SB 166 – No Net Loss): To ensure that the net future housing capacity is maintained to accommodate the City's RHNA, the City will create an updated inventory of adequate housing sites for each income category. This inventory will detail the amount, type, size and location of vacant land (if any), and recyclable properties and parcels that are candidates for consolidation to assist developers in identifying land suitable for residential development. In addition, the City will continuously monitor the sites inventory and the number of net units constructed in each income category. If the inventory indicates a shortage of adequate sites to accommodate the remaining RHNA, the City will identify alternative sites so that there is no net loss of residential capacity pursuant to Government Code Section 65863.

To facilitate annual evaluation, the City will implement a formal ongoing project-by-project procedure pursuant to Government Code Section 65863 which will evaluate identified capacity in the sites inventory relative to projects or other actions potentially reducing density and identify additional sites as necessary. This procedure and annual evaluation will address non-residential or mixed-use zoned land to determine whether these sites are being developed for uses other than for housing. If a shortfall in sites capacity occurs, the City will identify replacement sites within six months.

Program Objectives and Timeframe:

- By the end of 2022, develop a formal ongoing procedure to evaluate capacity and identify additional sites as necessary.
- Continue to perform project-by-project evaluation to determine if adequate capacity remains for the remaining RHNA.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 3. Accessory Dwelling Units: Pursuant to State law, accessory dwelling units (ADUs) are an important option for attainable housing. The City plans to meet a modest portion of the 2021-2029 RHNA through the provision of ADUs (40 units, or 5.8%).

The City will continue to apply RSMZC regulations that allow ADUs and JADUs by-right in all residential zones, in accordance with State law. The City of Rancho Santa Margarita will amend the ordinance as necessary based on future changes to State law and will work with HCD to ensure continued compliance with State law. The City will also continue to monitor the extent of ADU production to ensure that the Housing Element goals can be met. To facilitate ADU development, the City will consider the following:

- Provide technical and resource guides online.
- Pursue State funding available to assist lower- and moderate-income homeowners in the construction of ADUs.
- Conduct increased outreach and education on ADU options and requirements.

Program Objectives and Timeframe:

- Promote ADU opportunities to interested residents.
- Achieve 40 ADUs over eight years. By 2025, assess the City's progress in ADU construction and if the City is not meeting its construction goal, evaluate incentives as appropriate.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 4. Public Property Conversion to Housing Program: In accordance with the requirements of Government Code Section 54230 et. seq., the City has included Program 4 to address State requirements related to City-owned land. The City has not currently identified any City-owned land as surplus land, as defined by the California Government Code. Should, in the future, any City-owned land be determined to be “surplus”, the City will maintain a list of such surplus City-owned lands, including identification of address, APN, General Plan land use designation, zoning, current use, parcel size, and status (surplus land or exempt surplus land), in accordance with State Housing Law. In accordance with State Housing Law, should surplus land be identified in the future, the City will work with non-profits and public agencies to evaluate the feasibility of transferring surplus City-owned lands not committed to other City purposes for development of affordable housing by the private sector. The inventory will be updated annually in conjunction with the Annual Progress Report (“APR”) (Program 1). Any disposition of future surplus lands shall be conducted consistent with the requirements of Government Code Section 54220 et. seq.

Program Objectives and Timeframe:

- Maintain an adequate inventory of surplus lands, if any.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

3B. Provide, Maintain, and Improve Affordable and Special Needs Housing

Programs to achieve this goal address two issue areas:

1. Provision and conservation of affordable housing for all economic segments of the community and special needs groups; and
2. Maintenance and preservation of the City's housing stock and neighborhoods.

Program 5. Housing Choice Voucher (Section 8) Assistance: The City of Rancho Santa Margarita cooperates with the Orange County Housing Authority (OCHA), which administers the Section 8 Voucher Program. The Housing Assistance Payments Program assists low income, elderly and disabled households by paying the difference between 30% of an eligible household's income and the actual/market rent. This program addresses the needs of overpayment and overcrowding of very-low- and extremely-low-income households through the provision of adequately sized apartments at affordable rents. According to the Orange County Housing Authority, in 2020, a total of 138 Housing Vouchers were provided to Rancho Santa Margarita residents including 34 disabled individuals, 61 seniors, 9 homeless and Vets (Veterans Affairs Supportive Housing or VASH), and 11 Continuum of Care (homeless) vouchers.

The City facilitates use of the Section 8 program within its jurisdiction by advertising OCHA Section 8 programs on the City's website and newsletters.

Program Objectives and Timeframe:

- The City will cooperate with OCHA to continue to assist 138 households annually, and if possible, expand assistance to an increased number of households, particularly families with children.

Responsible Agency: Development Services Department and OCHA

Funding Source: Section 8 funds

Program 6. Homeless Services: The City participates in the County's Continuum of Care to assist homeless persons to transition towards self-sufficiency. Through the Continuum of Care Program, the City offers emergency and supportive services to individuals and families at risk of becoming homeless.

According to the City's Consolidated Plan, homelessness is not a significant issue in the City, but services and shelter for victims of domestic violence and assistance to prevent homelessness were identified as needs. The City continues to utilize a portion of its CDBG public service grant resources to support local agencies that address these needs.

Program Objectives and Timeframe:

- Continue to coordinate with the County of Orange and homeless service providers to ensure that homeless persons and persons threatened with homelessness are referred to shelters and appropriate social service agencies.
- Continue to partner with the City's homeless liaison, Mercy House, to provide services and resources,

Responsible Agency: Development Services Department

Funding Source: CDBG funds and Permanent Local Housing Assistance (PLHA) grant funding.

Program 7. Code Enforcement: The Code Enforcement Program is operated through the City's Development Services Department. Code Enforcement staff cooperates with the various Homeowner Associations in the City to respond to complaints related to substandard housing, property maintenance, overgrown vegetation, trash and debris, improper occupancy, and other nuisance and municipal code violations and complaints.

Program Objectives and Timeframe:

- The City's Code Enforcement staff will continue to work with Homeowner Associations to enforce the City's property maintenance standards and the City's building and zoning codes.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 8. OCHA Special Needs Groups Rental Assistance Programs:

The County administers rental assistance programs targeting special needs groups, including families whose children are at risk of being placed in out-of-home care, disabled persons, homeless and veterans. These programs serve extremely-low-income persons and include the following:

- **Family Unification Program** which provides Section 8 assistance to families whose children are at risk of being placed in out-of-home care or delayed in returning from care because of the families' inadequate housing.
- **Shelter Plus Care Program** which provides rent subsidies to homeless persons with disabilities.
- **Veterans Affairs Supportive Housing (VASH) Program** which provides permanent housing subsidies and case management services to homeless veterans with mental and addictive disorders.
- **Rental Assistance for Non-Elderly Persons with Disabilities Program** which provides incremental Section 8 Housing Choice Vouchers for non-elderly disabled families.

Program Objectives and Timeframe:

- The City will continue to facilitate the use of the Section 8 and other Housing Authority programs in its jurisdiction by advertising programs on the City's website and in its newsletter.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 9. First Time Homebuyer Assistance: With limited public resources, the City is not in a position to substantially subsidize a rental or ownership housing development. Nonetheless, the City will continue to provide referrals to the County's Housing Authority and/or local nonprofit agencies that provide homebuyer assistance. The City will also seek funding, as available, for first time homebuyer assistance and work with the County's Housing Authority and local nonprofit to leverage other sources of funding.

Program Objectives and Timeframe:

- Continue to provide referrals to the County's Housing Authority and/or local nonprofit agencies that provide homebuyer assistance.
- On an ongoing basis, identify and evaluate funding opportunities for first time homebuyer assistance.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 10. Affordable Housing Development: The City does not have a redevelopment successor agency or housing authority with which to fund affordable housing development. Additionally, local resources and affordable housing subsidies are limited. Accordingly, the City will rely on the following actions to encourage affordable housing production during the planning period.

- *Collaborate with Affordable Housing Developers:* The City will collaborate with affordable housing developers to develop, conserve and promote rental and ownership housing.
- *Provide Letters of Support for Funding Applications:* The City will support developers applications for funding (such as Low Income Housing Tax Credit or State HOME funds) for affordable housing, provided the proposed project is consistent with the City's General Plan.

Program Objectives and Timeframe:

- Annually pursue affordable housing funds available at the California Department of Housing and Community Development (HCD) for new construction and acquisition/rehabilitation of affordable housing.
- Achieve the development of 48 affordable housing units over eight years.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 11: Density Bonus: The City will provide for density bonuses consistent with State law, including density bonuses and incentives for projects that contain 100% very low- and low-income units. The City will monitor State law updates which impact density bonuses and will update local plans and programs as necessary.

Program Objectives and Timeframe:

- Continue to implement density bonuses consistent with State law on an ongoing basis.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 12. California Accessibility Standards Compliance Program:

The City will continue to ensure that all construction projects requiring building permits comply with the State of California accessibility standards. The City will provide technical assistance as part of the building permit review process to assist property owners and contractors in understanding this law and related requirements applied to new development and/or retrofit or rehabilitation projects for public, residential, and commercial structures. The City will also provide a link on the City's website to the Division of the State Architect's web page that provides various access compliance reference materials, including an advisory manual and answers to frequently asked questions.

Program Objectives and Timeframe:

- Continue to ensure that housing units accommodate residents with disabilities and make updates to the City's website by August 2022

Responsible Agency: Development Services Department

Funding Source: Departmental budget and Disability Access & Education Fees (CASp fees)

Program 13. Energy Conservation: The uniqueness of Rancho Santa Margarita is due in large part to its many natural and open space resources. The City has taken strong efforts to create policies to protect and maintain natural resources such as water, soils, wildlife, and minerals, and to prevent wasteful resource exploitation and destruction. The Conservation/Open Space Element of the City's General Plan specifically addresses the City's goals, policies and objectives to protect environmental resources and open space.

The City will continue to implement energy-efficient standards for new construction and rehabilitation projects, including the California Green Building Standards Code. Information regarding the City's energy-efficiency standards and available programs to assist homeowners and property owners, including those identified in the Housing Element Background Report (Part 2 of this Housing Element), will be made available on the City's website and at the permit counter.

As part of the City's 2020 General Plan Update, the City committed to implementing an Energy Action Plan (EAP), which will identify opportunities to further reduce GHG emissions through a variety of energy-related programs and projects. This effort will further enhance the City's commitment to promoting energy conservation Citywide.

Program Objectives and Timeframe:

- Continue to explore ways to promote energy conservation and sustainability.
- Implement an Energy Action Plan by March, 2022.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

3C. Remove Constraints

State law requires the Housing Element to address, where appropriate and legally possible, removal of constraints affecting the maintenance, improvement, and development of housing. Implementation of the following programs will help lessen constraints on housing development.

Program 14. Zoning Code Amendments: Zoning Code amendments are needed to address various recent changes to State law:

- *Low Barrier Navigation Centers:* The RSMZC shall be updated to define and permit low-barrier navigation centers consistent with the requirements of Government Code Sections 65660 through 65668, including treating low-barrier navigation centers as a by-right use in areas zoned for mixed use and in nonresidential zones permitting multi-family uses (if applicable).
- *Transitional and Supportive Housing:* The RSMZC shall be revised to ensure that transitional and supportive housing is allowed in residential and mixed-use zones subject to the same standards as a residence of the same type in the same zone consistent with Government Code Section 65583(c)(3), and to allow eligible supportive housing as a by-right use in zones where multi-family and mixed uses are permitted pursuant to Government Code Sections 65650 through 65656.
- *Employee Housing:* The RSMZC will be updated to define “employee housing” distinctly from “agricultural worker housing” and to clarify that employee housing serving six or fewer employees shall be deemed a single-family structure and shall be subject to the same standards for a single-family residence in the same zone, in accordance with the California Employee Housing Act.
- *Workforce Housing:* In order to reduce constraints to workforce housing, the State has requested specific changes to zoning codes related to the definition of Workforce Housing pursuant to Health and Safety Code Section 17021.8. The RSMZC will be updated to define “workforce housing” and to identify that any workforce housing providing no more than 36 beds in a group quarters, or consisting of 12 or fewer units or spaces, shall be deemed an agricultural land use and permitted in the same manner as agricultural uses consistent with Health and Safety Code Section 17021.6. The RSMZC will also be updated to provide for streamlined, ministerial approval of workforce housing that meets the requirements of Section 17021.8.

Objectives and Timeframe:

- Within three years of Housing Element adoption, and no later than October 2024, adopt amendments to the RSMZC.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

Program 15. Development Review Procedures: To facilitate residential development and to comply with State law, the RSMZC will be updated to ensure that eligible multi-family projects with an affordable housing component are provided streamlined review and are subject only to objective design standards consistent with relevant provisions of SB 35 and SB 330, as provided for by applicable sections of the Government Code, including but not limited to Sections 65905.5, 65913.4, 65940, 65941.1, 65950, and 66300. State law defines objective design standards as those that “involve no personal or subjective judgment by a public official and are uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant and public official prior to submittal.”

Program Objectives and Timeframe:

- Within three years of Housing Element adoption, and no later than October 23, 2024, develop procedures to address the streamlining requirements of SB 35 and objective design requirements of SB 330.

Responsible Agency: Development Services Department

Funding Source: Departmental budget

3D. Promote Equal Housing Opportunities

In order to make adequate provision for the housing needs of all segments of the community, the housing program must include actions that promote housing opportunities for all persons regardless of race, religion, sex, family size, marital status, ancestry, national origin, color, or disability.

Program 16. Fair Housing Council of Orange County: Currently, Rancho Santa Margarita contracts with the Fair Housing Council of Orange County (FHCO) to provide fair housing services. Services offered include counseling for landlord/tenant problems, special assistance for ethnic minority and single-parent households, bilingual housing literature and videotape presentations, and housing assistance counseling.

Program Objectives and Timeframe:

- Continue to contract with a qualified provider to provide fair housing services to City residents.
- Advertise fair housing services in the City newsletter and in local periodicals and place posters and brochures advertising fair housing services in both English and Spanish at the public counter, library, post office, and other community locations.

Responsible Agency: Development Services Department

Funding Source: CDBG funds

Program 17. Expand Housing Opportunities: To diversify the City's housing choices, the City must expand opportunities for housing throughout the City.

Program Objectives and Timeframe:

- Within three years of Housing Element adoption, and no later than October 2024, establish the Workforce Housing Overlay and Mixed-Use Housing land use designation/zone to increase housing opportunities throughout the City (Program 1).
- Within three years of Housing Element adoption, and no later than October 2024, amend the RSMZC to facilitate the development of a variety of housing types (Program 14).

Responsible Agency: Development Services Department

Funding Source: Departmental budget

4. Quantified Objectives

State Housing Element Law requires that after the City of Rancho Santa Margarita identifies housing needs, surveys land and financial resources, analyzes constraints, and develops appropriate programmatic and policy responses that reflect the community's unique needs and circumstances, it then set quantified objectives. The quantified objectives are an estimate of the number of units likely to be constructed, rehabilitated, or conserved/preserved by income level during the planning period. The quantified objectives do not represent a ceiling on development, but rather set a target goal for the jurisdiction to achieve, based on needs, resources, and constraints.

Pursuant to Government Code 64483(b)(2), it is recognized that the RHNA may exceed available resources and the community's ability to produce housing. Accordingly, the City's quantified objectives for new construction, rehabilitation and conservation, are presented in Table HP-2. The new construction objective represents a portion of the City's State-mandated RHNA that the City has found to be an appropriate estimate of the likely number of units the private market may develop during the planning period. The City is not responsible for building these units. While the new construction objectives include 48 lower-income units, it must be recognized that the City has no redevelopment agency, and other local resources for affordable housing subsidies are severely limited. No rehabilitation objective is established since the City's housing stock is relatively new and there are no units in need of substantial repair. No conservation objective is identified, as no units are at risk during this planning period.

Table HP-2: Quantified Objectives – 2021-2029

Program Category	Income Category					
	Ex. Low	V. Low	Low	Mod	Above Mod	Totals
New Construction	15	15	18	25	45	118
Rehabilitation	0	0	0	0	0	0
Conservation	0	0	0	0	0	0

1. Introduction

The City of Rancho Santa Margarita is a master planned community that was incorporated on January 1, 2000, making it one of Orange County's newest communities. The City is located in the eastern part of Orange County in the foothills of the Santa Ana Mountains. Rancho Santa Margarita is located approximately four miles southeast of Irvine and 10 miles northeast of the Pacific Ocean. California State Route 241 runs through the City and provides vehicle access. Rancho Santa Margarita has an estimated 2020 population of 48,793.¹

Rancho Santa Margarita prides itself on having a small town character, protected and enhanced by well-designed and well-maintained neighborhoods that complement the natural environment. As such, the community has become a desirable place to live. Rancho Santa Margarita's family-oriented atmosphere is especially appealing to those with younger children. The City is served by two K-12 school districts, Capistrano Unified School District (CUSD) and Saddleback Valley Unified School District (SVUSD), as well as several large private schools.

The community experienced rapid growth from 1980 to 1999, during which time 86.2% of the City's housing stock was constructed. New development has since slowed as the City is essentially built out, although there are some remaining development opportunities within the City boundaries and also in an area designated as Future Planned Community (FPC) within the City's Sphere of Influence (SOI).

State Housing law (Government Code Section 65583) requires that a "housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobile homes, and shall make adequate provision for the existing and projected needs of all economic segments of the community." This Background Report provides updated population, household characteristics, and trends to illustrate housing needs in the community.

Pursuant to Government Code Section 65583 (a), the assessment and inventory must include all of the following:

- Analysis of population and employment trends, documentation of projections, and a quantification of the locality's existing and projected housing needs for all income levels. Such existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584 of the Government Code.

¹ "E-1 Population Estimates for Cities, Counties and the State with Annual Percent Change – January 1, 2020 and 2021," *State of California, Department of Finance* (May 2021).

- Analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.
- An inventory of land suitable for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period, and an analysis of the relationship between zoning, public facilities, and city services to these sites.
- Analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels and for persons with disabilities, including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, local processing and permit procedures, and any locally adopted ordinances that directly impact the cost and supply of residential development.
- Analysis of potential and actual non-governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, requests to develop housing at densities below the minimum densities in the inventory of sites, and the length of time between receiving approval for a housing development and submittal of an application for building permits that hinder the construction of a locality's share of the regional housing need.
- Analysis of any special housing needs, such as those of the elderly, disabled, including developmentally disabled, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.
- Analysis of opportunities for energy conservation with respect to residential development.
- Analysis of existing assisted multi-family rental housing developments that are eligible to change from low-income housing to market-rate during the next 10 years.

This Background Report for the 2021-2029 Housing Element identifies the nature and extent of Rancho Santa Margarita's housing needs, including those of special populations, potential housing resources (land and funds), potential constraints to housing production, and energy conservation opportunities. In addition, this Background Report also includes an evaluation of accomplishments under the prior (5th Cycle) Housing Element, presented herein as Section 2. By examining the City's housing needs, resources, constraints, and progress, the City can then determine a plan of action to accommodate future residential development in accordance with local needs and the Regional Housing Needs Allocation (RHNA). The action plan is presented as the "Housing Plan," which is Part 1 (the policy component) of the Housing Element. In addition to identifying housing needs, this Background Report also presents information regarding the setting in which these needs occur. This information is instrumental in providing a better understanding of the community, which in turn is essential for planning to meet the RHNA and local housing needs.

2. Accomplishments Under 5th Cycle Housing Element

The following section reviews and evaluates the City's progress in implementing the 2013 Housing Element. It reviews the results and effectiveness of programs, policies, and objectives from the previous Housing Element **planning period**, which covered 2013 through 2021. It is noted that there is a difference between the 5th Cycle "planning period" which was from 2013-2021, and the "Regional Housing Needs Assessment period" which was, for SCAG's 5th Cycle, between 2014-2021. This section also analyzes the difference between projected housing need and actual housing production.

2A. Review of 2013 Housing Element

The 2013 Housing Element program strategy focused on the accomplishment of policies and implementation of programs to ensure adequate housing sites, to encourage the production of new housing, including affordable and special needs housing, to encourage the maintenance and preservation of existing housing, to remove various constraints to housing, including housing for special needs populations, and to encourage fair housing and non-discrimination. The 2013 Housing Element identified the following goals:

GOAL 1: HOUSING DIVERSITY AND OPPORTUNITIES

Maintain a range of housing opportunities to adequately meet the existing and projected needs of the entire community.

GOAL 2: MAINTENANCE AND PRESERVATION OF HOUSING AND NEIGHBORHOODS

Maintain and improve existing neighborhoods and housing stock.

GOAL 3: HOUSING ASSISTANCE

Use public-private partnerships and collaborative efforts to ensure that all segments of the community have access to safe and decent housing that meets their special needs.

2B. Housing Production During 5th Cycle RHNA Period

The City's 5th Cycle Housing Element specifically addressed housing needs for Rancho Santa Margarita from October 15, 2014 through October 15, 2021, in line with the **RHNA period (2014-2021)** adopted by the Southern California Association of Governments (SCAG), which, as described above, is different than the **planning period (2013-2021)**.

Table H-1 shows the total number of housing units built in the City during the 5th RHNA cycle to date and compares these units with the units required to be accommodated under the Regional Housing Needs Allocation. As the City is largely built out, SCAG identified a 2014-2021 future housing need for Rancho Santa Margarita of only two new units – one very low-income unit and one low-income unit.

During the 2014-2021 RHNA period, the City added 37 new units to its housing stock. This includes development of Dahlia Court, a 36-unit market rate single-family attached townhome project and one accessory dwelling unit, with a rental rate affordable to lower-income households. The 2014-2021 RHNA period saw less housing production than earlier cycles primarily due to the built-out nature of the community.

TABLE H-1: REGIONAL HOUSING NEEDS ALLOCATION – 5TH CYCLE PROGRESS

Status	Extremely Low	Very Low	Low	Moderate	Above Moderate	TOTAL
RHNA Allocation	0	1	1	0	0	2
Built	0	0	1	0	36	37
Under Construction/Permitted	0	0	0	0	0	0
Remaining Allocation	0	1	0	0	+36 (surplus)	+35 (surplus)

Sources: City of Rancho Santa Margarita 2013-2021 Housing Element; 2020 General Plan Annual Progress Report; City of Rancho Santa Margarita, 2021

2C. Appropriateness and Effectiveness of 2013 Housing Element

Most of the City's existing housing programs have been effective or are necessary, as discussed in Table H-2. The intent of these programs will be kept in the Housing Plan, with revisions to address identified specific housing needs, constraints, or other concerns identified as part of this update, and to meet State requirements. The City implemented many of the housing programs in the last several years and anticipates that these changes will further encourage affordable and special needs housing.

While the City took a number of significant steps to promote housing during the prior planning period, the experience of Rancho Santa Margarita and other small communities throughout the State demonstrates that it is very difficult for local governments to meet their State-allocated housing goals for lower and moderate-income housing working alone. Small cities, such as Rancho Santa Margarita, have limited financial and staffing resources and require substantial State and/or federal assistance, as well as technical assistance, which is not available at the levels necessary to support the City's housing needs.

TABLE H-2: EVALUATION OF THE 2013-2021 HOUSING PROGRAMS AND RECOMMENDATIONS FOR 2021-2029 HOUSING PROGRAMS

Program	Accomplishments
1. Provide Adequate Housing Sites	
<p>Program 1.1: Regional Housing Needs Allocation: Planning and regulatory actions to provide adequate housing sites are achieved through the Land Use Element and Zoning Code. The Land Use Element provides for a variety of residential types, ranging from lower-density single-family homes to higher-density apartments and condominiums, transitional housing and second units. Pre-incorporation development agreements apply to a number of the planned communities in Rancho Santa Margarita and identify permitted levels of development based on the provision of public facilities and infrastructure. The use designations identified in the Land Use Element are consistent with the development densities identified in the development agreements.</p> <p>The City is primarily built out and therefore SCAG has identified a 2014-2021 future housing need for Rancho Santa Margarita of only two new units – one very low income unit and one low income unit. Second unit construction is likely the primary source of new housing units in the future.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> • As part of the annual General Plan Implementation Report, the City will monitor and report on progress made toward meeting the 2013-2021 RHNA allocation. • Monitor the development of second units in the City to determine if the current development standards in place are adequate to facilitate the construction of second units, given current market conditions. 	<p>Result/Evaluation: Program considered successful. The City has maintained an inventory of residential sites and has maintained adequate capacity to accommodate its RHNA. Regarding the program objectives:</p> <ul style="list-style-type: none"> • The City prepares a General Plan Annual Progress Report to monitor progress towards its RHNA. The 2020 APR reported that one of the City's two allocated units had been constructed. • In 2021, the City updated and amended Rancho Santa Margarita Zoning Code (RSMZC) Section 9.04.190 Accessory Dwelling Units, to ensure that it complies with State law and streamlines approval of ADUs. <p>Continue/Modify/Delete: Continue. This program provides relevant information to ensure that the City is able to accommodate its RHNA. However, given the significant increase in the City's RHNA allocation from 2 units to 680 units, a more robust program will need to be implemented.</p>

Program	Accomplishments
<p>Develop incentives or modify development standards as necessary and appropriate.</p> <ul style="list-style-type: none"> Continue to pursue annexation of the Future Planned Area. Pursue developers for these sites and the annexation area in order to provide future rental and ownership opportunities for a range of income groups and household types. Support applications by qualified housing developers to pursue local, State and federal funds for the rehabilitation and/or construction of housing targeted for persons with disabilities, including persons with developmental disabilities, provided the proposed project is consistent with the City's General Plan. 	
<p>Program 1.2: Homeless Services: The main source for data regarding the number of homeless in Orange County is the 2011 Point-In-Time Homeless Count and Survey (PITS). However, based on the 2011 PITS data, no homeless person identified Rancho Santa Margarita as the city in which they resided before becoming homeless. This finding is consistent with input provided by the Orange County Sheriff's Department, which indicates that there are few (if any) homeless in the City. Transients and victims of domestic violence make up the bulk of the Sheriff's service calls related to homelessness.</p> <p>According to the City's Consolidated Plan, homelessness is not a significant issue in the City, but services and shelter for victims of domestic violence and assistance to prevent homelessness were identified as needs. The City continues to utilize a portion of its CDBG public service grant resources to support</p>	<p>Result/Evaluation: Program considered successful. The City continues to allocate a portion of its CDBG funds to support local agencies that provide services to the homeless or to prevent homelessness, including Families Forward, Family Assistance Ministries, and South County Outreach. These agencies provide a variety of services including counseling and referrals, access to food pantries, utility shut-off prevention, life skills training, and employment counseling. In 2020, the agencies collectively provided assistance to 57 individuals (rent/utility assistance to prevent loss of housing/services), and 15 individuals (case management) paid with CDBG funds, and non-profit partner paying rent for homeless individual). Additionally, the City provided Homeless Emergency Aid Program (HEAP) funds to Mercy House to provide the City with 16 hours/week</p>

Program	Accomplishments
<p>local agencies that address these needs. About five individuals annually receive emergency shelter assistance from the City and various service providers.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> Continue to coordinate with the County of Orange and homeless service providers to ensure that homeless persons and persons threatened with homelessness are referred to shelters and appropriate social service agencies. 	<p>of outreach as a homeless liaison worker.</p> <p>The City was awarded a \$101,396 Permanent Local Housing Allocation (PLHA) Program grant by HCD in 2020 that will allow the City to assist tenants at risk of homelessness.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>2. Provide, Maintain, and Improve Affordable Housing</p>	
<p>Program 2.1: Housing Choice Voucher (Section 8) Assistance: The City of Rancho Santa Margarita cooperates with the Orange County Housing Authority (OCHA), which administers the Section 8 Voucher Program. The Housing Assistance Payments Program assists low income, elderly and disabled households by paying the difference between 30% of an eligible household's income and the actual rent. This program addresses the needs of overpayment and overcrowding of very-low- and extremely low-income households through the provision of adequately-sized apartments at affordable rents. According to the Orange County Housing Authority, a total of 115 tenant-based Section 8 vouchers are used in the City. Of these 115 households, there are 93 extremely-low, 16 very-low, and six low-income households. Additionally, there are 54 disabled households and 58 elderly households.</p> <p>The City facilitates use of the Section 8 program within its jurisdiction by advertising OCHA Section 8 programs on the City's website and newsletters.</p>	<p>Result/Evaluation: Program considered successful. The City continues to cooperate with OCHA to provide Housing Choice Voucher rental assistance to residents. In 2020, 138 Housing Vouchers were provided to 34 disabled individuals, 61 seniors, and 9 homeless and Vets (Veterans Affairs Supportive Housing or VASH), and 11 are Continuum of Care (homeless) who were provided with vouchers.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>

Program	Accomplishments
<p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> The City will cooperate with OCHA to continue to assist 115 households annually, and if possible, expand assistance to an increased number of households, particularly families with children. 	
<p>Program 2.2: OCHA Special Needs Groups Rental Assistance Programs: The County administers rental assistance programs targeting special needs groups, including families whose children are at risk of being placed in out-of-home care, disabled persons, homeless and veterans. These programs serve extremely low-income persons and include the following:</p> <ul style="list-style-type: none"> Family Unification Program which provides Section 8 assistance to families whose children are at risk of being placed in out-of-home care or delayed in returning from care because of the families' inadequate housing. Shelter Plus Care Program which provides rent subsidies to homeless persons with disabilities. Veterans Affairs Supportive Housing (VASH) Program which provides permanent housing subsidies and case management services to homeless veterans with mental and addictive disorders. Rental Assistance for Non-Elderly Persons with Disabilities Program which provides incremental Section 8 Housing Choice Vouchers for non-elderly disabled families. 	<p>Result/Evaluation: Program considered successful. The City coordinates with OCHA to continue to provide for these programs and facilitates participation in the Housing Choice Voucher Program by advertising the program on the City website and in newsletters, and by referring potential applicants to the OCHA, as needed. In 2020, 138 Housing Vouchers were provided to 34 disabled individuals, 61 seniors, and 9 homeless and Vets (Veterans Affairs Supportive Housing or VASH), and 11 are Continuum of Care (homeless) who were provided with vouchers.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>Program 2.3: Code Enforcement: The Code Enforcement Program is operated through the City's Planning Department. Code Enforcement staff cooperates with the various Homeowner</p>	<p>Result/Evaluation: Program considered successful. The City continues to provide code enforcement activities with the goal of the Code Enforcement Program to</p>

Program	Accomplishments
<p>Associations in the City to respond to complaints related to substandard housing, property maintenance, overgrown vegetation, trash and debris, improper occupancy, and other nuisance and zoning complaints.</p>	<p>address housing concerns before they become serious problems. This program is complaint-driven and staff offers resources and guidance to property owners to correct any violations. Staff completed 150 inspections annually.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>Program 2.4: First Time Homebuyer Assistance: With limited public resources, the City is not in a position to substantially subsidize a rental or ownership housing development. Nonetheless, the City will continue to provide referrals to the County's Housing Authority and/or local nonprofit agencies that provide homebuyer assistance.</p> <p>In addition, the Southern California Home Financing Authority (SCHFA) offers a mortgage revenue bond program that issues 30-year mortgage revenue funds at below-market interest rates. To be eligible for the program, the buyer must be a first-time homebuyer whose income may not exceed 120 percent of the Orange County median income. The City will continue to participate in the mortgage revenue bond program, providing information regarding the program on the City's website and at the public counter, library, post office, and other community locations.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> • Continue to provide referrals to the County's Housing Authority and/or local nonprofit agencies that provide homebuyer assistance. • Continue to participate in the mortgage revenue bond 	<p>Result/Evaluation: During the planning period, the City lacked financial and staffing resources to fund and administer a First Time Homebuyer Assistance program. However, the City continued to refer individuals to programs such as OCHA's Homeownership Program. The City continues to review available funding sources.</p> <p>Continue/Modify/Delete: Continue: The City will continue to provide referrals to the County's Housing Authority a/o local non-profit agencies that provide homebuyer assistance.</p>

Program	Accomplishments
<p>program, providing information regarding the program to interested residents.</p>	
<p>Program 2.5: Second Units: The City plans to meet its 2014-2021 RHNA through the provision of second units. In order to facilitate second unit construction, the City adopted the Second Unit Ordinance in 2007, which allows a second unit to be detached, attached, or fully integrated into the principal unit. This flexibility is intended to encourage second unit construction and offers opportunity for moderating the cost of construction. However, due to the housing market crash in 2008 and subsequent economic recession, no second units have been constructed.</p> <p>Along with the gradual recovery of the economy, the City is beginning to receive inquiries about second units. The City will promote second unit opportunities and, based on past trends, anticipates at least two second units could be constructed between 2014 and 2021, fulfilling the City's RHNA of two units.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> • Promote second unit opportunities to interested residents. • Monitor the development of second units in the City to determine if the current development standards in place are adequate to facilitate the construction of second units, given current market conditions. Develop incentives or modify development standards as necessary and appropriate. 	<p>Result/Evaluation: Program considered successful. Pursuant to State law, the City continues to streamline approvals of ADUs.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>Program 2.6: Energy Conservation: The uniqueness of Rancho Santa Margarita is due, in large part, to its many natural and open space resources. The City has</p>	<p>Result/Evaluation: The City participates in the HERO program, which is a Property Assessed Clean Energy (PACE) program that provides</p>

Program	Accomplishments
<p>taken strong efforts to create policies to protect and maintain natural resources such as water, soils, wildlife, and minerals, and prevent wasteful resource exploitation and destruction. The Conservation/ Open Space Element of the City's General Plan specifically addresses the City's goals, policies and objectives to protect environmental resources and open space.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> Continue to explore ways to promote energy conservation and sustainability. 	<p>low-cost financing to homeowners for energy-efficient, water-efficient, and renewable energy upgrades. Furthermore, sustainability principles have been incorporated into the Building Code. As part of the City's 2020 General Plan Update, the City committed to implementing an Energy Action Plan (EAP), which will identify opportunities to further reduce GHG emissions through a variety of energy-related programs and projects.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>3. Remove Governmental Constraints</p>	
<p>Program 3.1: Expedited Project Review: The City's evaluation and review process for housing projects contributes to the cost of housing because holding costs incurred by developers are ultimately reflected in the unit's selling price. To minimize holding costs incurred by developers, Rancho Santa Margarita will prioritize any project with an affordable housing component. The City recently expedited the approval of 66 housing units on the former Morasha Jewish Day School site.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> Continue to implement procedures for priority processing of affordable housing projects in order to reduce the time and cost associated with the development process. Expedite permit processing for projects targeted for persons with disabilities, including persons with developmental disabilities. 	<p>Result/Evaluation: One market rate housing project (Dahlia Court, 36 units) and one ADU were built during the 2013-2021 Housing Element Planning Period.</p> <ul style="list-style-type: none"> One ADU in the low-income category was submitted, approved, and constructed in an expeditious manner in 2019. No proposals were submitted for projects targeted for persons with disabilities during the Planning Period. <p>Continue/Modify/Delete: Continue. This program continues to be appropriate and is included in the 2021-2029 Housing Element.</p>
<p>4. Promote Equal Housing Opportunities</p>	

Program	Accomplishments
<p>Program 4.1: Fair Housing Council of Orange County: Currently, Rancho Santa Margarita contracts with the Fair Housing Council of Orange County (FHCOOC) to provide fair housing services. Services offered include counseling and landlord/tenant problems, special assistance for ethnic minority and single-parent households, bilingual housing literature and videotape presentations, and housing assistance counseling.</p> <p>Program Objectives and Timeframe:</p> <ul style="list-style-type: none"> • Continue to contract with a qualified provider to provide fair housing services to City residents. • Advertise fair housing services in the City newsletter and in local periodicals and place posters and brochures advertising fair housing services in both English and Spanish at the public counter, library, post office, and other community locations. 	<p>Result/Evaluation: Program considered successful. Most recently, 54 households were assisted with fair housing referral services through FHCOOC in 2020. Issues addressed included concerns with rental agreements, deposits, unit repairs, and notices. Regarding the program objectives:</p> <ul style="list-style-type: none"> • The City is an active member of the Fair Housing Council of Orange County. The Fair Housing Council provides services that include fair housing enforcement and education, landlord/tenant counseling, mediation and homebuyer HUD counseling which includes first-time homebuyer education and mortgage default counseling. Services are available to low-to-moderate income clients free of charge and to others for a moderate donation. Services are available in English, Spanish, and Vietnamese. <p>As part of the City's larger Action Plan to address housing needs, and in partnership with FHCOOC, multi-faceted fair housing outreach to tenants, landlords, property owners, realtors, and property management companies has included informational booths at City sponsored community-wide events, and staff training.</p> <p>Continue/Modify/Delete: Continue. This program continues to be appropriate.</p>

3. Housing Needs Assessment

3A. Introduction and Background

The purpose of the Housing Needs Assessment is to describe housing, economic, and demographic conditions in Rancho Santa Margarita, assess the demand for housing for households at all income levels, and document the demand for housing to serve various special needs populations. The Housing Needs Assessment also addresses whether assisted housing projects are at-risk of converting to market rate projects. The Housing Needs Assessment is intended to assist Rancho Santa Margarita in developing housing goals and formulating policies and programs that address local housing needs.

Several sources of data were used to describe existing demographic and housing conditions, including the following:

- Pre-Certified Local Housing Data package for the City of Rancho Santa Margarita developed by the Southern California Association of Governments (SCAG) and pre-certified by the California Department of Housing and Community Development (HCD) for use in 6th cycle housing elements.
- Data from the 2010 U.S. Census, 2014-2018 U.S. Census American Community Survey (ACS), California Department of Finance (DOF), California Employee Development Department (EDD), and U.S. Department of Housing and Urban Development (HUD) is included to provide information on population, household, housing, income, employment, and other demographic characteristics.
- Regional information from the Fair Housing Council of Orange County.
- Other sources of economic data such as information from the website rental listings, multiple listing service, and other published data are used where current Census, ACS, DOF, HUD, and other standard data sources do not provide relevant data.
- Interviews with key agencies and organizations were conducted to obtain information on housing needs and, in particular, needs of populations with special housing needs.

Due to the use of multiple data sources (with some varying dates), there are slight variations in some of the information, such as total population and total household numbers, presented in this document. However, these variations do not significantly affect the discussion of overall housing needs and trends.

3B. Population Trends and Characteristics

POPULATION GROWTH

Table H-3 shows population growth for Rancho Santa Margarita and other jurisdictions in the region from 2000 through 2020. According to data prepared by the California DOF, the population of Rancho Santa Margarita in 2020 was 48,793 persons, an increase of approximately 2% since 2010. During the previous decade (2000 to 2010), the City's population increased 1.4% to total 47,853 in 2010. Rancho Santa Margarita's growth has been slower than countywide growth, with Orange County experiencing significantly higher population growth rates during both the 2000 to 2010 and 2010 to 2020 periods, as shown in Table H-3. The City's population is anticipated to increase to approximately 51,404 persons by 2040 (General Plan 2020 Environmental Impact Report).

TABLE H-3: POPULATION TRENDS – NEIGHBORING JURISDICTIONS

Jurisdiction	2000	2010	2020	Change 2000-20	% Change 2000-20
Rancho Santa Margarita	47,214	47,853	48,793	1,579	3.3%
Irvine	145,628	212,375	281,707	136,079	93.4%

Sources: US Census, 2000; DOF, 2020

AGE

Changes in the age groups can indicate future housing needs. Table H-4 compares age groups in 2018 for Rancho Santa Margarita and Orange County. In Rancho Santa Margarita, children under 15 comprise 21% of the City's population, teens and young adults (15 – 24) represent 13.2%, and adults in family-forming age groups (25 – 44) comprise 26.1%. Adults aged 45 to 64 represent 31.8% of the population and seniors (65 and over) comprise 7.9%. In 2018, the median age in Rancho Santa Margarita (37.6 years) was slightly lower than that of Orange County (37.8 years) and 1.3 years higher than the Statewide median age of 36.3 years. The median age of City residents has increased from the 2010 median age of 34.1 years.

TABLE H-4: POPULATION BY AGE (2018)

Age	Rancho Santa Margarita		Orange County	
	Number	Percent	Number	Percent
Under 5 Years	3,398	7.0%	188,956	6.0%
5 to 9	3,116	6.4%	189,548	6.0%

RACE/ETHNICITY

Table H-5 shows the ethnic composition of Rancho Santa Margarita's population. As with Orange County, the majority of the City's population are White (77.1%). The next largest racial group is Asian (10.7%), followed by "two or more races" (5.3%), "other race" (3.5%), Black or African American (2.9%), and American Indian or Alaska Native (0.4%), and Native Hawaiian and Pacific Islander (0.1%). Just over one-fifth of the population (20.7%) is of Hispanic or Latino origin.

TABLE H-5: RACE AND ETHNICITY (2018)

Race/Ethnicity	Rancho Santa Margarita		Orange County	
	Number	Percent	Number	Percent
White	37,620	77.1%	1,950,902	61.7%
Black or African American	1,439	2.9%	54,732	1.7%
American Indian or Alaska Native	176	0.4%	14,466	0.5%

Hispanic or Latino (of any race)	10,077	20.7%	1,080,195	34.1%

Source: US Census, 2014-2018 ACS

EMPLOYMENT

One of the factors that can contribute to an increase in demand for housing is expansion of the employment base. Table H-6 shows the employment and unemployment rates for persons 16 years and older that were in the labor force in 2000 and 2018 in Rancho Santa Margarita. The number of employed residents increased by 1,932 from 2010 to 2018. In 2018, ACS data indicated that the unemployment rate in Rancho Santa Margarita was approximately 3%, a decrease from 5.1% in 2010. According to the labor report data compiled by the California EDD, the Anaheim-Santa Ana-Irvine Metropolitan Area's average annual unemployment rate in 2018 was estimated at 3%, Orange County's rate was also 3%, while California's was 4.1%.

TABLE H-6: JOB GROWTH AND EMPLOYMENT STATUS, RANCHO SANTA MARGARITA

	2010		2018

INDUSTRY AND OCCUPATION

The 2014-2018 ACS data identified 27,011 employed persons in the Rancho Santa Margarita labor force. Table H-7 shows 2018 employment by industry for the City. Of Rancho Santa Margarita's employed residents, the "Educational services, health care and social assistance" industry employed the most people at 19.1%. The second largest employment sector was the "Professional, scientific, management, administrative, waste management" industry, which had 14.8% of the total employed persons in Rancho Santa Margarita. The top two employment categories in Orange County were also the "Educational services, health care and social assistance" industry at 19.3% and the "Professional, scientific, management, administrative, waste management" industry at 14.4%. The City's workforce holds a variety of types of jobs as shown in Table H-8, with the largest sector (50.6%) working in management, business, science, and arts occupations, followed by 25.6% in sales and office occupations.

TABLE H-7: JOBS BY INDUSTRY (2018)

TRAVEL TO WORK

Just over half of Rancho Santa Margarita's employed residents, 50.9%, travelled less than 30 minutes to work. Approximately 9.4% of employed residents drive more than 60 minutes to work. Most Rancho Santa Margarita workers, 82.5%, drive alone to work and 7.6% carpool. Table H-9 identifies travel time to work and Table H-10 identifies commute methods for Rancho Santa Margarita workers in 2018.

3C. Household Characteristics

According to the Census, a household is defined as all persons living in a housing unit. This definition includes families (related individuals living together), unrelated individuals living together, and individuals living alone.

A housing unit is defined by the Census as a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other persons in the building and which have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements.

People living in retirement homes or other group living situations are not considered "households" for the purpose of the U.S. Census count. The household characteristics in a community, including household size, income, and the presence of special needs households, are important factors in determining the size and type of housing needed in the City.

Table H-11 below identifies the ages of householders in Rancho Santa Margarita in 2018 based on ACS data from 2014-2018; 67.7% of homeowner households are headed by someone 35-59 years of age, compared to 51% of renter households headed by someone in that same age range. Renter households are generally younger; about 27.3% of renter households are headed by a person aged 25-34, compared to 7.7% of homeowner households headed by someone in that younger age range.

Table H-12 identifies the household sizes by housing tenure. In 2018, the majority of households consisted of 2 to 4 persons. Large households of 5 or more persons only made up 9.3% of the total households in Rancho Santa Margarita. The average household size was 2.82 persons. Additionally, the average household size in Rancho Santa Margarita in 2018 for owner-occupied units was 2.90 persons per household and 2.64 persons per household for renter-occupied units.

TABLE H-12: HOUSEHOLD SIZE BY TENURE (2018)

3D. Income

HOUSEHOLD INCOME

From 2010 to 2018, the median household income (adjusted for inflation) in Rancho Santa Margarita increased by 15.4% to \$115,073 and the per capita income increased by 26.7% to \$51,219. From 2010 to 2018, there was an increase in both per capita and median household incomes. Table H-13 identifies the per capita and median household incomes in Rancho Santa Margarita.

TABLE H-13: MEDIAN HOUSEHOLD AND PER CAPITA INCOME

	2010	2018	% Change
Median Household Income	\$99,722	\$115,073	15.4%
Per Capita Income	\$40,438	\$51,219	26.7%

Sources: US Census, 2000; US Census, 2006-2010 ACS; US Census, 2014-2018 ACS

In 2018, the majority (57.7%) of Rancho Santa Margarita's households earned in excess of \$100,000 per year. The incidence of households earning less than \$25,000 per year (just over the 2018 poverty guidelines for a family of 4) was higher among renter households (17%) than owner households (3.8%). Table H-14 identifies household income by tenure. As shown in Table H-14, the average income of owner households is \$76,506 more than renter households.

TABLE H-14: HOUSEHOLD INCOME FOR ALL HOUSEHOLDS AND BY TENURE (2018)

Income	All Households		Owner Households		Renter Households

HOUSEHOLDS BY INCOME GROUP

A special aggregation of 2013-2017 ACS data analyzed by HUD – the Comprehensive Housing Affordability Strategy (CHAS) data – provides a breakdown of households by income group by tenure. The number of households in Extremely Low, Very Low, Low, and Moderate/Above Moderate income groups is shown in Table H-15. The majority of households (70.1%) are above median income. The HUD CHAS data indicates the extremely low-income group represents 8.3% of households, and a higher proportion are renters (905) than owners (530). The very low-income group represents 8.6% of households and the low-income group represents 13.0% of households. The RHNA (see Table H-29) identifies the City's share of regional housing needs for extremely low, very low, and low-income households, as well as for moderate and above moderate-income households. As shown in Table H-15, there is a larger proportion of renters in the extremely low, very low, and low-income groups, while there is a larger rate of moderate and above moderate-income groups in owner households.

TABLE H-15: HOUSEHOLDS BY INCOME GROUP (2017)

Income Group	Total		Owner		Renter	
	Households	Percent	Households	Percent	Households	Percent
Extremely Low (<30% AMI)	1,435	8.3%	530	4.3%	905	17.9%
Very Low (31–50% AMI)	1,490	8.6%	650	5.3%	840	16.6%
Low (51–80% AMI)	2,260	13.0%	1,135	9.2%	1,125	22.3%
Moderate and Above Moderate (>80% AMI)	12,150	70.1%	9,970	81.1%	2,180	43.2%
TOTAL	17,340	100%	12,290	100%	5,050	100%

POVERTY LEVELS

The 2014-2018 ACS data indicates that 457 (3.5%) of all Rancho Santa Margarita families and 2,032 individuals (4.2%), had incomes at or below the poverty level. According to the ACS data, poverty rates are disparate between races and economic indicators, and are particularly severe for American Indian and Alaska Native populations. In 2018, American Indian and Alaska Natives had a poverty rate of 14.8% (26 of 176 individuals) compared to 5.9% for Hispanics/Latinos (594 of 10,077 individuals), 4.1% for Whites (1,534 of 37,598 individuals), 3.3% for African Americans/Blacks (47 of 1,439 individuals), and 1.7% for Asians (88 of 5,216 individuals).

The level of poverty in a jurisdiction often influences the need for housing to accommodate those persons and families in the very low and low-income categories. The U.S. Census Bureau measures poverty by using a set of income thresholds that vary by family size.

Extremely Low-Income Households

Extremely low-income (ELI) households are defined as those earning up to 30% of the area median household income and are most likely to be below the federal poverty line, which fluctuates based on household size. For Orange County, the median household income in 2020 was \$103,000. For ELI households in Rancho Santa Margarita, this results in an income of \$38,450 or less for a four-person household, or \$26,950 for a one-person household. To provide context, Table H-16 lists representative occupations with hourly wages that are within or close to the ELI income range. As shown in Table H-15, ELI households make up 8.3% of all households in Rancho Santa Margarita. Based on Table H-28, 80.1% of ELI households in Rancho Santa Margarita pay more than 30% of their incomes for housing.

TABLE H-16: OCCUPATIONS WITH WAGES FOR EXTREMELY LOW-INCOME HOUSEHOLDS (2020)

Occupation Title	Median Hourly Wage
Laborers and Freight, Stock, and Material Movers	\$12.70
Telemarketers	\$12.43

To address the range of needs of ELI households, the City will implement several programs including the following (refer to the Housing Plan for more detailed descriptions of these programs):

- Program 1: Regional Housing Needs Allocation
- Program 3: Accessory Dwelling Units
- Program 5: Housing Choice Voucher (Section 8) Assistance
- Program 6: Homeless Services
- Program 8: OCHA Special Needs Groups Rental Assistance Programs
- Program 10: Affordable Housing Development
- Program 11: Density Bonus
- Program 16: Fair Housing Council of Orange County
- Program 17: Expand Housing Opportunities

3E. Housing Characteristics

HOUSING TYPE

Table H-17 identifies the types of housing units in Rancho Santa Margarita in 2020. The table summarizes total housing stock according to the type of structure. As shown in the table, the majority of housing in Rancho Santa Margarita is single-family detached housing, which accounted for 53.9% of units in 2020. Mobile homes represent 0.1% of the housing stock.² Multi-family units represent 25.2% of the housing stock, with duplex through fourplex units accounting for 3.6% and multi-family developments with five or more units accounting for 21.6%. Single-family attached homes represent 20.8% of housing units.

TABLE H-17: HOUSING STOCK BY TYPE AND VACANCY (2020)

	Total	Single Family		Multi-family		Mobile Homes ²
		Detached	Attached	2 – 4	5 + Units	
Units	17,346	9,354	3,615	624	3,743	10
Percent	100%	53.9%	20.8%	3.6%	21.6%	0.1%

Sources: SCAG 6th Cycle Data Package; DOF E-5 Report 2020

² Note: Although the Department of Finance reports that there are 10 mobile homes located in Rancho Santa Margarita (2020), there are no mobile home parks operating within the City. The source of this misrepresentation by the Department of Finance is unknown.

VACANCY RATE

The 2014-2018 ACS data indicates that there were 338 vacant units in 2018. As shown in Table H-18, of the total vacant units in 2018, 153 were for rent, 33 were for sale, 99 were rented or sold but not yet occupied, and 53 were for seasonal, recreational, or occasional use. The overall vacancy rate in Rancho Santa Margarita in 2018 was 3.2%.

TABLE H-18: VACANCY BY TYPE (2018)

Vacancy Type	Number	Percent
For rent	153	45.3%
Rented, not occupied	99	29.3%
For sale only	33	9.8%
Sold, not occupied	0	0.0%
For seasonal, recreational, or occasional use	53	15.7%
For migrant workers	0	0.0%
Other vacant	0	0.0%
TOTAL	338	100%

HOUSING CONDITIONS

The U.S. Census provides only limited data that can be used to infer the condition of Rancho Santa Margarita's housing stock. In most cases, the age of a community's housing stock is a good indicator of its condition. The 2014-2018 ACS data indicates that most of the housing in the City is less than 40 years old; 94.4% of units were built in 1980 or later. Due to the relatively young age of the City's housing stock, overall housing conditions are good. While units built after 1970 may require new roofs and windows, it is anticipated that most units constructed after 1970 would not need significant rehabilitation to the structure, foundation, electrical, and plumbing systems. Units built prior to 1970 may require aesthetic and maintenance repairs including roof, window, and paint improvements and some units in this age range may also require significant upgrades to structural, roof, plumbing, and other systems.

To supplement the Census information regarding housing conditions, the City included specific questions pertaining to the quality of the City's housing stock in its Housing Element Update community survey #1, which was available online from January 29, 2021 to March 3, 2021 (this is further detailed in Appendix B). When asked to rate the physical condition of the residence they lived in, the majority of residents (62.4%) responded that their home was in excellent condition, while almost a third (29.1%) of residents indicated that their home shows signs of minor deferred maintenance such as peeling paint or chipped stucco. Another 7.5% of resident respondents indicated that their home was in need of one or more major systems upgrades (such as new roof, windows, electrical, plumbing, or HVAC system).

When asked to report the type of home improvements they have considered making to their homes, residents' most popular answers included improvements for kitchen or bathroom remodels, painting, solar, and HVAC systems.

US Census information can also provide insight into housing conditions, specifically based on the age of the structure and presence of adequate plumbing facilities. Table H-19 indicates that the majority of housing units in the City are 30-40 years old and all dwelling units had complete plumbing facilities in 2018.

TABLE H-19: HOUSING STOCK CONDITIONS (2018)

Year Structure Built	Owner		Renter		Total	
	Number	Percent	Number	Percent	Number	Percent
2014 or later	25	0.2%	31	0.6%	56	0.3%

1960 to 1969						
1950 to 1959	104	0.8%	41	0.8%	145	0.8%
1940 to 1949						
1939 or earlier	43	0.3%	69	1.4%	112	0.6%
TOTAL	12,295	100%	4,995	100%	17,290	100%
Plumbing Facilities						
Units with Complete Plumbing Facilities	12,295	100%	4,995	100%	17,290	100%
Units Lacking Complete Plumbing Facilities	0	0.0%	0	0.0%	0	0.0%

Note: Although the US Census 2014-2018 ACS states that there are units in the City build before 1980, the City is not able to verify this housing stock data. The source of this misrepresentation by the US Census is unknown.

Source: US Census, 2014-2018 ACS

Housing Conditions

The City's housing stock remains relatively new with only 5.6% of dwelling units in Rancho Santa Margarita having been constructed prior to 1980, and as such, structural deterioration and maintenance problems are rare. The City's Building Official has estimated that no housing units are in need of substantial rehabilitation or replacement. Nonetheless, the goal of the City's Code Enforcement program is to address housing concerns before they become serious problems.

OVERCROWDING

Typically, a housing unit is considered overcrowded if there is more than one person per room and severely overcrowded if there are more than 1.5 persons per room. Table H-20 summarizes overcrowding data for Rancho Santa Margarita. It should be noted that kitchenettes, strip or Pullman kitchens, bathrooms, porches, balconies, foyers, halls, half-rooms, utility rooms, unfinished attics, basements, or other space for storage are not defined as rooms for Census purposes.

Households that cannot afford housing units suitably sized for their families often live in housing that is too small for their needs, which may result in poor physical condition of the dwelling unit. In 2018, 420 housing units (2.4% of the total occupied units) were overcrowded, which represents 1.2% of owner units and 5.5% of renter units.

TABLE H-20: OVERCROWDING BY TENURE (2018)

Persons per Room	Owner		Renter		Total	
	Number	Percent	Number	Percent	Number	Percent
1.00 or less	12,148	98.8%	4,722	94.5%	16,870	97.6%
1.01 to 1.50	134	1.1%	175	3.5%	309	1.8%

Overcrowded	147	1.2%	273	5.5%	420	2.4%

Source: US Census, 2014-2018 ACS

As shown in Table H-21, the average household size in Rancho Santa Margarita was 2.83 persons, which is a decrease from the average household size of 2.94 persons in 2010. Table H-21 shows Rancho Santa Margarita's household sizes for owner, renter, and all households. The average household size is larger for owners (2.90 persons). Renter households have an average size of 2.64 persons, with the majority of owner and renter households having three to five persons (50.7% for owners, 38.3% for renters). Approximately 47.2% of owner households and 57.6% of renter households are two persons or less in size. Table H-22 identifies bedrooms by tenure. While renter households are generally larger than owner households, the proportion of larger housing units (4 or more bedroom homes) is higher for owner households.

TABLE H-21: HOUSEHOLD SIZE BY TENURE (2018)

3F. Housing Costs

FOR SALE HOUSING

As shown in Figure H-1, between 2000 and 2018, median home sales prices in Rancho Santa Margarita increased 149% while prices in the Southern California Association of Governments (SCAG) region (Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties) increased 151%. The 2018 median home sales price in Rancho Santa Margarita was \$597,500 – the highest median sales price experienced since 2000. Prices in the City have ranged from a low of 94.6% of the SCAG region median in 2007 to a high of 129.4% in 2009.

TABLE H-23: HOMES FOR SALE
(JANUARY 2021)

Price	Homes	Percent

RENTAL HOUSING

Table H-24 summarizes rents paid in Rancho Santa Margarita in 2018 by rental range. The majority of units rented for \$1,500 or more. Only 4.3% of rentals were under \$1,000 per month. More than one-third of rentals were in the \$1,500 to \$1,999 range.

Based on a review of rental ads on Zillow.com and Craigslist.com, the average rent in Rancho Santa Margarita is \$2,510 per month. There were 35 rentals available in January, 2021. Rents ranged from \$2,160 to \$2,700 for 2 bed/2 bath homes to \$3,400 to \$4,250 for four-bedroom homes (Table H-25).

TABLE H-24: RENTAL COSTS (2018)

INCOME GROUPS

The California Department of Housing and Community Development (HCD) publishes household income data annually. Table H-26 shows the maximum annual income level for each income group adjusted for household size for Orange County. The maximum annual income data is then utilized to calculate the maximum affordable housing payments for households of varying income levels. State income limits are also used to determine eligibility for housing assistance programs.

- *Extremely Low-Income Households* have a combined income at or lower than 30% of area median income (AMI), as established by the Department of Housing and Community Development (HCD).
- *Very Low-Income Households* have a combined income between 30 and 50% of AMI, as established by HCD.
- *Low-Income Households* have a combined income between 50 and 80% of AMI, as established by HCD.
- *Moderate-Income Households* have a combined income between 80 and 120% of AMI, as established by HCD.
- *Above Moderate-Income Households* have a combined income greater than 120% of AMI, as established by HCD.

TABLE H-26: STATE INCOME LIMITS – ORANGE COUNTY (2021)

Income Group	1 Person	2 Person	3 Person	4 Person	5 Person	6 Person	7 Person	8 Person
Extremely Low	\$28,250	\$32,300	\$36,350	\$40,350	\$43,600	\$46,850	\$50,050	\$53,300
Very Low	\$47,100	\$53,800	\$60,550	\$67,250	\$72,650	\$78,050	\$83,400	\$88,800
Low	\$75,300	\$86,050	\$96,800	\$107,550	\$116,200	\$124,800	\$133,400	\$142,000
Moderate	\$89,650	\$102,450	\$115,250	\$128,050	\$138,300	\$148,550	\$158,800	\$169,050

HOUSING AFFORDABILITY

In January 2021, there were 28 homes listed for sale in Rancho Santa Margarita on Zillow.com with prices ranging from \$329,000 to \$1,454,868. Of these homes, there were 11 detached single-family homes with sales prices beginning at \$674,058. As shown in Table H-23, the majority of homes for sale are in the \$400,000 to \$499,999 and \$700,000+ price ranges, with 25% of homes in the \$500,000 to \$699,999 range and 3 priced under \$400,000. Zillow identified the January 2021 median sales price as \$766,000. While the median sales price is not affordable to lower and moderate-income households (see Table H-27), the City's home sales prices are lower compared to Orange County (Zillow reported a median home sales price of \$872,000 for the County in January 2021).

FIGURE H-1: MEDIAN HOME SALES PRICE

Source: SCAG 6th Cycle Data Package

Table H-27 shows the estimated maximum rents and sales prices, respectively, that are affordable to very low, low, moderate, and above moderate-income households. Affordability is based on a household spending 30% or less of their total monthly household income for shelter based on the maximum household income levels established by HCD (Table H-26). The annual income limits established by HCD are similar to those used by the U.S. Department of Housing and Urban Development (HUD) for administering various affordable housing programs. Maximum affordable sales price is based generally on the following assumptions: 4% interest rate, 30-year fixed loan, and down payments that vary with income level, as described in Table H-26.

Comparing the maximum affordable housing costs in Table H-27 to the rental rates in Tables 3-24 and 3-25, rental rates in Rancho Santa Margarita are generally affordable to moderate-income households of two or more persons and to above moderate-income households. While there are some units affordable to low-income households, there are no market rate (non-subsidized) units that are affordable to extremely low and very low-income households. The majority of available rentals were one- and two-bedroom units. Moderate and above moderate-income households can afford a broad range of available housing.

Similarly, homes for sale in Rancho Santa Margarita are affordable to moderate and above moderate-income households, based on a comparison of Tables 3-21 and 3-25. Current home sales prices are not affordable to extremely low and very low-income households.

TABLE H-27: HOUSING AFFORDABILITY BY INCOME GROUP

Income Group	One Person		Two Person		Four Person		Six Person	
	Home Sale Price*	Monthly Rent or Housing Cost	Home Sale Price*	Monthly Rent or Housing Cost	Home Sale Price*	Monthly Rent or Housing Cost	Home Sale Price*	Monthly Rent or Housing Cost
Extremely Low	\$100,663	\$706	\$116,026	\$808	\$146,561	\$1,009	\$171,216	\$1,171
Very Low	\$180,231	\$1,178	\$201,200	\$1,345	\$252,218	\$1,681	\$293,184	\$1,951
Low	\$286,375	\$1,883	\$327,151	\$2,151	\$408,704	\$2,689	\$474,136	\$3,120
Moderate	\$358,009	\$2,241	\$407,950	\$2,561	\$493,708	\$3,201	\$571,467	\$3,714
Above Moderate	\$358,009+	\$2,241+	\$407,950+	\$2,561+	\$493,708+	\$3,201+	\$571,467+	\$3,714+

*Maximum affordable sales price is based on the following assumptions: 4.0% interest rate, 30-year fixed loan; down payment: \$5,000 – extremely low, \$10,000 – very low; \$15,000 – low, \$25,000 – moderate; property tax, utilities, and homeowners insurance as 30% of monthly housing cost (extremely low/very low), 28% of monthly housing cost (low), and 25% of monthly housing cost (moderate/above moderate). Homes sales prices are rounded to nearest \$100.

Source: De Novo Planning Group, 2021

OVERPAYMENT

As shown in Table H-28, 56.2% of renters in Rancho Santa Margarita and 34.4% of homeowners overpay for housing, meaning that they spend 30% or more of their income on housing costs (a benchmark set by HUD). The majority of renters that overpay are in the lower income groups, with 71.8% in the extremely low-income group and 63.1% in the very low-income group severely overpaying for housing (over 50% of their monthly income). Comparatively, however, 83.0% of extremely low-income owners and 53.8% of very low-income owners are severely overpaying. Therefore, while overpayment is more predominate among lower income renter households, overpayment is an issue for both renter and owner households. Slightly more than two-fifths (40.8%) of all households in Rancho Santa Margarita overpay for housing.

TABLE H-28: HOUSEHOLDS BY INCOME LEVEL AND OVERPAYMENT (2017)

Household Overpayment	Renters	Owners	Total	% of Income Category
Extremely Low-Income Households	905	530	1,435	100%
With Cost Burden >30%	650 / 71.8%	500 / 94.3%	1,150	80.1%

With Cost Burden >30%	2,840 / 56.2%	4,230 / 34.4%	7,070	40.8%
With Cost Burden >50%	1,340 / 26.5%	1,285 / 10.5%	2,625	15.1%

Note: Data is rounded to the nearest 5.

Source: HUD Comprehensive Housing Affordability Strategy (CHAS), 2013-2017

AFFORDABLE HOUSING INVENTORY

There are no subsidized or otherwise rent-restricted affordable multi-family complexes in Rancho Santa Margarita.

MOBILE HOME PARKS

Although the Department of Finance reports that there are 10 mobile homes located in Rancho Santa Margarita (2020), there are no mobile home parks operating within the City, which typically present a lower cost housing option for residents. The source of this misrepresentation by the Department of Finance is unknown.

3G. Future Housing Needs

A Regional Housing Needs Plan (RHNP) is mandated by the State of California (Government Code [GC], Section 65584) for regions to address housing issues and needs based on future growth projections for the area. The RHNP for Rancho Santa Margarita is developed by the Southern California Association of Governments (SCAG), and allocates a “fair share” of regional housing needs to individual cities (referred to as a City’s Regional Housing Needs Allocation, or “RHNA”). The intent of the RHNP is to ensure that local jurisdictions address not only the needs of their immediate areas but also that needs for the entire region are fairly distributed to all communities. A major goal of the RHNP is to ensure that every community provides an opportunity for a mix of housing affordable to all economic segments of its population.

This Housing Element addresses SCAG’s RHNA for the 6th Cycle, from 2021 through 2029. The City is required by State law to plan to accommodate 680 new units, which includes 104 extremely low-income units, 105 very low, 120 low, 125 moderate, and 226 above moderate-income units. Pursuant to Government Code Section 65583(a)(1), 50% of Rancho Santa Margarita’s very low-income regional housing needs assigned by HCD are extremely low-income households, and hence the 104 ELI units. Table H-29 summarizes Rancho Santa Margarita’s RHNA by household income level.

TABLE H-29: REGIONAL HOUSING NEEDS ALLOCATION – 6TH CYCLE

Status	Extremely Low	Very Low	Low	Moderate	Above Moderate	TOTAL
RHNA Allocation	104	105	120	125	226	680

Source: Southern California Association of Governments, 2020; City of Rancho Santa Margarita, 2021

3H. Special Needs Groups

Government Code Section 65583(a)(7) requires a housing element to address special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; large families; farmworkers; families with female heads of household; and families and persons in need of emergency shelter. The needs of these groups often call for targeted program responses, such as temporary housing, preservation of residential hotels, housing with features to make it more accessible, and the development of four-bedroom apartments. Special needs groups have been identified and, to the degree possible, responsive programs are provided in the Housing Plan. A principal emphasis in addressing the needs of these groups is to continue to seek State technical assistance grants to identify the extent and location of those with special needs and identify ways and means to assist them. Local government budget limitations may impact effectiveness in implementing programs for these groups.

SENIORS

Seniors are considered persons age 65 or older in this Housing Element. However, it must be noted that some funding programs have lower age limits for persons to be eligible for senior housing projects. Seniors have special housing needs primarily resulting from physical disabilities and limitations, fixed or limited income, and health care costs. Additionally, senior households also have other needs to preserve their independence including supportive services to maintain their health and safety, in-home support services to perform activities of daily living, conservators to assist with personal care and financial affairs, public administration assistance to manage and resolve estate issues, and networks of care to provide a wide variety of services and daily assistance.

Various portions of the Housing Element describe characteristics of the senior population, the extent of their needs for affordable housing, housing designated for seniors, and City provisions to accommodate their needs. Senior household growth in Rancho Santa Margarita from 2010 to 2018 is shown in Table H-30. The increase in seniors is likely a result of Rancho Santa Margarita's residents aging in place. Seniors make up a larger proportion of residents and households in 2018 than in 2010. While seniors represent approximately 7.8% of the City's population, senior households represent approximately 13% of total households, which is primarily due to the smaller senior household size.

TABLE H-30: SENIOR POPULATION AND HOUSEHOLDS, 2010-2018

	Population		Households	
	2010	2018	2010	2018
Citywide	47,214	48,792	16,665	17,290
Number (Seniors)	2,480	3,884	1,749	2,375
Percent of Citywide Total	5.3%	7.8%	10.5%	13%
Percent Change	-	7.1%	-	4.5%

Source: US Census, 2010; US Census, 2014-2018 ACS

Table H-31 summarizes senior households by age and tenure. The majority of senior households are owners, 1,590 or 66.9%. Approximately 33.1% of senior households, 785, are renters. Rancho Santa Margarita has both a lower percentage of owner-occupied and a lower percentage of renter-occupied elderly households than in Orange County.

During the planning period, senior households are anticipated to increase at a rate commensurate with overall population and household growth and are expected to continue representing approximately 14% of the City's households. Based on current trends, it is anticipated that approximately 93 units of the City's RHNA will be needed or used by senior households. Senior housing types can include market rate homes, senior single-family housing communities, senior apartments, and mobile homes.

TABLE H-31: HOUSEHOLDER AGE BY TENURE (2018)

Age Group	Owners		Renters	
	Number	Percent	Number	Percent
65-74 years	1,135	71.4%	269	34.3%
75-84 years	399	25.1%	223	28.4%
85 plus years	56	3.5%	293	37.3%
TOTAL	1,590	9.2% (of total households)	785	4.5% (of total households)

Source: US Census, 2014-2018 ACS

The 2014-2018 ACS indicates that 11% of senior households in Rancho Santa Margarita are below the poverty level. It is likely that a portion of these senior households overpay for housing due to their limited income. The median income of households with a head of household that is 65 years and over is \$32,396, only 28% of the overall median household income of \$115,073.

Senior Housing

There is increasing variety in the types of housing available to the senior population. This section focuses on three basic types.

Independent Living – Housing for healthy seniors who are self-sufficient and want the freedom and privacy of their own separate apartment or house. Many seniors remain in their original homes, and others move to residential communities which provide a greater level of security and social activities of a senior community.

Group Living – Shared living arrangements in which seniors live in close proximity to their peers and have access to activities and tailored services.

Assisted Living – Provides the greatest level of support, including meal preparation and assistance with activities of daily living.

There is one assisted living residential care facility for the elderly in Rancho Santa Margarita:

- Park Terrace, 21952 Buena Suerte – retirement community offering independent and assisted living, and Alzheimer’s care, with a capacity of 230 beds

In addition, there are two 55+ senior apartment homes in Rancho Santa Margarita:

- Overture Rancho Santa Margarita, 30824 La Miranda – 55+ community offering one- and two-bedroom apartments
- Fountain Glen, 30751 El Corazon – 55+ community offering studio and one- and two-bedroom apartments

Several programs address the non-housing needs of seniors in the City. Additional support for senior residents is provided by the City-operated Bell Tower Regional Community Center, which serves as the primary site for senior services programs offered by the City and nonprofits. Some of the programs and services provided at the Center include health screening, legal assistance, and tax preparation services. The City partners with the non-profit Age Well Senior Services organization to provide meal programs and case management services for homebound seniors.

DISABLED PERSONS

A “disability” includes, but is not limited to, any physical or mental disability as defined in California Government Code Section 12926. Physical, mental, and/or developmental disabilities could prevent a person from working, restrict a person’s mobility, or make caring for oneself difficult. Therefore, disabled persons often require special housing needs related to potential limited earning capacity, the lack of accessible and affordable housing, and higher health costs associated with disabilities. Additionally, people with disabilities require a wide range of housing, depending on the type and severity of their disability. Housing needs can range from institutional care facilities to facilities that support partial or full independence (i.e., group care homes). Supportive services such as daily living skills and employment assistance may be integrated in the housing situation.

- Individuals with a mobility, visual, or hearing limitation may require housing that is physically accessible. Examples of accessibility in housing include widened doorways and hallways, ramps, bathroom modifications (e.g., lowered countertops, grab bars, adjustable shower heads, etc.) and special sensory devices including smoke alarms and flashing lights.
- Individuals with self-care limitations (which can include persons with mobility difficulties) may require residential environments that include in-home or on-site support services ranging from congregate to convalescent care. Support services can include medical therapy, daily living assistance, congregate dining, and related services.
- Individuals with developmental disabilities and other physical and mental

conditions that prevent them from functioning independently may require assisted care or group home environments.

- Individuals with disabilities may require financial assistance to meet their housing needs because a higher percentage than the population at large are low-income and their special housing needs are often more costly than conventional housing.

According to the 2014-2018 ACS, there were 2,818 persons with one or more disabilities in Rancho Santa Margarita. Of the disabled population, 62.6% were aged 5 to 64 and 36.8% were aged 65 and over. No disabilities were reported in the population aged 5 and under (except for a vision difficulty – 10 persons under 5 years). Table H-32 identifies disabilities by type of disability.

TABLE H-32: DISABILITIES BY DISABILITY TYPE (2018)

Type of Disability	Persons Ages 5-64		Persons Ages 65+		Total	
	Number	Percent	Number	Percent	Number	Percent
Hearing Difficulty	386	21.9%	376	36.2%	762	27.0%
Vision Difficulty	252	14.3%	185	17.8%	437	15.5%
Cognitive Difficulty	608	34.5%	324	31.2%	932	33.1%
Ambulatory Difficulty	654	37.1%	726	70.0%	1,380	49.0%
Self-Care Difficulty	276	15.6%	345	33.2%	621	22.0%
Independent Living Difficulty	372	21.1%	426	41.0%	798	28.3%
Total Persons with One or More Disabilities ¹	1,764	100% / 62.6% of disabled	1,038	100% / 36.8% of disabled	2,818	100%

¹A person may have more than one disability, so the total disabilities may exceed the total persons with a disability

Source: US Census, 2014-2018 ACS

As shown in Table H-33, the 2014-2018 ACS indicates that for individuals between the ages of 16 and 64, approximately 646 persons had some form or type of disability and were not in the labor force. This indicates that their disability may impede their ability to earn an adequate income, which in turn could affect their ability to afford suitable housing accommodations to meet their special needs. Therefore, many in this group may be in need of housing assistance.

TABLE H-33: DISABLED PERSONS BY EMPLOYMENT STATUS (2018)

	Ages 16 to 64	Percent
Employed with Disability	860	56.1%
Unemployed with Disability	27	1.8%
Not in Labor Force	646	42.1%
Total	1,533	100%

Source: US Census, 2014-2018 ACS

While recent Census data does not provide income levels or overpayment data for persons with a disability, the 2014-2018 ACS does report on indicators that relate to a disabled person's or household's income. The 2014-2018 ACS data indicates that 132 persons with a disability are below the poverty level. It is likely that a portion of these disabled persons are in households that overpay for housing due to their limited income. The 2014-2018 ACS data indicates that 25.3% of households receiving food stamps or similar assistance have a disabled member. Of the 2,404 households with a disabled member, 130 households receive food stamps or similar assistance. However, the 2014-2018 ACS data indicates that the median earnings for males 16 years and over with a disability were \$73,229 compared with \$73,207 for males with no disability. Median earnings for females 16 years and over with a disability were \$45,833, compared to \$41,230 for females with no disability.

The persons in the *with a disability* category in Tables 3-32 and 3-33 include persons with developmental disabilities. "Developmental disability" means "a disability that originates before an individual attains age 18 years, continues, or can be expected to continue, indefinitely, and constitutes a substantial disability for that individual." This term includes disabling conditions, but does not include other handicapping conditions that are solely physical in nature.

While the U.S. Census reports on a broad range of disabilities, the Census does not identify the subpopulation that has a developmental disability. The California Department of Developmental Services (DDS) maintains data regarding people with developmental disabilities, defined as those with severe, life-long disabilities attributable to mental and/or physical impairments. The DDS data is reported by zip code, so the data reflects a larger area than the City of Rancho Santa Margarita; however, the data was joined at the jurisdiction level by SCAG to approximate the counts for Rancho Santa Margarita. The DDS/SCAG data indicates that 392 developmentally disabled persons reside in zip codes 92679 and 92688. Table H-34 breaks down the developmentally disabled population by residence type. Of these persons, the majority (355) live at home with a parent or guardian and only 22 live independently.

TABLE H-34: DEVELOPMENTALLY DISABLED PERSONS BY RESIDENCE TYPE (2018)

	Home of Parent/Guardian	Independent/Supported Living	Community Care Facility	Intermediate Care Facility	Foster/Family Home	Other	TOTAL
Rancho Santa Margarita*	355	22	5	0	10	0	392

*Data is for the Rancho Santa Margarita portion of zip codes 92679 and 92688

Sources: CA DDS, 2020; SCAG 6th Cycle Data Package

Housing for Disabled Persons

Households with a disabled member will require a mixture of housing units with accessibility features, in-home care, or group care housing facilities. Some of these households will have a member with a developmental disability and are expected to have unique housing needs. Developmentally disabled persons may live with a family in a typical single-family or multi-family home, but some developmentally disabled persons with more severe disabilities may have additional housing needs that may include extended family homes, group homes, small and large residential care facilities, intermediate care, and skilled nursing facilities and affordable housing such as extremely low, very low, and low-income housing (both rental and ownership), Section 8 housing choice vouchers, and single room occupancy-type units.

Aside from the one assisted living residential care facility for the elderly identified in the previous section of this Housing Element (Park Terrace), there are no other residential facilities in Rancho Santa Margarita serving adults with special needs, including physical, mental, and developmental disabilities. However, the Regional Center of Orange County located in Tustin, California offers services and support for persons with developmental disabilities by referring consumers to programs that meet their respective housing, work, educational, and leisure needs. In an effort to further assist persons with developmental disabilities, the City allocates part of its CDBG funding to the non-profit Vocational Visions organization, which offers vocational training through community supported employment. Residents with disabilities can also benefit from services offered by the Dayle McIntosh Center for the Disabled – South County Branch in neighboring Laguna Hills. The center offers disabled persons a variety of services including peer support and advocacy, along with housing referral, and rental and hotel/motel assistance if needed.

The 2014-2018 ACS data indicates that for individuals between the ages of 5 and 64, approximately 1.3% of the total population of Rancho Santa Margarita have an ambulatory difficulty, 0.5% have a vision difficulty, 0.8% have a hearing difficulty, and 0.8% have an independent living difficulty. These types of disabilities may impede their ability to find suitable housing accommodations to meet their needs. Therefore, many in these groups may require housing assistance. Households containing physically handicapped persons may also need housing with universal design measures or features to allow better physical mobility for occupants.

The 2014-18 ACS data also indicates that 2,404 households (13.9%) in Rancho Santa Margarita had one or more disabled persons, including developmentally disabled persons. It is anticipated that this rate will remain the same during the planning period. Housing needed for persons with a disability during the planning period is anticipated to include community care facilities or at-home supportive services for persons with an independent living difficulty or self-care difficulty (approximately 2.9% of the population), as well as housing that is equipped to serve persons with ambulatory and sensory disabilities. Based on the current proportion of residents with more or more disabilities, approximately 13.9% of the RHNA, 95 units, may be needed to have universal design measures or be accessible to persons with a disability.

LARGE FAMILY HOUSEHOLDS

Large family households are defined as households of five or more persons. Large family households are considered a special needs group because there is often a limited supply of adequately sized housing to accommodate their needs. The more persons in a household, the more rooms are needed to accommodate that household.

In Rancho Santa Margarita, 1,550 households, 9.0% of all households, have five or more persons as described in Table H-21. Of the large households, 73.5% own their home and 26.5% rent. Typically, there are more owner-occupied large households that are cost burdened when compared to renter households and the population as a whole. However, the 2014-2018 ACS survey does not provide data regarding overpayment (where households spend more than 30% of their income on housing costs) for large households. Table H-35 compares the median income for households with five or more persons to the citywide median income **for 2019**. For each large family category, the median household income was higher versus the citywide median of \$121,017 (for reference, the median household income for 2018, as referenced elsewhere in this Background Report, is \$115,073).

TABLE H-35: MEDIAN INCOME BY HOUSEHOLD SIZE (2019)

Size	Median Income
5-Person Households	\$165,099
6-Person Households	\$216,750
7 or More Person Households	\$182,560
Median Household Income (All Households)	\$121,017

Source: US Census, 2015-2019 ACS

Large families can have a difficult time finding housing units to meet their needs. In Rancho Santa Margarita, there appears to be a significant amount of ownership housing available to provide units with enough bedrooms for larger households; however, there is a small shortfall of adequately sized rental housing for households with six or more members. Table H-36 identifies the number of large households by household size versus the number of large owner and rental units. While for the most part there are adequate units in Rancho Santa Margarita to accommodate large owner and renter households, it does not mean that there is a match between housing units that exist and large families. As described in Table H-20, 1.2% of owner-occupied homes and 5.5% of renter-occupied homes are overcrowded.

TABLE H-36: HOUSEHOLD SIZE VERSUS BEDROOM SIZE BY TENURE (2018)

Tenure	3 BR Units	5 Person Households		4+ BR Units	6 Person and Larger Households	
		Households	Shortfall/ Excess		Households	Shortfall/ Excess
Owner	4,253	871	3,382	5,366	169	5,197
Renter	727	203	524	188	207	-19

Source: US Census, 2014-2018 ACS

Large households require housing units with more bedrooms than housing units needed by smaller households. In general, housing for these households should provide safe outdoor play areas for children and should be located to provide convenient access to schools and child-care facilities. These types of needs can pose problems particularly for large families that cannot afford to buy or rent single-family houses. Based on current trends, it is anticipated that approximately 9% (61 units) of the regional housing needs allocation units will be needed to accommodate large households and an emphasis should be placed on ensuring rental units are available to large households.

SINGLE PARENT AND FEMALE-HEADED HOUSEHOLDS

Single parent households are households with children under the age of 18 at home and include either a male- or a female-headed households. For these households, living expenses take up a larger share of income than is generally the case in two-parent households. Therefore, finding affordable, decent, and safe housing is often more difficult for single parent and female-headed households. Additionally, single parent and female-headed households have special needs involving access to daycare or childcare, health care, and other supportive services.

While the majority of households in Rancho Santa Margarita are either couples or single person households, 17.7% of family households are headed by a single male or single female. There are 618 male heads of household with no spouse present and 301 of these households have children under 18. There is a larger number of female householders with no spouse present – 1,693 households or 13.0% of family households – and 882 of these female-headed households have children under 18. Table H-37 identifies single parent households by gender of the householder and presence of children.

The median income (2018 inflation-adjusted dollars) of female-headed households (no spouse present) is \$69,310, 30% less than the median income of a male-headed, no spouse present family (\$93,804) and 62% less than the median income of all households in the City (\$132,360 using the 2018 ACS 5-Year estimate with inflation adjustment). Approximately 2.7% of households are under the poverty level; 23.9% of female-headed households with related children under 18 are under the poverty level.

TABLE H-37: FAMILIES AND FEMALE HOUSEHOLDER WITH CHILDREN UNDER 18 (2018)

Category	Number	Percent
Total Families	13,048	100%
Other	9,554	73.2%
Male householder, no spouse present	618	4.7%
With children under 18	301	2.3%
Female householder, no spouse present	1,693	13.0%
With children under 18	882	6.8%

Source: US Census, 2014-2018 ACS

FARMWORKERS

Farmworkers are traditionally defined as persons whose primary incomes are earned through permanent or seasonal agricultural labor. Following changes in the area's economy, Orange County today is a mostly developed urban/suburban region, with a strong local economy that is not tied to an agricultural base. While there are still significant active farming areas on the Irvine Ranch and in some other cities, shifts in the County's economy to manufacturing, technology, and service-oriented sectors have significantly curtailed agricultural production. The American Community Survey (ACS) 5-Year Data Profile estimates that only 59 (less than 1% of the working population) of Rancho Santa Margarita's residents were employed in agriculture (or related industries) in 2018.

HOMELESS PERSONS

Government Code Section 65583(a)(7) requires that the Housing Element include an analysis of the needs of persons and families experiencing homelessness. Homeless persons are defined in Title 24 of the Code of Federal Regulations as those who lack a fixed, regular, and adequate nighttime residence. People who are homeless may be chronically homeless (perhaps due to substance abuse or mental health issues) or situationally homeless (perhaps resulting from job loss or family strife). Homeless people face critical housing challenges due to their very low incomes and lack of appropriate housing. Thus, State law requires jurisdictions to plan to help meet the needs of their homeless populations.

The law also requires that each jurisdiction address community needs and available resources for special housing opportunities known as transitional and supportive housing. These housing types provide the opportunity for families and individuals to "transition" from a homeless condition to permanent housing, often with the assistance of supportive services to assist individuals in gaining necessary life skills in support of independent living.

Homeless Estimates

The Orange County Continuum of Care (CoC) is responsible for managing U.S. Department of Housing and Urban Development (HUD) funds and some State programs for persons experiencing homelessness. CoC is uniquely positioned to identify system needs and to take steps to address them with the collaboration and partnership of community stakeholders and local jurisdictions.

The Orange County CoC conducted the latest biennial point-in-time count to identify the sheltered and unsheltered persons experiencing homelessness in Orange County. Orange County's 2019 Sheltered Point-In-Time Count took place the night of Tuesday, January 22, 2019. Emergency shelters and transitional housing programs collected client-level demographic information from individuals and families staying the night in each program. The 2019 Unsheltered Count took place over two days, Wednesday, January 23 and Thursday, January 24, to ensure the 800 square mile county was canvassed effectively.

The 2019 Point-In-Time Report identified 15 people in the City of Rancho Santa Margarita experiencing homelessness, representing 0.2% of Orange County's total homeless count (6,860 individuals). All 15 homeless individuals in the City were unsheltered. The City requested the data collected during the 2019 to

independently verify it, but was unable to do so. While the Point-in-Time Count is traditionally conducted every two years, the 2021 count was canceled due to the COVID-19 Pandemic.

Housing Accommodations

In 2011, the City amended the Rancho Santa Margarita Zoning Code (RSMZC) to allow 1) emergency shelters by-right in the Public/Quasi-Public (PQ) zoning district, subject to compliance with objective standards consistent with the requirements identified in Government Code Section 65583(a)(4), and 2) transitional and supportive housing by-right in all residential zoning districts and subject only to the same requirements for residential uses of the same type (e.g., single-family or multi-family) in the same zone. The Housing Plan includes policies and programs directed to encourage the provision of housing and services for the homeless population as well as persons and households at-risk of homelessness. There are currently no homeless shelters or transitional housing facilities operating in the City. Rancho Santa Margarita supports a regional effort among the various local agencies making up the South Service Planning Area of Orange County, which includes 12 cities (Rancho Santa Margarita, Aliso Viejo, Dana Point, Irvine, Laguna Beach, Laguna Hills, Laguna Niguel, Laguna Woods, Lake Forest, Mission Viejo, San Clemente, and San Juan Capistrano).

The most recent inventory of resources available within Orange County for emergency shelters, transitional housing, and permanent supportive housing units comes from the 2019 Housing Inventory reported to HUD by the Orange County CoC. Table H-38 shows the total beds offered by facilities in the Orange County CoC area.

TABLE H-38: HOMELESS FACILITIES (2019)

Facility Type	Orange County CoC Region*			
	Family Units	Family Beds	Adult-Only Beds	Total Year-Round Beds
Emergency Shelter	170	574	1,401	1,989
Transitional Housing	272	816	289	1,105
Permanent Supportive Housing	213	518	1,725	2,243
Rapid Re-Housing	149	615	159	774
Other Permanent Housing	8	16	92	108
TOTAL UNITS/BEDS	812	2,539	3,666	6,219

*Numbers are for the total Orange County Continuum of Care region for which RSM is a participating member

Source: HUD 2019 Continuum of Care Homeless Assistance Programs, Housing Inventory Count Report

- **Emergency Shelters** – Six emergency shelters are available to provide services in the South Service Planning Area of the CoC jurisdiction – CSP Youth Shelter (Laguna Beach), Cold Weather Shelter (Laguna Beach), Friendship Shelter (Laguna Beach), Gilchrist House (San Clemente), Human Options (Irvine), and Laura's House (San Clemente). According to the HUD 2019 Continuum of Care Housing Inventory Count Report for the Orange County CoC, a total of 1,989 year-round emergency shelter beds and 400 seasonal beds are available in the Orange County CoC region. During the

2019 point-in-time survey, the CoC found that the average occupancy for emergency shelter beds was 79.2%.

- **Transitional Housing** – Sometimes referred to as “bridge” housing, transitional housing provides housing accommodations and support services for persons and families, but restricts occupancy to no more than 24 months. In the Orange County CoC region, a total of 1,105 transitional housing beds are provided. Transitional housing nearest to Rancho Santa Margarita includes Families Forward, Friendship Shelter, Henderson House, Hope's House, Gilchrist House, Kathy's House, Laura's House, South County Outreach, and Toby's House. The 2019 point-in-time survey found that the average occupancy for transitional housing beds was 78.2% at the time of the survey.
- **Permanent Supportive Housing** – Supportive housing has no limit on length of stay and is linked to on-site or off-site services that assist residents in retaining housing, improving their health status, and maximizing their ability to live and, when possible, work in the community. A total of 2,243 permanent supportive housing beds are provided in the Orange County CoC region.
- **Rapid Re-Housing** – Rapid re-housing provides short-term rental assistance and services. The goals are to help people obtain housing quickly, increase self-sufficiency, and stay housed.
- **Other Permanent Housing** – Consists of permanent housing and supportive services to assist homeless persons to live independently but does not limit eligibility to individuals with disabilities (no disability required for entry) and permanent housing for persons who are homeless, but does not make supportive services available as part of the project (no services).

Assessment of Need

Based on the 2019 Point-in-Time Count, there is a countywide homeless population of 6,860 persons but only 3,674 beds, indicating an unmet demand for 3,186 homeless persons. It is noted that the 2019 point-in-time survey identified 2,899 sheltered homeless persons and 3,961 unsheltered homeless persons (15 unsheltered for Rancho Santa Margarita). The discrepancy between sheltered homeless persons and the County's total capacity to house homeless persons indicates a need for additional community services resources to assist and match the homeless population with the countywide shelter and housing resources. Overall, the average bed-utilization rate for emergency shelters is 79.2% and 78.2% for transitional housing, according to the point-in-time survey information. Although there are seasonal fluctuations in bed counts, these figures demonstrate a demand for supportive housing. As new data is collected related to the number of unhoused persons in the County, the City will continue to monitor local need and work collaboratively with regional agencies and service providers to address this issue.

3I. Units at Risk of Conversion

ASSISTED HOUSING AT RISK OF CONVERSION

California housing element law requires jurisdictions to provide an analysis of low-income, assisted multi-family housing units that are eligible to change from low-income housing uses during the next 10 years (2021-2031) due to termination of subsidy contracts, mortgage prepayment, or expiration of restricted use (Government Code 65583). These units risk the termination of various subsidy groups which could convert certain multi-family housing from affordable to market rate. State law requires housing elements to assess at-risk housing in order to project any potential loss of affordable housing.

Rancho Santa Margarita does not have any assisted multi-family rental housing based on a review of HUD, LIHTC, USDA, and public housing data for the region (California Housing Partnership mapping tool) and, consequently, does not have any units at-risk of conversion. The City has one deed-restricted affordable housing project which was constructed in 1991 by Habitat for Humanity. This project is known as Carina Vista, which consists of 48 affordable owner-occupied family units, will remain affordable in perpetuity and is not at-risk of conversion.

TABLE H-39: SUMMARY OF SUBSIDIZED HOUSING UNITS

Project/Address	No. & Type of Units	Type of Subsidy	Current Owner	Earliest Date of Conversion	At-Risk
Carina Vista	48 Family	Sweat Equity	Habitat for Humanity	In Perpetuity	No

Source: City of Rancho Santa Margarita, 2021

3J. Estimates of Housing Need

Several factors influence the degree of demand, or "need," for housing in Rancho Santa Margarita. The major needs categories considered in this element include:

- Housing needs resulting from the overcrowding of units;
- Housing needs that result when households pay more than they can afford for housing; and
- Housing needs of "special needs groups" such as elderly, large families, single parent (i.e. female headed households), households with a disabled person, and persons experiencing homelessness

State law requires that cities quantify existing housing need in their Housing Element. Table H-40 summarizes those findings.

TABLE H-40: SUMMARY OF NEEDS

Summary of Households/Persons with Identified Housing Need	Percent of Total City Population/Households
Households Overpaying for Housing:	-
% of Renter Households Overpaying	56.2%
% of Owner Households Overpaying	34.4%
% of Extremely Low-income Households (0-30% AMI) Overpaying	80.1%
% of Very low-income Households (0-30% AMI) Overpaying	89.6%
% of Low-income Households (0-30% AMI) Overpaying	80.3%
Overcrowded Households:	-
% of Overcrowded Renter Households	5.5%
% of Overcrowded Owner Households	1.2%
% of All Overcrowded Households	2.4%
Special Needs Groups:	-
Elderly Households	7.9% of population 13.7% of households
Disabled Persons	5.8% of population
Developmentally Disabled Persons	0.8% of population
Large Households	9% of households
Female Headed Households	13% of households
Female Headed Households with Children	6.8% of households
Farmworkers	0.1% of population
Homeless	Less than 0.1% of population
Affordable Housing Units At-Risk of Conversion to Market Rate Costs	0

Source: Census 2014-2018 ACS Estimates, Orange County Regional Analysis of Impediments to Fair Housing Choice

To summarize, the Housing Needs Analysis has identified specific housing that may be needed in the 6th Cycle Housing Element Regional Housing Needs Allocation:

- 1) 93 units may be needed or used by senior households (p. 40).
- 2) 95 units may be needed to have universal design measures or be accessible to persons with a disability (p. 44).
- 3) 61 units may be needed to accommodate large households (five or more persons) (p. 46).

4. Constraints

Constraints to housing development include government measures or non-governmental conditions that limit the amount or timing of residential development.

Government regulations can potentially constrain the supply of housing available in a community if the regulations limit the opportunities to develop housing, impose requirements that unnecessarily increase the cost to develop housing, or make the development process so arduous as to discourage housing developers. State law requires housing elements to contain an analysis of the governmental constraints on housing maintenance, improvement, and development (Government Code Section 65583(a)(4)).

Non-governmental constraints (required to be analyzed under Government Code Section 65583(a)(5)) cover land prices, construction costs, and financing. While local governments cannot control prices or costs, identification of these constraints can be helpful to Rancho Santa Margarita in formulating housing programs.

4A. Governmental Constraints

Housing affordability is affected by factors in both the private and public sectors. Actions by the City can have an impact on the price and availability of housing in Rancho Santa Margarita. Land use controls, site improvement requirements, building codes, fees, and other local programs intended to improve the overall quality of housing may serve as a constraint to housing development. These governmental constraints can limit the operations of the public, private, and nonprofit sectors, making it difficult to meet the demand for affordable housing and limiting supply in a region. All City zoning regulations, development standards, specific plans, and fees are posted online and available to the public, consistent with the requirements of AB 1483.

LAND USE CONTROLS

Local land use policies and regulations impact the price and availability of housing, including affordable housing. This section discusses the General Plan land use designations and provisions in the Rancho Santa Margarita Zoning Code (RSMZC) relative to the types of housing allowed within Rancho Santa Margarita as a potential governmental constraint.

General Plan

The General Plan Land Use Element sets forth land use designations that guide the location, type, and intensity or density of permitted uses of land in the City of Rancho Santa Margarita. The RSMZC (Title 9 of the Rancho Santa Margarita Municipal Code) implements the General Plan by providing specific development standards for each general plan land use category. Table H-41 shows residential land uses, the corresponding zoning designation, and permitted densities allowed for housing. During the 2020 General Plan Update, the City amended the Land Use Element to create a Mixed-Use (MU) land use designation. However, no

parcels were designated MU as part of the General Plan Update process; future use of the MU designation will require a General Plan Map Amendment and adoption of MU zoning standards.

TABLE H-41: GENERAL PLAN RESIDENTIAL LAND USE DESIGNATIONS

General Plan Designation	Description	Zone Symbol	Zoning Description
Low Density Residential (LDR)	Provides for single-family detached homes on moderate to large lots. This designation allows a maximum density of 7.0 du/ac.	RL-6000, RL-5000	Residential – Low Density (1.0-7.0 du/ac)
Low-Medium Density Residential (LMDR)	Provides for small-lot single-family detached homes, and development of single-family attached residential units such as townhomes and duplexes. This designation allows a maximum density of 11.0 du/ac.	RLM-4000-A, RLM-4000-D	Residential – Low-Medium Density (7.1-11.0 du/ac)
Medium Density Residential (MDR)	Provides for detached and attached single-family homes, condominiums, duplexes, and apartments. This designation allows a maximum density of 18.0 du/ac.	RM-3000-D; RM-2000-A	Residential – Medium Density (11.1-18.0 du/ac)
High Density Residential (HDR)	Provides for attached units, condominiums, duplexes, and apartments, as well as senior housing. This designation allows a maximum density of 25.0 du/ac.	RH	Residential – High Density (18.1-25.0 du/ac)
Mixed-Use (MU) ¹	Provides for combinations of uses typically found within the Medium Density Residential (MDR), High Density Residential (HDR), Commercial General (C), and Neighborhood Commercial (NC) designations. Mixed-use developments may occur as vertical (first-floor commercial with 2-3 floors of residential above) or horizontal (adjacent development on the same parcel or site). This designation allows a maximum density of 25.0 du/ac.	N/A	N/A

Sources: City of Rancho Santa Margarita General Plan, 2020; City of Rancho Santa Margarita Zoning Code, 2021
 1. The City's existing Mixed-Use designation allows for up to 25.0 du/ac. As described in Section 5, Housing Resources, the City has proposed to create a new Mixed-Use Housing land use designation to accommodate a portion of its unaccommodated 6th Cycle RHNA.

Specific Plans

A specific plan is a comprehensive planning document that guides the development of a defined geographic area and may include a single land use type or a mix of uses including residential, commercial, industrial, schools, and parks and open space. Specific plans typically include more detailed information than the General Plan about land use, traffic circulation, development standards, affordable housing programs, resource management strategies, and a comprehensive infrastructure plan. Specific plans are also used as a means of achieving superior design by providing flexibility in development standards beyond those contained in the Zoning Code.

The City Council has adopted two specific plans: the RSM Townhomes Specific Plan (RSMTSP) and the Plano Trabuco Townhomes Specific Plan (PTTSP). Each one contains detailed regulations, conditions, programs, and design criteria unique to a defined geographic area within Rancho Santa Margarita and is intended to

implement the General Plan. The adopted specific plans are consistent with the General Plan. Future specific plans, specific plan amendments, and development projects must be consistent with policies contained in the General Plan, including the General Plan Land Use Element. The following discussion summarizes the two specific plans, which are built out and not expected to accommodate any portion of the Regional Housing Needs Allocation (RHNA) through the planning period.

RSM Townhomes Specific Plan

The RSM Townhomes Specific Plan was adopted in May 2011 and accommodates 66 two and three-story multi-family townhomes over a 4.09-acre project site. The Planning Area is located in the southwestern portion of Rancho Santa Margarita and is bordered by Avenida De Las Banderas to the north, Alma Aldea to the east, State Route 241 to the west, and residential development to the south. The Planning Area is zoned Residential High Density – Specific Plan (RH-SP). The development standards and parking requirements that apply to the Planning Area are shown in Table H-42.

Plano Trabuco Townhomes Specific Plan

The Plano Trabuco Townhomes Specific Plan was adopted in June 2015 and accommodates a total of 36 attached three-story townhome units in 12 triplex buildings. The Planning Area is located in northeastern Rancho Santa Margarita and bounded by Plano Trabuco Road to the west, residential development to the north and east, and commercial development to the south. The Planning Area is zoned Residential High Density – Specific Plan (RH-SP). Table H-42 outlines the site development standards and parking requirements established for the Specific Plan area.

TABLE H-42: RESIDENTIAL DEVELOPMENT STANDARDS – SPECIFIC PLANS

Development Standard		RSM Townhomes Specific Plan	Plano Trabuco Townhomes Specific Plan
Project Area (acres)		4.09	1.84
Total Units		66	36
Density (du/ac)		16.1	19.6
Maximum Lot Coverage		40%	45%
Minimum Unit Size (square feet)	2-bedroom	N/A	1,450
	3-bedroom	1,644	1,700
	4-bedroom	1,853	2,000
Setbacks (feet)	Front	10	5
	Side	15	10
	Rear	15	5
Distance Between Buildings (feet)		16 (two-story units) 24 (three-story units)	10
Maximum Building Height (feet/stories)		38/3	38/3
Minimum Open Space (% of site area)		25%	15%
Parking Requirements		2.0 spaces/unit + 0.75 guest spaces/unit	2.0 spaces/unit + 1 guest space/unit

PLANNED COMMUNITIES

Rancho Santa Margarita was primarily developed as a series of Planned Communities prior to incorporation. The Planned Communities comprising the incorporated City include:

- Rancho Santa Margarita Planned Community
- Rancho Trabuco Planned Community
- Robinson Ranch Planned Community
- Dove Canyon Planned Community

The area located southwest of the Robinson Ranch Planned Community is referred to as the Rancho Cielo and Walden Communities. These areas were developed consistent with the Orange County Development Code in effect at the time of development.

While the Planned Communities once set forth the zoning and site development standards for specific areas within the City, they were replaced by the Rancho Santa Margarita Zoning Code in 2007. The Planned Communities now serve as a guide for the character of development in specific geographic areas of the City. At this time, the Planned Communities have been built out, leaving little opportunity for significant new residential development. However, redevelopment or reuse that is consistent with the vision of the Planned Communities (while also consistent with the Zoning Code) may occur during the planning period. The opportunity for adding housing through Accessory Dwelling Units (ADUs) is also available in all residential zoning districts, pursuant to State law and the RSMZC.

The unincorporated area located north of Robinson Ranch is known as the Northeast Future Planned Community and designated Future Planned Community (FPC) on the General Plan Land Use Map. This area is currently within the jurisdiction of the County of Orange and within the City of Rancho Santa Margarita's Sphere of Influence. Zoning for the property allows for a variety of residential uses as entitled through the Foothill-Trabuco Specific Plan. Future development review of the FPC may include annexation by the City, and City approval of a Specific Plan. This area is subject to detailed planning and development of residential, commercial, community facility, recreation, and open space uses to ensure that it is complementary to the master planned development of Rancho Santa Margarita and properly planned for its interface with Trabuco Canyon and adjacent neighborhoods.

ZONING CODE

Land use policies in the General Plan are implemented primarily through the Zoning Code. The Zoning Code provides for a range of densities and residential uses and is designed to protect and promote the health, safety, and general welfare of residents, which includes preserving the character and integrity of established residential neighborhoods. To that end, the City has specific development standards that apply to residential construction in various districts. These include density, lot coverage, building height, parking standards, and other applicable requirements.

Provisions for a Variety of Housing Types

State housing element law requires that jurisdictions facilitate and encourage a range of housing types for all economic segments of the community. This includes the production of housing to meet the needs of different types of households with incomes ranging from low to above moderate. The Housing Element is the City's plan for achieving this objective.

As shown in Table H-43, the City's Zoning Code accommodates a wide variety of conventional and special needs housing, including single-family dwellings, multi-family dwellings, Accessory Dwelling Units (ADUs), manufactured housing, residential care facilities (small and large), and transitional and supportive housing.

TABLE H-43: PERMITTED RESIDENTIAL USES BY ZONE

Housing Type	Residential Zones				Commercial		Business Park	Public/Quasi-Public
	RL	RLM	RM	RH	CG	CN	BP	PQ

Source: City of Rancho Santa Margarita Zoning Code, 2021

Notes:

"P" = Principal Use Permitted; "C" = Conditional Use Permit; and "--" = Not Permitted

A site development permit is required for all development unless another discretionary permit is required.

1. Only permitted in the RLM-4,000-D zoning district.

2. Only permitted in the RM-3,000-D zoning district.

3. Only permitted in the RLM-3,000-A zoning district.

4. Only permitted in the RM-2,000-A zoning district.

5. The applicable use in CG and CN is Family Care Home and in BP it is Health-related institutional uses.

Single-Family: Detached single-family dwellings are permitted by-right within the RL, RLM, and RM zones. Attached single-family dwellings, which are units that are attached side by side such as townhomes or duplexes, are allowed within the RLM, RM, and RH zones. New single-family projects in areas not currently developed with residential uses are subject to discretionary review through the Site Development Permit process to ensure the project conforms to City standards. An application to build one single-family unit on an existing single-family lot is subject to ministerial review only. Pursuant to recently adopted SB9 (Atkins, 2021) additional development on single-family lots, as well as single-family lot splits, are required to be approved ministerially.

Multi-family: Multi-family developments include apartments, condominiums, senior housing, and multi-family clusters such as triplexes and fourplexes, and are permitted in the RM and RH zones by-right. Multi-family projects are subject to review through the Site Development Permit or Conditional Use Permit process.

Accessory Dwelling Unit (ADU): Government Code Section 65852.2(a)(1) allows local agencies to designate areas within a city where accessory dwelling units (ADUs) may be permitted and to impose development standards addressing issues such as unit size, height, setbacks, lot coverage, parking, landscaping, and architectural review. The City recently (2021) updated Section 9.04.190 of its Municipal Code to be consistent with California Government Code Sections 65852.150 and 65852.2, which establish regulations for accessory dwelling units.

RSMZC Section 9.04.190 defines an accessory dwelling unit in the same way as Government Code § 65852.2; that is, “an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multi-family dwelling is or will be situated.” An accessory dwelling unit also includes an efficiency unit and a manufactured home.

RSMZC Section 9.04.190 defines a junior accessory dwelling unit (JADU) in the same way as Government Code § 65852.22(h)(1); that is, “a unit that is no more than 500 square feet in size and contained entirely within a single-family residence. A junior accessory dwelling unit may include separate sanitation facilities, or may share sanitation facilities with the existing structure.”

ADUs and/or JADUs are permitted on any lot in the City zoned to allow single-family or multi-family residential uses and that includes a proposed or existing legally developed single-family or multi-family dwelling. A building permit is required for any ADU or JADU pursuant to compliance with the minimum requirements described in RSMZC Section 9.04.190, which include but are not limited to:

- For lots with a proposed or existing single-family dwelling, no more than one attached, converted or detached ADU and one JADU shall be permitted on the lot. In cases where both a detached ADU and JADU are developed or proposed on a lot, the total floor area of the detached ADU must be 800 square feet or less.
- For lots with an existing multi-family dwelling: (i) On lots with no detached ADUs, at least one ADU, and up to 25 percent of the number of the existing units may be constructed within portions of the existing multi-family dwelling structure that are not used as livable space (e.g., storage rooms, boiler rooms, passageways, attics, basements, or garages) provided all applicable building code standards are met; or (ii) Not more than two detached ADUs shall be permitted on the lot.

The approval process is ministerial in nature, and the City must approve or deny an application to construct an ADU or JADU within 60 days after receiving a complete application. If a complete application for a building permit to construct an ADU or JADU is submitted in connection with an application to construct a new primary dwelling on a lot, the application may not be approved until the application is approved for the new dwelling. The application for the ADU or JADU must be processed ministerially regardless of the approvals required for the primary dwelling. Further, the ordinance sets forth development standards for ADUs, as referenced in Table H-44:

TABLE H-44: ADU AND JADU DEVELOPMENT STANDARDS

Specific Regulations	ADU(1)		JADU	Additional Provisions
	Attached	Detached		
Minimum Size	220 sf	220 sf	220 sf	
Maximum Size	1,200(1) sf	1,200 sf	500 sf	(2)
Maximum Height	(3)	16 ft	--	
Minimum Side/Rear Yard Setback	4 ft	4 ft	--	(4)(5)
Minimum Parking	1	1	0	(6)(7)(8)

Source: City of Rancho Santa Margarita Zoning Code, 2021

Notes:

1. The total floor area of an attached ADU shall not exceed (i) 1,200 square feet, or (ii) 50 percent of the floor area of the primary dwelling unit, whichever is less. However, in no case shall this limitation be imposed to require an ADU with a total floor area of less than 800 square feet.
2. The maximum size limitations do not apply to converted ADUs that do not increase the existing floor area of a structure. In addition, a converted ADU created within an existing accessory structure may include an expansion of not more than 150 square feet beyond the same physical dimensions as the existing accessory structure to the extent necessary to accommodate ingress and egress.
3. Attached or converted ADUs shall not exceed the height of the tallest point of the existing primary structure and shall comply with the height limit of the applicable zoning district.
4. New attached and detached ADUs are subject to the same minimum front yard setback requirements applicable to other structures on the lot on which the ADU is located.
5. No setbacks are required for converted ADUs, provided the side and rear yard setbacks of the existing converted structure are sufficient for fire and safety, as determined by the City's building official.
6. When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, those off-street parking spaces are not required to be replaced.
7. Off-street parking is not required in the following instances: (i) the ADU is located within one-half mile walking distance of public transit, including transit stations and bus stations; (ii) the ADU is located within an architecturally and historically significant historic district; (iii) the ADU is part of the proposed or existing primary residence or accessory structure (i.e. a converted ADU); (iv) when on-street parking permits are required but not offered to the occupant of the ADU; and/or (v) when there is a car share vehicle station located within one block of the ADU.
8. When an existing attached garage is converted to a JADU, any required off-street parking spaces for the primary dwelling that are eliminated as a result of the conversion must be replaced. These replacement parking spaces may be located in any configuration on the same lot, including, but not limited to, as covered spaces, uncovered spaces, or tandem spaces.

Manufactured Housing: State law requires that manufactured housing, when constructed as a single-family dwelling on a permanent foundation, be treated as a conventional single-family home subject to the same development standards as a single-family residential dwelling on the same lot would require, except for architectural requirements limited to its roof overhang, roofing material, and siding material.

Section 9.01.190 of the RSMZC defines mobile home as a manufactured home. As with manufactured housing, mobile homes are allowed in all residential zones as a permitted use provided the installation complies with the site development standards for the applicable zoning district. The City of Rancho Santa Margarita currently has no mobile home parks.

Residential Care Facility: “Small” residential care facilities (those serving six or fewer clients) are allowed by-right in the residential zones and subject to the same development standards and permit processing requirements as other residential uses in those zones, pursuant to the California Lanterman Developmental Disabilities Services Act. “Large” residential care facilities (those serving seven or more clients) are subject to a Conditional Use Permit (CUP); although requiring a CUP may be considered a constraint to development of this housing type, it is also important for the City to review, on a case-by-case basis, the specifics of the application to ensure that “large” residential care facilities are supported by adequate services and infrastructure. The CUP process allows for this review and the City is not aware of any “large” residential care facilities that have been discouraged from locating in the City due to this requirement.

Senior Housing: Senior citizen housing developments, identified in the Zoning Code as a housing development that has been designed to meet the physical and social needs of senior citizens, can include independent living facilities in single or multi-family housing units or through group or assisted living such as residential care facilities, which are described above.

Emergency Shelter: Emergency shelters are allowed in the PQ zone by-right and in the residential, CG, CN, and BP zones subject to a Conditional Use Permit and the requirements of RSMZC Section 9.04.170. Emergency shelters in the PQ zone are subject to ministerial review and approval, and compliance with objective standards consistent with the requirements identified in Government Code Section 65583(a)(4).

No emergency shelters are currently located within Rancho Santa Margarita. The PQ zone includes approximately 219 acres. Although all of these sites are currently developed, future opportunities for redevelopment or adaptive reuse exist. Zoning Code Section 9.04.170 restricts the number of unsheltered persons per shelter to 10 per night. Water, sewer, and utilities are available in the PQ zone to accommodate emergency shelters.

The PQ zone is suitable for emergency shelters because:

- Shelters are compatible with a range of uses that are common in suburban communities and allowed in the Public/Quasi-Public zone (e.g., public buildings and facilities, health-related medical uses, religious, fraternal, or service organizations, etc.);
- The PQ zone is generally located along major corridors (Santa Margarita Parkway, Antonio Parkway, Avenida de Las Banderas) with easy access to public transit (bus); and
- There is a mixture of existing uses in and surrounding the PQ zone that includes open space, commercial, manufacturing, warehousing, office uses, and non-industrial uses.

Low Barrier Navigation Center: A low barrier navigation center is a housing first, low-barrier, service-enriched shelter focused on moving people into permanent housing that provides temporary living facilities while case managers connect individuals experiencing homelessness to income, public benefits, health services, shelter, and housing. AB 2162 codified as Government Code Sections 65660-65668 require jurisdictions to further streamline approval of eligible low barrier navigation center applications in areas zoned for mixed-use and residential zones permitting multi-family uses, subject to specific criteria. The City's Zoning Code does not conform to these recent requirements; however, Program 14 in the Housing Plan requires the Zoning Code to be updated to address AB 2162.

Transitional and Supportive Housing: Transitional housing is a type of housing used to facilitate the movement of homeless individuals and families to permanent housing. Transitional housing can take several forms, including group quarters with beds, single-family homes, and multi-family apartments, and typically offers case management and support services to return people to independent living (usually between 6-24 months). The Zoning Code defines transitional housing as "a type of supportive housing used to facilitate the movement of homeless individuals and families to permanent housing." Although this definition is consistent with Government Code Section 65582(j), the term should be better defined to differentiate transitional housing from supportive housing, which the Zoning Code currently does not define. Program 14 included in the Housing Plan requires the Zoning Code to be updated to redefine both transitional and supportive housing. According to the National Housing Institute, supportive housing is permanent housing with a service component, which can be provided either on-site or off-site. The target population for transitional and supportive housing includes persons with disabilities, elderly, youth aging out of the foster system, veterans, and homeless.

Senate Bill 2 (Cedillo) passed in 2007 adds language to the Government Code providing that transitional housing and supportive housing that is a rental housing development constitutes a residential use. It requires zoning to treat such uses as a residential use and subject onl to those restrictions that apply to other residential uses of the same type in the same zone. The Zoning Code allows transitional housing as a residential use, subject to the same permitting process and development standards as other residential uses in the residential zones, and in the PQ zone subject to a CUP.

Single-Room Occupancy (SRO): Single-room occupancy (SRO) facilities are a housing type that is considered suitable to meet the needs of extremely low, very low, and low-income households. With high housing costs, many communities in California are exploring the use of single-room occupancy housing to fulfill the affordable housing needs of certain segments of the community, such as seniors, students, and single workers. Rancho Santa Margarita amended its Zoning Code in 2011 to define SROs as a building with a common entrance containing a cluster of rental units which each provide sleeping and living facilities for one or two persons. SROs are permitted by-right in the RH zone, subject to the development and management standards in RSMZC Section 9.04.180.

Housing for Disabled Persons: On January 1, 2002, SB 520 became effective and required local jurisdictions to analyze local government constraints on developing, maintaining, and improving housing for persons with disabilities. In accordance with SB 520 and Government Code 65583(a)(7), the City recognizes the importance of providing housing for persons with disabilities. Persons with disabilities have a number of specific housing needs, including those related to design and location. Design needs generally include the removal of architectural barriers that limit the accessibility of dwelling units and construction of wheelchair ramps, railings, etc. Location needs include accessibility to public transportation, commercial services, health care, and supportive services. Some persons with disabilities need group housing opportunities, especially those who are lower-income or homeless. The following discussion addresses these issues and determines that no specific City policy or regulation serves to impede access by persons with disabilities to housing that suits their specific needs.

Zoning and Land Use: The General Plan and Zoning Code provide for the development of multi-family housing in the RM and RH zones by-right. Traditional multi-family housing for persons with special needs, such as apartments for the disabled, are considered regular residential uses permitted in these zones. The City's land use policies and zoning provisions do not constrain the development of such housing.

Under the Lanterman Developmental Disabilities Services Act (Lanterman Act), small State-licensed residential care facilities for six or fewer persons must be permitted in all zones that allow single or multi-family uses, subject to the same permit processing requirements and development standards. The City of Rancho Santa Margarita complies with the Lanterman Act and allows small residential care facilities in all residential zones. Large residential care facilities serving seven or more clients are permitted in residential zones subject to a Conditional Use Permit. Potential conditions of approval may include hours of operation, security, loading requirements, and management. Conditions do not serve to unduly constrain the development of residential care facilities for more than six persons. Occupancy standards for residential care facilities are the same as occupancy standards for all other residential uses. The Zoning Code also accommodates transitional and supportive housing in all residential zoning districts subject only to the same requirements for residential uses of the same type (e.g., single-family or multi-family) in the same zone, and in the PQ zone subject to a Conditional Use Permit. These facilities may serve persons with disabilities.

Building Code: Building construction and procedures within Rancho Santa Margarita are required to conform to the 2019 California Building Code, as adopted in Title 10 of the City's Municipal Code, and which are updated triennially. Standards within the Building Code include provisions to ensure accessibility for persons with disabilities. These standards are consistent with the Americans with Disabilities Act (ADA). No local amendments that would constrain accessibility or increase the cost of housing for persons with disabilities have been adopted and City officials are not aware of any instances in which an applicant experienced delays or rejection of a retrofitting proposal for accessibility to persons with disabilities.

Reasonable Accommodation: Both the federal Fair Housing Act and the California Fair Employment and Housing Act direct local governments to make reasonable accommodation (i.e. modifications or exceptions) in their zoning laws and other land use regulations to allow disabled persons an equal opportunity to use and enjoy a dwelling. For example, it may be a reasonable accommodation to waive a setback requirement so that elevated ramping can be constructed to provide access to a dwelling unit for a resident who has mobility impairments. Whether a particular modification is reasonable depends on the circumstances and must be decided on a case-by-case basis.

Reasonable accommodation refers to flexibility in standards and policies to accommodate the needs of persons with disabilities. The City's zoning and building codes, as well as approach to code enforcement, allow for special provisions that meet the needs of persons with disabilities without the need for variances. The City's reasonable accommodations process is codified in Section 9.05.130 of the RSMZC.

The City's Development Services Director has administrative authority to hear and decide applications for reasonable accommodation to allow for relief from zoning and other land use regulations, policies, and procedures for individuals with physical or mental impairment. A request for reasonable accommodation may include a modification or exception to the rules, standards, and practices for the siting, development, and use of housing or housing-related facilities that would eliminate regulatory barriers and provide a person with a disability equal opportunity to housing of their choice.

Reasonable accommodation applications are not charged a fee for review and the Development Services Director must consider all of the following factors:

1. Whether the housing that is the subject of the request will be used by an individual with a disability;
2. Whether the request is necessary to make specific housing available to an individual with a disability;
3. Whether the request would impose an undue financial or administrative burden on the City;
4. Whether the request would require a fundamental alteration in the nature of a City program or law, including but not limited to land use or zoning;
5. Whether the request will have a potentially adverse impact on surrounding uses;
6. Whether the physical attributes of the property and structures justify the requested reasonable accommodation;
7. Whether the request will provide an equivalent level of benefit as the neighbors.

Conclusion: Current planning policies and zoning regulations have mitigated potential constraints to the availability of housing for persons with disabilities. The City has analyzed its Zoning Code and procedures to ensure that it is providing flexibility in, and not constraining the development of, housing for persons with disabilities.

Development Standards

Development standards directly shape the form and intensity of residential development by providing controls over land use, heights and density of buildings, open space on a site, etc. Site development standards also ensure a quality living environment for all household groups in the City, including special groups such as lower and moderate-income households and senior citizens. Table H-45 summarizes development standards in the residential zones (RL, RLM, RM, and RH), including density, minimum lot size, lot coverage, setbacks, and building height, by zoning district.

TABLE H-45: BASIC RESIDENTIAL DEVELOPMENT STANDARDS

Development Standard		RL ¹	RLM	RM ²	RH
Maximum Density (units per acre)		7.0	11.0	18.0	25.0
Minimum Lot Area (square feet)		5,000	4,000	2,000	7,500
Maximum Lot Coverage (% of lot area)		60%	60%	65% ³	65%
Setbacks (feet) ⁴	Front	15	15	15 ⁵	20
	Side Yard (internal)	5	5	10 ⁶	20
	Side Yard (street)	10	10	10	20
	Rear	10	10	10	20
Maximum Building Height (feet)		35 feet and 2 stories			
Landscaping (% of net site area)		15%			

Source: City of Rancho Santa Margarita Zoning Code, 2021

Notes:

1. Includes RL-6,000 with 6,000 sf minimum lot size and RL-5,000 with 5,000 sf minimum lot size.
2. Includes RM-3,000-D with 3,000 sf minimum lot and RM-2,000-A with 2,000 sf minimum lot.
3. Maximum lot coverage in RM-3,000-D zone is 60%.
4. Buildings located within the RLM-4,000-A, RM-2,000-A, and RH zoning districts shall maintain a minimum distance of ten feet between buildings.
5. Minimum front setback in RM-2,000-A zone is 10 feet.
6. Minimum side (internal) setback in RM-3,000-D zone is 5 feet.

Minimum unit size standards are established to facilitate the inclusion of smaller units in the High Density Residential (RH) zone. Table H-46 summarizes the unit size development standards for the RH zone.

TABLE H-46: MINIMUM UNIT SIZE (RH ZONE)

Unit Type	Minimum Size (square feet)
Studio	500
One-bedroom unit	600
Two-bedroom unit	700
Three-bedroom unit	800

Residential Parking Requirements

Parking standards are an important development regulation in communities. The City's parking requirements are intended to ensure that adequate off-street parking and loading facilities are provided in proportion to the need created by the type of use. Adequate parking for residential projects contributes to the value of a project, the safety of residents, and the quality of a project's appearance. However, excessive parking standards can pose a significant constraint to the development of housing because they can reduce the buildable area on a site and impact the funding available for project amenities or additional units. The parking requirements for residential developments are shown in Table H-47.

TABLE H-47: RESIDENTIAL PARKING REQUIREMENTS

Use	Requirement	Additional Regulations
Single-family dwellings (single-family detached dwellings, two-family dwellings (duplexes), and townhomes sharing a common wall)	2 off-street spaces in a garage per dwelling unit	<p>In addition, a minimum of one on-street parking space within 100 feet of the subject dwelling unit</p> <p>For new development projects, those dwellings having less than an 18-foot front setback must provide one additional parking space within 200 feet of the dwelling (on-street or off-street)</p>
Multi-family (apartments and condominiums)	<p>Studio: 1 covered off-street space per dwelling unit + 0.5 guest space per unit</p> <p>1 bdrm: 2 off-street spaces per dwelling unit (at least one covered) + 0.5 guest space per unit</p> <p>2 bdrm: 2 off-street spaces per dwelling unit (at least one covered) + 1 guest space per unit</p> <p>3+ bdrm: 3 off-street spaces per dwelling unit (at least one covered) + 1.5 guest spaces per dwelling unit</p>	
Accessory Dwelling Unit	<p>1 off-street space per ADU</p> <p>No spaces required for JADU</p>	<p>When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, those off-street parking spaces are not required to be replaced</p> <p>No parking is required if ADU is:</p> <ul style="list-style-type: none"> Located within 0.5 mile walking distance of public transit Located within an architecturally and historically significant historic district Part of the proposed or existing primary residence or an accessory structure

Use	Requirement	Additional Regulations
		When on-street parking permits are required but not offered to the occupant of the ADU When there is a car share vehicle station located within one block of the ADU
Health-related institutional uses including family care homes, convalescent and nursing homes, adult living facility, assisted care facilities, senior living facilities, emergency shelters, children's homes, and sanitariums, health related institutional uses, transitional housing	1 off-street space per each 3 beds based on maximum occupancy	Development Services Director may allow for a different parking standard if credible evidence is provided that a different parking ratio is appropriate based on an emergency shelter's demonstrated need
Senior apartments (age-restricted)	To be determined through the conditional use permit	
Single-room occupancy (SRO) facilities	0.5 off-street space per unit + 1 off-street space for each employee	
Affordable housing projects	0 - 1 bdrm: 1 off-street parking space 2 - 3 bdrm: 2 off-street parking spaces 4+ bdrm: 2.5 off-street parking spaces	

Source: City of Rancho Santa Margarita Zoning Code, 2021 (Chapter 9.06, Parking)

A parking reduction is available for projects that qualify as affordable housing developments or through the CUP process for senior housing. Moreover, affordable housing developments that are eligible for a density bonus pursuant to Government Code Section 65915-65918 are eligible to use parking standards established by State Density Bonus law. The Zoning Code also has shared parking provisions for "mixed land use developments," (see 9.06.090(d)) and although the code does not specify the types of mixed uses, the provisions are available for future residential/commercial mixed-use projects.

DEVELOPMENT REVIEW PROCESS

The time and cost of permit processing and review can be a constraint to housing development if significant or lengthy development review is required. Project review and permit processing are necessary steps to ensure that residential construction proceeds in an orderly manner. The time required for project approval is often not so much a factor of the approval body (Director versus Planning Commission), but the complexity of the project and associated environmental review. However, small infill projects that can be approved administratively are generally less complex and take a shorter time to obtain appropriate approvals. Large multi-family developments or residential subdivision maps, require a public hearing before the Planning Commission and are subject to the California Environmental Quality Act (CEQA).

The City reviews all applications for development to ensure the construction of projects contribute in a positive manner to the community and improve quality-of-life. Residential development projects typically undergo several types of approvals – ministerial, discretionary actions (either with or without a public hearing), and legislative actions. This section outlines the timeline for typical residential development review and describes the permitting requirements and procedures for Site Development Permits, Conditional Use Permits (CUP), Subdivision Maps, etc.

Timeframes

Processing times for applications in Rancho Santa Margarita can vary based upon the scope and type of project. The amount of time involved in processing applications depends on the type of project, the applicant's compliance with the City's ordinances, and the completeness of the applications. Certain types of applications/permits require a public hearing, while others are processed administratively with approvals by staff. Administrative approvals generally have a shorter processing time because a public hearing is not required.

Some projects may take an extended period for final approval. Projects which would generally have significant environmental impacts, involve a General Plan amendment or a Specific Plan, rezoning, or need additional community workshops and outreach, are generally more complex projects to evaluate and take longer to process than simpler applications. State requirements for public review periods and public noticing under the Brown Act must be followed. Developers may also be responsible for delays by failing to provide information in a timely manner or requesting continuances.

As a built-out community, residential development in Rancho Santa Margarita during the previous planning period was modest and does not provide ample measure for determining processing times for residential development applications. However, based on typical processing times for similar projects, review and approval of one single-family home on an existing single-family lot will range from 30 to 60 days, which assumes plan check and building permits with no additional entitlements required. Construction of a single residential unit on an existing lot would not create substantial new environmental impacts, and would not be subject to CEQA review, thereby greatly reducing the time needed for review. The typical processing time for a single-family subdivision or multi-family

project would be 9-12 months, which assumes that discretionary entitlements are required, a moderate level of environmental analysis is necessary, and public hearings with the Planning Commission and/or City Council will occur.

Table H-48 outlines the typical permit processing times and associated review body by the type of approval or permit. It should be noted that many projects require multiple entitlements, which are often processed concurrently, thereby shortening the overall processing time.

TABLE H-48: TYPICAL RESIDENTIAL PERMIT PROCESSING TIMES AND REVIEWING BODY

Type of Residential Project Approval or Permit	Review Authority				Processing Times
	Director	PC	CC	Public Hearing	
Accessory Dwelling Unit	D	A	--	No	30-60 days
Alternative Development Standards	--	D	A	Yes	2-3 months
Amendment of Zoning Code Text/ Zone Change	--	R	D	Yes	6-8 months

D = Deciding body whose decision is final unless appealed

R = Advisory body required to make recommendations

A = Appeal authority

Notes:

1. Based on Planning Commission review.

Site Development Permit

In accordance with Chapter 9.08, Section 9.08.170 of the RSMZC, when no other discretionary permit is required, a Site Development Permit is required for new residential development projects (excluding development of a single-family residential unit on a single-family lot, which is ministerial), and non-residential development projects involving new construction, reconstruction, building additions, or structural or site modifications, and, at the Development Services Director's discretion, may be required to be filed for any proposal determined by the Director not to be in clear compliance with General Plan policies or consistent with the RSMZC. The Site Development Permit process is a discretionary action performed by either the Development Services Director or Planning Commission.

Site Development Permit review ensures that a project complies with all applicable site development standards, including minimum lot size, maximum lot

coverage, height limit, setbacks, parking and garage/carport placement, landscaping, and screening, and that the findings required by RSMZC Section 9.08.170(e) can be made. The process also gives the City the ability to review the development to determine the applicable provision of park land, public improvements, or other applicable items as required by the RSMZC.

Conditional Use Permit (CUP)

Chapter 9.08, Section 9.08.110 of the Zoning Code regulates the issuance of Conditional Use Permits (CUP). Land uses that require a CUP are deemed consistent with the purpose and intent of the zoning district, but typically have characteristics that require special regulation in order to avoid or minimize potential adverse impacts on surrounding properties. The following residential uses require a CUP:

- Small (6 or fewer clients) residential care facilities in the CG, CN, and PQ zones;
- Large (7 or more clients) residential care facilities in the RL, RLM, RM, RH, CG, CN, and PQ zones;
- Emergency shelters in the RL, RLM, RM, RH, CG, CN, and BP zones; and
- Transitional/supportive housing in the PQ zone.

The Planning Commission may approve, conditionally approve, or deny a CUP application unless the application includes concurrent processing of a permit that requires City Council action, in which case the Planning Commission makes a recommendation to the City Council. The approving body must make the following findings prior to approval, pursuant to Section 9.08.110 of the Zoning Code:

1. That the use proposed CUP will be consistent with the objectives, policies, and general land uses and programs specified in the City's General Plan;
2. That the proposed CUP is consistent with the provisions of the Zoning Code;
3. That the location, size, design, and operating characteristics of the proposed CUP will not create unusual noise, traffic, or other conditions or situations that may be objectionable, detrimental, or incompatible with other permitted uses in the vicinity; and
4. That the proposed CUP will not result in conditions or circumstances contrary to the public health and safety and the general welfare.

These findings apply to all uses that require a CUP; no special or unique findings are required for residential uses.

Subdivisions

This review process applies to all residential land divisions within the City. Section 9.08.200, and Chapter 9.10 of the RSMZC includes the standards and processes for subdivisions. It is based primarily on the State Subdivision Map Act. As it relates to residential development, the regulations apply to all land divisions that create lots for single-family homes and lots, or condominiums, for multi-family development. As part of the review process for subdivisions, the City reviews applications for compliance with lot size and shape standards, the general layout of the subdivision, and infrastructure requirements. If the project complies with the subdivision standards and General Plan density, the project can proceed through the approval process.

Specific Plans

Specific Plans are legislative in nature and require review and approval by the City Council. Residential and mixed-use projects within an approved Specific Plan are permitted by-right, which would include administrative design review as defined in California Government Code Sec. 65583.2(i).

Reasonable Accommodation

The City's process for providing reasonable accommodation allows individuals, or their representatives, to make requests for reasonable accommodations for persons with disabilities as part of any permit process. No additional permits are required or additional fees charged by the City. Requests for reasonable accommodation to meet the needs of persons with disabilities are approved administratively, and a use permit is not required. City staff is available to provide assistance regarding the processing of requests for the construction of accessory structures intended to accommodate persons with disabilities. Rancho Santa Margarita's reasonable accommodation procedure complies with Housing Element law and provides an accessible way for disabled residents to make necessary changes to their properties.

ENVIRONMENTAL REVIEW

The City has adopted uniform procedures for complying with the requirements of the California Environmental Quality Act (CEQA) for assessing the potential environmental impacts of those development applications determined to be a "project" as defined by Public Resources Code 21000-21177. Environmental review is required for most discretionary actions including Conditional Use Permits, Subdivision Maps, and legislative actions including General Plan Amendments, zone changes, and code amendments. Environmental review occurs while the application is being processed. An environmental determination by City staff for a project is made in order to prepare the appropriate environmental document that can be considered by the decision-making authority with the legislative or discretionary application. Given that a large portion of the existing and likely future development potential in Rancho Santa Margarita will be of an infill nature, many residential development projects may qualify for categorical exemption from the CEQA process.

STREAMLINING APPROVALS

Lower Income Sites Included in Previous Elements

While the Site Development Permit process is not considered a constraint to

housing, Policy 1.8, in the Housing Plan (Part 1 of the Housing Element) has been included to comply with Government Code Section 65583.2. This program will provide for administrative approval (e.g., Development Services Director approval of a Site Development Permit and entitlements other than a subdivision map) of housing projects on sites included in a previous (5th cycle or before) Housing Element Sites Inventory, with a minimum of 20% of units affordable to lower income households and will increase certainty for affordable and multi-family developers.

Senate Bill (SB) 35

SB 35 provides provisions for streamlining projects based on a jurisdiction's progress towards its Regional Housing Needs Allocation (RHNA) and timely submittal of the Housing Element Annual Progress Report. Jurisdictions which have made insufficient progress toward their lower income RHNA and/or have not submitted the latest Housing Element Annual Progress Report are subject to the streamlined ministerial approval process (SB 35, Chapter 366, Statutes of 2017, streamlining) for proposed developments with between 10% and 50% affordability, as determined by California Department of Housing and Community Development (HCD) based on the lack of progress .

Based on the Annual Progress Reports and progress towards the RHNA, Rancho Santa Margarita is currently subject to SB 35 streamlining provisions when proposed developments include 50% affordability. Program 15 in the Housing Plan has been provided to incorporate the mandatory streamlining provisions into the City's Zoning Code. These streamlining provisions will modify approval requirements for projects that include a minimum of 50% of units affordable to lower income households and that meet the criteria specified by State law.

FLEXIBILITY IN DEVELOPMENT STANDARDS

Development standards affect the financial feasibility of a residential project, both from the revenue side (through achievable density) and through the costs of accommodating specific development standards. However, there is no specific threshold that determines whether a particular standard or combination constrains the affordability or supply of housing. Many factors determine project feasibility. While prior sections discussed how to reduce development costs, the following describes ways that the Zoning Code offers flexibility in development standards.

Density Bonus

In 2007, the City adopted the RSMZC that allows density bonuses for affordable and senior residential projects in accordance with State Density Bonus law (prior to 2007, the City relied on the County of Orange's Zoning Code). Section 9.05.040 of the RSMZC requires density bonuses and other incentives for housing and/or child care facilities to be granted in accordance with the requirements of State law, including Government Code Title 7, Division 1, Chapter 4.3 (Density Bonuses and Other Incentives).

Section 9.05.040 of the RSMZC allows density bonuses for affordable and senior residential projects in accordance with State Density Bonus law (Government Code Sections 65915 – 65918). Density bonuses and other incentives for housing and/or child care facilities may be granted in accordance with the requirements of the law. The City is required to grant a density bonus on a sliding scale if a development

provides a percentage of the units at rates that are affordable to very low, low, and moderate-income households. For example, a density bonus of 20 percent above the maximum permitted density can be granted if at least 5 percent of the units are affordable to very low-income households or 10 percent of the units are affordable to low-income households. If 10 percent of condominium or planned development units are affordable to moderate-income households, then the project is eligible to receive a 5 percent density bonus. The sliding scale requires additional density bonuses above the percentage thresholds (up to a maximum density bonus of 35 percent) as additional affordable units are provided.

Additionally, jurisdictions must grant concessions or incentives depending on the percentage of affordable units provided. Concessions and incentives include reductions in zoning standards, other development standards, design requirements, and mixed-use zoning among others. Any project that meets the minimum criteria for a density bonus is entitled to at least one concession and may be entitled to as many as four concessions.

Government Code Section 65915 et. seq. also specifies the reduced parking standards to be used for development for projects eligible for a density bonus. These numbers are inclusive of guest parking and handicapped parking. Spaces may be tandem and/or uncovered.

- Zero to one bedroom: one onsite parking space
- Two to three bedrooms: one and one-half onsite parking spaces
- Four or more bedrooms: two and one-half parking spaces

The Government Code directs jurisdictions to offer incentives for projects that meet the density bonus affordable unit requirements, regardless of whether or not the project is utilizing a density bonus. The thresholds for incentives are shown below.

- One incentive or concession for projects that include at least 10 percent of the total units for lower income households, at least 5 percent for very low income households, or at least 10 percent for persons and families of moderate income in a common interest development.
- Two incentives or concessions for projects that include at least 17 percent of the total units for lower income households, at least 10 percent for very low income households, or at least 20 percent for persons and families of moderate income in a common interest development.
- Three incentives or concessions for projects that include at least 24 percent of the total units for lower income households, at least 15 percent for very low income households, or at least 30 percent for persons and families of moderate income in a common interest development.
- Four incentives or concessions for projects meeting the criteria of subparagraph (G) of paragraph (1) of subdivision (b) (Government Code Section 65915 et. seq.). If the project is located within one-half mile of a major transit stop, the applicant shall also receive a height increase of up to three additional stories, or 33 feet.

Inclusionary Housing

The City does not have any requirements that obligate developers to provide or fund housing at specific affordability levels.

Condominium Conversions

In order to reduce the impacts of condominium conversions on residents of rental housing, some of which provides housing for low and moderate-income persons, RSMZC Section 9.05.020 requires the following:

1. Application for a Site Development Permit to be submitted to the Development Services Director;
2. Submission of an engineering report on the general condition of all structural, electrical, plumbing, and mechanical elements of the existing development;
3. Submission of a housing program which includes:
 - a. The means by which the provision of housing affordable to lower and moderate-income households will be achieved;
 - b. A housing report addressing the balance of housing in the community, including vacancy rates and other available housing of similar type and rent; the current rents and estimated monthly payments and fees of the units to be converted, and all improvements and/or renovations contemplated;
 - c. A survey of existing tenants as to their length of occupancy, and the number of those projected to purchase one of the units; and
 - d. A relocation plan that identifies the steps that will be taken to ensure the successful relocation of each tenant in the event the conversion take places
4. A requirement that the property owner provide tenants a 90 day preemptive right to purchase units or a right of exclusive occupancy upon more favorable terms and conditions than those on which the units will be initially offered to the public.

When a condominium conversion is permitted, the increase in the supply of less expensive for-sale units helps to compensate for the loss of rental units. The ordinance to regulate condominium conversions is reasonable to preserve rental housing opportunities, and does not present an unreasonable constraint on the production of ownership housing.

Short-Term Rentals

Section 9.04.190 of the RSMZC addresses short-term rentals for ADU and JADU units. Section 9.04.190 prohibits an owner of an ADU or JADU from renting the unit for a period of less than 30-days. There were no short-term ADU rentals in Rancho Santa Margarita listed on *Airbnb.com* in July 2021; however, there were four rentals for either an entire house, condominium, or apartment. The number of short-term rentals in the City is small enough to not significantly decrease the amount of housing stock available for permanent occupancy.

BUILDING CODES AND ENFORCEMENT

New construction in Rancho Santa Margarita, including additions and remodels,

must comply with the 2019 California Building Code (CBC). The City adopted the 2019 California Building Code with all required updates and re-adopts the codes triennially. The Building Code establishes construction standards necessary to protect public health, safety, and welfare, and the local enforcement of this code does not unduly constrain development of housing. The 2019 California Building Code, Title 24, Part 2, Volumes 1 and 2, published by the International Code Council, was adopted by the City by reference as Title 10 of the City's Municipal Code and subject to the amendments contained in that Title.

No local amendment to the Building Code has either been initiated or approved that directly impacts housing standards or processes. Code enforcement is conducted by the City and is based upon issues identified by the community and reported to City staff. The City maintains general records of neighborhoods where code complaints are most prevalent and works proactively with these neighborhoods to address potential issues before they become significant concerns. The City enforces its code requirements equitably throughout the community, as necessary. The Code Enforcement Officer works with property owners and renters to assist in meeting State health and safety codes.

DEVELOPMENT FEES

The City of Rancho Santa Margarita charges fees to process plans submitted for residential projects commensurate with the cost of providing this service. Fees and/or exactions may be charged to specific projects that require public facilities and roadways to be upgraded. However, the City has not adopted any such exactions and only collects statutory fees related to the Quimby Act for provision of parks and recreation. Other agencies, including water and school districts, collect fees. Additionally, road fees are collected by the Transportation Corridor Agency (TCA) and County of Orange. Fees are assessed through a pro rata share system, based on the magnitude of the project's impact or the extent of the benefit that will be derived. Failure to adequately plan for infrastructure to support residential development is a key reason why jurisdictions are so financially constrained today. In general, fees and exactions can be a constraint on housing development and compromise market-rate affordability because the additional cost borne by developers contributes to overall increased housing unit cost. However, the fees are necessary to maintain adequate public services, infrastructure, and facilities in the City.

For new residential projects, developers in Rancho Santa Margarita may be required to pay one or more of the following fees depending on the location, type, and size of the project:

Planning, Building, and Environmental Fees: The City of Rancho Santa Margarita charges developers fees for processing applications, standard plan check fees, building permits, tentative tract maps, conditional use permits, variances, environmental initial studies, and/or other permits to pay for the cost of processing applications and conducting inspections for specific projects. Additional fees may be required for project-specific environmental review.

City Impact Fees: The City may charge impact fees to finance new or expanded infrastructure and public facilities required to serve residents. The fee must have a

reasonable relationship to the infrastructure costs and represent the marginal cost of improvements required to serve residents of the new residential projects. The City has not adopted any fees to offset impacts to public streets, drainage facilities, water quality, and parks. Fees and assessments may apply in the future, if adopted.

Regional Impact Fees: Regional impact fees include water and sewer fees collected by the water districts, and school impact fees collected by the school districts as allowed by State law to finance the construction and expansion of schools to accommodate student enrollment. The water and school districts have the authority to set the fee levels; the City does not have any ability to adjust these fees.

Table H-49 details the City's Planning Department processing fees for development project entitlements and Table H-50 describes the fee schedule for residential building permits. One or more of the entitlements would be required to process a residential project depending on the scale and complexity of the project and a building permit is required for each residential structure.

TABLE H-49: DEVELOPMENT PROJECT PROCESSING FEES (EFFECTIVE JULY 12, 2021)

Entitlements	
Planning and Application Fees ¹	
Conditional Use Permit – Minor	\$4,575 deposit
Conditional Use Permit – Major	\$8,040 deposit
Development Agreement	\$12,812 deposit

4B. Non-Governmental Constraints

Non-governmental constraints refer to market factors such as the demand for housing, the price of land, construction costs, availability of financing, and other factors that increase the cost of housing development.

DEVELOPMENT COSTS

Land Prices

The cost to develop housing is influenced by the cost of the raw land, the cost of holding the land during the development process, and the cost of providing services to meet City standards for development. The cost of raw land is influenced by variables such as scarcity, location, availability of public utilities, zoning, and unique features such as environmental conditions and adjoining uses. In Orange County, undeveloped land is limited and combined with a rapidly growing population land prices have generally increased. A review of lots for sale and recently sold, as of mid-2021 using Zillow and LoopNet listings, found no vacant lots zoned for residential use in Rancho Santa Margarita.

A small number of underdeveloped parcels with a single-family unit that could be redeveloped with larger, single-family homes (with ADUs) have been sold for \$475,000 to \$830,000 or approximately \$105.56 to \$249.40 per square foot, largely depending on the location within the community.

It is difficult to ascertain the cost of raw land for multi-family development since there has been a limited number of recent multi-family sales in Rancho Santa Margarita. A review of multi-family developments for sale or recently sold through Zillow and Redfin found no multi-family developments in Rancho Santa Margarita. A small number of multi-family condominiums have been sold, including 12 Montana Del Lago Drive #168, a 1,350 square foot unit that sold for \$515,000 in January 2020 (\$381.48 per square foot); 28 Gavilan #180, a 882 square foot unit that sold for \$466,264 in August 2021 (\$528.64 per square foot); and 82 Flor De Sol #49, a 737 square foot unit which sold for \$365,000 in September 2020 (\$495.25 per square foot).

Cost of Construction

Construction cost is determined primarily by the cost of labor and materials. The relative importance of each is a function of the complexity of the construction job and the desired quality of the finished product. As a result, builders are under constant pressure to complete a project for as low a price as possible while still providing a quality product. This pressure has led (and is still leading) to an emphasis on labor-saving materials and construction techniques.

The International Code Council (ICC) provides estimates for the average cost of labor and materials for typical protected wood-frame housing. Estimates are based on “good-quality” construction, providing for materials and fixtures well above the minimum required by state and local building codes. In the 2018 edition of the Building Safety Journal, the ICC estimated that the average per square foot cost for good-quality housing in the Rancho Santa Margarita area was approximately \$113 for multi-family housing and \$139 – \$206 per square foot for single-family homes. Although construction costs are a substantial portion of the overall development cost, they are consistent throughout the region and therefore are not considered a major constraint to housing production. The 2020 COVID-19 pandemic social distancing guidelines, as well as labor shortages and material constraints, may increase construction costs for an unknown period.

Construction cost increases, like land cost increases, affect the ability of consumers to pay for housing. Construction cost increases occur due to the cost of materials, labor, and higher government-imposed standards (e.g., energy conservation requirements). The development community is currently producing market rate for-sale housing that is affordable to moderate and above moderate-income households.

Cost and Availability of Financing

Financing is critical to the housing market. Developers require construction financing and buyers require permanent financing (mortgages). The two principal ways in which financing can serve as a constraint to new residential development are the availability and cost of construction financing and the availability and cost of permanent financing.

- If financing is not easily available, then more equity may be required for developing new projects and fewer homebuyers can purchase homes, since higher down payments are required.
- Higher construction period interest rates for developers result in higher development costs. For homebuyers, higher interest rates translate into higher mortgage payments (for the same loan amount), which therefore reduces the purchasing power of homebuyers.

On May 6, 2021, the reported average rate for a 30-year mortgage was 2.96% with 0.6 fees/points (Freddie Mac, 2021). From 2005 through 2021, average monthly mortgage rates have ranged from a high of 6.76% in July 2006 to today’s record lows. For homebuyers, it is necessary to pay a higher down payment than in the recent past, and demonstrate credit worthiness and adequate incomes, so that loan applications meet standard underwriting criteria. While adherence to strict underwriting criteria was not required during the early and mid-2000s, the return to stricter standards is consistent with loan standards prior to 2001.

Approved and Built Densities

While the City's zoning regulations identify minimum and maximum densities that can be developed in Rancho Santa Margarita, individual developers may opt to build at the lower, mid-range, or higher end of allowed densities. Typically, projects in Rancho Santa Margarita have been built within 10% of the maximum allowable density. The most recent residential developments in the City were a 66 unit condominium project built in 2011 in the HDR category at a density of 25 units per acre (known as Tesoro Trails), and a 36-unit condominium project built in 2016 in the HDR category built at a density of 19.5 units per acre (known as Dahlia Court). Due to high demand for residential uses and high development costs, the City expects any new projects to be built at or near the maximum allowable density.

Requests to Build at Lower Densities

The City has not received any requests from applicants to build at densities lower than those allowed by the General Plan and/or Zoning Code. The two most recent development projects in the City (Tesoro Trails and Dahlia Court, described above) developed within their allowable densities.

AFFORDABLE HOUSING DEVELOPMENT CONSTRAINTS

In addition to the constraints to market rate housing development discussed above, affordable housing projects face other constraints. While there may be sites available for potential affordable housing projects, as well as projects that focus on special needs populations, financial assistance for the development of affordable housing is limited and highly competitive.

Multiple funding sources are typically needed to construct an affordable housing project since substantial subsidies are required to make the units affordable to extremely low, very low, and low-income households. It is not unusual to see five or more funding sources assembled to make a project financially feasible. Each of these sources may have different requirements and application deadlines, and some sources may require that the project has already successfully secured financing commitments. Since financing is so critical and is also generally competitive, organizations and agencies that provide funding can often effectively dictate the type and size of projects. Thus, in some years senior housing may be favored by financing programs, while in other years family housing may be preferred. Target income levels can also vary from year to year.

This situation has worsened in recent years. Federal and state funding has decreased and limited amounts of housing funds are available. Tax credits, often a fundamental source of financing for affordable housing, are no longer selling on a one for one basis. In other words, once a project has received authorization to sell a specified amount of tax credits to equity investors, the investors are no longer purchasing the credits at face value but are purchasing them at a discount.

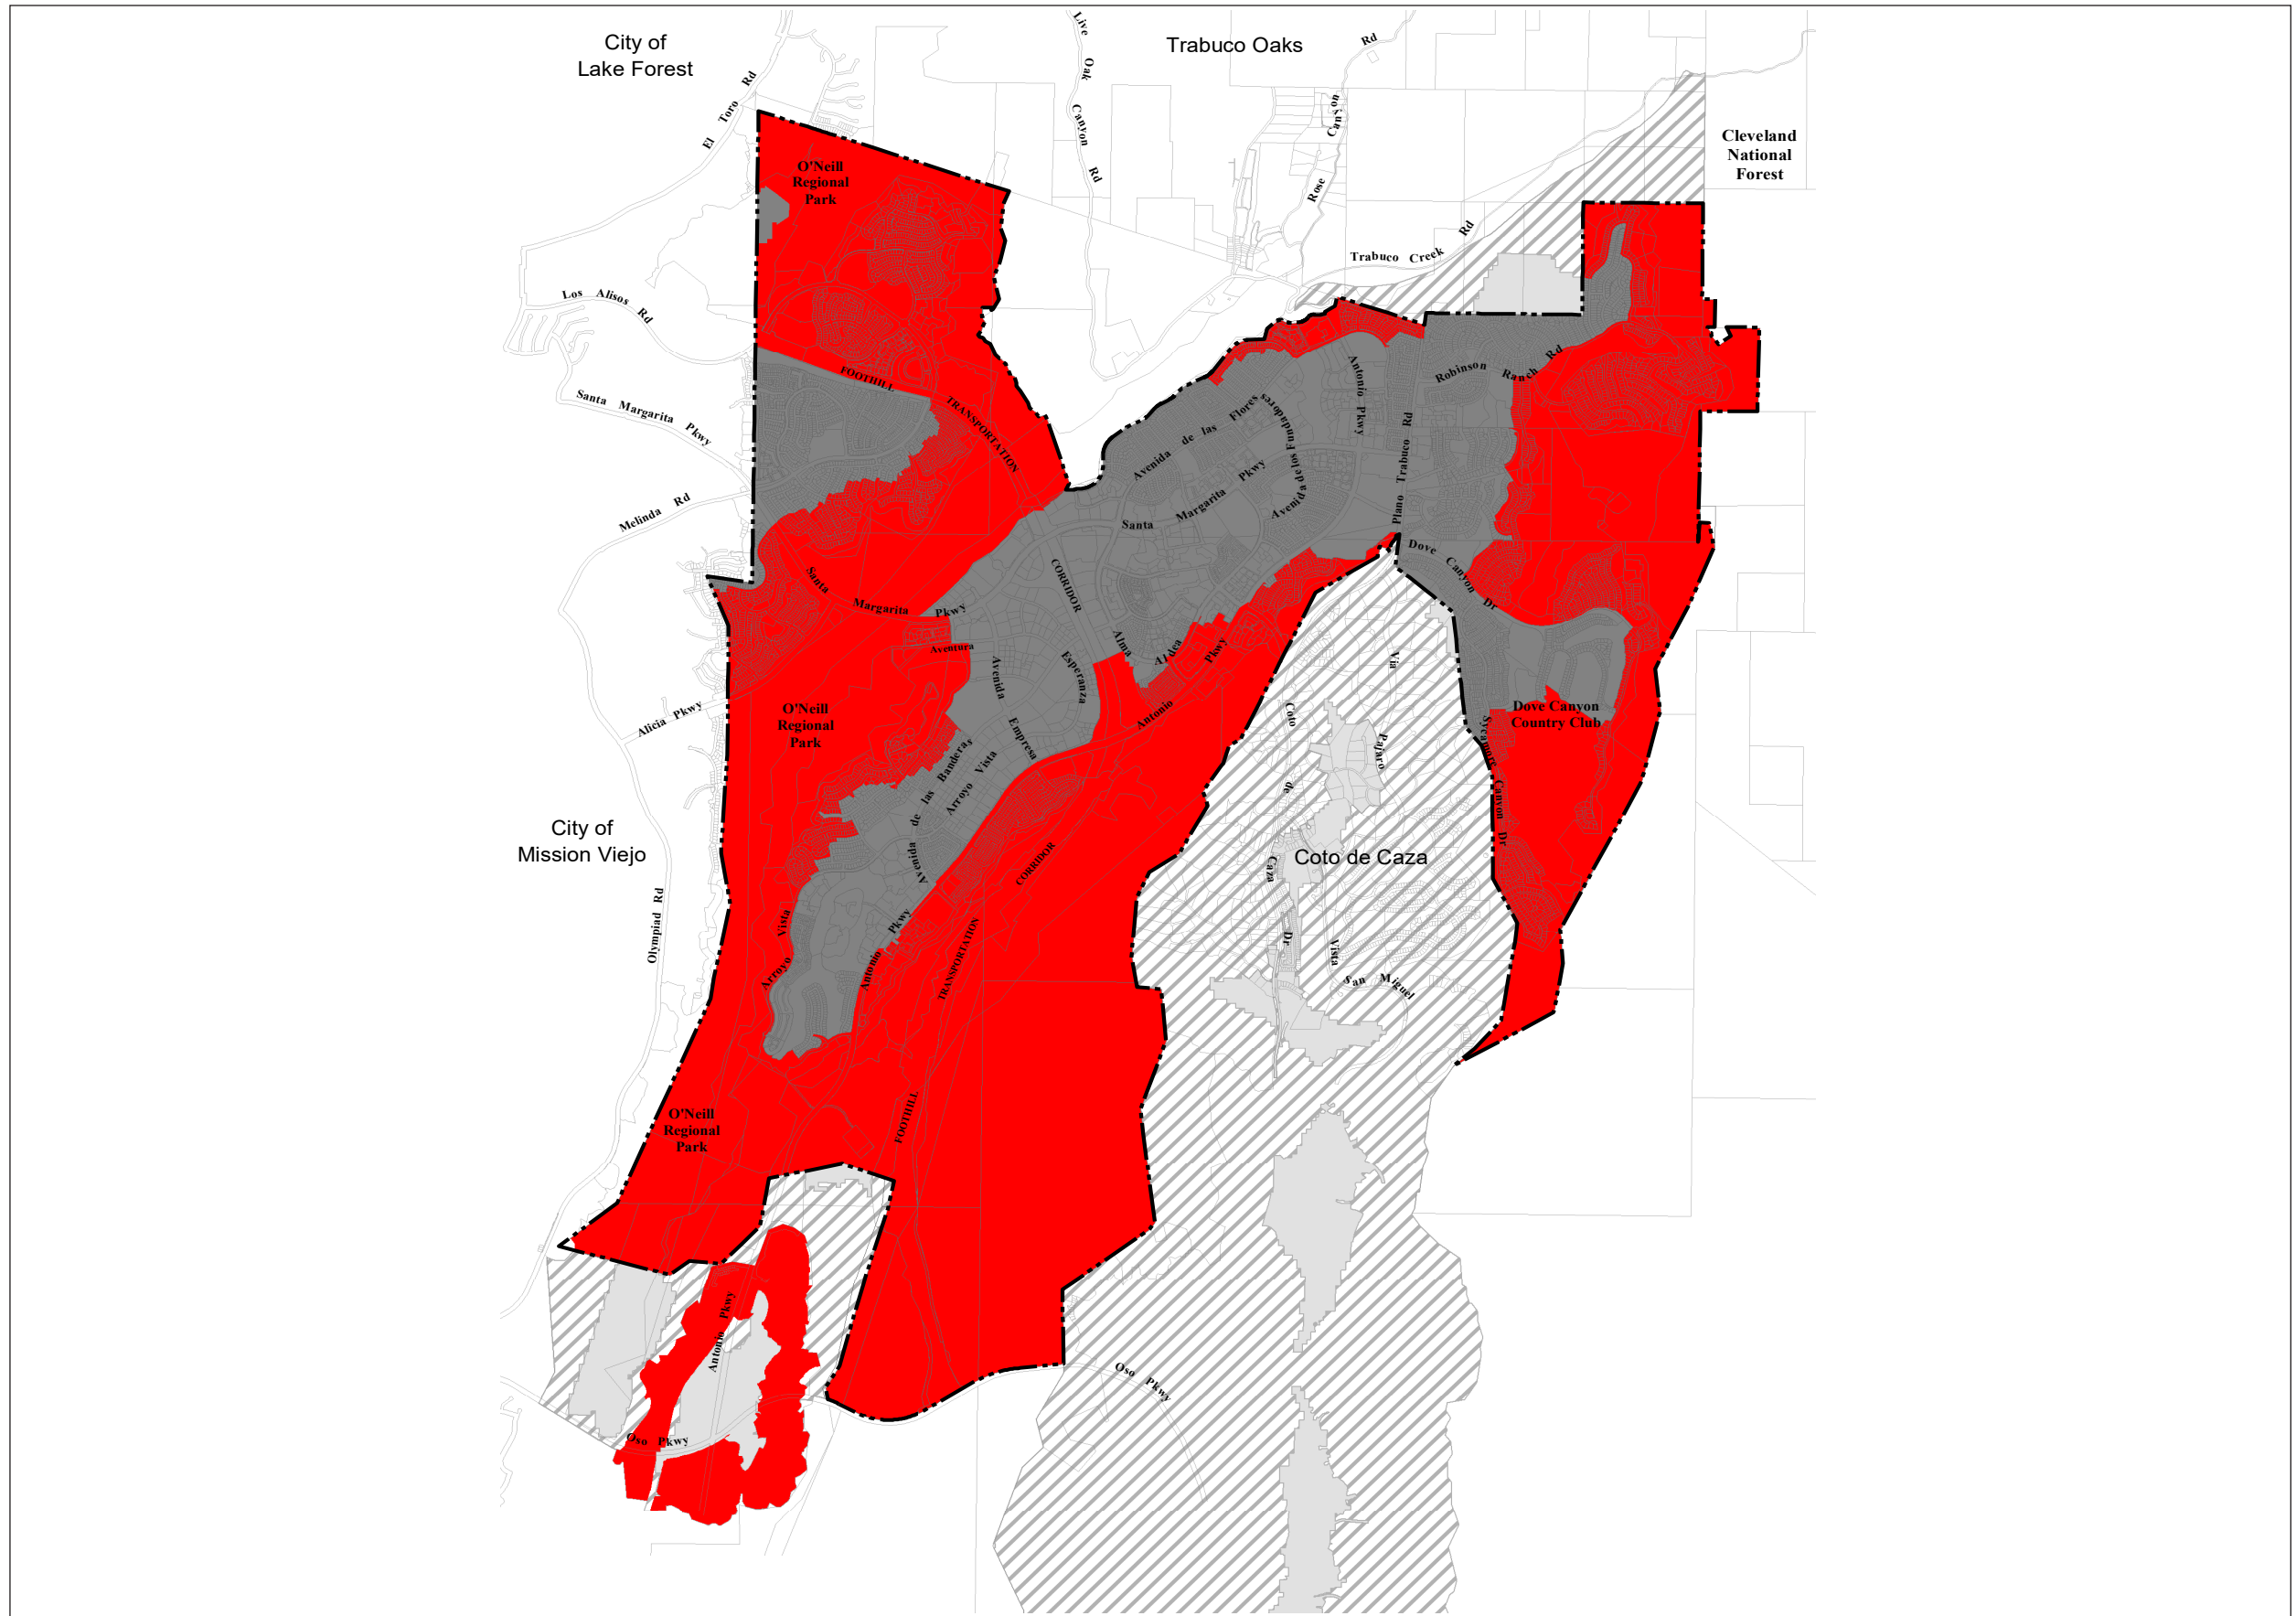

4C. Environmental Constraints

According to the City's 2019 Local Hazard Mitigation Plan (LHMP), environmental hazards affecting residential development in the City include wildfire, which represents the greatest threat to the built environment, flooding, and geologic and seismic conditions. The LHMP identifies other hazards including windstorm, changing weather patterns, and disease/pest management, however, these hazards are not expected to affect residential development. The following hazards may impact development of residential units in Rancho Santa Margarita.

Wildfire

CalFIRE prepares wildfire hazard severity maps including mapping areas of significant fire hazards based on fuels, terrain, weather, and other relevant factors. These zones, referred to as Fire Hazard Severity Zones (FHSZs), identify areas where wildfire hazards could be more severe. Rancho Santa Margarita's terrain and topography makes wildfire a significant risk to the community. Very High Fire Hazard Severity Zones are located in the west, south, and east areas of the City, as well as surrounding areas including the Cleveland National Forest and parts of the City of Lake Forest and the City of Mission Viejo. The LHMP along with the General Plan Safety Element, identifies and addresses these areas of concern through goals, policies, and mitigation actions that reduce wildfire risk to residential development throughout the City. As described above, the City has adopted the 2019 Fire Code into Title 10 of the Rancho Santa Margarita Municipal Code (RSMMC); therefore, wildfire risk to residential development is mitigated through building and development standards. Wildfire risk is further mitigated through regional cooperation with neighboring jurisdictions and the Orange County Fire Authority (OCFA). While these policies may constrain residential development to some extent, they are necessary to protect public safety by avoiding development in hazardous areas. The City's Fire Zones are illustrated on Figure H-2.

FIRE HAZARD ZONES**

This page intentionally left blank.

Seismic and Geologic Hazards

Similar to other southern California cities, the City of Rancho Santa Margarita is located in an area of high seismic activity. Although no active or potentially active faults traverse the City, Rancho Santa Margarita is located within close proximity of three active faults: the Elsinore-Glen Ivy fault (10.1 miles away), the Chino fault (11.1 miles away), and the Newport-Inglewood fault (14.4 miles away). The two other local faults outside the City, the Aliso and Cristianitos, are thought to be inactive and are not zoned under the State's Alquist-Priolo Earthquake Fault Zone Act. Surface rupture in Rancho Santa Margarita is unlikely since no faults have been identified within the City boundaries. However, the City is likely to experience ground shaking, the degree to which would be based on the fault from which the earthquake occurs, distance from the City, and the magnitude. Impacts of an earthquake include potential liquefaction, which occurs when the strength and stiffness of a soil is reduced by intense ground shaking. Areas in the City susceptible to liquefaction are located primarily along Trabuco Canyon and Tijeras Canyon Creek. Additionally, most of the low-lying areas in Rancho Santa Margarita have a high liquefaction potential because of shallow ground water, within 50 feet of the ground surface. These liquefaction hazard zones are mapped in the LHMP.

Structures particularly susceptible to earthquake damage include tilt-up structures, unreinforced masonry buildings, older buildings, and mobile homes. After the 1971 San Fernando earthquake, building codes and design criteria were updated to address seismic occurrences. These building codes may increase the cost of development, but are necessary to protect public safety.

Flooding

The terrain of Rancho Santa Margarita makes portions of the City naturally susceptible to flooding. Both 100 and 500-year flood zones are located within the City. Potential flooding could occur along the Arroyo Trabuco Creek (also known as Trabuco Creek) and Tijeras Canyon Creek, and is limited to open space and canyon areas. According to the General Plan Safety Element, no homes or structures are located within the 100-year or 500-year flood zones within the City. This danger is further mitigated by the Rancho Santa Margarita Stormwater Program and Local Implementation Plan which incorporates mitigation actions such as design and construction measures that address flooding. Although federal, state, and local policies may constrain residential development to some extent in areas prone to flooding, they are necessary to protect public safety by avoiding development in hazardous areas.

4D. Infrastructure Constraints

Another factor adding to the cost of new construction is the provision of adequate infrastructure: major and local streets; curbs, gutters, and sidewalks; water and sewer lines; storm drains; and street lighting. All these improvements are required to be built or installed in conjunction with new development. The cost of these facilities is borne by developers, added to the cost of new housing units, and eventually passed on to the homebuyer or property owner. As noted in the Resources chapter of this Housing Element, public infrastructure and services are available, or are programmed to be made available, for all the sites included in the sites inventory, including the capacity to accommodate Rancho Santa Margarita's total share of the regional housing need (RHNA).

Senate Bill 1087 (enacted 2006) requires that water providers develop written policies that grant priority to proposed development that includes housing affordable to lower income households. The legislation also prohibits water providers from denying or conditioning the approval of development that includes housing affordable to lower income households, unless specific written findings are made. Senate Bill 1087 also mandates priority sewage collection and treatment service to housing developments providing units affordable to lower income households. The City will provide a copy of the Housing Element to its water and sewer providers in compliance with Government Code Section 65589.7 and SB 1087. As well, the Planning Division will continue to coordinate with the water and sewer providers to ensure priority service provision to affordable housing developments.

Water Capacity

The City of Rancho Santa Margarita is serviced by two water districts: Trabuco Canyon Water District (TCWD), which serves the eastern portion of the City including the Robinson Ranch, Dove Canyon, Walden, and Rancho Cielo areas, and Santa Margarita Water District (SMWD), which serves the rest of the City. Water delivered to customers in the City is a combination of groundwater from the San Juan Valley Groundwater Basin, recycled water, and imported purchased water from the Municipal Water District of Orange County (MWDOC), imported from the Metropolitan Water District (MWD). Approximately 70 percent of TCWD's supply needs and approximately 72 percent of SMWD's supply needs are met by water imported by MWD and purchased from MWDOC.

Both the 2020 SMWD Urban Water Management Plan and 2020 TCWD Urban Water Management Plan state that they will be able to serve 100 percent of projected demands for the City of Rancho Santa Margarita in normal, single-dry and multiple-dry years. The SMWD projects that its service population will increase during the 2021-2029 planning period, from 161,264 in 2020 to 185,430 in 2030. The TCWD also projects that its service population will increase during the 2021-2029 planning period, from 12,921 in 2020 to 14,612 in 2030. As described in both 2020 Urban Water Management Plans, service population projections are primarily based on the 2018 Orange County Projections dataset, which was developed prior to the 6th Cycle RHNA assignments for southern California jurisdictions, and as such, these projections may not specifically account for the State-mandated RHNA assigned to the Districts' service areas. However, the 2018 Orange County Projections dataset does anticipate growth in the service area, including in Rancho Santa Margarita, and collectively, water supplies are projected to be sufficient to meet demands in all year types through 2045.^{3, 4}

Upon the next update to the 2020 SMWD Urban Water Management Plan and 2020 TCWD Urban Water Management Plan, the City will provide input regarding planned land uses to ensure that future development in Rancho Santa Margarita is accurately reflected in each Districts' service population projections and demand planning.

Sewer Capacity

Wastewater collection and treatment systems for the City are provided by the TCWD and SMWD. The wastewater is collected by the districts and directed to local and regional treatment plants in conjunction with the South Orange County Wastewater Authority. SMWD services the majority of residents in Rancho Santa Margarita. SMWD owns, operates, and maintains all the public sewer facilities within its service area. Wastewater generated in SMWD is treated at the following facilities: Oso Creek Water Reclamation Plant (OCWRP), with a design capacity of three (3) million gallons per day (mgd) and flow of approximately 1.7 mgd; 3A Water Reclamation Plant (WRP), with a secondary treatment capacity of 6 mgd and tertiary treatment of 2.4 mgd with current flows for secondary and tertiary treatment of 1.9 mgd respectively; J.B. Latham, with a design capacity of 13 mgd and average flow of 9.18 mgd; Los Alisos Water Recycling Plant, with a design capacity of 0.7 mgd; and Chiquita Water Reclamation Plant, which has a current secondary design capacity of 9 mgd and tertiary treatment capacity of 6 mgd.⁵ SMWD provides additional treatment to a portion of its secondary treated wastewater, rather than discharging it to the ocean, and is used for landscape irrigation services.

³ "2020 Urban Water Management Plan: Santa Margarita Water District," *California Water Service* (June 2021).

⁴ "2020 Urban Water Management Plan: Trabuco Canyon Water District," *California Water Service* (June 2021).

⁵ "2019 General Plan Draft Environmental Impact Report," *Rancho Santa Margarita* (April 2019).

TCWD has sewer collection facilities and acquired treatment capacity from SMWD for the western portion of its service area. The eastern portion of TCWD's service area is served through a district-owned sewer system, wastewater treatment facilities, and recycled water facilities. TCWD treats the collected wastewater at the Robinson Ranch Wastewater Treatment Plant (RRWWTP), a 0.85-million mgd water reclamation treatment facility, and has the capability to divert or convey wastewater to SMWD for treatment at its Chiquita Water Reclamation Plant.

The local system of collector and lateral sewer lines is owned and operated by two independent water districts, with minimal secondary oversight by the City. The overall wastewater collection system within the City is regulated under the jurisdiction of the San Diego Regional Water Quality Control Board, the State Water Resources Control Board, and the U.S. Environmental Protection Agency. The City has sufficient capacity for wastewater treatment resulting in no constraints on development. No deficiencies presently exist in either district's facilities that serve Rancho Santa Margarita.

5. Housing Resources

This section of the Housing Element describes resources available for housing development. Resources include land designated for housing development and financial resources to assist with the development of housing.

5A. Regional Housing Needs Allocation (RHNA)

California General Plan law requires each city and county to have land zoned to accommodate its fair share of the regional housing need. HCD allocates a numeric regional housing goal to the Southern California Association of Governments (SCAG). SCAG is then mandated to distribute the housing goal among the cities and counties in the region. This share for the SCAG region is known as the Regional Housing Needs Allocation, or RHNA. The SCAG region encompasses six counties (Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura) and 191 cities in an area covering more than 38,000 square miles. The major goal of the RHNA is to assure a distribution of housing among cities and counties within the SCAG region so that every community provides for a mix of housing for all economic segments. The housing allocation is not a building requirement; rather, it creates planning goals for each community to accommodate through appropriate planning policies and land use regulations. Allocations are intended to assure that adequate sites and zoning are made available to address anticipated housing demand during the planning period.

This RHNA covers an 8-year planning period (2021 through 2029) and is divided into four income categories: very low, low, moderate, and above moderate. Pursuant to State law (AB 2634), local jurisdictions are also required to project the housing needs of extremely low-income households (0-30% Area Median Income (AMI)). In estimating the number of extremely low-income households, a jurisdiction can use 50% of the very low-income allocation; therefore, the City's very low income RHNA of 209 units can be split into 105 extremely low income and 104 very low-income units.

TABLE H-51: RHNA 2021-2029

Income Group	Total Housing Units Allocated	Percentage of Units
Extremely/Very Low	209	30.7%
Low	120	17.6%
Moderate	125	18.4%
Above Moderate	226	33.2%
Total	680	100%

Source: Southern California Association of Governments, 2021

5B. Development Credits

In planning to accommodate its RHNA, the City can identify the potential development of future accessory dwelling units (ADUs) as a credit towards meeting its targets.

ACCESSORY DWELLING UNITS

Since 2017, State laws have been passed that substantially relax development standards and procedures for the construction of ADUs. The City approved one ADU in 2018, one ADU in 2019, and one ADU in 2020, however, development of ADUs is expected to modestly increase as a result of new State legislation and updated City standards. In 2021, the City has seen new interest in development of ADUs and, as of September 2021, has already approved one ADU for the 2021 calendar year. The City includes information regarding development of ADUs on the City's website, has briefed the Planning Commission and City Council regarding the potential for ADU development, and has answered questions from the public in-person at City Hall and over the telephone.

The development of ADUs throughout the planning period is expected to help meet a modest portion of the City's RHNA obligation. To arrive at an estimate of potential ADU development, the City has assumed the development of five ADUs per year for the eight-year planning period. This yields an estimate of 40 ADUs, which represent approximately 5.8% of the City's 2021-2029 RHNA. The City will monitor the number of permitted ADUs and affordability every year and continue to evaluate whether these ADU trends and assumptions are consistent. The monitoring of ADUs in the City has been added to the Housing Plan Program 3.

TABLE H-52: ADU PROJECTIONS AND AFFORDABILITY

Income Group	Units	SCAG ADU Affordability
Extremely Low	6	15%
Very Low	4	10%
Low	17	43%
Moderate	12	30%
Above Moderate	1	2%
Total	40	100%

Source: Southern California Association of Governments (SCAG) Regional Accessory Dwelling Unit Affordability Analysis – Orange County, 2020.

REMAINING RHNA

Based on the anticipated ADUs shown in Table H-52, the City has a remaining RHNA of 640 units. The remaining RHNA is presented by income category in Table H-53 below. The City is required to provide adequate sites for the remaining RHNA of 302 lower income units (199 extremely/very low income units and 103 low income units), 113 moderate income units, and 225 above moderate income units.

TABLE H-53: CREDITS AND REMAINING RHNA

Income Group	ADUs	RHNA	Remaining RHNA
Extremely/Very Low	10	209	199
Low	17	120	103
Moderate	12	125	113
Above Moderate	1	226	225
Total	40	680	640

5C. Residential Sites Inventory

The RHNA period extends from June 30, 2021, to October 15, 2029. A jurisdiction may meet the RHNA requirement using potential development on suitable vacant and/or nonvacant sites within the community. A jurisdiction must document how zoning and development standards on the sites facilitate housing to accommodate the remaining RHNA identified in Table H-53. The City has no vacant land or underutilized land within existing residential zones to accommodate its RHNA. Sites are considered suitable for residential development if zoned appropriately and available for residential use during the planning period. To accommodate the RHNA for each income category, the City is introducing two new mechanisms to allow for residential development, to be created within three years of Housing Element adoption (and no later than October 2024) on sites considered viable for housing development. The first is a "**Workforce Housing Overlay**", which will be applied to three sites within the Business Park district, totaling 38.43 acres. The second is a "**Mixed-Use Housing**" land use and zoning designation, which will be applied to 12 sites (13 parcels) in the City's central core, totaling 26.54 acres. These sites are illustrated on Figure H-3, summarized in Table H-57: RHNA Sites Summary, and detailed in Appendix A, Sites Inventory. In order to assess the viability of potential sites, the City considered the following factors:

- Site size and ownership patterns
- Existing/past uses on the site
- Surrounding development and densities
- Proximity/location outside VHFHSZ
- Improvement to land value ratio
- Site utilization/lot coverage/floor area ratio
- Access to infrastructure, goods, services, and transportation facilities

HOUSING AFFORDABLE TO LOWER-INCOME HOUSEHOLDS

The California Government Code states that if a local government has adopted density standards consistent with the population-based criteria set by State law (at least 30 units per acre for Rancho Santa Margarita), HCD is obligated to accept sites with those density standards (30 units per acre or higher) as appropriate for accommodating the jurisdictions' share of regional housing need for lower-income households. Per Government Code Section 65583.2(c)(3)(B), the proposed Workforce Housing Overlay and Mixed-Use Housing designations, which will allow for densities up to 35 dwelling units per acre, are consistent with the default density standard (30 units per acre) for Rancho Santa Margarita and therefore are considered appropriate to accommodate housing for lower-income households. It should be noted that the City has also assumed that a percentage of the units at these sites will be affordable to moderate and above-moderate income households, proportionate to the City's RHNA household income level distribution.

WORKFORCE HOUSING OVERLAY (NEW)

The City will adopt and implement a new Workforce Housing Overlay within three years of Housing Element adoption, and no later than October 2024, to accommodate a portion of its RHNA. The Workforce Housing Overlay will allow for residential development in the Business Park at a density of up to 35 dwelling units per acre. The intent of the Workforce Housing Overlay is to allow for the development of attainable housing options closer to jobs, thereby supporting the City's business community.

The City worked closely with property owners in the Business Park district to identify the most viable sites. The City has identified three candidate sites viable for residential development in the Business Park. All three sites identified for designation with the Workforce Housing Overlay are owned by Applied Medical Resources Corporation, which has expressed an interest in allowing for the development of residential uses at several of their properties within the City. A letter indicating their support of this proposal is included in Appendix A, Site Inventory. Appendix A also includes specific information regarding existing uses at the sites, existing floor area ratio, current land use and zoning information, and development assumptions.

In total, the three sites identified have the potential to accommodate 344 units (54% of the City's remaining RHNA) at all income levels. Only 35% of the development potential at Workforce Housing Overlay sites has been considered to accommodate the City's RHNA allocation, which allows for the existing use to remain (with adequate parking) and for a portion of the site to develop as residential uses. For example, a three-acre parcel designated with the Workforce Housing Overlay, which allows a density of up to 35 dwelling units per acre, is assumed to yield 37 units for purposes of meeting the RHNA allocation (3 acres x 35 du/ac x 0.35). The capacity of Workforce Housing Overlay sites is included in Table H-54.

TABLE H-54: WORKFORCE HOUSING OVERLAY CAPACITY

Income Category	Potential Capacity	Remaining RHNA (Table H-53)	Percentage of Remaining RHNA
Extremely/Very Low	107	199	53%
Low	62	103	60%
Moderate	62	113	55%
Above Moderate	113	225	50%
Total	344	640	54%

MIXED-USE HOUSING (NEW)

The City will adopt and implement a new Mixed-Use Housing General Plan Land Use and Zoning designation (separate from the City's existing Mixed-Use designation) within three years of Housing Element adoption, and no later than October 2024, to accommodate a portion of its RHNA. The Mixed-Use Housing land use/zone will allow for residential development at locations currently developed with commercial and business park uses at a density of up to 35 dwelling units per acre. The intent of the Mixed-Use Housing designation is to allow for mixed-use development in vertical or horizontal formats within the City's existing activity centers.

The City has identified 12 sites (13 parcels) currently designated as Commercial General or Business Park viable for redevelopment with residential uses, either as a stand-alone use or as part of a mixed-use project. These sites total 26.54 acres. Twelve of the 13 parcels are over 0.50 acres in size and less than 10 acres in size. One parcel (22012 El Paseo) located at the corner of El Paseo and Santa Margarita Parkway is 0.46 acres; however, at a maximum density of 35 dwelling units per acre, this site allows for the development of up to 16 units, making it a viable and suitable site for development. Moreover, this parcel serves as the corner piece to the existing commercial area and is a part of the redevelopment potential of the site if combined.

In total, the 13 parcels identified have the potential to accommodate 326 units (51% of the City's remaining RHNA) at all income levels. Only 35% of the development potential at Mixed-Use Housing sites has been considered to accommodate the City's RHNA allocation. For example, a five-acre parcel designated as Mixed-Use Housing, which allows a density of up to 35 dwelling units per acre, is assumed to yield 61 units for purposes of meeting the RHNA allocation (5 acres x 35 du/ac x 0.35). The capacity of Mixed-Use Housing sites is included in Table H-55.

TABLE H-55: MIXED-USE HOUSING CAPACITY

Income Category	Potential Capacity	Remaining RHNA (Table H-53)	Percentage of Remaining RHNA
Extremely/Very Low	97	199	49%
Low	58	103	56%
Moderate	58	113	51%
Above Moderate	131	225	58%
Total	326	640	51%

5D. Summary of RHNA Strategies

As previously discussed, ADUs and the proposed Workforce Housing Overlay and Mixed-Use Housing designation can increase the City's housing stock to accommodate the RHNA. Table H-56 reflects Rancho Santa Margarita's total potential increase in housing units. It assumes housing densities of up to 35 dwelling units per acre for all sites, 35% of maximum capacity at Workforce Housing Overlay and Mixed-Use Housing sites.

TABLE H-56: RHNA SITES STRATEGY

	Extremely/ Very Low	Low	Moderate	Above Moderate	Total
RHNA	209	120	125	226	680
Credits (ADUs)	10	17	12	1	40
Workforce Housing Overlay Capacity	107	62	62	113	344
Mixed-Use Housing Capacity	97	58	58	113	326
Total	214	137	132	227	710
Surplus¹	5	17	7	1	30
Percentage of Total Sites that are Surplus	2%	12%	5%	<1%	4%

1. HCD recommends buffer in the housing element inventory of at least 15 to 30 percent capacity more than required, especially to accommodate the lower income RHNA. A modest surplus also allows various sites identified in the Housing Element to identify at different income levels than those anticipated, while still maintaining an adequate supply of available sites.

The 40 ADUs, the potential 344 units resulting from implementation of the Workforce Housing Overlay, and the potential of 344 resulting from implementation of the Mixed-Use Housing designation/zone, could result in 710 units, exceeding the total RHNA allocation for Rancho Santa Margarita by 30 units, which represents a buffer of 4% of the total unit capacity. This buffer is necessary to address the No Net Loss (SB 166) requirement of maintaining an inventory of sites adequate to accommodate the City's remaining RHNA throughout the planning period as development occurs on the selected sites that may result in fewer units (or units at different income levels) than assumed in this inventory. A detailed description of the sites identified for the Workforce Housing Overlay and Mixed-Use Housing designation is included in Appendix A.

5E. Housing, Financial, and Administrative Resources

STATE AND FEDERAL RESOURCES

Community Development Block Grant Program (CDBG)

Federal funding for housing programs is available through the Department of Housing and Urban Development (HUD). The City's use of federal funds is described in the 2020-2024 Consolidated Plan. As an Entitlement City, Rancho Santa Margarita participates in the Community Development Block Grant (CDBG) program administered by the U.S. Department of Housing and Urban Development (HUD). CDBG funds are used by the City to fund a variety of community services available to assist low and moderate income residents and those with special housing needs. Targeted assistance includes owner-occupied home repair for the elderly or others with disabilities, homeless assistance and prevention, and emergency shelter for victims of domestic violence.

Housing Choice Voucher Program Rental Assistance (Formerly "Section 8")

The City of Rancho Santa Margarita works cooperatively with the Orange County Housing Authority, which administers the Housing Choice Voucher Program. The program assists very-low-income, elderly and disabled households by paying the difference between 30% of an eligible household's income and the actual cost of renting a unit. The City facilitates use of the voucher program within its jurisdiction by encouraging apartment owners to list available rental units with the County Housing Authority for potential occupancy by tenants receiving vouchers.

Project Based Housing Voucher program is a component of the former Section 8 Housing Choice Voucher program funded through HUD. The program's objective is to induce property owners to make standard housing available to low-income families at rents within the program limits. In return, the Housing Authority or HUD enters into a contract with the owner that guarantees a certain level of rents.

Section 811/202 Program (Supportive Housing for Persons with Disabilities/Elderly) – Non-profit and consumer cooperatives can receive no interest capital advances from HUD under the Section 202 program for the construction of very-low income rental housing for seniors and persons with disabilities. These funds can be used in conjunction with Section 811, which can be used to develop group homes, independent living facilities and immediate care facilities. Eligible activities include acquisition, rehabilitation, new construction and rental assistance.

California Housing Finance Agency (CalHFA) Multi-family Programs

Provides permanent financing for the acquisition, rehabilitation, and preservation or new construction of rental housing that includes affordable rents for low and moderate income families and individuals. One of the programs is the Preservation Acquisition Finance Program that is designed to facilitate the acquisition of at-risk affordable housing developments and provide low-cost funding to preserve affordability.

CalHOME Program

Provides grants to local public agencies and non-profit developers to assist households in becoming homeowners. CalHome funds may be used for predevelopment, development, acquisition, and rehabilitation costs as well as down payment assistance. While CalHOME funding has been limited to disaster assistance in recent years, this would be an appropriate program for the City to pursue to begin to develop a local portfolio of housing assistance programs and funds.

California Housing Finance Agency (CHFA)

Offers permanent financing for acquisition and rehabilitation to for-profit, non-profit, and public agency developers seeking to preserve "at-risk" housing units. In addition, CHFA offers low interest predevelopment loans to nonprofit sponsors through its acquisition/rehabilitation program.

Emergency Housing and Assistance Program (EHAP)

Provides funds to local government agencies and non-profit corporations for capital development activities and facility operation for emergency shelters, transitional housing and safe havens that provide shelter and supportive services for homeless individuals and families.

Federal Home Loan Bank System

Facilitates Affordable Housing Programs (AHP), which subsidize the interest rates for affordable housing. The San Francisco Federal Home Loan Bank District provides local service within California. Interest rate subsidies under the AHP can be used to finance the purchase, construction, and/or rehabilitation of rental housing. Very low-income households must occupy at least 20% of the units for the useful life of the housing or the mortgage term.

Housing for a Healthy California (HHC)

Provides funding on a competitive basis to deliver supportive housing opportunities to developers using the federal National Housing Trust Funds (NHTF) allocations for operating reserve grants and capital loans. The Department will also utilize from a portion of moneys that was collected in calendar year 2018 and deposited into the Building Homes and Jobs Trust Fund to provide funding through grants to counties for capital and operating assistance. Funds will be announced through a Notice of Funding Availability.

Infill Infrastructure Grant Program (IIG)

Funds infrastructure improvements to facilitate new housing development with an affordable component in residential or mixed-use infill projects and infill areas.

Low-Income Housing Tax Credit Program (LIHTC)

The Low-Income Housing Tax Credit Program was created by the Tax Reform Act of 1986 to provide an alternate method of funding low-and moderate-income

housing. Each State receives a tax credit, based upon population, toward funding housing that meets program guidelines. The tax credits are then used to leverage private capital into new construction or acquisition and rehabilitation of affordable housing. Limitations on projects funded under the Tax Credit programs include minimum requirements that a certain percentage of units remain rent-restricted, based upon median income, for a term of 15 years.

Low-income Housing Preservation and Residential Home Ownership Act (LIHPRHA)

Requires that all eligible HUD Section 236 and Section 221(d) projects "at-risk" of conversion to market-rate rental housing through the mortgage prepayment option be subject to LIHPRHA Incentives. The incentives to owners include HUD subsidies which guarantee owners an 8% annual return on equity. Owners must file a Plan of Action to obtain incentives or offer the project for sale to a) non-profit organizations, b) tenants, or c) public bodies for a 12 month period followed by an additional three-month sale to other purchasers. Only then are owners eligible to prepay the subsidized mortgages.

National Housing Trust Fund

A permanent federal program with dedicated sources of funding not subject to the annual appropriations. The funds can be used to increase and preserve the supply of affordable housing, with an emphasis on rental housing for extremely low income households. California received approximately \$10.1 Million for the program in 2019. Funds are made available through a competitive process and will be announced through a Notice of Funding Availability.

SB 2 Planning Grants Program

Provides funding and technical assistance to all eligible local governments in California to adopt and implement plans and process improvements that streamline housing approvals and accelerate housing production. Eligible activities include updating a variety of planning documents and processes such as general plans and zoning ordinances, conducting environmental analyses, and process improvements that expedite local planning and permitting. The planning grants program is funded through the Building Homes and Jobs Act Trust Fund (SB 2, Chapter 364, Statutes of 2017). This program has several funding components known as Local Emergency Assistance Program (LEAP), Regional Emergency Assistance Program (REAP), and Permanent Local Housing Assistance (PLHA). The City of Rancho Santa Margarita has applied for and received PLHA and LEAP funds and is participating in a sub-regional program with the Orange County Council of Government (OCCOG) funded by REAP.

California Community Reinvestment Corporation (CCRC)

CCRC is a multi-family affordable housing lender whose mission is to increase the availability of affordable housing for low-income families, seniors and residents with special needs by facilitating private capital flow from its investors for debt and equity to developers of affordable housing. Eligible activities include new construction, rehabilitation, and acquisition of properties.

Southern California Housing Finance Agency (SCHFA) Mortgage Financing for First-Time Homebuyers

The SCHFA raises funds for mortgage financing through the sale of tax-exempt revenue bonds. Cities can cooperate with lenders and the County in advertising the availability of the SCHFA program.

Supplement Security Income (SSI)

A federal welfare program for persons 65 and over and for blind or disabled persons of any age. "Disabled" means that you have a physical or mental disability that is expected to keep you from working for 12 months or longer, or will result in death. Medicare is a federal health insurance program for people who are 65 and over, for some younger people with permanent disabilities, and for people with end-stage kidney disease. SSI may provide total monthly income or it may supplement a low income. In addition to cash payments, SSI recipients are automatically covered by Medi-Cal, the State health insurance plan.

ADMINISTRATIVE RESOURCES

Agencies with administrative capacity to implement programs contained in the Housing Element include the City of Rancho Santa Margarita and local and regional nonprofit private developers. The City of Rancho Santa Margarita Development Services Department takes the lead in implementing Housing Element programs and policies.

DEVELOPMENT SERVICES DEPARTMENT

The Development Services Department consists of four divisions: Building and Safety, Code Enforcement, Economic Development, and Planning. The Department coordinates development activity within the City to ensure planned orderly growth. The Planning Division administers the General Plan and Rancho Santa Margarita Zoning Code (RSMZC), the California Environmental Quality Act (CEQA) and other environmental regulations, and provides primary staff assistance to the Planning Commission. The Planning Department also manages the City's Community Development Block Grant.

NON-PROFIT DEVELOPERS AND SERVICE PROVIDERS

The City can collaborate with affordable housing developers and service providers to accommodate the housing needs of Rancho Santa Margarita residents. The following are housing developers and service providers active in the region; several are included in the State's list of entities with the legal and managerial capacity to acquire and manage at-risk projects.

- C&C Development
- The Waterford Group
- Community Housing Works
- National Community Renaissance (National CORE)
- South County Outreach

5F. Energy Conservation Opportunities

State of California Energy Efficiency Standards for Residential and Nonresidential Buildings were established in 1978 in response to a legislative mandate to reduce California's energy consumption. The standards are codified in Title 24 of the California Code of Regulations and are updated periodically to allow consideration and possible incorporation of new energy efficiency technologies and methods. California's building efficiency standards (along with those for energy efficient appliances) have saved the State of California nearly \$80 billion in electricity and natural gas costs since 1978.

Title 24 sets forth mandatory energy standards and requires the adoption of an "energy budget" for all new residential buildings and additions to residential buildings. Separate requirements are adopted for "low-rise" residential construction (i.e., no more than 3 stories) and non-residential buildings, which includes hotels, motels, and multi-family residential buildings with four or more habitable stories. The standards specify energy saving design for lighting, walls, ceilings and floor installations, as well as heating and cooling equipment and systems, gas cooling devices, conservation standards and the use of non-depleting energy sources, such as solar energy or wind power. The home building industry must comply with these standards while localities are responsible for enforcing the energy conservation regulations through the plan check and building inspection processes.

In addition to the requirements of Title 24, the City encourages energy conservation through its land use planning policies. Rancho Santa Margarita was conceived as a balanced community with a mix of housing, employment, commercial, recreation, educational and other community facilities. The City's General Plan and zoning provide a blueprint for compact development with higher-density attached housing located along major transportation routes and near the Town Center where commercial facilities are concentrated. Program 13 included in the City's Housing Plan (Part 1 of the Housing Element) supports the continued promotion of energy conservation.

Examples of techniques for reducing residential energy use include the following:

- **Glazing** – Glazing on south facing exterior walls allows for winter sunrays to warm the structure. Reducing glazing and regulating sunlight penetration on the west side of the unit prevents afternoon sunrays from overheating the unit.
- **Landscaping** – Strategically placed vegetation reduces the amount of direct sunlight on the windows. The incorporation of deciduous trees in the landscaping plans along the southern exposure of units reduces summer sunrays, while allowing penetration of winter sunrays to warm the units.
- **Building Design** – The implementation of roof overhangs above southerly facing windows shield the structure from solar rays during the summer months.
- **Cooling/Heating Systems** – The use of attic ventilation systems reduces attic temperatures during the summer months. Solar heating systems for swimming pool facilities saves on energy costs. Natural gas is conserved with the use of flow restrictors on all hot water faucets and showerheads.
- **Weatherizing Techniques** – Weatherization techniques such as insulation, caulking, and weather stripping can reduce energy use for air-conditioning up to 55% and for heating as much as 40%. Weatherization measures seal a dwelling unit to guard against heat gain in the summer and prevent heat loss in the winter.
- **Efficient Use of Appliances** – Appliances can be used in ways that increase their energy efficiency. Unnecessary appliances can be eliminated. Proper maintenance and use of stove, oven, clothes dryer, washer, dishwasher, and refrigerator can also reduce energy consumption. New appliance purchases can be made on the basis of efficiency ratings.
- In addition to the requirements of Title 24, the City encourages energy conservation through its land use planning policies. Rancho Santa Margarita contains a mix of housing, employment, commercial, recreation, educational and other community facilities.
- The City's existing network of on- and off-road bicycle trails link residential areas to employment centers within Rancho Santa Margarita and surrounding cities.

6. Assessment of Fair Housing

All Housing Elements due on or after January 1, 2021 must contain an Assessment of Fair Housing (AFH) consistent with the core elements of the analysis required by the federal Affirmatively Further Fair Housing Final Rule of July 16, 2015. Under State law, to affirmatively further fair housing means “taking meaningful actions, in addition to combatting discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics”. These characteristics can include, but are not limited to: race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

The AFFH analysis must contain the following:

- A: Outreach
- B: Assessment of Fair Housing
 - Key Data and Background Information
 - Fair Housing Enforcement and Outreach Capacity
 - Integration and Segregation Patterns and Trends
 - Racially or Ethnically Concentrated Areas of Poverty
 - Disparities in Access to Opportunity
 - Disproportionate Housing Needs in the Jurisdiction
 - Displacement Risk
- C: Sites Inventory
- D: Identification of Contributing Factors
- E: Goals and Actions

While this section provides a focused analysis of fair housing issues in Rancho Santa Margarita, several other sections of the Housing Element address the issue and are included in this section by reference.

6A. Outreach

Appendix B of the Housing Element details the public participation that was undertaken as part of the Housing Element preparation process. The City of Rancho Santa Margarita is committed to a transparent process for updating the Housing Element and has made every effort to involve the public in the update of its Housing Element and has solicited input from the public throughout the year-long Housing Element process. Appendix B to the Housing Element provides a summary of the key comments received during the Housing Element update process, and how they have been considered and addressed in the Element. The City implemented the following public outreach program.

PROJECT WEBSITE

A dedicated project webpage (<https://www.cityofrsm.org/622/Housing-Element-Update-2021>) serves as the main conduit of information for individuals who can access material online. The webpage includes the following components:

- Frequently asked questions/factsheets
- Planning Commission and City Council Staff Reports and Presentations
- Project timeline
- Community surveys/results
- Background information
- Educational videos
- Links to outside organizations and programs
- Contact information

HOUSING ELEMENT SURVEYS

As part of the community outreach, two surveys were conducted online using the SurveyMonkey platform. The two surveys work together to gather information on housing-related issues. Survey #1, which was posted on January 29, 2021, and closed on March 3, 2021, focused on existing conditions to better understand the characteristics of households in Rancho Santa Margarita, identify the community's housing needs and priorities, and uncover real or perceived fair housing concerns in the City. Survey #1 expressly discussed fair housing issues and sought community input on fair housing priorities, as included below. Survey #2, which was posted on February 21, 2021, and closed on March 29, 2021, focused on types of development that should be further explored as the City plans to meet the State-mandated Regional Housing Needs Allocation (RHNA). An overview of the survey results is provided in this section. The results are broken down among the groups of respondents which constitute residents and workers. The complete survey results are included in Appendix B.

When asked, "How important are the following factors in your housing choice?" respondents were most likely to identify the following factors as being very important or somewhat important:

Resident responses:

- Housing I can afford (92%)
- Housing large enough for my household (85%)
- Housing was available in the neighborhood I chose at the time I needed it (77%)
- The amount of money I have/had for deposit (75%)
- My credit history and/or credit score (65%)

While still important for some individuals, resident respondents were less likely to identify the following factors as being very important or somewhat important:

- Housing that accommodates disability of household member (24%)

- Concern that I would not be welcome in that neighborhood (22%)

Worker responses:

- Housing I can afford (94%)
- Housing large enough for my household (88%)
- Housing was available in the neighborhood I chose at the time I needed it (84%)
- The amount of money I have/had for deposit (79%)
- My credit history and/or credit score (53%)

While still important for some individuals, worker respondents were less likely to identify the following factors as being very important or somewhat important:

- Concern that I would not be welcome in that neighborhood (35%)
- Housing that accommodates disability of household member (29%)

When asked, "How important are the following housing priorities to you and your household?" respondents were most likely to identify the following factors as being very important or somewhat important:

Resident responses:

- Support programs to help neighborhoods that have suffered foreclosures (75%)
- Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (73%)
- Rehabilitate existing housing (67%)
- Promote affordable housing for working families (65%)
- Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (64%)
- Build more single-family housing (63%)
- Support fair/equitable housing opportunities (62%)
- Encourage more senior housing (51%)

While still important for some individuals, resident respondents were less likely to identify the following factors as being very important or somewhat important:

- Provide ADA-accessible housing (48%)
- Provide more housing for all income levels (45%)
- Create mixed-use projects to bring different land uses closer together (45%)
- Integrate affordable housing throughout the community to create mixed-income neighborhoods (29%)
- Build more multi-family housing such as apartments and condos (28%)
- Provide housing for the homeless (26%)

Worker responses:

- Promote affordable housing for working families (85%)
- Provide more housing for all income levels (83%)
- Support fair/equitable housing opportunities (82%)
- Build more single-family housing (81%)
- Support programs to help neighborhoods that have suffered foreclosures (81%)
- Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (78%)
- Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (78%)
- Create mixed-use projects to bring different land uses closer together (64%)
- Rehabilitate existing housing (61%)
- Integrate affordable housing throughout the community to create mixed-income neighborhoods (58%)
- Build more multi-family housing such as apartments and condos (55%)
- Encourage more senior housing (53%)
- Provide housing for the homeless (52%)

While still important for some individuals, worker respondents were less likely to identify the following factors as being very important or somewhat important:

- Provide ADA-accessible housing (49%)

When asked to indicate their level of agreement or disagreement with a series of affirmative statements respondents were most likely to strongly agree or somewhat agree with the following statements:

Resident responses:

- The condition of the homes in my neighborhood are acceptable (96%)
- There is a pharmacy close to my house (96%)
- There are grocery stores close to my neighborhood (96%)
- There are banks and credit unions near where I live (93%)
- The streets and sidewalks near my home are well kept (93%)
- There is a public library close to my house (91%)
- There are plenty of parks, playgrounds, or green space near me (87%)
- There are plenty of other public spaces near my home (84%)
- The streets and sidewalks in my neighborhood have adequate lighting (79%)
- I am satisfied with the schools in my area (76%)

Resident respondents were less likely to agree with the following statements:

- There is enough parking in my area of town (60%)

- There are quality jobs in my neighborhood (52%)
- There is access to public transit close to my neighborhood (39%)

Worker responses:

- The condition of the homes in my neighborhood are acceptable (85%)
- There are grocery stores close to my neighborhood (85%)
- There are banks and credit unions near where I live (85%)
- There is a pharmacy close to my house (84%)
- The streets and sidewalks near my home are well kept (84%)
- The streets and sidewalks in my neighborhood have adequate lighting (78%)
- There are plenty of parks, playgrounds, or green space near me (77%)
- There is a public library close to my house (75%)
- There are plenty of other public spaces near my home (73%)
- I am satisfied with the schools in my area (62%)

Worker respondents were less likely to agree with the following statements:

- There is enough parking in my area of town (56%)
- There are quality jobs in my neighborhood (54%)
- There is access to public transit close to my neighborhood (37%)

When asked to identify what they thought the biggest problem with housing discrimination is in Rancho Santa Margarita, responses varied amongst groups with a greater proportion of residents than non-residents indicating that no problems exist or that they are unaware of any problem (indicated by the response "other"). The responses broken down by group were:

Resident responses:

- Other (please specify) (52%)
- Race/Ethnicity (18%)
- Color (physical appearance) (9%)
- Disability (8%)
- Familial status (8%)
- National Origin (3%)
- Religion (2%)
- Sex (less than 1%)

Worker responses:

- Race/Ethnicity (41%)
- Other (please specify) (30%)
- Familial status (20%)
- Color (physical appearance) (5%)

- National Origin (2%)
- Disability (2%)

Of worker responses, nobody indicated housing discrimination was due to religion or sex.

Of all respondents who selected "Other (please specify)" over 90% specified that no problems with housing discrimination existed or that they are aware of any problem.

When asked whether they had experienced or witnessed housing discrimination in Rancho Santa Margarita the majority of respondents answered "No." The responses broken down by group were:

Resident responses:

- Yes (4% or 15 responses)
- No (86% or 320 responses)
- I don't know (10% or 38 responses)

Of those respondents that answered "yes" to the prior question, the discriminatory factors identified (in order of affirmative responses) were:

- Race/Ethnicity (12 responses)
- Color (physical appearance) (3 responses)
- Age (3 responses)
- Familial status (3 responses)
- Political Ideas (3 responses)
- Language spoken (3 responses)
- Level/source of Income (2 responses)
- National Origin (2 responses)
- Marital status (1 response)
- Citizenship status (1 response)
- Use of Housing Choice Voucher or other assistance (1 response)
- Criminal background (1 response)
- Other (1 response)

Worker responses:

- Yes (3% or 2 responses)
- No (61% or 36 responses)
- I don't know (36% or 21 responses)

Of those respondents that answered "yes" to the prior question, the discriminatory factors identified (in order of affirmative responses, where respondents could select as many factors they thought applied) were:

- Race/Ethnicity (2 responses)

- Familial status (2 responses)
- Color (physical appearance) (1 response)
- Age (1 response)
- Marital status (1 response)
- Political Ideas (1 response)
- Religion (1 response)
- National Origin (1 response)
- Sex (1 response)
- Disability (1 response)
- Level/source of Income (1 response)
- Use of Housing Choice Voucher or other assistance (1 response)

When asked whether they knew of anyone in Rancho Santa Margarita who experienced unfair real estate or lending practices respondents provided the following responses:

Resident responses:

- The majority (96%) didn't know of anyone who had encountered these unfair practices
- 2% knew of someone who was unfairly refused a rental or sale agreement
- 1% reported knowing someone who was not shown all housing options
- 1% knew of someone who was offered unfair terms when buying or selling
- Less than 1% reported knowing someone who was unfairly directed to a certain neighborhood and/or location, was not given reasonable accommodations for a disability, or was falsely denied available housing options

Worker responses:

- The majority (94%) didn't know of anyone who had encountered these unfair practices
- 4% knew of someone who was unfairly refused a rental or sale agreement
- 4% reported knowing someone who was not shown all housing options

Many respondents (28% of residents and 54% of workers) would not know where to refer someone (or themselves) if they felt that their fair housing rights were violated . Of those who responded that they might know where to go, most would refer someone to the local, State or federal government or the California Department of Housing and Community Development. Familiarity with Fair Housing laws varied between groups. The majority of residents (61%) felt somewhat familiar or very familiar with fair housing laws , while just under half of non-resident workers (46%) felt the same. Additionally, many (24% of residents and 26% of workers) felt that federal and/or State Fair Housing laws are difficult to understand or follow.

FOCUS GROUP INTERVIEWS

The City hosted multiple focus groups with residents, affordable housing service providers, the business community, and other stakeholder to gain insight into housing issues facing the City, including issues related to fair housing. This information is further summarized in Appendix B.

EMAILS

The project team compiled a database of community members and stakeholders who registered to be notified via email of future public engagement opportunities and key deliverables. Direct emails were sent to these individuals to publicize the Housing Element Surveys, new web-page content, public meetings/hearings, and will be used to advertise the Public Review Draft 2021-2029 Housing Element and future public hearings for adoption of the Housing Element Update.

6B. Fair Housing Needs Assessment

This section presents an overview of available federal, State, and local data to analyze fair housing issues in Rancho Santa Margarita. This data is supplemented with local knowledge of existing conditions in the community to present a more accurate depiction of fair housing issues in Rancho Santa Margarita, and a more informed perspective from which to base goals, policies and programs to affirmatively further fair housing.

KEY DATA AND BACKGROUND INFORMATION

In 2020, Rancho Santa Margarita participated with 15 other Orange County Community Development Block Grant (CDBG) entitlement cities to prepare a regional Analysis of Impediments to Fair Housing Choice (AI) to fulfill their HUD requirement and remove barriers to fair housing choice for all their residents. The AI examined policies, procedures, and practices within the region that may limit a person's ability to choose their residence free from discrimination. The AI provided an overview of laws, regulations, conditions, or other possible obstacles that may affect an individual or a household's access to housing in the region. It also presented local and regional demographic profiles, assessed the extent of housing needs among specific groups, identified existing barriers or impediments that may limit housing choice, and proposed actions to overcome those barriers.

The City's demographic and income profile, household and housing characteristics, housing cost and availability, and special needs populations are discussed in previous sections of this Background Report. Barriers to fair housing choice specific to the City of Rancho Santa Margarita that were identified in the County AI and the commitments of the City to address identified barriers were incorporated into this AFH. Supplemental data analysis was conducted to further understand potential fair housing issues, within the context of AFH topics, at the city-level. Rancho Santa Margarita is comprised of 10 Census Tracts, although several are only partially located in Rancho Santa Margarita. Figure H-4 shows the Tract boundaries.

FAIR HOUSING ENFORCEMENT AND OUTREACH CAPACITY

The Orange County Analysis of Impediments to Fair Housing Choice (County AI) was adopted by the Rancho Santa Margarita City Council in 2020 and “is a thorough examination of structural barriers to fair housing choice and access to opportunity for members of historically marginalized groups protected from discrimination by the federal Fair Housing Act (FHA).”⁶

For the County AI, a variety of tools were used for the community participation process, including community meetings, focus groups and public hearings. The AI preparers also reached out to tenants, landlords, homeowners, fair housing organizations, civil rights and advocacy organizations, legal services providers, social services providers, housing developers, and industry groups to hear directly about fair housing issues affecting residents of Orange County. Evening community meetings were held in Mission Viejo, Westminster/Garden Grove, Santa Ana, and Fullerton. Additional outreach was conducted for members of protected classes, including the Latino and Vietnamese communities. All community meetings had translation services available if requested in Spanish and Vietnamese. In addition, all meetings were held in locations accessible to people with mobility issues.⁷

The County AI describes the departments and organizations that handle fair housing enforcement and outreach in Rancho Santa Margarita. The California Department of Fair Employment and Housing (DFEH) investigates complaints of employment and housing discrimination. The Fair Housing Council of Orange County (FHCOC) provides services throughout the County, including Rancho Santa Margarita, to ensure equal access to housing. The Council's services include outreach and education, homebuyer education, mortgage default counseling, landlord-tenant mediation, and limited low-cost advocacy. The Fair Housing Council investigates claims of housing discrimination and assists with referrals to DFEH. Community Legal Aid SoCal is a legal service provider serving low-income people in Orange County and Southeast Los Angeles County.

ANALYSIS OF AVAILABLE FEDERAL, STATE, AND LOCAL DATA AND LOCAL KNOWLEDGE

Integration and Segregation

To inform priorities, policies, and actions, Rancho Santa Margarita has included an analysis of integration and segregation, including patterns and trends, related to people with protected characteristics. Segregation generally means a condition in which there is a high concentration of persons of a particular race, color, religion, sex, familial status, national origin, or having a disability or a particular type of disability when compared to a broader geographic area. Conversely, integration refers to a condition in which there is not a high concentration of persons of a particular race, color, religion, sex, familial status, national origin, or having a disability when compared to a broader geographic area. The following sections will analyze levels of segregation and integration for race and ethnicity, persons with disabilities, familial status, age, and income to identify the groups in Rancho Santa Margarita that experience the highest levels of segregation.

Dissimilarity Index

The dissimilarity index is the most commonly used measure of segregation between two groups, reflecting their relative distributions across neighborhoods (as defined by census tracts). The index represents the percentage of the minority group that would have to move to new neighborhoods to achieve perfect integration of that group. An index score can range in value from 0 percent, indicating complete integration, to 100 percent, indicating complete segregation. An index number between 30 and 60 indicates moderate similarity and community segregation while an index number above 60 is considered to show high similarity and a segregated community.

There are a number of reasons why patterns of racial segregation exist (or don't exist) within a community. Some of these reasons may be institutional (discriminatory lending practices) while others can be cultural (persons of similar backgrounds or lifestyles choosing to live near one another to provide support and familiarity). As such, discussions regarding segregation are complicated and there is not a "one size fits all" approach to addressing patterns of racial segregation.

Figure H-5 shows the dissimilarity between each of the identified race and ethnic groups and White population for the City of Rancho Santa Margarita and the Orange County metropolitan region. The White (not Hispanic or Latino) population within Rancho Santa Margarita makes up approximately 74% of the City's population. The higher scores indicate higher levels of segregation among those race and ethnic groups. The City does not have any racial or ethnic groups with scores higher than 60 (indicating high similarity and segregation). Several race and ethnic groups (American Indian, Native Hawaiian, and Other) exhibit moderate levels of dissimilarity and segregation in Rancho Santa Margarita (scores between 30 and 60), although the sample size for these groups is relatively small (131, 90, and 91 persons, respectively).

The highest levels of segregation within Rancho Santa Margarita are Other Races (45.4%) and Native Hawaiian (41.9%), both of which fall within the moderate similarity and segregation range. However, it should be noted that only 91 individuals identified as “Other Race” and only 91 individuals identified as “Native Hawaiian”, and such small populations can indicate a pattern of segregation that is not of significant concern. These scores correlate directly with the percentage of people within that racial or ethnic group that would need to move into a predominately White census tract in order to achieve a more integrated community. For instance, 41.9% of the Native Hawaiian population would need to move into predominately White census tract areas to achieve “perfect” integration.

When compared to the Orange County metropolitan region, Rancho Santa Margarita exhibits lower levels of dissimilarity and segregation than the region as a whole for all race and ethnic groups, except for Other Races, where the City's index is slightly higher (45.4 in the City and 44.7 in the County). For the categories previously identified as showing moderate levels of segregation in Rancho Santa Margarita, the American Indian dissimilarity index is 10 points lower in the City than in the region, while the Native American category is 14 points lower in the City than the region.

These patterns indicate that in general, Rancho Santa Margarita is less dissimilar and more integrated for most of the identified racial and ethnic groups, and the community's most dissimilar community (its Native Hawaiian and Other Race populations) reflect trends seen throughout the region. This analysis suggested that patterns of segregation at the local level reflect those at the regional level as well, and that partnerships with regional agencies and advocates may be an effective way to address local issues of moderate segregation.

While not evident based on the Dissimilarity Index discussed above, the County AI does identify some patterns of White isolation throughout the County (where White residents comprise a majority of a census tract), including in the City of Rancho Santa Margarita. The County AI points out that White residents have especially high Isolation values in eight Orange County cities (Aliso Viejo, Costa Mesa, Huntington Beach, Laguna Niguel, Lake Forest, Mission Viejo, Rancho Santa Margarita, and San Clemente) and that while some of these cities have lower non-White populations, Rancho Santa Margarita's Hispanic population *suggests* that White residents are disproportionately isolated.

FIGURE H-5: DISSIMILARITY INDEX

	Black	American Indian*	Asian*	Native Hawaiian*	Other*	Two or More Races*	Hispanic
Orange County	32.8	40.3	44.1	55.9	44.7	23.9	28.9
City of RSM	21.4	30.9	15.5	41.9	45.4	10.5	22.1

* Not Hispanic or Latino

Diversity Index

Tracking the diversity of cities and counties throughout California is crucial to understanding the shifting demographics of race and ethnicity in California and the United States. The Environmental Systems Research Institute's (Esri) Diversity Index captures the racial and ethnic diversity of a geographic area in a single number, from 0 to 100. Scores less than 40 represent lower diversity in the jurisdiction while scores of greater than 85 represent higher diversity. Additionally, scores between 40-55 represent low diversity, 55-70 represent moderate diversity, and 70-85 represent high diversity. As shown in Figure H-6 there generally appears to be consistent to higher diversity index scores throughout the City of Rancho Santa Margarita (compared to its neighbors), with the highest diversity index scores (>85) located along Santa Margarita Parkway. The lower diversity index scores include census block groups that border Coto de Caza. The portion of the City with the lowest diversity index, located along the western border of the City adjacent to Coto de Caza, is unpopulated and part of O'Neill Regional Park.

Mapped Patterns of Integration and Segregation

Patterns of integration and segregation are also considered for people with disabilities, familial status, and income groups. Relying primarily on data available from the US Census, it is possible to map and consider existing patterns which may indicate historical influences and future trends by census tract and census block groups.

As shown in Figure H-7, persons with disabilities are present throughout the Rancho Santa Margarita community, with a higher concentration in the Town Center area. This area is composed of a mix of nonresidential uses and single-family attached and multi-family uses, including senior housing. The presence of senior housing facilities may be a contributing factor in the higher percentage of persons reporting disabilities. The other two areas of the City with higher concentrations of persons with disabilities includes two census tracts along the City's western boundary with the City of Mission Viejo; these census tracts cross City boundaries and do not indicate a pattern of isolation of persons with disabilities. Based on this analysis, the City finds that there are not significant patterns of segregation impacting persons with disabilities living in Rancho Santa Margarita.

Rancho Santa Margarita is also home to a limited number of female-headed households, as illustrated on Figure H-8. All census tracts have a consistently low level of female-headed households, which mirrors that of the region. There are no known historic patterns of segregation by familial status, including by householder gender, which the City finds as contributing factors to continued segregation in Rancho Santa Margarita. Figure H-8 indicates that female-headed households are located in a variety of census tracts with different incomes, access to opportunities, and resource levels.

When considering patterns of segregated economic wealth, as indicated by median household income, there are some notable concentrates of relatively lower levels of median household income in the City's northern neighborhoods, as illustrated on Figure H-9. The census tract block group with the lowest median household income represents the Villa La Paz Apartment Homes, located at the southeast corner of Antonio Parkway and Santa Margarita Parkway. Other census tract block groups with higher concentrations of multi-family projects are also located in this area, specifically along Santa Margarita Parkway, east of SR-241, and the location of these multi-family units generally coincides with lower median household income levels. The City's multi-family units provide more affordable housing options than the City's single-family housing stock, and it would be expected that median household incomes would be lower in census tracts with higher proportions of multi-family units. This pattern appears consistent with the region, where lower levels of median household income also correspond to census tracts with higher proportions of multi-family/rental housing, as seen in the neighboring jurisdiction of Mission Viejo. The City will continue to monitor trends in the concentration/segregation of lower income households and seek ways to address existing patterns of concentration and prevent further concentration as new development occurs.

Findings

The City has considered trends and patterns related to integration and segregation based on racial and ethnic factors, disability, female-headed households, and median household income. In most cases, there are no distinguishable patterns of segregation, and the community appears to be well-integrated. However, when considering median household income, there is a correlation between lower levels of median household income and the location of multi-family/rental units, which is to be expected given that multi-family units are more affordable than single-family homes. Moreover, when considering patterns of integration and segregation compared to its neighbors (including the cities of Irvine, Mission Viejo, Laguna Woods, Lake Forest, Laguna Hills, and Aliso Viejo), Rancho Santa Margarita's patterns appear to be consistent with the region. As part of the City's regular participation in the County AI, the City will continue to consider these patterns to determine if there are any changes from current conditions.

Racially or Ethnically Concentrated Areas of Poverty (R/ECAP)

To assist communities in identifying racially/ethnically concentrated areas of poverty (R/ECAPs), HUD has developed a census tract-based definition of R/ECAPs. The definition involves a racial/ethnic concentration threshold and a poverty test. The racial/ethnic concentration threshold is straightforward: R/ECAPs must have a non-white population of 50 percent or more. According to the HUD AFFH Data Documentation White Paper of June 2013, regarding the poverty threshold, Wilson (1980) defines neighborhoods of extreme poverty as census tracts with 40 percent or more of individuals living at or below the poverty line. Because overall poverty levels are substantially lower in many parts of the country, HUD supplements this with an alternate criterion. Thus, a neighborhood can be a R/ECAPs if it has a poverty rate that exceeds 40% or is three or more times the average tract poverty rate for the metropolitan/micropolitan area, whichever threshold is lower.

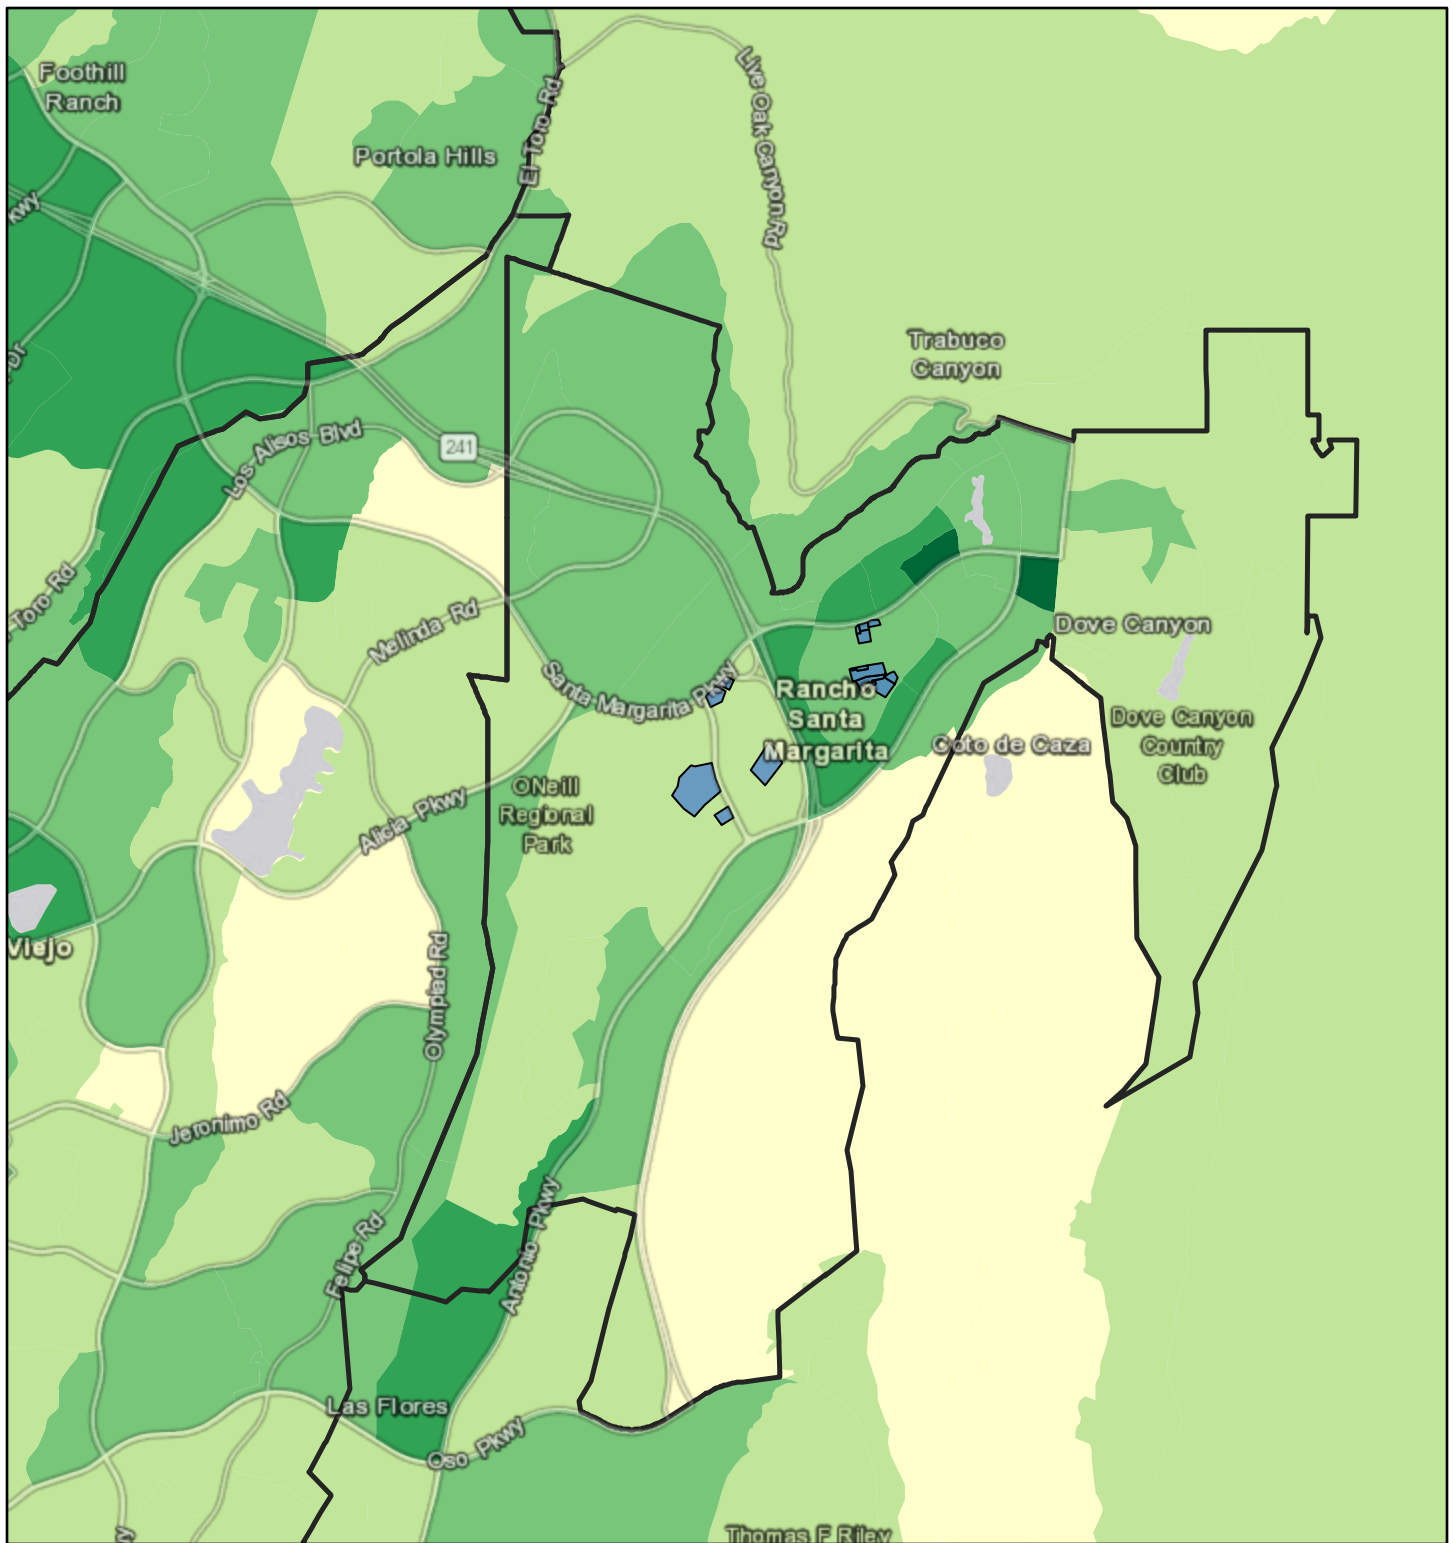

The 2020 AI performed an analysis of R/ECAPs within Orange County. There are four R/ECAPs in Orange County, two of which are found in Santa Ana, two of which are found in Irvine. However, no R/ECAPs were identified in the City of Rancho Santa Margarita. Further analysis using the HUD RECAP GIS mapping tool confirms that all census tracts within Rancho Santa Margarita have a RECAP value of 0, indicating that the census tracts within Rancho Santa Margarita do not meet the defined parameters for a racially or ethnically concentrated area of poverty as defined by HUD.

Comparing Figure H-6 (Diversity Index) to Figure H-9 (Median Household Income), there does not appear to be a direct connection between patterns of racial/ethnic diversity and median income levels. The census tract block groups with the lowest level of diversity (40-55) have the highest median household incomes (note that there is one census tract block group shown as the “lowest” level of diversity, but this area is within O’Neill Regional Park and other dedicated open space and is uninhabited). Conversely, areas ranking in the moderate (55-85) and higher (85+) diversity index categories appear to have a range of median household incomes. As discussed in the Findings section, the Housing Plan includes programs to encourage increased diversity and housing opportunities in the City and to provide education related to fair housing rights.

Racially/Concentrated Areas of Affluence (RCAA)

According to the Housing and Community Development AFFH Guidance Memo, "segregation is a continuum, with polarity between race, poverty, and affluence, which can be a direct product of the same policies and practices". Therefore, both sides of the continuum must be examined. While HCD does not have a standard definition for RCAAs, looking at the percentage of the White population and median household income can provide a good indicator for areas of affluence.

In addition to RECAPs utilized by HUD, scholars at the University of Minnesota Humphrey School of Public Affairs created the Racially Concentrated Areas of Affluence (RCAAs) metric to more fully tell the story of segregation in the United States⁸. RCAAs are defined as census tracts where 1) 80 percent or more of the population is White, and 2) the median household income is \$125,000 or greater (slightly more than double the national median household income in 2016). The majority of the City contains a White majority racial concentration, and there are census tracts with a median household income of \$125,000 or more, as shown on Figure H-9. As such, there are RCAAs located in Rancho Santa Margarita and the presence of this White majority and wealth should be considered as part of the planning process to accommodate new growth in the City.

Disparities in Access to Opportunity

HUD developed opportunity indicators to help inform communities about disparities in access to opportunity, the scores are based on nationally available data sources and assess resident's access to key opportunity assets in the City. Table H-58 provides the index scores (ranging from zero to 100) for the following opportunity indicator indices:

- Low Poverty Index: The low poverty index captures poverty in a given neighborhood. The poverty rate is determined at the census tract level. *The higher the score, the less exposure to poverty in a neighborhood.*
- School Proficiency Index: The school proficiency index uses school-level data on the performance of 4th grade students on State exams to describe which neighborhoods have high-performing elementary schools nearby and which are near lower performing elementary schools. *The higher the score, the higher the school system quality is in a neighborhood.*

⁸ Goetz, E. G., Damiano, A., & Williams, R. A. 2019. Racially Concentrated Areas of Affluence: A Preliminary Investigation. *Cityscape: A Journal of Policy Development and Research*, Volume 21(1) [pages 99–124]. Available at: <https://www.huduser.gov/portal/periodicals/cityscpe/vol21num1/ch4.pdf>

- Labor Market Engagement Index: The labor market engagement index provides a summary description of the relative intensity of labor market engagement and human capital in a neighborhood. This is based on the level of employment, labor force participation, and educational attainment in a census tract. *The higher the score, the higher the labor force participation and human capital in a neighborhood.*
- Transit Trips Index: This index is based on estimates of transit trips taken by a family that meets the following description: a three-person single-parent family with income at 50% of the median income for renters for the region (i.e. the Core-Based Statistical Area (CBSA)). *The higher the transit trips index, the more likely residents in that neighborhood utilize public transit.*
- Low Transportation Cost Index: This index is based on estimates of transportation costs for a family that meets the following description: a three-person single-parent family with income at 50% of the median income for renters for the region/CBSA. *The higher the index, the lower the cost of transportation in that neighborhood.*
- Jobs Proximity Index: The jobs proximity index quantifies the accessibility of a given residential neighborhood as a function of its distance to all job locations within a region/CBSA, with larger employment centers weighted more heavily. *The higher the index value, the better the access to employment opportunities for residents in a neighborhood.*
- Environmental Health Index: The environmental health index summarizes potential exposure to harmful toxins at a neighborhood level. The higher the index value, the less exposure to toxins harmful to human health. *Therefore, the higher the value, the better the environmental quality of a neighborhood, where a neighborhood is a census block group.*

Opportunity indicators were obtained for Rancho Santa Margarita from the HUD Affirmatively Furthering Fair Housing GIS tool. Table H-58 identifies the opportunity indicators by race and ethnicity for the total population of Rancho Santa Margarita.

TABLE H-58: OPPORTUNITY INDICATORS BY RACE/ETHNICITY

Race/ Ethnicity	Low Poverty Index	School Proficiency Index	Labor Market Index	Transit Index	Low Transportation Cost Index	Jobs Proximity Index	Environmental Health Index
White	87.82	84.08	87.29	19.01	61.49	12.75	54.08
Black	85.22	82.80	86.30	20.39	66.64	13.57	53.73
Hispanic	84.08	80.19	85.16	21.29	69.41	11.83	54.01

Native American	86.05	82.04	86.50	20.09	66.32	11.54	53.88
Total Average	87.82	84.08	87.29	19.01	61.49	12.75	54.08

Source: HUD Affirmatively Furthering Fair Housing GIS Explorer, <https://egis.hud.gov/affht/>

As shown in Table H-58, all residents of Rancho Santa Margarita appear to have relatively high access to opportunity (values over 50), except for transit access and jobs proximity. Additionally, all residents appear to have similar index values. Specifically, all residents had values within one point in the transit index, which could indicate residents, regardless of race/ethnicity, are not likely to take public transit. Additionally, all residents had values near within 2 points in the jobs proximity index, indicating that residents of all races/ethnicities have the same limited access to jobs nearby their place of residence. With scores in the lowest quartile, it is important for the City to carefully consider the relationship between jobs and housing in order to help create a more balanced jobs/housing ratio and improve the jobs proximity index for all residents. As such, access to opportunity does not appear to be significantly influenced by race or ethnicity.

Regional Opportunity Index

The UC Davis Center for Regional Change and Rabobank, N.A. partnered to develop the Regional Opportunity Index (ROI) intended to help understand social and economic opportunity in California's communities. The goal of the ROI is to help target resources and policies toward people and places with the greatest need to foster thriving communities. The ROI integrates a variety of data topics, including education, economic development, housing, mobility, health/environment, and civic life, and "maps" areas of potential investment by identifying specific areas of urgent need and opportunity. The ROI relies on many of the same data sources analyzed in the Housing Element, including the American Community Survey (ACS), the Longitudinal Employer-Household Dynamics (LEHD) Origin-Destination Employment Statistics (LODES) data, the

California Department of Education, the California Department of Public Health, among others (data points are from 2014).

There are two ROI “maps”; the “people” ROI illustrates the relative measure of the **people’s** assets in education, the economy, housing, mobility/transportation, health/environment, and civic life, while the “place” ROI illustrates the relative measure of a **place’s** assets in those same categories. The tool analyzes specific indicators for each of the six data topics, as summarized in Table H-59 below.

TABLE H-59: REGIONAL OPPORTUNITY INDEX (ROI) DATA POINTS

	People-Based Data Points	Place-Based Data Points
Education	<ul style="list-style-type: none"> Elementary School Truancy English Proficiency Math Proficiency College Educated Adults 	<ul style="list-style-type: none"> High School Discipline rate Teacher Experience UC/CSU Eligible High School Graduation Rate
Economic Development	<ul style="list-style-type: none"> Minimum Basic Income Employment Rate 	<ul style="list-style-type: none"> Bank Accessibility Job Quality Job Growth Job Availability
Housing	<ul style="list-style-type: none"> Housing Cost Burden Homeownership 	<ul style="list-style-type: none"> Housing Affordability Housing Adequacy
Mobility	<ul style="list-style-type: none"> Internet Access Commute Time Vehicle Availability 	<ul style="list-style-type: none"> N/A
Health/Environment	<ul style="list-style-type: none"> Years of Life Lost Births to Teens Infant Health 	<ul style="list-style-type: none"> Air Quality Health Care Availability Access to Supermarket Prenatal Care
Civic Life	<ul style="list-style-type: none"> English Speakers Voting Rates 	<ul style="list-style-type: none"> Neighborhood Stability US Citizenship

As shown in Figure H-11 and Figure H-12, Rancho Santa Margarita has a range of opportunity levels throughout the community with notable differences between the relative measure of people-based assets versus place-based assets, with people-based opportunities scoring better than place-based opportunities. All census tracts are shown to have average (yellow) to high (green) levels of **people-based** opportunity, which indicates positive access to opportunities across the six data topics. However, in terms of **place-based** assets, there is one census tract which indicates a lower level of opportunity (shown in red) and two census tracts which indicate moderate levels of opportunity (shown in orange). The higher and lower levels of opportunity for these two census tracts, by indicator, are summarized in Table H-60

TABLE H-60: PLACE-BASED REGIONAL OPPORTUNITY INDEX (ROI) LOW OPPORTUNITY CENSUS TRACTS

Census Tract (Place)	Opportunity Level	Average or Higher Opportunities	Lower Opportunities
320.53	Lowest Opportunity	<ul style="list-style-type: none"> • Civic Life • Housing • Education 	<ul style="list-style-type: none"> • Health/Environment • Economy
320.44*	Lower Opportunity	<ul style="list-style-type: none"> • Civic Life • Housing • Education 	<ul style="list-style-type: none"> • Health/Environment • Economy
320.43	Lower Opportunity	<ul style="list-style-type: none"> • Education • Civic Life • Housing 	<ul style="list-style-type: none"> • Health/Environment • Economy

*The portion of Census Tract 320.44 in Rancho Santa Margarita is uninhabited.

For census tract 320.53, which along Antonio Parkway, there appears to be limited opportunities related to health/environment, and the economy. Upon a deeper dive into the data, the most pressing health/environment issue is limited access to a supermarket (there are no supermarkets in this tract) which can help inform the City's land use planning decisions. In regards to the economy, the concern relates to job availability (but to a much lesser degree than the supermarket access indicator). For census tracts 320.44 (which is adjacent to an uninhabited area) and 320.43, the issues are the same; there appears to be limited opportunities related to health/environment and the economy. The most pressing health/environment issue is limited access to a supermarket and health care. In regard to the economy, the concerns are bank accessibility, job quality, and job availability.

In order to better understand access to opportunities for protected classes (persons with disabilities, race, familial status), this section compares potential patterns of isolation and segregation presented in the prior section with the Regional Opportunity Index (people and place) discussed here.

As shown in Figure H-7 and previously discussed, persons with disabilities are located throughout the community. The census tracts with the most significant percentage of its population reporting a disability is located in an area of moderate to high levels of people and place-based opportunities. There does not seem to be a correlation between where persons with disabilities are located and lower levels of opportunity.

As shown in Figure H-8 and previously discussed, female-headed households are evenly distributed throughout the community and represent less than 20% of households in all census tracts. Given that there is no discernable pattern of segregation associated with female-headed households, there does not seem to be a relationship between where female-headed households are more likely to be located and specific resource levels.

As shown in Figure H-9, households with relatively lower median household income levels are more likely to be located in the northern area of the City, in census tracts with higher proportions of multi-family units. When considering median household income and the type of housing stock present, there does not seem to be a correlation between median household income and access to opportunity.

All census tracts have a majority White population, as shown in Figure H-10. Those census tracts with more limited access to place-based opportunities do not correlate to low or high White population predominance. There does not appear to be a relationship between the level of White concentration and access to opportunity.

2021 TCAC/HCD Opportunity Area Map

Additionally, the Department of Housing and Community Development together with the California Tax Credit Allocation Committee established the California Fair Housing Task Force to provide research, evidence-based policy recommendations, and other strategic recommendations to HCD and other related State agencies/departments to further the fair housing goals (as defined by HCD). The Task force developed the 2021 TCAC/HCD Opportunity Area Maps to understand how public and private resources are spatially distributed. The Task force defines opportunities as pathways to better lives, including health, education, and employment. Overall, opportunity maps are intended to display which areas, according to research, offer low-income children and adults the best chance at economic advancement, high educational attainment, and good physical and mental health.

According to the Task Force's methodology, the tool allocates the 20 percent of the tracts in each region with the highest relative index scores to the "Highest Resource" designation and the next 20 percent to the "High Resource" designation. Each region then ends up with 40 percent of its total tracts as "Highest" or "High" resource. These two categories are intended to help State decision-makers identify tracts within each region that the research suggests low-income families are most likely to thrive, and where they typically do not have the option to live—but might, if given the choice. The remaining tracts are then evenly divided into "Low Resources" and "Moderate Resource". As shown in Figure H-14, the majority of Rancho Santa Margarita is classified as "High" or "Highest" resource, with the remainder classified as a "Moderate Resource" area. There are no "Low Resource" areas in Rancho Santa Margarita.

Findings

Overall, it appears that residents in Rancho Santa Margarita have varying levels of access to opportunities, and access to opportunity is not correlated to the location of special groups, like female-headed households, or persons with disabilities. While there is some minor correlation between access to opportunities and median household income composition in the northern areas of the City with higher proportions of multi-family units, there are other areas of the City with lower levels of access to opportunity where income is higher and the housing stock is more heavily weighted towards single-family homes. Access to opportunity appears to be consistent and equitable across the community.

Discussion of Disproportionate Housing Needs

The analysis of disproportionate housing needs within Rancho Santa Margarita evaluated existing housing need, housing needs of the future population, and units within the community at-risk of converting to market-rate (of which there are none).

Future Growth Need

The City's future growth need is based on the RHNA, which allocates production of 680 units, including 209 very-low and 120 low-income units, to the City for the 2021-2029 planning period. The City of Rancho Santa Margarita is largely built-out and no residentially-zoned land remains vacant. As such, all future housing growth must be located in infill areas, near jobs and services, primarily in the City's business park and commercial areas. Figure H-3 shows that the Housing Element Sites Inventory is well dispersed throughout the community and do not present a geographic barrier to obtaining affordable housing. In addition, the City allows for the development of accessory dwelling units, which provide a more affordable housing option when compared to single-family homes, throughout the community. Appendix A of this Housing Element shows the City's ability to meet its 2021-2029 RHNA need at all income levels. This demonstrates the City's ability to accommodate the anticipated future affordable housing needs of the community.

Existing Need

As described earlier in this Background Report, Carina Vista includes 48 owner-occupied affordable single-family homes, which will be affordable in perpetuity. These units are not at-risk of conversion.

Findings

“Disproportionate housing needs” generally refers to a condition in which there are significant disparities in the proportion of members of a protected class experiencing a category of housing need when compared to the proportion of members of any other relevant groups, or the total population experiencing that category of housing need in the applicable geographic area. Based on input from the community and the County AI, the most disproportionate housing needs in Rancho Santa Margarita includes rehabilitation of the existing housing stock (although this is a minor issue) and increased variety of housing types at affordable prices, including housing for lower income households and larger households.

Displacement Risk

There are no at-risk affordable units in Rancho Santa Margarita. As described earlier in this Background Report, the City plans to accommodate the majority of its 2021-2029 RHNA allocation at infill sites through a Workforce Housing Overlay or a Mixed-Use Housing designation; the sites identified to accommodate the City's RHNA have good access to transportation facilities, goods and services, amenities, and infrastructure. No residential uses currently exist at any of the City's Housing Element sites (they are developed with nonresidential uses). There is not a significant displacement risk associated with the City's current affordable housing stock as a result of new development.

The City recognizes that even though it has identified sufficient land to accommodate its RHNA allocation at all income levels through the application of the Workforce Housing Overlay and the Mixed-Use Housing land use/zoning designation, there is still the potential for economic displacement because of new development and investment. This “knock-on” effect can occur at any time, and it can be challenging for the City to predict market changes and development patterns which have the potential to impact rental rates and sales prices for housing available in the marketplace. To date, the City has no evidence that new development (affordable or market-rate) has resulted in economic displacement.

The City has also considered the risk of displacement specifically for protected classes, including persons with disabilities, female-headed households, and nonwhite residents (as discussed previously throughout this Background Report). There are no concentrations of female-headed households in areas where new residential development is planned (female-headed households are not concentrated in any specific areas of the City), and the risk of displacement to these groups (like to the City's lower-income residents) is low. However, some future housing sites are located in areas with high levels of persons with disabilities, and these groups appear to be slightly more vulnerable to potential future displacement, although the risk appears low.

To the extent that future development occurs in areas where there is existing housing, all housing must be replaced according to SB 330's replacement housing provisions (Government Code Section 66300). SB 330 also provides relocation payments to existing low-income tenants. The State has also adopted "just cause" eviction provisions and Statewide rent control to protect tenants from displacement. This is unlikely to occur, however, because none of the sites on the Housing Element Sites Inventory are currently developed with residential uses.

Findings

The City is committed to making diligent efforts to engage underrepresented and disadvantaged communities in studying displacement.

6C. Sites Inventory

Government Code 65583 (amended pursuant to AB 686) requires that jurisdictions identify sites throughout the community in a manner that is consistent with its duty to affirmatively further fair housing. The site identification includes not only an analysis of site capacity to accommodate the RHNA (provided in this section), but also considers whether the identified sites serve the purpose of replacing segregated living patterns with truly integrated and balanced ones, transforming racially and ethnically concentrated areas of poverty into areas of opportunity.

SEGREGATION/INTEGRATION

As previously stated, the City finds that there are no known historic patterns of segregation by race and ethnicity, persons with disabilities, familial status, age or income. Nonetheless, as described throughout this Housing Element, the City is committed to supporting the development of housing to promote a balanced and integrated community. This is highlighted in Table H-56 in the Housing Resources chapter, as the City has identified a surplus of sites and excess development capacity for housing for all income levels.

Figure H-6 shows the sites identified to meet the City's RHNA allocation in relation to racial/ethnic diversity. As shown, proposed sites are located in multiple census tracts currently developed with nonresidential uses are not concentrated in areas of low diversity. No sites are located in areas of low diversity.

Figure H-7 shows the sites designated to meet the City's RHNA allocation in relation to the concentration of persons with disabilities. As shown, proposed sites in areas with different proportions of persons with disabilities, and some sites are located in the census tract with the highest proportion of persons with disabilities. However, persons with disabilities and persons living in affordable/attainable housing both benefit from being near goods and services, including in mixed-use settings, and it stands to reason that both populations are well-served by locating in mixed-use areas. The locations of sites designated to meet the City's very-low and low-income RHNA allocation are not expected to contribute to patterns of isolation or segregation for persons with disabilities.

Figure H-8 shows the sites designated to meet the City's RHNA allocation in relation to female-headed households. There is no pattern of concentration of female-headed households in the community. The locations of sites designated to meet the City's very-low and low income RHNA allocation are not expected to contribute to patterns of isolation or segregation for female-headed households.

Figure H-9 shows the sites designated to meet the City's RHNA allocation in relation to median household income. As shown, proposed RHNA sites are located in census tracts with varying levels of household median income. No candidate sites are located in one of the City's lowest median household income census tracts. Development is expected to occur at other sites where nonresidential uses are currently (2021) located. The location of new development to meet the City's very-low and low income RHNA are not expected to contribute to patterns of isolation or segregation for lower-income households.

R/ECAPS

The City does not have any racially or ethnically concentrated areas of poverty and the identification of sites to accommodate the City's RHNA is not expected to alter this finding.

ACCESS TO OPPORTUNITY

Approximately half of the City's candidate sites (those identified for the Workforce Housing Overlay) are located within census tract 320.53, which is considered an area with low place-based opportunities. This census tract is heavily developed with nonresidential uses, primary related to the City's business park. The primary concern in this area is related to access to supermarkets. The introduction of new residential development in this area will help to create more demand for goods and services nearby and could serve as the catalyst for development of neighborhood-serving retail in the area (in accordance with the Rancho Santa Margarita's Code). Taken together, development of new workforce housing in this area, which is focused on underutilized business park sites, will help to diversify the land use pattern without displacing existing residents.

DISPLACEMENT RISK

Figure H-15 shows the sites designated to accommodate the City's RHNA allocation in relation to percent of renter households overburdened by housing costs, by census tract. No sites are located in the census tracts with the highest levels of renter households overburdened by housing costs (located in the northern portion of the City), but sites are located in census tracts with modest levels of renter households overburdened. The sites are located in census tracts which are largely developed with nonresidential uses, and the introduction of new units in these tracts, and throughout the community, will help to alleviate existing patterns of overpayment. In addition, no sites are located in the census tracts with the highest levels of homeowner households overburdened by housing costs; these census tracts are largely developed as single-family neighborhoods and can accommodate ADU's as part of the City's RHNA. Figure H-16 shows the sites proposed to meet Rancho Santa Margarita's RHNA, including its very-low and low-income RHNA allocation (the new Workforce Housing Overlay and Mixed-Use Housing sites will allow for densities up to 35 du/ac) in relation to percent of homeowner households overburdened by housing costs, by census tract. The intent of introducing new residential development in these areas (at locations currently developed with commercial uses) is to add new housing to desirable areas and provide a range of housing choices at different prices to current and future residents. The sites designated to accommodate the City's lower-income RHNA are not currently developed with residential uses and are not expected to displace current residents.

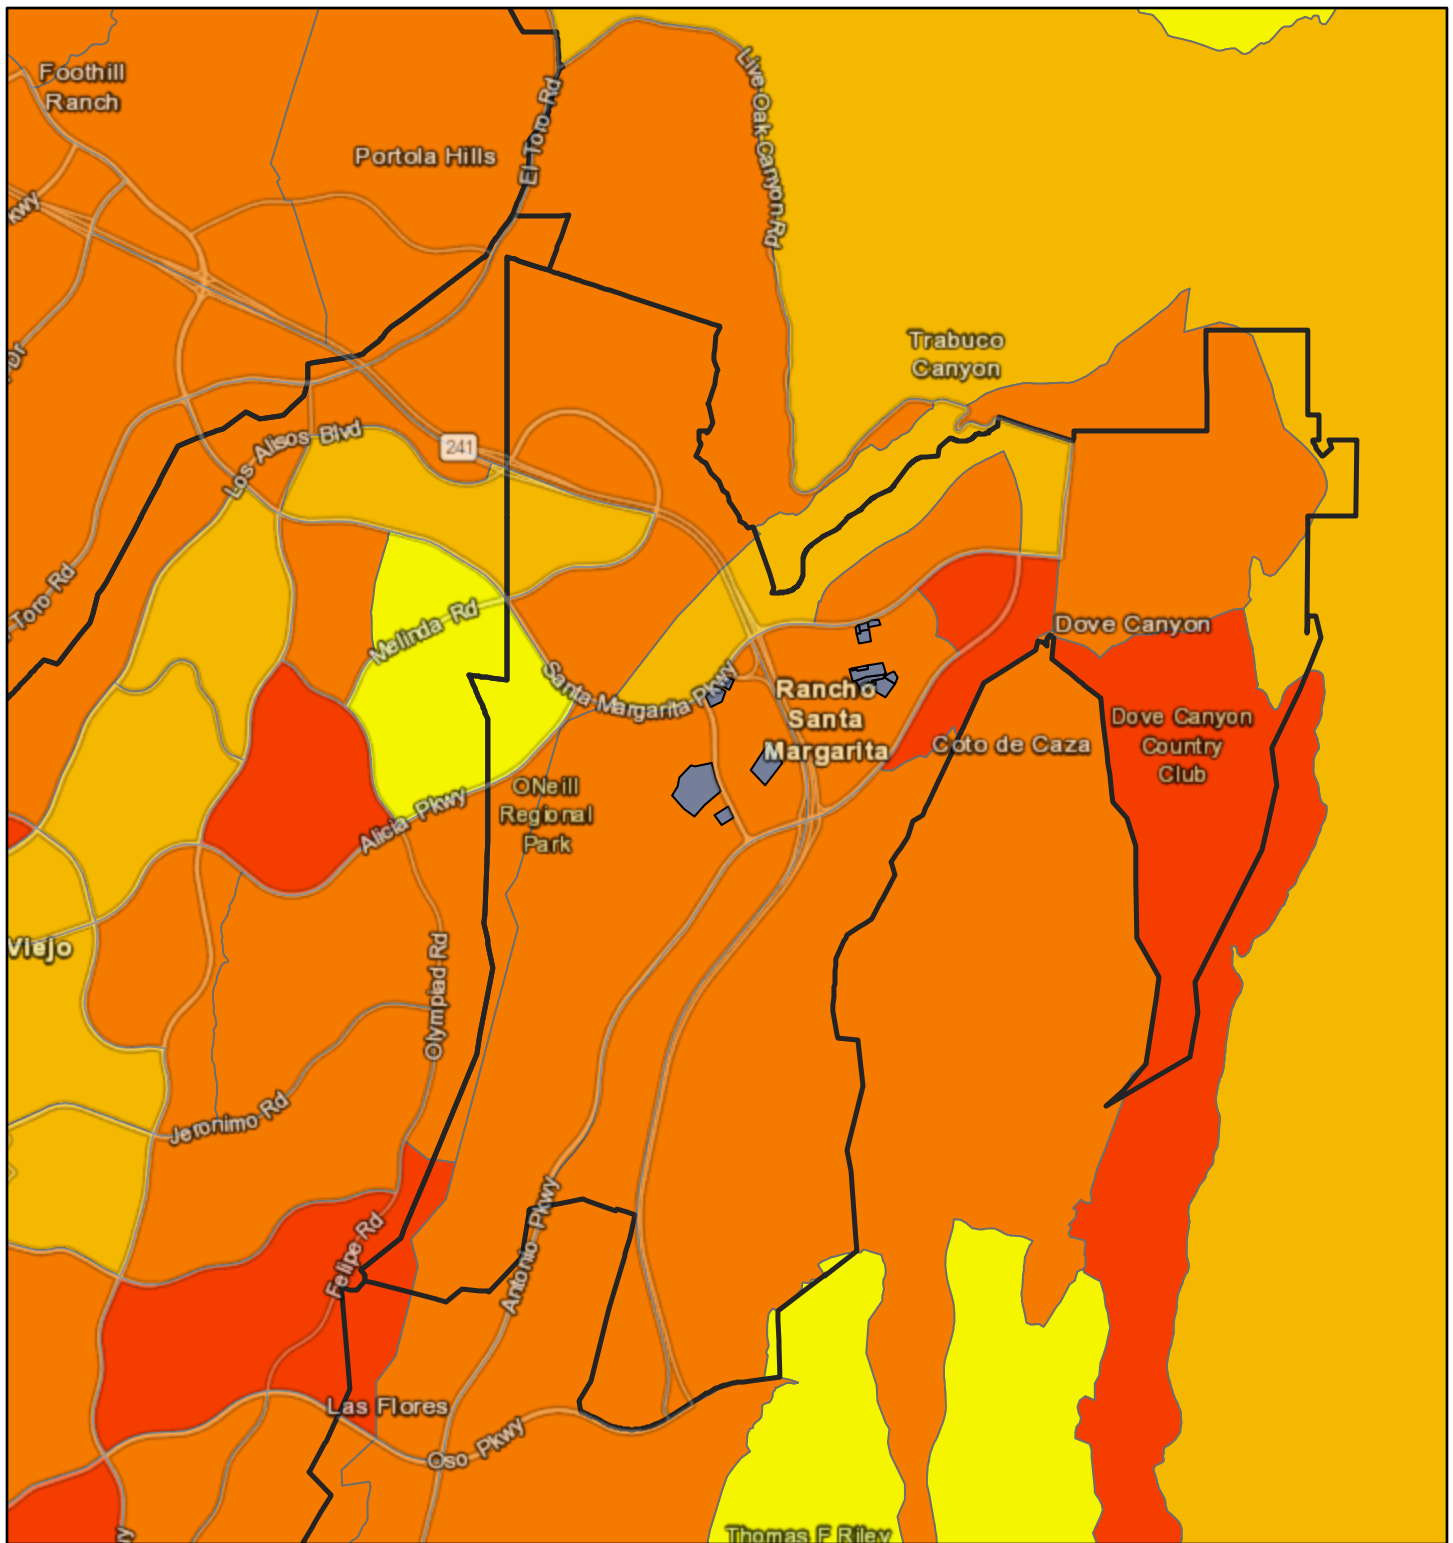

SITE ANALYSIS FINDINGS

To accommodate the City's RHNA allocation, two key opportunities for redevelopment of underutilized nonresidential sites have been identified: the introduction of workforce housing in the City's business park and revitalization of the City's commercial centers through mixed-use development where residential uses can coexist with places to shop, work and play. The City's RHNA needs, including very-low and low needs, are accommodated in these locations which do not represent extremely concentrated racial or ethnic populations, persons with disabilities, female household, or low-income households. However, the City has included a program to encourage additional development of lower-income units throughout the community through its accessory dwelling unit program. For these reasons, the City finds that the sites proposed to accommodate its RHNA allocation do not unduly burden existing areas of concentrated racial or ethnic homogeneity, poverty, or other characteristics. Moreover, the sites affirmatively further fair housing by helping to stimulate investment in areas where additional people- and place-based opportunity is desired, and where new residential and/or mixed-use development can help to improve some of the opportunity level characteristics discussed earlier in this section.

6D. Analysis of Contributing Factors and Fair Housing Priorities and Goals

The December 2015 Affirmatively Furthering Fair Housing Rule Guidebook identifies examples of contributing factors by each fair housing issue area: outreach, fair housing enforcement and outreach capacity, segregation and integration, racially and ethnically concentrated areas of poverty, disparities in access to opportunity, disparities in access to opportunities for persons with disabilities, disproportionate housing needs, including displacement risks, and sites inventory. Based on the analysis included in this Background Report, the City has identified the following potential contributing factors to fair housing issues in Rancho Santa Margarita and has developed a series of specific programs to address these contributing factors.

1. **Location of employers (disparities in access to opportunity).** Rancho Santa Margarita is a master-planned community designed to provide a balance of jobs and housing where people live, work, shop and play. However, over time, housing costs in the City have continued to rise and most of the City's housing units, especially single-family homes, are only affordable to households earning above moderate incomes (120% or more of the area median income). Employers located in the community can have a hard time attracting talent due to the high cost of living in the City, and conversely, many residents of Rancho Santa Margarita commute out of the City for high-wage jobs in more robust jobs centers both in Orange County and throughout the region. To help address this contributing factor, the City has identified three sites in the Business Park suitable for workforce housing and has committed to adopting and implementing a Workforce Housing Overlay which will allow for development of residential uses at these sites at densities up to 35 du/ac. The Workforce Housing Overlay will create new opportunities to provide attainable housing near the City's job centers, and could encourage the location of new employers to Rancho Santa Margarita who are looking to allow residential uses to coexist with jobs centers. Program 1, *Regional Housing Needs Allocation*, has been included in the City's Housing Plan to support adoption and implementation of the Workforce Housing Overlay.
2. **Community opposition.** The County AI identified community opposition as a potential significant contributing factor to fair housing issues in Orange County and Rancho Santa Margarita. In Rancho Santa Margarita, and many other communities, there is a lack of community understanding around affordable housing and the important role it plays in helping meet the needs of a variety of community members, including young people, working professionals, seniors, persons with disabilities, female-headed and other single-parent households, low-income households, and other at-risk populations. Program 16, *Orange County Fair Housing Council*, has been included in the City's Housing Plan to address this contributing factor.
3. **Land use and zoning laws.** The City of Rancho Santa Margarita comprehensively updated its General Plan in 2020. Although the City prepared and adopted a Mixed-Use land use designation which allows for residential development up to 25 du/ac as part of its new General Plan, the designation was not applied to any specific sites. As part of the Housing

Element Update, the City identified a shortfall of available sites to accommodate its RHNA at all income levels. In order to provide adequate sites, the City has included a program to adopt a new Mixed-Use Housing land use and zoning designation, which will allow for residential development up to 35 du/ac, and implement the designation by applying it to specific underutilized nonresidential sites currently designated as Commercial General or Business Park. By allowing for residential development where residential development was not previously allowed, the City has put forward a plan to accommodate new growth at the most viable sites for redevelopment. Program 1 has been included to address this contributing factor.

Moving forward, the City remains committed to providing a diversity of housing options for all income levels, encouraging development throughout the community to help overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. The majority of the City's Housing Programs designed to address fair housing are required to be implemented on an ongoing basis, with annual progress reports and program evaluations to ensure they are achieving the City's objectives. The following list summarizes those programs identified in this Housing Element which affirmatively further fair housing and implement the County AI's recommendations:

- Program 1, to accommodate new growth through the Workforce Housing Overlay and Mixed-Use Housing land use/zoning designation
- Program 3, to encourage the production of accessory dwelling units
- Program 10, to support affordable housing construction
- Program 11, to ensure that the City's density bonus ordinance continues to be in compliance with State law
- Program 12, to comply with all State of California accessibility standards
- Program 14, to accommodate specialized housing types and update the City's policies and procedures regarding low barrier navigation centers, supportive housing, employee housing, and farmworker housing
- Program 16, to continue utilizing a fair housing service provider to assist with addressing fair housing issues in Rancho Santa Margarita and to educate the community

To the extent that these programs represent ongoing work efforts, these programs are evaluated for effectiveness in Section 2 of this Background Report. The City has undertaken a series of proactive amendments to the Rancho Santa Margarita Zoning Code to address new State requirements including accessory dwelling units, and the City will continue to partner with local and regional stakeholders to affirmatively further fair housing.

Cheryl Kuta
Development Services Director
City of Rancho Santa Margarita
2112 El Paseo, Rancho Santa Margarita, CA 92688

Re: **Housing Element Update Rancho Santa Margarita
Rezoning of Business Park for Mixed Use**

Mrs. Kuta,

As a commercial resident of Rancho Santa Margarita, Applied Medical Resources Corporation (AMR) has been actively following the development regarding the Housing Element Update. The topics covered include consideration of undeveloped sites, reuse and repurposing of existing sites throughout the City, addition of accessory dwelling units, as well as discussions on workforce housing in the business park where AMR operates.

Regarding workforce housing, the City staff has been evaluating the most plausible candidates for such sites by considering the lot size and lot occupancy for all parcels within the business park in Rancho Santa Margarita. Suitable sites identified by the City include 29977 Avenida de las Banderas (R100), 30200 Avenida de las Banderas (R105), 22931 Arroyo Vista (R113) and 22922 Empresa.

We are writing you to express our support in the workforce housing overlay for R100, R105 and R113, all of which are in AMR's ownership. The rezoning of these specific sites would allow AMR to consider mixed use of the sites at its discretion, enabling AMR to accommodate at least 300 housing units.

Please feel free to contact me with any questions regarding this project.

Sincerely,

A handwritten signature in black ink that reads "Zoran Falkenstein". The signature is written in a cursive, flowing style.

Zoran Falkenstein

**Please Start Here, Instructions in Cell A2,
Table in A3:B15** **Form Fields**

Site Inventory Forms must be submitted to HCD for a housing element or amendment adopted on or after January 1, 2021. The following form is to be used for satisfying this requirement. To submit the form, complete the Excel spreadsheet and submit to HCD at sitesinventory@hcd.ca.gov. Please send the Excel workbook, not a scanned or PDF copy of the tables.

This page intentionally left blank.

1. Introduction

This Appendix summarizes the work to date on developing the required Housing Element, including the results of community surveys and focus groups. Additionally, the City has been receiving public input regarding the Housing Element Update since launching the project in fall of 2020. Public comments received to date are summarized below and were included as an attachment to the Staff Report prepared for the August 11, 2021 City Council meeting, which can be viewed on the Housing Element website. <http://cityofrsm.org/622/Housing-Element-Update-2021>.

Staff worked closely with De Novo Planning Group to create an outreach strategy that encourages input from the City's residents, business community, and housing advocates. The City created a dedicated webpage with educational information about the Housing Element, including the RHNA process, surveys, and focus group information. The webpage can be accessed at the following web address: <http://www.cityofrsm.org/622/Housing-Element-Update-2021>. Staff also created an interest list for individuals and organizations to receive information on the Housing Element Update, and notifies the interest list every time the webpage is updated. Two on-line surveys and five focus group meetings were conducted to receive specific input regarding local housing conditions and acceptable options for the required Housing Element sites inventory. Summaries of the surveys and focus group meetings are also provided below.

2. Surveys

Survey No. 1 was made available for on-line responses from January 29 to March 3, 2021. This survey focused on existing conditions to better understand the characteristics of households in the City, to identify the community's housing needs and priorities, and to uncover real or perceived fair housing concerns. Pursuant to Housing Element law, the City is required to evaluate housing needs and fair housing issues in the Housing Element Update. In addition, State law requires the City to affirmatively further fair housing (AFFH) through Housing Element policies, programs, and the sites inventory. Specifically, Housing Element law (GC 65583(c)(10)) requires all public agencies to explicitly address, combat, and relieve disparities resulting from past patterns of segregation, and to foster communities that are more inclusive. The information gathered from this survey served as a starting point to address AFFH requirements. Additional information on AFFH requirements can be found on HCD's website at: <https://www.hcd.ca.gov/community-development/affh/index.shtml>.

Survey No. 1 received 530 responses. Detailed survey results are provided in Attachment 4A. Key findings from this survey include:

- 93% of resident respondents are very satisfied or somewhat satisfied with their current housing situation.
- 68% of resident respondents chose to live in Rancho Santa Margarita because of safe neighborhoods.
- 62% of resident respondents rate their housing as being in excellent condition, while 29% rated it as showing minor signs of deferred maintenance.
- 73% of respondents support programs to ensure that children who grow up in Rancho Santa Margarita can afford to live here as adults.
- 67% of respondents support programs to rehabilitate existing housing.
- 65% of respondents support programs to promote affordable housing for working families.
- 86% of resident respondents indicated they had not witnessed housing discrimination in Rancho Santa Margarita.

Survey No. 2 was available between February 21, and March 29, 2021 and focused on the types of development that should be further explored as the City plans to accommodate the RHNA of 680 housing units. Eleven potential development types were presented in the survey and respondents were requested to indicate which types they found most acceptable in order to comply with the RHNA. The survey also included open-ended questions that allowed respondents to provide additional development type ideas, and to share other thoughts on the topic of housing and the RHNA. The 11 development types included in the survey for consideration are listed below in the order in which they appeared in the survey.

- Accessory Dwelling Units (ADUs)
- Repurposing of office sites to residential uses
- Repurposing of office sites to accommodate a mix of uses (office with residential)
- Repurposing of general commercial shopping centers to residential uses
- Repurposing of general commercial shopping centers to accommodate a mix of uses (commercial with residential)
- Repurposing of neighborhood commercial shopping center sites to residential uses
- Repurposing of neighborhood commercial shopping center sites to accommodate a mix of uses (commercial with residential)
- Workforce housing in the business park
- Housing on church property
- Repurposing of surplus school property
- Development on undeveloped or underdeveloped sites

Survey No. 2 data was analyzed to determine the development types ranked as most acceptable. As described in the Community Survey Results Report (Attachment 4A), survey respondents were asked three questions regarding the suitability of the 11 listed development types. First, they were asked to identify the three development types they found most suitable. Next, respondents were asked to identify the three development types they found least suitable, and finally, they were asked to rank the 11 listed development types from most to least acceptable.

The three **most** acceptable development types among all respondents were as follows:

- Development on undeveloped/underdeveloped sites (58.47%)
- Repurposing of office sites to accommodate a mix of uses (office with residential) (52.54%)
- Workforce housing in the business park (43.22%)

The three **least** acceptable development types among all respondents were as follows:

- Repurposing of neighborhood commercial centers to residential uses (57.63%)
- Repurposing of general commercial centers to residential uses (39.83%)
- Housing on church sites (33.47%)

When asked to rank the development types from most suitable to least suitable, the results were similar, with the development types ranking as follows:

1. Repurposing of office sites to accommodate a mix of uses (office with residential)
2. Development on undeveloped/underdeveloped sites
3. Repurposing of office sites to residential uses
4. Accessory Dwelling Units (ADUs)
5. Repurposing of general commercial shopping centers to accommodate a mix of uses (commercial with residential)
6. Workforce housing in the business park
7. Repurposing of general commercial shopping centers to residential uses
8. Repurposing of surplus school property
9. Repurposing of neighborhood commercial shopping center sites to accommodate a mix of uses (commercial with residential)
10. Housing on church property
11. Repurposing of neighborhood commercial shopping center sites to residential uses

Survey No. 2 data was also analyzed to determine similarities and differences among the preferences of groups based on resident/worker status and residence location. As summarized in the attached Community Survey Results Report (Attachment 4A), of the 236 respondents, 92% live in Rancho Santa Margarita, 4% work in Rancho Santa Margarita and live elsewhere, and less than 4% neither live nor work in the City. In addition to evaluating the responses from resident and worker groups, staff evaluated preferences based on residence location by distributing the responses between northern RSM (north of Plano Trabuco Road) and southern RSM (south of Plano Trabuco Road). It is interesting to note that 64% of respondents live in northern RSM, and 29% in southern RSM. Of the 236 responses, 119 (52%) live in Dove Canyon (North RSM).

Based on this analysis, we found similarities in the development types found most suitable. The top four development types identified by each group are listed below.

Resident Responses – top four development types:

- Development on undeveloped/underdeveloped sites
- Repurposing of office sites to accommodate a mix of uses
- Workforce housing in the business park
- Accessory Dwelling Units

Worker Responses – top four development types:

- Repurposing of office sites to accommodate a mix of uses
- Repurposing of general commercial centers to accommodate a mix of uses
- Workforce housing in the business park
- Repurposing of office sites to residential uses

North RSM Responses – top four development types:

- Development on undeveloped/underdeveloped sites
- Repurposing of office sites to accommodate a mix of uses
- Accessory Dwelling Units
- Repurposing of surplus school property

South RSM Responses – top four development types:

- Repurposing of office sites to accommodate a mix of uses
- Repurposing of general commercial centers to accommodate a mix of uses
- Workforce housing in the business park
- Accessory Dwelling Units

Based on the ranking of sites provided in Survey No. 2, staff utilized the following top four development types in the focus group discussions:

- Repurposing of office sites (listed as acceptable by all 4 groups)
- Workforce housing in the business park (listed as acceptable by 3 groups)
- Accessory Dwelling Units (listed as acceptable by 3 groups)
- Development on undeveloped/underdeveloped sites (listed as acceptable by 2 groups)

3. Focus Group Meetings

Focus groups were assembled to obtain direct feedback on the development types, along with reactions to potential sites identified in each of the acceptable categories based on the results of Survey No. 2. Staff and the consultant team sought a wide sample of stakeholders representing neighborhoods throughout the City, local businesses, and housing interest groups. Five focus groups were conducted virtually over Zoom as follows:

- Community Associations of Rancho (CAR) on April 13, 2021 with 18 participants;
- Applied Medical on April 15, 2021 with 11 participants;
- CAR Delegates on April 21, 2021 with seven participants;
- Housing Advocacy Groups on April 21, 2021 with nine in attendance; and
- Residents/Community Members on April 29, 2021 with 11 in attendance.

The focus groups included a PowerPoint presentation where City staff and the consultant team presented background information including an overview of RHNA and the Housing Element Update process, and results from the surveys. After the background information was presented, possible sites to accommodate the RHNA based upon the four most acceptable development types were presented to participants. Five potential scenarios were utilized as conversation starters to illustrate possible ways that the sites could be combined to achieve the RHNA of 680 units. A copy of the Focus Group PowerPoint is included as Attachment 4B.

The group of potential housing sites listed below was presented to the Focus Groups to represent the options available in each of the acceptable development type categories. The PowerPoint in Attachment 4B includes additional details on each development type. An estimated range of development capacity was described for each of the potential sites and provided in sample scenarios to illustrate how the sites could be combined to achieve the RHNA.

Undeveloped/Underdeveloped Sites:

- Sphere of Influence Area (SOI)
- Chiquita Ridge
- Rose Canyon

Office Sites:

- Eight sites containing 100% office development (i.e., no light industrial, manufacturing, etc.) were identified for further discussion. These sites represent all of the sites in the City that contain purely office uses.

Workforce Housing in the Business Park:

- This development type was discussed as a concept without identifying specific sites within the Business Park Zoning District.

Accessory Dwelling Units:

- HCD does not require identification of specific sites for ADUs. ADUs are allowed in all residential zones.

The following is a summary of the input received from the Focus Groups. Additional information is provided in the Focus Group Summary in Attachment 4B.

- Office Sites: Repurposing of office sites was found to be a very acceptable option among all of the focus groups.
- Workforce Housing in the Business Park: Focus group members were generally accepting of the idea of allowing housing in the Business Park with a limit on the number of units as to not change the character of the area.
- Undeveloped/Underdeveloped Sites:
 - Sphere of Influence Area: The groups expressed mixed feelings about development in the sphere of influence citing access and wildfire issues as primary concerns.
 - Chiquita Ridge: Four of the five focus groups were supportive of the concept of development on the City-owned Chiquita Ridge property.
 - Rose Canyon: All groups were accepting of potential development on the Rose Canyon property due to its proximity to existing residential uses and goods and services.
- Accessory Dwelling Units: The groups were divided on the matter of Accessory Dwelling Units, with two groups finding ADUs to be the least acceptable development option of those presented.
- All groups recognized the importance of honoring the community master plan and expressed the need to ensure that any new

development consistent with the master plan and community character.

4. Public Comments

Since kickoff of the Housing Element Update project, staff has been receiving general public input in addition to the feedback provided through the community surveys and focus groups. As of July 21, 2021, staff had received 100 separate pieces of correspondence from 48 individuals. The correspondence commonly fell into several categories shown in the table below. All of the written comments received by July 21, 2021 are included in the August 11, 2021 City Council meeting, which can be viewed on the Housing Element website. <http://cityofrsm.org/622/Housing-Element-Update-2021>.

Public Comments Received as of July 21, 2021
Common Topics

Requesting to add name to interest list to receive updates	25
Opposition to State Mandates, support for RHNA Appeal	12
Comments on Survey #1 or Survey #2	10
Wildfire concerns, more homes impeding evacuations	9
Support for affordable housing	7
Requesting more time to review information prior to Planning Commission Workshop	5
Opposed to a specific housing site identified in Sites Inventory Scenarios	4
Other	4

Staff will continue to receive and compile public comments and provide them to the Planning Commission and City Council.

5. Feedback Influence

Public Feedback Response & Incorporation into the Draft 2021-2029 Housing Element				
General Input Received	Applicable Reference			
	Goal	Policy	Program	Other
Comments Received Prior To Public Review Draft Period				
Emails requesting to be added to interest list to receive updates				The City started an email interest list on August 3, 2020 to ensure that all interested parties received updates on all City work efforts on the Housing Element Update and to advise them when the City updated the dedicated webpage on the City's website.
Opposition to State Mandates, support for RHNA Appeal	Goal 1. Housing Diversity & Opportunities	<ul style="list-style-type: none"> Policy 1.2 	Program 1	Noted. The City was unsuccessful with their RHNA appeal, and the City is required to comply.
Comments on Survey #1 and Survey #2				The City diligently logged and recorded all comments on both surveys. The Surveys are included in their entirety in Appendix B of the Public Review Draft Housing Element.
Wildfire concerns, more homes impeding evacuations	SE Goal 1: Protect and prepare the community for natural and man-made hazards. SE Goal 4: Protect the community from loss of life or injury and damage to property due to wildfire hazards.	<ul style="list-style-type: none"> Policy 1.5 Policy 4.1, 4.7 		Noted, the Safety Element directly addresses evacuation routes. All sites in the sites inventory are outside of the VHFHSZ, are centrally located on in-fill sites, and will least interfere

				with evacuation procedures
Support for affordable housing	Goal 1. Housing Diversity & Opportunities	<ul style="list-style-type: none"> • Policy 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.8 	<ul style="list-style-type: none"> • Program 1 • Program 5 • Program 8 • Program 9 • Program 10 • Program 11 • Program 14 	Noted, the City has several programs to support the development of affordable housing
Requesting more time to review information prior to Planning Commission Workshop				These comments relate to a Planning Commission agenda item presenting the results of the two surveys. The packet included a staff report and survey responses. The City complies with the Brown Act requirement to provide at least 72 hours advance notice of a Planning Commission or City Council meeting. In this instance, the email interest list was provided with five days or at least 120 hours advance notice via the email interest group.
Opposed to a specific housing site identified in Sites Inventory Scenarios	Goal 1: Plan for a range of housing opportunities to adequately meet the existing and projected needs of the entire community	<ul style="list-style-type: none"> • Policy 1.2 	<ul style="list-style-type: none"> • Program 1 • Program 2 	The City is required to ensure that the sites identified in the RHNA are viable.
Comments Received on Public Review Draft Commencing September 29, 2021				
Questioning assigned RHNA numbers & SCAG	Goal 1. Housing Diversity & Opportunities	<ul style="list-style-type: none"> • Policy 1.2 	<ul style="list-style-type: none"> • Program 1 	Noted, the City is required to comply
Developer seeking information about sites inventory	Goal 1. Housing Diversity & Opportunities; Goal 3. Use Private-Public Partnerships and collaborative efforts to ensure that all segments	<ul style="list-style-type: none"> • Policy 1.5, 1.7 • Policy 3.1, 3.6 • Policy 4.2 	<ul style="list-style-type: none"> • Program 1 • Program 2 • Program 10 • Program 11 • Program 14 • Program 15 	Pursuant to State law, the City will adopt amendments to the RSMZC to establish the Workforce Housing Overlay and amend the

	<p>of the community have access to safe and decent housing that meets their special needs.</p> <p>Goal 4: Affirmatively further fair housing, providing equal housing opportunity for all residents.</p>			<p>General Plan and RSMZC to establish the Mixed-Use Housing land use/zoning designation.</p> <p>The City is creating Objective Design Standards in 2022 that will allow applicants, developers, and the City review submittals.</p>
Concerns about evacuation routes	<p>SE Goal 1: Protect and prepare the community for natural and man-made hazards.</p> <p>SE Goal 4: Protect the community from loss of life or injury and damage to property due to wildfire hazards.</p>	<ul style="list-style-type: none"> • Policy 1.5 • Policy 4.1, 4.7 		<p>Noted, the Safety Element directly addresses evacuation routes. All sites in the sites inventory are outside of the VHFHSZ, are centrally located on in-fill sites, and will least interfere with evacuation procedures</p>
Concerns about development in high fire zones	<p>SE Goal 2: Reduce the risk to the community from hazards related to geologic conditions and seismic activity.</p> <p>SE Goal 4: Protect the community from loss of life or injury and damage to property due to wildfire hazards.</p>	<ul style="list-style-type: none"> • Policy 2.4 • Policy 4.1, 4.2, 4.4, 4.6, 4.7, 4.8 		<p>Noted, none of the sites are located in the VHFHSZ</p>
Requesting clarification about why Chiquita Ridge is not included in sites inventory	<p>SE Goal 2: Reduce the risk to the community from hazards related to geologic conditions and seismic activity.</p> <p>SE Goal 4: Protect the community from loss of life or injury and damage to property due to wildfire hazards.</p>	<ul style="list-style-type: none"> • Policy 2.4 • Policy 4.1, 4.2, 4.4, 4.6, 4.7, 4.8 		<p>Chiquita Ridge is located in the VHFHSZ and is a highly constrained 92-acre site.</p>
Requesting clarification about what mixed-use	<p>Goal 1: Plan for a range of housing opportunities to</p>	<ul style="list-style-type: none"> • Policy 1.4 	<ul style="list-style-type: none"> • Program 15 	<p>The City will create Objective Design Standards and</p>

and workforce housing will look like	adequately meet the existing and projected needs of the entire community.			zoning designations for Workforce Housing and Mixed-Use within three years of Housing Element adoption. This will be a public process.
Advocating for affordable housing: 1) requesting an informal workshop; 2) requesting Inclusionary Housing Ordinance; 3) advocating for inclusion of Chiquita Ridge on Sites Inventory; 4) seeks clarification on specific sites and how viable they are; 5) seeks assurance workforce housing will include affordable housing	Goal 1. Housing Diversity & Opportunities	<ul style="list-style-type: none"> • Policy 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.8 	<ul style="list-style-type: none"> • Program 1 • Program 5 • Program 8 • Program 9 • Program 10 • Program 11 • Program 14 	Noted, the City has several programs to support the development of affordable housing
Seeks clarification on sites inventory, surplus in sites inventory, no net loss requirement.	Goal 1: Plan for a range of housing opportunities to adequately meet the existing and projected needs of the entire community	<ul style="list-style-type: none"> • Policy 1.2 	<ul style="list-style-type: none"> • Program 1 • Program 2 	The City is required to ensure that the net future housing capacity is maintained to accommodate the City's RHNA. The City's RHNA is 680 units and the City is including a buffer of 30 units (4%), or 710 units

Introduction

The City of Rancho Santa Margarita (RSM) is updating its Housing Element as part of the 2021-2029 Housing Element Cycle (Cycle 6). The Housing Element is a section of the City's General Plan that looks at housing needs and conditions within Rancho Santa Margarita. It is a policy document that identifies goals, policies, and programs that the City uses to direct and guide actions related to housing.

Each city and county in California is required to have a Housing Element and update it at least every eight years. Updating the Housing Element gives the City a clear picture of housing-related issues such as: housing supply and demand, the types of housing available within the City, housing affordability, and homelessness. Once the Housing Element is updated, it must be approved by the California Department of Housing and Community Development (HCD). Updating the Housing Element will ensure that the City meets State requirements, and makes Rancho Santa Margarita eligible for State grants and other funding resources. It will also give elected and appointed officials clear guidance on housing issues facing Rancho Santa Margarita.

The State requires that every city and county must help accommodate new housing growth. Since people often live and work in different places, housing needs are assessed at a regional level based on population trends and other factors to determine how much growth each local jurisdiction will need to accommodate. This is called the "Regional Housing Needs Allocation" or "RHNA" for short. The RHNA quantifies the need for housing on a regional level, and then allocates a portion of new growth to each city and county. Rancho Santa Margarita's RHNA allocation for the 2021-2029 planning period is 680 units. This means that the City of Rancho Santa Margarita is responsible for identifying areas that can accommodate 680 new housing units. Rancho Santa Margarita's RHNA allocation is divided into income categories as detailed on the [project website](#). The City of Rancho Santa Margarita is NOT responsible for building new homes. However, Rancho Santa Margarita must demonstrate to HCD that there is enough land zoned for housing to accommodate the allocated share of new homes. Furthermore, a special focus is placed on planning for affordable housing.

The City recently updated its General Plan (2020), includes detailed goals, policies and programs to guide decision-making in the City for the next twenty years. The City of RSM's General Plan includes the following Elements (i.e., chapters): Circulation Element, Conservation/Open Space Element, Economic Development Element, Housing Element, Land Use Element, Noise Element, and Safety Element. All General Plan Elements except the Housing Element (which is updated on a separate schedule as required by State law) and Circulation Element were updated in 2020. This update to the City's Housing Element (which is one "chapter" of the City's General Plan) builds upon that foundation of analysis and community engagement to address the future housing needs of its residents. The Housing Element Update process is a unique opportunity to connect with residents of RSM and learn more about residents' values, priorities, concerns, and ideas.

As part of the community outreach, two surveys were conducted online using the SurveyMonkey platform. The two surveys work together to gather information on housing-related issues. Survey #1, which was posted on January 29, 2021, and closed on March 3, 2021, focused on existing conditions to better understand the characteristics of households in RSM, identify the community's housing needs and priorities, and uncover real or perceived fair housing concerns in RSM. Survey #2, which was posted on February 21, 2021, and closed on March 29, 2021, focused on types of development that should be further explored as the City plans to meet the State-mandated Regional Housing Needs Allocation (RHNA).

This report is a summary of the responses received and the general themes that emerged.

To help gain insight into the profile of respondents, included in each survey was a question asking the respondent to identify whether they:

1. Live in RSM, but work somewhere else;
2. Live and work in RSM;
3. Work in RSM, but live somewhere else; or,
4. Did not live or work in RSM.

This Report, including its Appendices, summarizes the results of both surveys based on the respondent's answer to this question; in other words, the results of each question/topic area are grouped into **resident responses** (regardless of where they work), **worker responses** (which includes people who only work in RSM, but live somewhere else), and **other responses** (people who do not live or work in RSM). The breakdown of response types for **resident responses** and **worker responses** groups is included in the summary for each survey. However, given the small number of respondents who do not live or work in the community (3.5% of responses to Survey 1 were "**other responses**" and 3.8% of response to Survey 2 were "**other responses**"), the Report focuses first on the responses provided by **residents** and **workers**, and then summarizes the comments received by **other** respondents separately in Appendix E.

Executive Summary

65% of resident respondents have lived in Rancho Santa Margarita for 10+ years

93% of resident respondents are very satisfied or somewhat satisfied with their current housing situation

68% of resident respondents chose to live in Rancho Santa Margarita because of safe neighborhoods

89% of resident respondents already own a home in Rancho Santa Margarita

62% of resident respondents would rate their housing as being in excellent condition, while 29% rated it as showing signs of minor deferred maintenance

Issues that resident respondents rated as most important to them include:

Support programs to help neighborhoods that have suffered foreclosures (75%)

Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (73%)

Rehabilitate existing housing (67%)

Promote affordable housing for working families (65%)

Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (64%)

Survey #1: Existing Conditions and Fair Housing Issues

Survey #1 was comprised of 28 questions. It had a completion rate of 83% with 533 total responses. The survey responses reveal information about existing housing conditions and fair housing issues in Rancho Santa Margarita. The results are organized into five categories: values and priorities; housing affordability; housing maintenance; housing fit; and fair housing.

Respondent Demographics

The survey contained seven questions related to demographics. The first question asked respondents if they live or work in Rancho Santa Margarita. The answers to this question provide the following breakdown of response types by group:¹

- Most of the respondents (81%) are residents of Rancho Santa Margarita (36% live and work within Rancho Santa Margarita and 45% work somewhere else). In this Report, these are called “**resident** responses”.
- Some (16%) respondents work in Rancho Santa Margarita but live somewhere else. In this Report, these are called “**worker** responses”.
- A small percentage (less than 4%) of respondents neither live nor work in Rancho Santa Margarita. As summarized in Appendix E, these are called “**other** responses”.

The other demographic questions, which asked about length of residency in Rancho Santa Margarita, residency status, housing type, household type, and age range, highlighted the following about the respondents (note that one question asked for contact information, and the results of that question are not included here):

- Of those individuals who live in Rancho Santa Margarita, approximately 65% have lived here for 10+ years. The next highest response (16%) was 5-10 years, followed by 2-5 years (11%) and finally, fewer than two years (8%).²

¹ Survey 1, Question 1: Do you live and/or work in Rancho Santa Margarita?

² Survey 1, Question 2: How long have you lived in the City?

Figure 1: How long have you lived in Rancho Santa Margarita? (Residents Only)

- Most of the respondents own their own residence (86%), with 13% of respondents renting and 1% neither owning nor renting.³
 - Of resident responses, the majority (90%) own their own residence, with 10% of respondents renting and less than 1% neither owning nor renting.
 - Of worker responses, most (67%) own their own residence, with 27% of respondents renting and 6% neither owning nor renting.
- Most of the respondents (76%) live in a single-family home, with the next highest category being multi-family homes (13%), followed by duplex/attached homes (9%). Fewer than 1% of respondents live in mobile homes, accessory dwelling units, or other types of units.⁴
 - Of resident responses, the majority (77%) live in a single-family home, with the next highest category being multi-family homes (14%), followed by duplex/attached homes (9%).
 - Of worker responses, the majority (70%) live in a single-family home, with the next highest category being both multi-family homes (13%) and duplex/attached homes (13%), followed by mobile homes (3%) and finally, accessory dwelling units (1%).
- Of all the respondents surveyed, the most common types of households include couples (38%) and couples with children younger than 18 (32%), followed by single-person households (9%) and multi-generational family households (7%). The remainder of responses showed a

³ Survey 1, Question 4: Do you currently own or rent your residence?

⁴ Survey 1, Question 6: Select the type of housing that best describes your current home.

considerable range in household types including 5% who identified as an unlisted household type, such as couples with adult children living with them.⁵

- Of resident responses, the most common types of households include couples (39%) and couples with children younger than 18 (33%), followed by single-person households (9%) and multi-generational family households (6%). The remainder of resident responses showed a considerable range in household types including 5% who identified as an unlisted household type, such as couples with adult children living with them.
- Of worker responses, the most common types of households include couples (32%) and couples with children younger than 18 (30%), followed by multi-generational family households (16%). The remainder of worker responses showed a considerable range in household types including 7% who identified as an unlisted household type, such as couples with adult children living with them.
- The respondents were primarily 56-74 years old (41%), followed by 40-55 years old (40%), and 24-39 years old (17%).⁶
 - Of resident responses, respondents were primarily 40-74 years old (82%), split evenly (41% each) between age range 40-55 and age range 56-74, followed by 24-39 years old (15%).
 - Of worker responses, respondents were primarily 40-55 years old (37%), followed by 56-74 years old (33%), and the remainder 24-39 years old (30%).

Values and Priorities

When resident respondents were asked, “What made you decide to live here? (Select all that apply)”⁷ the most common answers were:

- Safety of neighborhood (68%)
- Quality of housing stock (45%)
- Quality of local school system (45%)
- Affordability (45%)
- Proximity to job/work (32%)
- Proximity to shopping and services (25%)
- Proximity to family and/or friends (21%)
- City services and programs (17%)
- Other (14%)

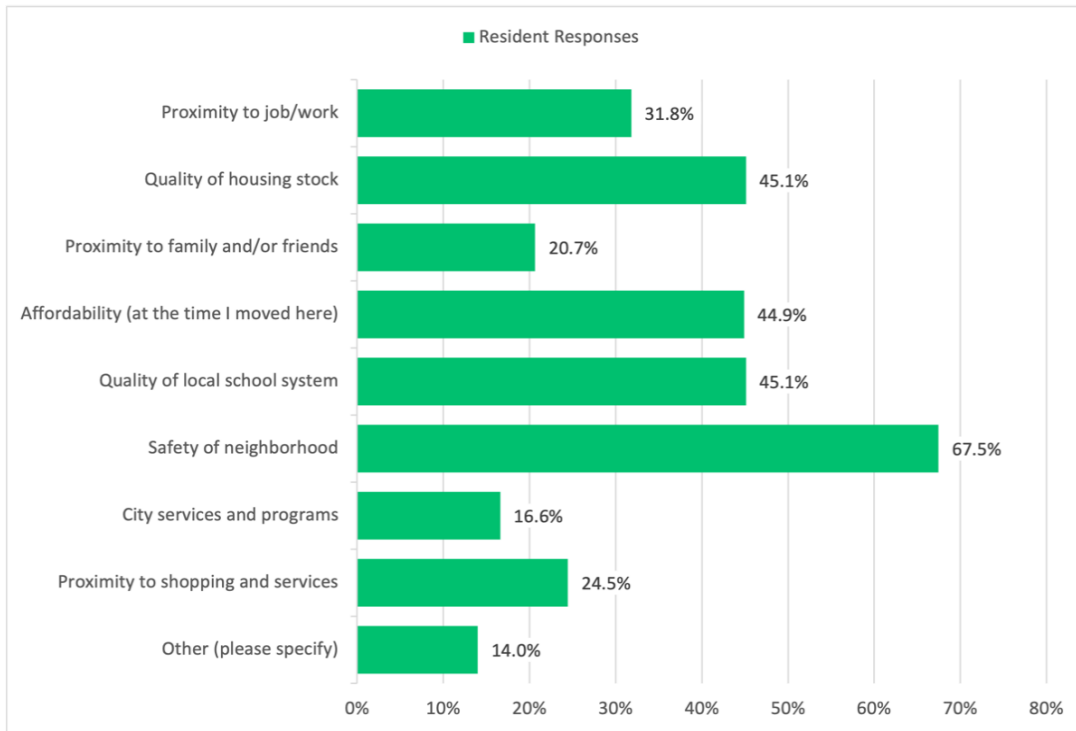

⁵ Survey 1, Question 24: Which of the following best describes your household type?

⁶ Survey 1, Question 27: What age range most accurately describes you?

⁷ Survey 1, Question 3: What made you decide to live here? (Select all that apply)

It should be noted that this question was only answered by those respondents who live in RSM. Those who do not live in RSM were not asked this question.

Figure 1: What made you decide to live here? (Residents Only)

Housing Affordability

When respondents were asked, “If you wish to own a home in Rancho Santa Margarita but do not currently own one, what issues are preventing you from owning a home at this time? (select all that apply)”⁸ Those who do not already own a home responded as summarized below:

Resident Responses

Of resident responses, almost 89% already owned a home in Rancho Santa Margarita. Fewer than 1% of the residents expressed the opinion that they do not wish to own or rent in Rancho Santa Margarita. Other responses included:

- I do not currently have the financial resources for an appropriate down payment (7%)
- I cannot find a home within my target price range in Rancho Santa Margarita (7%)
- I cannot find a home that suits my living needs in Rancho Santa Margarita (housing size, disability accommodations) (3%)

⁸ Survey 1, Question 5: If you wish to own a home in Rancho Santa Margarita but do not currently own one, what issues are preventing you from owning a home at this time? Select all that apply.

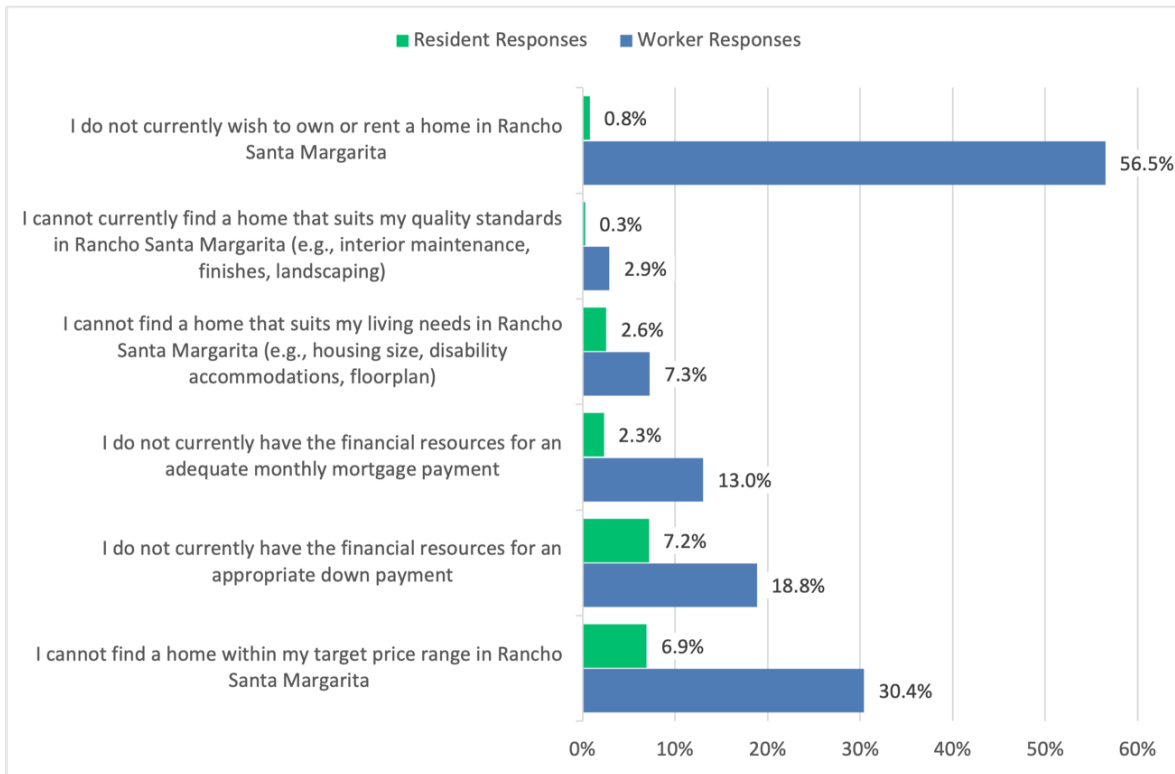

- I do not currently have the financial resources for an adequate monthly mortgage payment (2%)

Worker responses:

Of worker responses, the majority (56%) expressed the opinion that they do not wish to own or rent in Rancho Santa Margarita. Another 30% of workers responded that they cannot find a home within their target price range in Rancho Santa Margarita. Other responses included:

- I do not currently have the financial resources for an appropriate down payment (19%)
- I do not currently have the financial resources for an adequate monthly mortgage payment (13%)
- I cannot find a home that suits my living needs in Rancho Santa Margarita (housing size, disability accommodations) (7%)
- I cannot currently find a home that suits my quality standards in Rancho Santa Margarita (e.g., interior maintenance, finishes, landscaping) (3%)

Figure 2: If you wish to own a home in Rancho Santa Margarita but do not currently own one, what issues are preventing you from owning a home at this time?

When asked what percentage of their income they spend on housing⁹, just over half of residents indicated they spent less than 30% of their income on housing, while non-resident workers tended to spend a higher percentage of their income on housing. Responses broken down by group were:

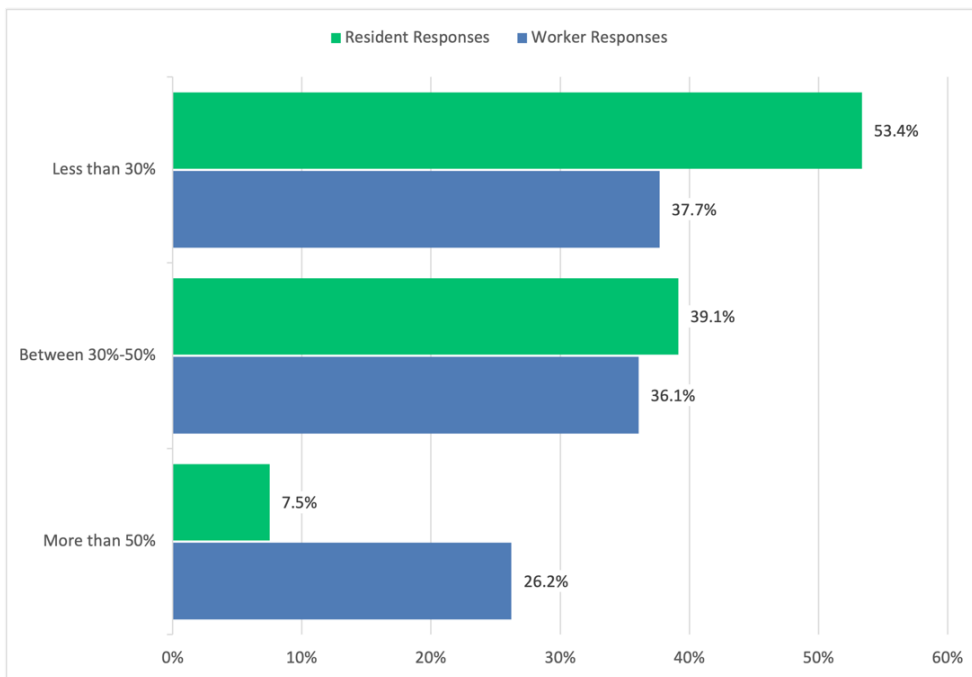

Resident responses:

- Less than 30% of income spent on housing (53%)
- Between 30%-50% of income spent on housing (39%)
- More than 50% of income spent on housing (8%)

Worker responses:

- Less than 30% of income spent on housing (38%)
- Between 30%-50% of income spent on housing (36%)
- More than 50% of income spent on housing (26%)

Figure 3: What percentage of your income do you spend on housing?

⁹ Survey 1, Question 13: Based on your monthly income before taxes, how much of your monthly income do you spend on housing?

Housing Maintenance

When respondents were asked, “How would you rate the physical condition of the residence you live in?”¹⁰ most respondents answered positively, with the response “excellent condition” receiving 62% of resident responses and 52% of worker responses.

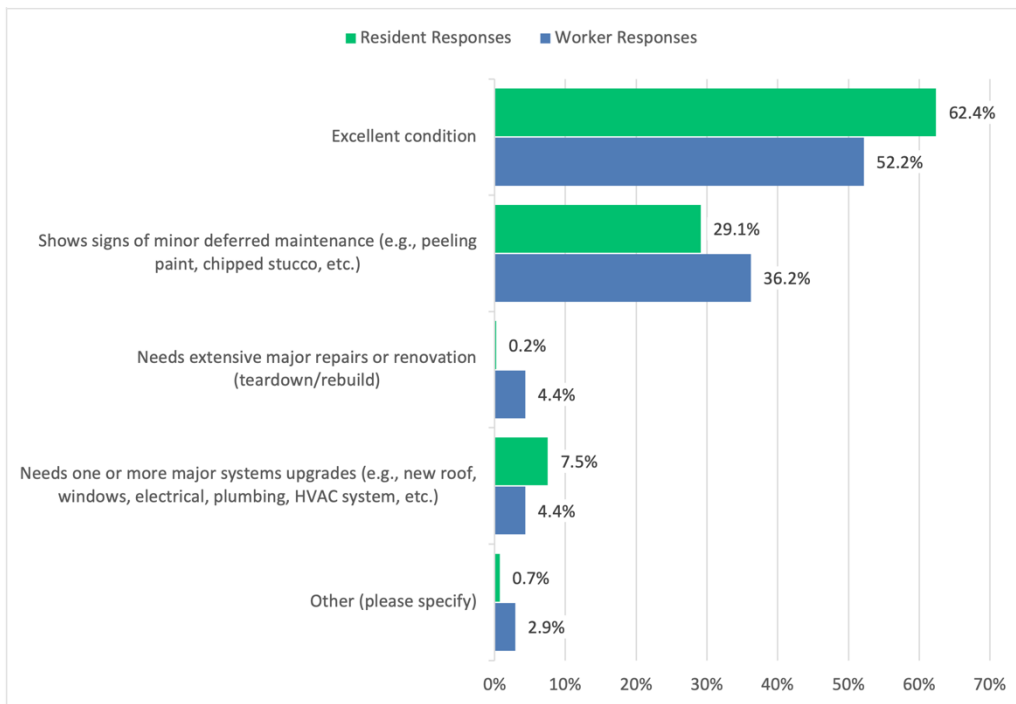

Resident responses:

Of resident responses, approximately 29% answered that their residence showed signs of minor deferred maintenance such as peeling paint or chipped stucco. Approximately 8% of residents indicated that their home needed one or more major systems upgrades such as a new roof or windows.

Worker responses:

Of worker responses, approximately 36% answered that their residence showed signs of minor deferred maintenance such as peeling paint or chipped stucco. Approximately 4% indicated that their home needed one or more major systems upgrades such as a new roof or windows, and another 4% indicated the need for major repairs or renovations.

Figure 5: How would you rate the physical condition of the residence you live in?

¹⁰ Survey 1, Question 11: How would you rate the physical condition of the residence you live in?

When asked, “Which of the following housing upgrades or expansions have you considered making on your home?”¹¹ the top responses included:

Resident responses:

- Kitchen or bathroom remodels (63%)
- Painting (41%)
- Solar (28%)
- HVAC (25%)
- None (18%)
- Other (10%)

Worker responses:

- Kitchen or bathroom remodels (46%)
- Painting (33%)
- None (25%)
- Solar (21%)
- HVAC (15%)
- Roofing (12%)
- Other (10%)

The other responses included: landscaping, plumbing, and other maintenance related to the interior of the home.

¹¹ Survey 1, Question 8: Which of the following housing upgrades or expansions have you considered making on your home?

Figure 6: Which of the following housing upgrades or expansions have you considered making on your home?

Housing Fit

When asked, “How satisfied are you with your current housing situation?”¹², over 90% of respondents indicated that they were very satisfied or somewhat satisfied with their current housing. Residents of Rancho Santa Margarita were more likely to indicate “I am very satisfied” than the worker group. The top responses, broken down by group, were:

Resident responses:

- I am very satisfied (69%)
- I am somewhat satisfied (24%)
- I am somewhat dissatisfied (4%)
- I am dissatisfied (2%)

Worker responses:

- I am very satisfied (62%)

¹² Survey 1, Question 7: How satisfied are you with your current housing situation?

-
- I am somewhat satisfied (29%)
 - I am somewhat dissatisfied (3%)
 - I am dissatisfied (6%)

Some of the explanations as to why respondents were dissatisfied include:

- Restrictive Homeowner’s Association guidelines and excessive fees
- Have outgrown current type of housing, but single-family homes in the area are too expensive
- Concern for environmental risks such as wildfires
- Small house and yard leads to lack of privacy
- High cost of housing (for both owners and renters)

When asked, “Do you think that the range of housing options currently available in the City of Rancho Santa Margarita meets the needs of the community?”¹³ most respondents agreed that it did.

Responses broken down by group were:

Resident responses:

- Yes (80%)
- No (20%)

Worker responses:

- Yes (56%)
- No (44%)

While the majority (80%) of resident respondents answered that there were a sufficient range of housing options currently available in the City, the number of worker respondents who agreed differed by nearly a quarter. Fifty-six percent (56%) of workers stated, “Yes,” while forty-four percent (44%) of workers stated, “No.” This shows a difference of opinions on the matter based on residency status.

When asked, “What types of additional housing are most needed in the City of Rancho Santa Margarita? (Select all that apply)”¹⁴ all groups responded that single-family (detached) were most needed. Responses broken down by group were:

Resident responses:

- Single-family (detached) (48%)
-

¹³ Survey 1, Question 9: Do you think that the range of housing options currently available in the City of Rancho Santa Margarita meets the needs of the community?

¹⁴ Survey 1, Question 10: What types of additional housing are most needed in the City of Rancho Santa Margarita? (Select all that apply).

- Other (27%)
- Senior Housing (21%)
- Condominiums (multifamily ownership homes) (15%)
- Duplex/Attached Housing (13%)
- Accessory Dwelling Unit (Granny Flat or Guest House) (13%)

Worker responses:

- Single-family (detached) (55%)
- Duplex/Attached Housing (18%)
- Condominiums (multifamily ownership homes) (18%)
- Other (16%)
- Apartments (multifamily rental homes) (15%)
- Senior Housing (10%)

Figure 7: What types of housing are most needed in the City of Rancho Santa Margarita?

Some of the other responses included:

- No additional housing needed
- Affordable housing at a range of income levels

-
- Handicap accessible housing

When asked, “If you are currently employed, approximately how long is your one-way commute to work?”¹⁵ respondents showed considerable range, especially among residents. Responses broken down by group were:

Resident responses:

- 10-25 miles (20%)
- Less than 5 miles (18%)
- I am not currently employed (18%)
- 5-10 miles (14%)
- I am employed but work from home (13%)
- 25-40 miles (12%)
- More than 40 miles (6%)

Worker responses:

- 5-10 miles (37%)
- 10-25 miles (32%)
- 25-40 miles (16%)
- More than 40 miles (11%)
- Less than 5 miles (5%)

The range of responses amongst residents suggests that while there is great diversity in commute distances, the majority of residents live and work in Rancho Santa Margarita or neighboring jurisdictions. Of those not currently employed, the age group of respondents suggests that many may be retired.

The responses amongst the worker group indicate that the majority of non-residents who work in Rancho Santa Margarita commute between 5-25 miles (69%) and that more than a quarter (27%) live over 25 miles away. This suggests that most non-resident workers live in nearby jurisdictions but a significant portion commute from long distances.

It should be noted that answers are based on commute distance prior to the Coronavirus pandemic, which may have had an impact on travel patterns.

¹⁵ Survey 1, Question 26: If you are currently employed, approximately how long is your one-way commute to work?

Figure 4: If you are currently employed, approximately how long is your one-way commute to work?

When asked if Coronavirus had impacted their housing situation¹⁶, the majority of all respondents answered “No”. Responses broken down by group were:

Resident responses:

- Yes (20%)
- No (80%)

Worker responses:

- Yes (21%)
- No (79%)

For respondents who answered “Yes,” some of the reasons given were:

- Family members such as adult children moving into the home
- Converting bedrooms to offices to allow work from home or virtual schooling

¹⁶ Survey 1, Question 25: Has the Coronavirus impacted your housing situation?

Fair Housing

In basic terms, "fair housing" means the right to choose a home free from unlawful discrimination. The City is required to consider issues of fair housing as part of its Housing Element update.

When asked, "How important are the following factors in your housing choice?"¹⁷ respondents were most likely to identify the following factors as being very important or somewhat important:

Resident responses:

- Housing I can afford (92%)
- Housing large enough for my household (85%)
- Housing was available in the neighborhood I chose at the time I needed it (77%)
- The amount of money I have/had for deposit (75%)
- My credit history and/or credit score (65%)

While still important for some individuals, resident respondents were less likely to identify the following factors as being very important or somewhat important:

- Housing that accommodates disability of household member (24%)
- Concern that I would not be welcome in that neighborhood (22%)

Worker responses:

- Housing I can afford (94%)
- Housing large enough for my household (88%)
- Housing was available in the neighborhood I chose at the time I needed it (84%)
- The amount of money I have/had for deposit (79%)
- My credit history and/or credit score (53%)

While still important for some individuals, worker respondents were less likely to identify the following factors as being very important or somewhat important:

- Concern that I would not be welcome in that neighborhood (35%)
- Housing that accommodates disability of household member (29%)

¹⁷ Survey 1, Question 14: How important are the following factors in your housing choice?

When asked, “How important are the following housing priorities to you and your household?”¹⁸ respondents were most likely to identify the following factors as being very important or somewhat important:

Resident responses:

- Support programs to help neighborhoods that have suffered foreclosures (75%)
- Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (73%)
- Rehabilitate existing housing (67%)
- Promote affordable housing for working families (65%)
- Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (64%)
- Build more single-family housing (63%)
- Support fair/equitable housing opportunities (62%)
- Encourage more senior housing (51%)

While still important for some individuals, resident respondents were less likely to identify the following factors as being very important or somewhat important:

- Provide ADA-accessible housing (48%)
- Provide more housing for all income levels (45%)
- Create mixed-use projects to bring different land uses closer together (45%)
- Integrate affordable housing throughout the community to create mixed-income neighborhoods (29%)
- Build more multi-family housing such as apartments and condos (28%)
- Provide housing for the homeless (26%)

Worker responses:

- Promote affordable housing for working families (85%)
- Provide more housing for all income levels (83%)
- Support fair/equitable housing opportunities (82%)
- Build more single-family housing (81%)
- Support programs to help neighborhoods that have suffered foreclosures (81%)

¹⁸ Survey 1, Question 15: How important are the following housing priorities to you and your household?

-
- Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (78%)
 - Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (78%)
 - Create mixed-use projects to bring different land uses closer together (64%)
 - Rehabilitate existing housing (61%)
 - Integrate affordable housing throughout the community to create mixed-income neighborhoods (58%)
 - Build more multi-family housing such as apartments and condos (55%)
 - Encourage more senior housing (53%)
 - Provide housing for the homeless (52%)

While still important for some individuals, worker respondents were less likely to identify the following factors as being very important or somewhat important:

- Provide ADA-accessible housing (49%)

When asked to indicate their level of agreement or disagreement with a series of affirmative statements¹⁹ respondents were most likely to strongly agree or somewhat agree with the following statements:

Resident responses:

- The condition of the homes in my neighborhood are acceptable (96%)
- There is a pharmacy close to my house (96%)
- There are grocery stores close to my neighborhood (96%)
- There are banks and credit unions near where I live (93%)
- The streets and sidewalks near my home are well kept (93%)
- There is a public library close to my house (91%)
- There are plenty of parks, playgrounds, or green space near me (87%)
- There are plenty of other public spaces near my home (84%)
- The streets and sidewalks in my neighborhood have adequate lighting (79%)
- I am satisfied with the schools in my area (76%)

Resident respondents were less likely to agree with the following statements:

¹⁹ Survey 1, Question 16: Please respond to each statement

-
- There is enough parking in my area of town (60%)
 - There are quality jobs in my neighborhood (52%)
 - There is access to public transit close to my neighborhood (39%)

Worker responses:

- The condition of the homes in my neighborhood are acceptable (85%)
- There are grocery stores close to my neighborhood (85%)
- There are banks and credit unions near where I live (85%)
- There is a pharmacy close to my house (84%)
- The streets and sidewalks near my home are well kept (84%)
- The streets and sidewalks in my neighborhood have adequate lighting (78%)
- There are plenty of parks, playgrounds, or green space near me (77%)
- There is a public library close to my house (75%)
- There are plenty of other public spaces near my home (73%)
- I am satisfied with the schools in my area (62%)

Worker respondents were less likely to agree with the following statements:

- There is enough parking in my area of town (56%)
- There are quality jobs in my neighborhood (54%)
- There is access to public transit close to my neighborhood (37%)

When asked to identify what they thought the biggest problem with housing discrimination is in Rancho Santa Margarita,²⁰ responses varied amongst groups with a greater proportion of residents than non-residents indicating that no problems exist or that they are unaware of any problem (indicated by the response “other”). The responses broken down by group were:

Resident responses:

- Other (please specify) (52%)
- Race/Ethnicity (18%)
- Color (physical appearance) (9%)
- Disability (8%)

²⁰ Survey 1, Question 17: The federal Fair Housing Act prohibits discrimination in the sale, rental, and financing of housing based on race, color, national origin, religion, sex, familial status, and disability. Of those, which do you think is the biggest problem in housing discrimination in RSM?

-
- Familial status (8%)
 - National Origin (3%)
 - Religion (2%)
 - Sex (less than 1%)

Worker responses:

- Race/Ethnicity (41%)
- Other (please specify) (30%)
- Familial status (20%)
- Color (physical appearance) (5%)
- National Origin (2%)
- Disability (2%)

Of worker responses, nobody indicated housing discrimination was due to religion or sex.

Of all respondents who selected “Other (please specify)” over 90% specified that no problems with housing discrimination existed or that they are unaware of any problem.

When asked whether they had experienced or witnessed housing discrimination in Rancho Santa Margarita²¹ the majority of respondents answered “No.” The responses broken down by group were:

Resident responses:

- Yes (4% or 15 responses)
- No (86% or 320 responses)
- I don’t know (10% or 38 responses)

Of those respondents that answered “yes” to the prior question, the discriminatory factors identified (in order of affirmative responses) were:

- Race/Ethnicity (12 responses)
- Color (physical appearance) (3 responses)
- Age (3 responses)
- Familial status (3 responses)
- Political Ideas (3 responses)

²¹ Survey 1, Question 18: Have you ever experienced or witnessed housing discrimination in the City of Rancho Santa Margarita?

-
- Language spoken (3 responses)
 - Level/source of Income (2 responses)
 - National Origin (2 responses)
 - Marital status (1 response)
 - Citizenship status (1 response)
 - Use of Housing Choice Voucher or other assistance (1 response)
 - Criminal background (1 response)
 - Other (1 response)

Worker responses:

- Yes (3% or 2 responses)
- No (61% or 36 responses)
- I don't know (36% or 21 responses)

Of those respondents that answered “yes” to the prior question, the discriminatory factors identified (in order of affirmative responses, where respondents could select as many factors they thought applied) were:

- Race/Ethnicity (2 responses)
- Familial status (2 responses)
- Color (physical appearance) (1 response)
- Age (1 response)
- Marital status (1 response)
- Political Ideas (1 response)
- Religion (1 response)
- National Origin (1 response)
- Sex (1 response)
- Disability (1 response)
- Level/source of Income (1 response)
- Use of Housing Choice Voucher or other assistance (1 response)

When asked whether they knew of anyone in Rancho Santa Margarita who experienced unfair real estate or lending practices²² respondents provided the following responses:

Resident responses:

- The majority (96%) didn't know of anyone who had encountered these unfair practices
- 2% knew of someone who was unfairly refused a rental or sale agreement
- 1% reported knowing someone who was not shown all housing options
- 1% knew of someone who was offered unfair terms when buying or selling
- Less than 1% reported knowing someone who was unfairly directed to a certain neighborhood and/or location, was not given reasonable accommodations for a disability, or was falsely denied available housing options

Worker responses:

- The majority (94%) didn't know of anyone who had encountered these unfair practices
- 4% knew of someone who was unfairly refused a rental or sale agreement
- 4% reported knowing someone who was not shown all housing options

Many respondents (28% of residents and 54% of workers) would not know where to refer someone (or themselves) if they felt that their fair housing rights were violated²³. Of those who responded that they might know where to go, most would refer someone to the local, state or federal government or the California Department of Housing and Community Development. Familiarity with Fair Housing Laws varied between groups. The majority of residents (61%) felt somewhat familiar or very familiar with fair housing laws²⁴, while just under half of non-resident workers (46%) felt the same. Additionally, many (24% of residents and 26% of workers) felt that Federal and/or State Fair Housing Laws are difficult to understand or follow²⁵.

Survey Responses #2: Development Types

The second survey focused on understanding acceptable types of development to accommodate the State-mandated Regional Housing Needs Assessment (RHNA) of 680 units in Rancho Santa Margarita. It was 13 questions long and had a completion rate of 99% with 236 total respondents.

²² Survey 1, Question 20: Do you know of anyone in Rancho Santa Margarita who has faced the following: (select all that apply)

²³ Survey 1, Question 21: Where would you refer someone if they felt their fair housing rights had been violated?

²⁴ Survey 1, Question 22: How familiar are you with Fair Housing Laws?

²⁵ Survey 1, Question 23: Do you think Federal and/or State Fair Housing Laws are difficult to understand or follow?

Respondent Demographics

The survey contained seven questions related to demographics and included a question asking respondents if they live or work in Rancho Santa Margarita²⁶. The answers to this question provide the following breakdown of response types by group:

- Most of the respondents (92%) are residents of Rancho Santa Margarita (37% live and work within Rancho Santa Margarita and 55% work somewhere else). These are “**resident responses**”.
- A small percentage (4%) respondents work in Rancho Santa Margarita but live somewhere else. These are “**worker responses**”.
- A small percentage (less than 4%) of respondents neither live nor work in Rancho Santa Margarita. These are “**other responses**”, and are summarized in Appendix E.

The other demographic questions, which asked about location of residency (neighborhood) within Rancho Santa Margarita, residency status, household type, age range, and annual household income, highlighted the following about the respondents (note that one question asked for contact information, and the results of that question are not included here):

- Of those individuals who live in Rancho Santa Margarita²⁷, more than half live in Dove Canyon (51%). The other areas include: Robinson Ranch/Trabuco (11%), Lake/Central RSM (9%), Melinda Heights (8%), Arroyo Vista/Tijeras Creek (7%), Town Center (5%), and Rancho Cielo/Walden (2%). Another 7% of respondents did not live in Rancho Santa Margarita. Combined, the respondents from the areas of North RSM (Dove Canyon, Rancho Cielo/Walden, Robinson Ranch/Trabuco Highlands) represented 64% of total responses, and respondents from the areas of South RSM (Lake/Central RSM, Melinda Heights, Arroyo Vista/Tijeras Creek, and Town Center) represented 29% of total responses.
- Most of the respondents own their own residence (92%), with 7% of respondents renting and 1% neither owning nor renting.²⁸
 - Of resident responses, the majority (94%) own their own residence, with 5% of respondents renting and less than 1% neither owning nor renting.
 - Of worker responses, the majority (60%) own their own residence, with 40% of respondents renting.
- Of all the respondents surveyed, the most common types of households include couples (44%) and couples with children younger than 18 (34%), followed by single-person households and multi-generational family households (7% each). The remainder of responses showed a

²⁶ Survey 2, Question 7: Do you live and/or work in Rancho Santa Margarita?

²⁷ Survey 2, Question 8: Using the map below for reference, in which area of RSM do you live?

²⁸ Survey 2, Question 9: Do you currently own or rent your residence?

considerable range in household types including 4% who identified as an unlisted household type, such as couples with adult children living with them.²⁹

- Of resident responses, the most common types of households include couples (44%) and couples with children younger than 18 (34%), followed by single-person households and multi-generational family households (7% each). The remainder of resident responses showed a considerable range in household types including 5% who identified as an unlisted household type, such as couples with adult children living with them. No residents responded that they were a family unit living with a roommate.
- Of worker responses, the most common types of households include couples (30%) and couples with children younger than 18 (40%), followed by single-person households, multi-generational family households, and single person living with roommates (10% each). There were no other household types.
- The respondents were primarily 56-74 years old (42%), followed by 40-55 years old (40%), and 24-39 years old (15%).³⁰
 - Of resident responses, respondents were primarily 56-74 years old (45%), followed by 40-55 years old (40%), and 24-39 years old (13%).
 - Of worker responses, respondents were primarily 24-39 years old (70%), followed by 40-55 years old (30%).
- Most respondents reported an annual household income of more than \$100,000, broken down by group as follows:³¹
 - Of resident responses, most households earn between \$100,000 and \$150,000 (24%), followed by households making between \$150,000 and \$200,000 (23%), and households that make between \$200,000 and \$300,000 (20%). Another 17% made more than \$300,000 annually. The remaining respondents made between \$0 and \$99,999.
 - Of worker responses, most households earn between \$150,000 and \$200,000 (40%), followed by households making between \$100,000 and \$150,000 (30%), and households that make between \$75,000 and \$99,999 (20%). Another 10% made more than \$300,000 annually.

²⁹ Survey 2, Question 10: Which of the following best describes your household type?

³⁰ Survey 2, Question 11: What age range most accurately describes you?

³¹ Survey 2, Question 12: What is your annual household income?

Development Type Preferences based on Resident/Worker Profile

When asked to identify the development types *most* suitable for future study in Rancho Santa Margarita³², the top five responses (indicating they are the most preferable options) broken down by group included:

Resident responses:

- Development on undeveloped/underdeveloped sites (60%)
- Repurposing of office sites to accommodate a mix of uses (53%)
- Workforce housing in the business park (42%)
- Accessory Dwelling Units (41%)
- Repurposing of surplus school property for residential uses (35%)

Worker responses:

- Repurposing of office sites to accommodate a mix of uses (50%)
- Repurposing of general commercial centers to accommodate a mix of uses (50%)
- Workforce housing in the business park (50%)
- Repurposing of office sites to residential uses (40%)
- Repurposing of neighborhood commercial centers to accommodate a mix of uses (40%)

When asked to identify the development types *least* suitable for future study in Rancho Santa Margarita³³, the bottom four responses (indicating that they are the least preferable options) broken down by group included:

Resident responses:

- Repurposing of neighborhood commercial centers to residential uses (62%)
- Repurposing of general commercial centers to residential uses (43%)
- Repurposing of neighborhood commercial centers to accommodate a mix of uses (33%)
- Housing on church sites (33%)

Worker responses:

- Repurposing of surplus school property for residential uses (80%)

³² Survey 2, Question 1: Please identify the top development types that you believe are most suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

³³ Survey 2, Question 2: Please identify the top development types that you believe are least suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

-
- Development on undeveloped/underdeveloped sites (60%)
 - Accessory Dwelling Units (30%)
 - Housing on church sites (30%)

When asked to rank development types from *most* suitable to *least* suitable³⁴, respondents identified the following:

Resident responses:

- Of resident responses, the most suitable development types were identified as development on undeveloped/underdeveloped sites, repurposing of office sites to accommodate a mix of uses, accessory dwelling units, and repurposing of office sites to residential uses. Results were mixed but generally favorable for workforce housing in the business park and repurposing of general commercial centers to accommodate a mix of uses. Results were mixed but generally unfavorable for repurposing of general commercial centers to residential uses. The least suitable development types were identified as repurposing of neighborhood commercial centers to residential uses, housing on church sites, repurposing of neighborhood commercial centers to accommodate a mix of uses, and repurposing of surplus school property for residential uses.

Worker responses:

- Of worker responses, the most suitable development types were identified as repurposing of neighborhood commercial centers to accommodate a mix of uses, accessory dwelling units, repurposing of office sites to residential uses, and repurposing of office sites to accommodate a mix of uses. Results were neither favorable nor unfavorable for repurposing of general commercial centers to accommodate a mix of uses, workforce housing in the business park, and repurposing of neighborhood commercial centers to residential uses. The least suitable development types were identified as repurposing of surplus school property for residential uses, development on undeveloped/underdeveloped sites, housing on church sites, and repurposing of general commercial centers to accommodate a mix of uses.

Other development types identified by respondents included:

- No additional housing needed
- Subdividing parcels
- Housing for seniors

³⁴ Survey 2, Question 3: Please rank the following general development types from most suitable (#1) to least suitable (#11) for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita.

Development Type Preferences based on Home Location

The following responses are grouped by location of respondent's residence within Rancho Santa Margarita. The group "North RSM" includes respondents who live in Dove Canyon, Rancho Cielo/Walden, and Robinson Ranch/Trabuco Highlands. The group "South RSM" includes respondents who live in Lake/Central RSM, Melinda Heights, Arroyo Vista/Tijeras Creek, and Town Center

When asked to identify the development types *most* suitable for future study in Rancho Santa Margarita³⁵, the top five responses (indicating they are the most preferable options) broken down by group included:

North RSM Resident:

- Development on undeveloped/underdeveloped sites (65%)
- Repurposing of office sites to accommodate a mix of uses (48%)
- Accessory Dwelling Units (42%)
- Repurposing of surplus school property for residential uses (41%)
- Workforce housing in the business park (40%)

South RSM Resident:

- Repurposing of office sites to accommodate a mix of uses (57%)
- Repurposing of general commercial centers to accommodate a mix of uses (51%)
- Workforce housing in the business park (44%)
- Accessory Dwelling Units (43%)
- Development on undeveloped/underdeveloped sites (40%)

When asked to identify the development types *least* suitable for future study in Rancho Santa Margarita³⁶, the bottom four responses (indicating that they are the least preferable options) broken down by group included:

North RSM Resident:

- Repurposing of neighborhood commercial centers to residential uses (77%)
- Repurposing of general commercial centers to residential uses (48%)
- Repurposing of neighborhood commercial centers to accommodate a mix of uses (42%)

³⁵ Survey 2, Question 1: Please identify the top development types that you believe are most suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

³⁶ Survey 2, Question 2: Please identify the top development types that you believe are least suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

-
- Housing on church sites (26%)

South RSM Resident:

- Accessory Dwelling Units (44%)
- Repurposing of surplus school property for residential uses (43%)
- Housing on church sites (40%)
- Repurposing of general commercial centers to residential uses (26%)

When asked to rank development types from *most* suitable to *least* suitable³⁷, respondents identified the following:

North RSM Resident:

- Of responses from North RSM, the most suitable development types were identified as development on undeveloped/underdeveloped sites, repurposing of office sites to accommodate a mix of uses, Accessory Dwelling Units, and repurposing of office sites to residential uses. Results were mixed but generally favorable for workforce housing in the business park and repurposing of surplus school property for residential uses. Results were mixed but generally unfavorable for housing on church sites, repurposing of general commercial centers to accommodate a mix of uses, and repurposing of general commercial centers to residential uses. The least suitable development types were identified as repurposing of neighborhood commercial centers to accommodate a mix of uses and repurposing of neighborhood commercial centers to residential uses.

South RSM Resident:

- Of responses from South RSM, the most suitable development types were identified as repurposing of office sites to accommodate a mix of uses, repurposing of office sites to residential uses, and repurposing of general commercial centers to accommodate a mix of uses. Results were mixed but generally favorable for accessory dwelling units, development on undeveloped/underdeveloped sites, and repurposing of neighborhood commercial centers to accommodate a mix of uses. Results were mixed but generally unfavorable for repurposing of general commercial centers to residential uses, workforce housing in the business park, and repurposing of neighborhood commercial centers to residential uses. The least suitable development types were identified as housing on church sites and repurposing of surplus school property for residential uses.

³⁷ Survey 2, Question 3: Please rank the following general development types from most suitable (#1) to least suitable (#11) for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita.

APPENDIX A

Rancho Santa Margarita
California

RSM 2021-2029 Housing Element Update Survey

As required by State law, the City is in the process of updating the Housing Element of the General Plan for the 2021-2029 period. The Housing Element must be updated every 8 years. The Housing Element establishes policies and programs to address RSM's existing and projected housing needs, including the City's "fair share" of the regional housing need (or "RHNA"). If you currently live in RSM, your feedback will help us understand existing opportunities in our City. However, even if you live somewhere else, we still want to learn about your housing conditions and experiences so the City can do its part in planning to meet our region's housing needs.

Part 1 of this survey focuses on questions related to **existing housing conditions** and will help the City better understand the characteristics of households in RSM and identify the community's housing needs and priorities.

Part 2 of this survey focuses on issues related to **fair housing** in order to understand real or perceived fair housing concerns in RSM. In basic terms, "fair housing" means the right to choose a home free from unlawful discrimination.

This is an early step in the process. There will be additional opportunities for the community to comment on the Housing Element Update, including on the locations identified to accommodate our State-mandated Regional Housing Needs Allocation (RHNA) and the goals, policies, and implementation actions to be included in the Housing Element.

Your input will be used to inform preparation of the Housing Element so that it reflects our local priorities and objectives.

For additional information about the Housing Element Update, process, and timeline, please visit the Housing Element website: <http://cityofrsm.org/622/Housing-Element-Update-2021>

Rancho Santa Margarita

RSM 2021-2029 Housing Element Update Survey

Part 1: Existing Conditions

The first part of this survey will assist us in better understanding existing housing conditions in RSM.

1. Do you live and/or work in Rancho Santa Margarita?

Note: If you currently live in RSM, you will be asked a few follow-up questions about your current living situation on the following page. If you live somewhere else, you will skip these resident-specific questions and proceed to more general questions about your housing conditions. Whether or not you are a resident, your input will still help the City plan to meet our long-term housing needs.

- I live in RSM but my job is located somewhere else (pre-pandemic conditions)
- My job is in RSM (pre-pandemic conditions) but I live somewhere else
- I live and work in RSM (pre-pandemic conditions)
- I do not live or work in RSM

60	My HOA and samlarc have too many guidelines to follow	2/9/2021 1:13 PM
61	Too many cars parked in neighborhood. Have overflow parking from Avila apartments	2/7/2021 10:04 PM

RSM 2021-2029 Housing Element Update Survey

62	Parking issues. Most neighbors don't park their cars in their garage and park on the streets.	2/7/2021 2:18 PM
63	Note, while I love where I live, I am extremely concerned about how this city will handle evacuations in a wildfire emergency, especially since Dove Canyon has only 1 exit.	2/5/2021 4:28 PM
64	I see that our community is aging and that we are not updating our fairways and landscaping in town to complete with communities like Ladera Ranch. I also see there is a strong focus with the success of business in town center but shopping centers to the east and west of the community are aging and have not overall community support for success. Many of the business struggle and there is no overall city focus redevelop those properties and to encourage small business growth and to meet the initial vision of our community of working and living in town. I am NOT recommending that we build dense mixed use buildings on these properties that increase traffic and crime, yet I do think we can give them facelifts or create an amazing outdoor experience that give us a small town feel with outdoor dining, shopping, and places for families to gather. Example Dove Canyon Plaza can be transformed into an outdoor experience where people are willing to travel to day or night with their family. The area can have grass, outdoor dinning, coffee shops, outdoor music, shopping, entertainment, and much more but a space that people want to visit. I would start with that location first encouraging an amazing city backed redevelopment and the focus on the Empressa shopping center where the driveways are cracking and business are struggling. Use the same elements of Dove Canyon there followed by the Trabuco Shopping Center where a nice terraced mixed use redevelopment could be used where shops below and more affordable living above. This could bring more people to that side of town and support not only the Trabuco Shopping Center but also the support Dove Canyon and improve our overall tax base. These types of projects should satisfy not only the residents of Dove Canyon but our overall community.	2/4/2021 9:55 PM

RSM 2021-2029 Housing Element Update Survey

1	None	3/3/2021 9:18 AM
2	None, we are built out	3/3/2021 8:07 AM
3	Because of environmental conditions, and parts of RSM being in high risk fire areas, it is important to be VERY CAREFUL about choosing where additional housing units are built!!! People must have emergency exits supported by RSM infrastructure! Dove Canyon Plaza does not fit this description, but possibly other areas can. Still, it is unfortunate that the State is forcing growth upon RSM, which operates well at its current size. Our original General Plan was very good!!!	3/3/2021 8:00 AM
4	enough - no more building	3/3/2021 6:44 AM
5	None	3/3/2021 5:23 AM
6	None	3/2/2021 10:45 PM
7	We live in Dove Canyon, is this RSM?	3/2/2021 9:13 PM
8	No additional housing is needed.	3/2/2021 5:12 PM
9	But smaller starter homes.	3/2/2021 4:50 PM
10	I believe this area has been built up to maximum capacity. Please leave what little open land available.. Open land !	3/2/2021 2:34 PM

92	None	2/7/2021 2:18 PM
93	No additional needs	2/7/2021 9:52 AM
94	RSM has everything. Well planned out with every type of home accommodation (apartments, townhome, single family)	2/7/2021 6:17 AM
95	We don't need any additional housing in RSM! Part of the appeal was the wide open spaces! We are built out and should not be forced to squeeze in additional housing! Out of 58 counties in CA, only 6 have been targeted for additional housing! How fair is that? People should strongly consider how dangerous our situation already is in regards to wildfire, and that Coto de Caza has been called the next "Paradise!" RSM has only two ways out: Antonio and Santa Margarita. If either are blocked, it would be a nightmare to try to evacuate all the residents safely! How can people, in good conscience, force additional housing on us, knowing fully well that many homeowners' insurance policies have been canceled!	2/5/2021 4:28 PM
96	No additional housing is needed	2/5/2021 7:42 AM

APPENDIX C

RSM Housing Element Update Development Type Survey

Introduction

The City is in the process of updating the Housing Element of the General Plan for the 2021-2029 period as required by State law. The Housing Element establishes policies and programs to address RSM's existing and projected housing needs, including the City's "fair share" of the regional housing need (or "RHNA"). The RHNA allocated to RSM by the State Department of Housing and Community Development (HCD) and the Southern California Association of Governments (SCAG) is 680 housing units. For additional information on the RHNA, please visit <http://www.cityofrsm.org/622/Housing-Element-Update-2021>.

This survey is intended for residents and interested parties to provide input regarding the types of development which should be further explored as the City plans to meet the State-mandated Regional Housing Needs Allocation (RHNA) of 680 units.

This survey will assist the City to develop a list of potential development types which will be presented in a future survey for further input. We recognize that some residents may feel that new housing is not needed or desired in Rancho Santa Margarita, however, the City is required by State law to plan for 680 new housing units divided among the following income categories: very low (209), low (120), moderate (125), above moderate (226). State law requires that the City identify specific sites where housing can be developed.

The results of this survey, along with other public engagement efforts such as focus groups, will be used by the City to determine the best way to plan for the State-mandated Regional Housing Needs Allocation (RHNA) of 680 units. Public input will be sought at every step of the process.

RSM Housing Element Update Development Type Survey

Development Type Descriptions

A variety of development types are listed below for consideration. The options presented below are intended to be general in nature as a starting point to explore potential development types. Open ended questions are provided so that you may give specific input regarding these and other development options.

Please review the following descriptions of development types before answering the questions below.

Development Type: Accessory Dwelling Units

Examples: Second units on existing residential property including attached, detached, and converted interior space; also known as guest house, granny-flat, or accessory apartment

Potential Housing: Accessory dwelling units may be developed on many residential parcels throughout the City. The State will allow the City to accommodate a small portion of RHNA (less than 25 units) with this type of housing.

Development Type: Reuse/Repurpose of Office Sites

Examples: General and medical office sites in commercial or business park districts.

Potential Housing: Office uses could be replaced with new residential development or new residential development could occur in conjunction with new or replacement office buildings (mixed-use).

Development Type: Reuse/Repurpose of General Commercial Shopping Center Sites

Examples: Larger commercial centers with stores and businesses which serve a citywide or regional trade area.

Potential Housing: Larger general commercial centers could be replaced with new residential development or new residential development could occur in conjunction with new or replacement commercial uses (mixed-use).

Development Type: Reuse/Repurpose of Neighborhood Commercial Shopping Center Sites

Examples: Smaller commercial centers with stores and businesses that serve the needs of nearby neighborhoods.

Potential Housing: Smaller neighborhood commercial shopping centers could be replaced with new residential development or new residential development could occur in conjunction with new or replacement commercial uses (mixed-use).

Development Type: Workforce Housing in Business Park

Examples: Office, Industrial, or Manufacturing sites in the business park area (surrounding Avenida Empresa and Avenida De Las Banderas).

Potential Housing: Housing within the business park as homes for employees of local companies.

Development Type: Housing on Church Property

Examples: Various.

Potential Housing: Develop housing on church sites in addition to retaining existing church use(s).

Development Type: Housing on Surplus School Property

Examples: Various.

Potential Housing: Develop residential uses on surplus school property, if ever identified by the School District.

Development Type: Vacant or Underutilized Properties

Examples: Open space or agricultural properties.

Potential Housing: To be determined based on site-specific evaluations. Larger sites could accommodate a mix of housing types.

Provide Your Feedback

* 1. Please identify the top development types that you believe are most suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita. You must identify at least three choices.

- Accessory Dwelling Units (ADUs)
- Repurposing of office sites to residential uses
- Repurposing of office sites to accommodate a mix of uses (office with residential)
- Repurposing of general commercial centers to residential uses
- Repurposing of general commercial centers to accommodate a mix of uses (commercial with residential)
- Repurposing of neighborhood commercial centers to residential uses
- Repurposing of neighborhood commercial centers to accommodate a mix of uses (commercial with residential)
- Workforce housing in the business park
- Housing on church sites
- Repurposing of surplus school property (if ever identified by the School District) for residential uses
- Development on undeveloped/underdeveloped sites

*** 2. Please identify the general development types that you believe are least suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita. You can identify up to three choices.**

- Accessory Dwelling Units (ADUs)
- Repurposing of office sites to residential uses
- Repurposing of office sites to accommodate a mix of uses (office with residential)
- Repurposing of general commercial centers to residential uses
- Repurposing of general commercial centers to accommodate a mix of uses (commercial with residential)
- Repurposing of neighborhood commercial centers to residential uses
- Repurposing of neighborhood commercial centers to accommodate a mix of uses (commercial with residential)
- Workforce housing in the business park
- Housing on church sites
- Repurposing of surplus school property (if ever identified by the School District) for residential uses
- Development on undeveloped/underdeveloped sites

*** 3. Please rank the following general development types from most suitable (#1) to least suitable (#11) for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita.**

  Accessory Dwelling Units (ADUs)
  Repurposing of office sites to residential uses

Repurposing of office sites to accommodate a mix of uses (office with residential)

Repurposing of general commercial centers to residential uses

Repurposing of general commercial centers to accommodate a mix of uses (commercial with residential)

Repurposing of neighborhood commercial centers to residential uses

Repurposing of neighborhood commercial centers to accommodate a mix of uses (commercial with residential)

Workforce housing in the business park

Housing on church sites

Repurposing of surplus school property (if ever identified by the School District) for residential uses

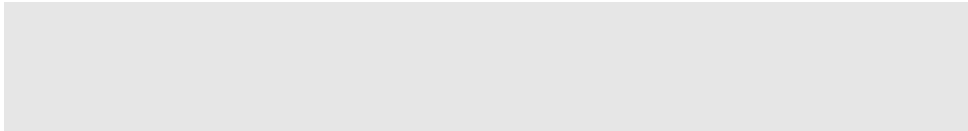

Development on undeveloped/underdeveloped sites

The State requires that every city and county must help accommodate new housing growth. Since people often live and work in different places, housing needs are assessed at a regional level based on population trends and other factors to determine how much growth each local jurisdiction will need to accommodate. This is called the “Regional Housing Needs Allocation” or “RHNA” for short. The RHNA quantifies the need for housing on a regional level, and then allocates a portion of new growth to each city and county.

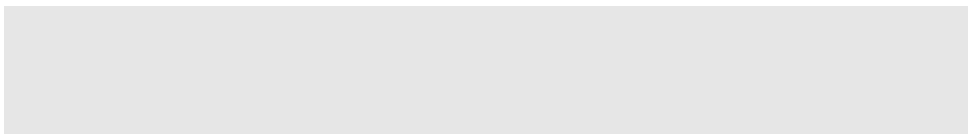

As previously described, Rancho Santa Margarita’s state-mandated RHNA allocation for the 2021-2029 planning period is 680 units. This means that the City of Rancho Santa Margarita is responsible for identifying areas that can accommodate 680 new housing units. Rancho Santa Margarita’s RHNA allocation is divided into income categories. The City of Rancho Santa Margarita is NOT responsible for building new homes. However, Rancho Santa Margarita must demonstrate to HCD that there is enough land zoned for housing to accommodate the allocated share of new homes. Furthermore, a special focus is placed on planning for affordable housing.

With this in mind, we want to hear any other ideas you have related to how RSM can plan for RHNA and meet State obligations. The questions below are intended to provide you an opportunity to freely share your input.

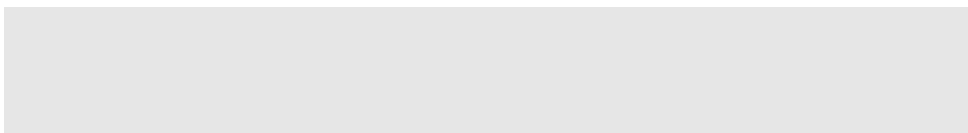

4. Please use the space below to tell us about any development types we have not included in the survey which you believe may help Rancho Santa Margarita plan for the RHNA.

5. Please use the space below to provide any information you would like to share about the development types listed in this survey.

6. Is there anything else you’d like us to know about planning to meet RHNA?

RSM Housing Element Update Development Type Survey

Demographic Information

* 7. Do you live and/or work in Rancho Santa Margarita?

Note: Whether or not you are a resident, your input will still help the City plan to meet long-term housing needs.

- I live in RSM but my job is located somewhere else (pre-pandemic conditions)
- My job is in RSM (pre-pandemic conditions) but I live somewhere else
- I live and work in RSM (pre-pandemic conditions)
- I do not live or work in RSM

* 8. Using the map below for reference, in which area of RSM do you live? If you do not live in RSM, please select "None/I don't live in RSM".

Housing Survey Community Areas

L:\GIS\Projects\Housing\Housing Survey Community Areas.mxd

9. Do you currently own or rent your residence?

- I own my residence
- I rent my residence
- I live with another household (neither own nor rent)
- I am currently without permanent shelter

10. Which of the following best describes your household type?

- Single person household
- Couple
- Couple with children under 18
- Single parent with children under 18
- Adult head of household (non-parent) with children under 18
- Other (please specify)
- Adult living with parents
- Multi-generational family household (grandparents, children, and/or grandchildren all under the same roof)
- Single person living with roommates
- Family unit living with roommates

11. What age range most accurately describes you?

- 0-23 years old
- 24-39 years old
- 40-55 years old
- 56-74 years old
- 75+ years old

12. What is your annual household income?

- Less than \$30,000
- Between \$30,000 and \$49,999
- Between \$50,000 and \$74,999
- Between \$75,000 and \$99,999
- Between \$100,000 and \$150,000
- Between \$150,000 and \$200,000
- Between \$200,000 and \$300,000
- More than \$300,000

58	I feel you covered them all. I hope you build in zoned land within the city that currently has no business on them.	3/16/2021 4:53 PM
59	Modify zoning code to allow higher density to specific developments, allow more mixed-use in commercial and industrial areas. Provide incentives to NIMBY so they are more accepting.	3/16/2021 4:53 PM
60	None	3/16/2021 4:49 PM
61	none	3/16/2021 4:44 PM
62	I do NOT support high-density housing. Please ensure that whatever housing units are constructed blend in aesthetically with existing structures and neighborhoods.	3/16/2021 4:42 PM
63	None	3/16/2021 4:39 PM
64	NA	3/16/2021 4:32 PM
65	Our insane governor will be recalled. When replaced by a Republican hopefully have him get involved and stop this adhoc group of idiots from ruining this city. Stall. Delay. Build the high income homes first on the SCAG list. But if you must build do not build those prison looking high rise buildings like the one on Plano Trabuco. Build single family homes only. High rise apts do not fit into this area. They stick out like sore thumbs. Build where there is free land space and do not knock down a church,shopping,or any thing else. If I was king I would rally all the mayors in the region and fight these people. I think in a democracy we should let the free market decide. We should be allowed to vote if we want and need housing and if so what form and how many it should be. A survey is nice but it is not as meaningful as a ballot. Oh if you guys in city hall want and do this I suggest you 1st tear down City Hall and put you slum low income housing there. If we wanted to live in a poverty ridden area would we have moved here? How is that working in Santa Ana. Poor and dense. Most covid in the county. Did any one in SCAG read a news paper? This growth model does not serve anyone well. We are in a fire zone Hello. More people harder to escape. Earthquakes too. Mudslides. Drought and a limited amount of water resources. Electric outages are frequent. Tell ya what go buy some cheap land out in Palmdale and build it there. Plenty of space and that socio- economic group	3/16/2021 4:18 PM

RSM Housing Element Update Development Type Survey

will fit well with what lives there currently. Does SCAG tell Malibu and Brentwood to build very low income there? I doubt it. Has Scag ever come to this city and looked at it? I am still trying to figure out who elected them and the names of these socialists. Per the website our city is not even a member of this corrupt group. Why are they even messing with us? Let them bother the idiots that signed up. I wonder how many homes Laguna Beach has to take? Judge Carter who lives there told all the OC cities he was going to not allow them to have no camping laws unless they built homeless shelters. Yet he did not impose this upon his own city. I have a notion this judge would not let SCAG bully him or his city. This old guy is hell smart. He forced this upon all these cities and smugly smiled as his was not touched. Then last I read this guy was now in LA doing the same thing there and he has zero jurisdiction there. Maybe you guys should ring him up and ask him how to escape SCAG. I bet you he knows how. Moral of this story you give an inch and SCAG will take a mile.

66	None	3/16/2021 4:12 PM
67	The skate park	3/16/2021 4:08 PM
68	No high density, no rezoning. Think of your existing residents first. Retirement housing (55+) is much preferred to low income.	3/16/2021 4:04 PM
69	All included to my knowledge	3/16/2021 3:59 PM
70	Take all of the government property near the city hall and turn it into housing, including the city hall building itself. Rezone the auto sales lots into residential. Do not take neighborhood retail centers and make them low income residential. Do not allow homeowners to add second dwelling units on their property. the questions you are answering do not allow single family homeowners to truly tell you we do not want this these types of homes built in our community.	3/16/2021 3:59 PM
71	Safety	3/16/2021 3:59 PM
72	None	3/16/2021 3:56 PM
73	There seems to be plenty of unused or under utilized office plazas that could be converted to meet the state mandate. These are often centrally located and ideal for residential living. If you can add offices or storefronts to the ground floor of these developments, then everyone wins.	3/16/2021 3:54 PM
74	Use open, undeveloped land.	3/16/2021 3:53 PM
75	RSM has no room for new housing, there is plenty of housing already.	3/16/2021 3:07 PM
76	Single family dwelling above retail establishments that allows shop owners to live above their shop	3/15/2021 7:08 PM
77	None	3/15/2021 6:13 PM
78	Does Coto de Caza count? I don't think we need that many mansions over McMansions. Can re-zone that area.	3/15/2021 5:46 PM
79	Creating 2 family houses not granny flat ect. More like you would find in nyc were they are 3 floors two for the owner and one to rent. Since space is at a premium here people could add onto existence homes	3/15/2021 5:46 PM
80	none	3/15/2021 5:41 PM
81	NA	3/13/2021 3:00 PM
82	N/A	3/9/2021 2:54 PM
83	Since so many of our seniors are on such a fixed budget and we have even had seniors living in their cars in RSM, is it possible for some of that 680 to be dedicated to seniors to satisfy?	3/6/2021 12:59 PM
84	Upzone the whole city to allow up to fourplexes on every lot and with increased FAR.	3/5/2021 1:04 PM
85	redevelop low density residential to higher density.	3/3/2021 9:46 PM
86	Concentrate multi use repurposing on properties at rsm's existing core areas which already have spare population support capacity as well as minimizing surge in Rinna car trips.	3/3/2021 2:20 PM
87	I'm not sure of any other types but do know parking is already a huge problem in residential areas, including in my track with detached houses. PLEASE keep this in mind when planning	3/2/2021 8:03 PM
88	None	3/2/2021 7:09 PM
89	None	3/2/2021 6:42 PM
90	annex unincorporated land for development	3/2/2021 3:20 PM
91	none	3/2/2021 2:11 PM
92	no more apartment buildings.	3/1/2021 11:29 PM
93	Maybe these are the granny homes, but those tiny homes they sell on Amazon for \$9,000. For grandma, nanny, college aged students, extra income for a family kind of like mini Air B & B, multiple families or generations living on one property, but in separate structures.	3/1/2021 9:26 PM
94	Adding 680 units sounds very concerning. If the goal is to create housing at submarket prices, then perhaps maybe just build another apartment complex.	3/1/2021 7:25 PM
95	Allow for small multi family development on property zoned for single family residence	3/1/2021 6:41 PM
96	no ideas	3/1/2021 5:38 PM

RSM Housing Element Update Development Type Survey

97	Hopefully there is vacant land that can be used for residential homes.	3/1/2021 5:29 PM
98	Permanent Supportive Housing must be incorporated	2/28/2021 2:32 PM
99	NONE	2/28/2021 9:43 AM
100	I think rsm is perfectly fine the way it is...	2/28/2021 8:28 AM
101	None - It's very important that we maintain our open space and parks to avoid over crowding.	2/27/2021 10:06 AM
102	Senior housing	2/26/2021 9:40 AM
103	More speciality clinics (dermatology, laser removal, plastic surgery, dentistry, orthodontics, physical/occupational therapy, etc) in business/commercial plazas.	2/26/2021 12:33 AM
104	More restaurants and commercial centers	2/25/2021 8:08 PM
105	Respond that the total number requested is too high and push back. Quit drinking the cool-aid.	2/25/2021 3:48 PM
106	Add on to existing apartment complexes.	2/25/2021 3:46 PM
107	2-on-a-lot or 3-on-a-lot redevelopments	2/25/2021 3:41 PM
108	Small single family retirement homes that are priced for retirement age (65+)	2/25/2021 3:33 PM
109	Build in areas away from fire zones (all gated communities) with limited evacuation routes	2/25/2021 2:49 PM
110	Although Chiquita Ridge is located in a High Severity Fire Zone, this is the most logical location. It is approx. 92 acres and although rough terrain, if possible, you could build at 10units/acre with 20% low-income bond deal and meet all the RHNA obligations.	2/24/2021 8:47 PM
111	The City should explore re-negotiating with the County regarding allowable residential uses at Chiquita Ridge. They should also strongly consider development of the Nursury properties within their sphere of influence.	2/24/2021 1:36 PM
112	n/a	2/24/2021 9:51 AM
113	The underutilized spaces did not mention parks, recreation areas. It is a matter of trade-offs and maybe these should have been included.	2/24/2021 7:07 AM
114	All types seem to have been included.	2/23/2021 2:21 PM

#	RESPONSES	DATE
1	See number 4 above.	3/26/2021 1:24 PM
2	ADUs are wonderful, but in practice they tend to be neither truly affordable or accessible to persons with disabilities, so please focus more on denser housing options.	3/25/2021 6:58 PM
3	I would hate to see what little free land we have left out here get turned into more housing. We also have great resources in the local business and offices and it would be unfortunate for us to turn those into houses.	3/25/2021 7:02 AM
4	Leaving open agricultural land helps keep our area from higher temperatures created by excessive concrete structures. In addition, please keep in mind the danger to current residents in the event of fire when it is so congested we are unable to evacuate	3/24/2021 5:04 PM
5	Disappointing as it I'm sure I wouldn't qualify for the housing anyways but yet am unable to afford the skyrocketing housing (asset) prices.	3/24/2021 4:57 PM
6	I think ADUs are designed to help the privileged home owners. It comes off as too specific where it would only help a few people.	3/24/2021 4:01 PM
7	NA	3/24/2021 3:44 PM
8	None	3/24/2021 3:18 PM
9	No comment	3/24/2021 10:40 AM
10	In my opinion building homes on church or school property is not ideal	3/24/2021 6:57 AM
11	Mostly not acceptable	3/23/2021 4:58 PM
12	none	3/23/2021 11:17 AM
13	Do not believe that current retail/commercial areas should be repurposed for housing. This increases population growth and lessens available retail/commercial to accommodate this increase.	3/23/2021 10:35 AM
14	The city is already crowded. I'm opposed to adding more high density residential areas.	3/23/2021 8:59 AM
15	none	3/23/2021 8:36 AM
16	Na	3/22/2021 9:12 PM
17	NA	3/22/2021 7:04 PM
18	I do not want to see thriving business centers re-zoned, but if they are failing I think they should be reviewed. AUDs should require accommodations for parking. I'd like to see existing open space preserved to the extent possible, but also don't prefer densification. Should we look to annex additional land to accommodate new developments?	3/22/2021 6:04 PM
19	upscale townhouse / condos with boutique shops on the lower level and underground parking would fit well into the established culture	3/22/2021 10:26 AM
20	Dangerous to plan housing in Dove Canyon Center. One way out of Dove Canyon to evacuate during wildfires.	3/20/2021 7:23 PM
21	n/a	3/19/2021 10:52 AM
22	na	3/19/2021 10:30 AM
23	RSM AND THE PEOPLE OF RSM WILL NOT COMPLY!!! That's the solution. Tell Newsom to build it next to his house. Tell William Lyon to build it on his vacant 83 acres next to his estate in Coto de Caza	3/19/2021 8:27 AM
24	Lot sizes are small enough as is. I don't believe there are any existing single home homes that have the space to add additional granny flats, extra apartments, extra dwellings without significantly reducing and impairing quality of life. Traffic concerns must be addressed in any new construction. One way ingress/egress cannot be allowed with the significant emergency situations we've seen in the past few years and will continue to experience in the future. Evacuation plans must be developed along with any construction. I don't know if there is any 'open' land available w/ city limits. Are there any vacant lots — at one time there was a defunct car dealership location. Is that still available? What about the area at the end of Antonio?	3/18/2021 3:35 PM
25	No more apartments or low income.	3/18/2021 9:19 AM
26	Stay away from school properties at all costs. Our schools are already overcrowded and have not been properly expanded to support the states growing population. Whatever property the districts have should be prioritized for schools. Given that RSM has very little unused space, I think mixed use is highly desirable. I also think accessory dwellings should be approved, so	3/18/2021 7:06 AM

RSM Housing Element Update Development Type Survey

long as the house can support it (many homes will not have a sufficient amount of space), including considerations for parking and effect on the overall neighborhood.

27	Please dont destroy nature area or get involved with schools	3/17/2021 10:44 PM
28	please do not allow med density residential to be built in Dove Canyon Plaza	3/17/2021 6:40 PM
29	conversion of existing commercial property adversely affects existing housing; road systems were not designed to accomadate that kind of saturation	3/17/2021 6:14 PM
30	NA	3/17/2021 5:25 PM
31	-	3/17/2021 3:52 PM
32	Any RSM proposed plan to submit to the state for compliance must be accompanied with traffic and safety impact statements	3/17/2021 2:55 PM
33	no to ADU's	3/17/2021 2:13 PM
34	With work from home establishing itself as a viable alternative to in-person office jobs, more office spaces can be repurposed for low-income housing	3/17/2021 1:09 PM
35	As I talked to the city before I would love to work with the city on some pre-approved ADU plans to provide on the website to help the community to choose from and make it easier for them to understand the process.	3/17/2021 11:50 AM
36	Na	3/17/2021 11:20 AM
37	A	3/17/2021 11:06 AM
38	The age wave did not happen with Baby Boomers which would have opened up more housing. Now with prop 19 there is the opportunity to help seniors downsize into a an active lifestyle community. The only nice active residential community that is selling well is in Rancho Mission Viejo.. RSM needs a community like tbis	3/17/2021 9:39 AM
39	N/A	3/17/2021 9:37 AM
40	One must also consider evacuation measures since we live in a high risk fire zone	3/17/2021 5:43 AM
41	MAKING CHANGES TO ESTABLISHED NEIGHBORHOODS SHOULD NOT BE CONSIDERED FOR THIS TYPE OF DEVELOPMENTS	3/16/2021 11:36 PM
42	the existing condominiums in Mission courts I or II could be designated as Low to Moderate Income Housing.	3/16/2021 11:00 PM
43	Na	3/16/2021 10:24 PM
44	I adamantly oppose removing or repurposing any of the existing shipping plazas that were designed to support our neighborhoods. Especially any that would negatively impact the safety of our neighborhoods or home values.	3/16/2021 9:41 PM
45	I feel that an existing neighborhood should not be affected by removing the local shopping, restaurants, and daycare in order to place more homes. You are taking away our concurrence and adding more congestion.	3/16/2021 9:11 PM
46	Be mindful of where you put low income Housing and how it will negatively iimpact surrounding property values.	3/16/2021 8:31 PM
47	Allocation for 680 granny units would be beneficial to many people. Prefer that option over all others	3/16/2021 7:44 PM
48	N/a	3/16/2021 7:30 PM
49	I don't believe that this city requires additional residential development	3/16/2021 6:42 PM
50	Don't touch existing vacant land or open space but utilize existing built areas.	3/16/2021 6:20 PM
51	See above	3/16/2021 6:10 PM
52	None.	3/16/2021 6:06 PM
53	None	3/16/2021 5:20 PM
54	consider overcrowding, fire safe impact	3/16/2021 5:18 PM
55	We are against redeveloping Dove Canyon Plaza for residential.	3/16/2021 5:06 PM
56	I have none.	3/16/2021 4:53 PM
57	There has been a lot of discussion about how SCAG came to their conclusions regarding RHNA analysis. First and foremost, I would scrutinize and challenge their findings. Certain areas would be detrimentally affected (reduced home values, more traffic, etc). RSM Is a bedroom community with some industrial and commercial businesses, but we are a small city, yet we are being asked to provide 680 units. That seems disproportionate.	3/16/2021 4:53 PM
58	None	3/16/2021 4:49 PM
59	Limit to single family structures	3/16/2021 4:44 PM
60	Make them aesthetically pleasing to our community.	3/16/2021 4:42 PM
61	NA	3/16/2021 4:32 PM

RSM Housing Element Update Development Type Survey

62	High rises are out build single family homes only. Use vacant land only. No destruction of any thing to be replaced by housing. If any SCAG member lives in this city tear down his/her house. They call the shots let them live with the consequences.	3/16/2021 4:18 PM
63	N/A	3/16/2021 4:12 PM
64	Rezoning is unfair to residents who paid \$1,000,000 or more for single family residences in an area believed to be fully developed. We pay the highest residential property taxes and deserve to be heard.	3/16/2021 4:04 PM
65	I am opposed to mix use sites and business workforce sites. Goes against the mission statement of the city in my opinion.	3/16/2021 3:59 PM
66	You are only allowing selections that you want to get approval for. why is one of the options listed something like we want you to fight the sated from ruining our community.	3/16/2021 3:59 PM
67	Safety and increased housing and getting out safely in times of emergencies.	3/16/2021 3:59 PM
68	With the drought situation the last thing we need is more homes to consume precious water	3/16/2021 3:56 PM
69	Eliminating "neighborhood commercial centers" will degrade the soul of RSM as those are the places the community gathers to share ideas and bond with one another, not to mention the places that provide valuable services. Those must continue to be supported rather than torn down to make way for high density housing. Higher congestion of people with fewer services is a recipe for disaster.	3/16/2021 3:54 PM
70	RSM has no room for new housing, there is plenty of housing already.	3/16/2021 3:07 PM
71	With the recent trends of certain big box stores being less popular, "mixed use" in commercial zones may be a reasonable solution.	3/16/2021 10:51 AM
72	I do not think we should continue developing. I love how small this city is.	3/16/2021 10:20 AM
73	The repurposing of surplus school sites seems counterintuitive since additional housing would imply the need for additional school sites.	3/15/2021 7:08 PM
74	None	3/15/2021 6:13 PM
75	Repurposing commercial properties can have an adverse effect - by getting rid of potential sites that can provide employment to those who would need housing.	3/15/2021 5:46 PM
76	Having mixed use spaces for living and retail/restaurants creates a small town living that many newer southern cities have done.	3/15/2021 5:46 PM
77	None	3/15/2021 5:41 PM
78	Do NOT redevelop Dove Canyon Plaza due to traffic issues. Dove Canyon's gated community has one way in/out. In an emergency ingress for emergency vehicles and egress for homeowners would be a major problem	3/13/2021 3:00 PM
79	N/A	3/9/2021 2:54 PM
80	I think it betrayed the staff/city's bias in priorities to list ADUs first and underdeveloped/undeveloped sites last.	3/5/2021 1:04 PM
81	housing with commercial is a proven winner. Housing in factories is third world or otherwise unacceptable you should not ask.	3/3/2021 9:46 PM
82	Mixed use seems like a good compromise	3/2/2021 8:03 PM
83	None	3/2/2021 7:09 PM
84	To minimize impact on property values and to the extent allowed under law, areas identified for new housing should be zoned for like, or near like, properties in the surrounding communities.	3/2/2021 6:42 PM
85	no low-income housing near schools	3/2/2021 3:20 PM
86	none	3/2/2021 2:11 PM
87	only build single family, condos, duplexes that add value to RSM-not multi-family apartment buildings.	3/1/2021 11:29 PM
88	I hope we don't end up like Irvine with all of those towering apartments/condos with businesses, but if we do maybe we could limit to 3 stories. I don't want RSM to turn into little Los Angeles like Irvine has.	3/1/2021 9:26 PM
89	ADUs for non-extended family members may create a chaotic environment within the single family neighborhoods. It sounds like the state is forcing the cities to provide what the market will not otherwise support. Additionally, the denser the population, the less desirable the City, the harder to maintain peace. RSM is a quite bedroom community and low-income housing would require a huge increase in city expenses and services.	3/1/2021 7:25 PM
90	on street parking is a problem in many areas, especially those near condos and apartments. Allowing ADU's would exacerbate this problem	3/1/2021 5:38 PM
91	Is there vacant land available?	3/1/2021 5:29 PM
92	N/A	2/28/2021 2:32 PM
93	The only neighborhood commercial center I know that is being considered for residential is the Dove Canyon Center. This is an unacceptable plan which will create a traffic nightmare and	2/28/2021 11:07 AM

RSM Housing Element Update Development Type Survey

reduce property values in Dove Canyon. The high school already makes traffic and parking horrible, more residential units will make it 10 times worse.

94	We need to ensure that we add an incremental proportion of infrastructure to the city to ensure we do not lose our character. This includes parks, commercial, public transit, and public services.	2/28/2021 10:52 AM
95	Not happy about more homes or apts. it will create more traffic etc..	2/28/2021 8:28 AM
96	Do not close any of the few grocery shopping centers or school grounds	2/27/2021 8:32 PM
97	Development of mix use in business areas with retail on the bottom floor and condo's above as long as it is not in a neighborhood setting. This should be a business area.	2/27/2021 10:06 AM
98	It would be nice to have artist housing along with gallery space within the building and other mixed use space like coffee shops, juice bar, wine bar, restaurant, cheese shop, furniture store, etc	2/26/2021 9:40 AM
99	No high density housing as it will be traffic and (low income families/crime) to this beautiful city	2/26/2021 12:33 AM
100	Please consider the fire risk and evacuation, more housing proposes a risk.	2/25/2021 8:08 PM
101	At some point, enough is enough. Some of the current apartment location are jammed with tenants. Street parking is turning into a mess.	2/25/2021 3:48 PM
102	Use space that will not affect the safety of existing residents. Including not creating more traffic, and will not create risks in case of the need to evacuate due to fires.	2/25/2021 3:46 PM
103	Development small neighborhood centers into high density residential areas poses a significant danger in the event of an emergency like a wildfire. By their nature, neighborhood centers are not on main arteries and with a one way in/one way out traffic flow, one emergency can cause extreme danger and loss of life.	2/25/2021 3:41 PM
104	I do not believe it is fair to residents to change zoning. Do not rezone areas.	2/25/2021 3:33 PM
105	Residential in failing business areas	2/25/2021 2:49 PM
106	We were one of the first residents of RSM. There is already enough congestion in RSM. Do not make things worse by cramming condos into tiny areas that do not have enough parking accommodations. This was already done with Dalia Court. What a terrible decision. Do NOT do the same thing to the shopping center near Dove Canyon. There is already enough congestion on this street with all the residents and the school children using Dove Canyon Drive each day. Keep in mind, there is only one entrance/exit to Dove Canyon. Can you imagine what would happen in an emergency situation if you cram more housing into that area?	2/25/2021 2:35 PM
107	Re-purposing RSM's commercial centers is not the right move as it is the only major income for the City. Housing does not provide the funding the City needs in these locations. Most lots in RSM are small so adding ADU's won't work either and if the housing tract already has parking issues there is no need to compound it.	2/24/2021 8:47 PM
108	Adding ADUs to existing residential properties should NOT be an option as this will cause more traffic and further stress existing infrastructure and will additionally be in direct conflict with HOA CC&Rs.	2/24/2021 1:36 PM
109	n/a	2/24/2021 9:51 AM
110	Trade offs were not discussed. Taking commercial property compromises city revenue; location of any of the above spaces such as with high risk fire zones, flood channels, lack of public transportation which could lead to more vehicles and congestion, lack of road infrastructure when there is an evacuation requirement due to incidents like wildfires.	2/24/2021 7:07 AM
111	Whether any particular site is suitable will have to be analyzed on a case by case basis. Sites should be integrated into the community and accessible to transportation, shopping & jobs.	2/23/2021 2:21 PM
112	Undeveloped areas should, logically, be high on the list. Mixed use (office/residential, commercial/residential) should also be considered as a priority.	2/23/2021 1:23 PM
113	n/a	2/23/2021 9:49 AM
114	unknown	2/23/2021 9:38 AM

Q6 Is there anything else you'd like us to know about planning to meet RHNA?

Answered: 109 Skipped: 127

#	RESPONSES	DATE
1	Our area is already clogged with traffic. And you will need a car to reach many basic services. And businesses.	3/27/2021 8:39 AM
2	Can you share the results of this survey.	3/26/2021 1:24 PM
3	No.	3/25/2021 7:02 AM
4	Would like to hear more about water supplies to serve more homes. We barely have adequate water pressure and our water has become significantly more expensive in the last few years...more than triple in fact	3/24/2021 5:04 PM
5	I am disheartened as I dont think it will matter. 680 units doesnt seem like enough to share the burden of the asinine housing costs.	3/24/2021 4:57 PM
6	NA	3/24/2021 3:44 PM
7	None	3/24/2021 3:18 PM
8	No	3/24/2021 10:40 AM
9	Hoping there will be no homeless shelter type housing.	3/24/2021 6:57 AM
10	No.	3/23/2021 11:17 AM
11	RSM was planned many years ago however I believe it was efficiently designed and those living in RSM do not want a crowded feel. That is what made it charming. I hope that vacant land can be used to accommodate the HCD housing mandate.	3/23/2021 10:35 AM
12	none	3/23/2021 8:36 AM
13	Na	3/22/2021 9:12 PM
14	How is it that a master planned community such as RSM is required to add 680 units??? That seems ridiculous.	3/22/2021 7:04 PM
15	What is happening with the Chiquita Ridge project? The Dove Canyon Shopping Center should be reviewed for redevelopment; the nimbyism demonstrated by Dove Canyon residents is exactly what has resulted in the state taking such an aggressive approach with cities. As we look to accommodate additional housing, we need to seriously plan for evacuation routes in times of emergency and possibly look for another ingress/egress point for the city (another bridge?) as well as account for other impacts to infrastructure and services (water, schools, public safety, etc.).	3/22/2021 6:04 PM
16	Dangerous to plan housing in Dove Canyon Center. One way out of Dove Canyon to evacuate during wildfires.	3/20/2021 7:23 PM
17	Please consider traffic patterns and major intersections, especially bottlenecks, when exploring potential sites.	3/19/2021 3:58 PM
18	Affordable housing for a range of income levels is critical for a healthy and vibrant community	3/19/2021 10:52 AM
19	As I said above the congestion on our roads and in parking lots around RSM is already too impacted... with more house has to be a plan to accommodate all the people on the roads... I didn't see anything here addressing that.	3/19/2021 10:30 AM
20	Do not comply with the demands of Newsom	3/19/2021 8:27 AM
21	Always remember that traffic patterns and evacuation plans have to be taken into account. The Dove canyon plaza proposal is not in the best interests of the community due to traffic issues, utility problems, and existing zoning.	3/18/2021 3:35 PM
22	options should minimize extra traffic while preserving stores and services for the community.	3/18/2021 10:41 AM
23	We are watching. Developers are aggressive, don't be weak. Dove Canyon plaza is just a small example of us citizens putting up with their fuckery.	3/18/2021 9:19 AM
24	Anyway around it	3/17/2021 10:44 PM
25	please do not allow med density residential to be built in Dove Canyon Plaza	3/17/2021 6:40 PM
26	why has no effort been made to acquire land along trabuco in the area between rsm blvd and the area where trabuco descends into the canyon?	3/17/2021 6:14 PM
27	NA	3/17/2021 5:25 PM
28	-	3/17/2021 3:52 PM
29	Maybe the state should pay residents to move to another state so they can accommodate the assumed influx of these potential renters.	3/17/2021 2:55 PM

RSM Housing Element Update Development Type Survey

30	Do not turn Dove Canyon Center into a residential zone....too much traffic and congestion.	3/17/2021 1:51 PM
31	More low income housing. Rent for a one bedroom apartment costing nearly the same as a mortgage is unsustainable and recipe for collapse.	3/17/2021 1:09 PM
32	I would love to get more involved with the ADU committee or if there is not any, I would love to help to help to start it in our City. Niloofar Badihi	3/17/2021 11:50 AM
33	Na	3/17/2021 11:20 AM
34	Enforce the use of fire resistant material with any new building	3/17/2021 11:06 AM
35	Consider impact on local neighbors and how to integrate those new housing units into a surrounding neighborhood, including safety, existing traffic and need for water and other infrastructure needs.	3/17/2021 11:01 AM
36	No	3/17/2021 9:39 AM
37	Don't take property that would ruin the look of RSM.	3/17/2021 9:37 AM
38	As a planned community with some undeveloped land please consider using undeveloped first before rezoning which in many cases would not conform to the cities original master plan.	3/17/2021 9:22 AM
39	No	3/17/2021 5:43 AM
40	Existing business sites should be re-configured to Mixed Use: business/residential housing.	3/16/2021 11:00 PM
41	No	3/16/2021 10:24 PM
42	I don't believe anyone who doesn't live in RSM should have any say as to what we as a community must or must not do with regard to the make up of our community.	3/16/2021 9:41 PM
43	I feel that an existing neighborhood should not be affected by removing the local shopping, restaurants, and daycare in order to place more homes. You are taking away our concurrence and adding more congestion.	3/16/2021 9:11 PM
44	DONT REZONE DOVE CANYON PLAZA!!!	3/16/2021 8:31 PM
45	N/a	3/16/2021 7:30 PM
46	Low income and multifamily housing does not benefit this market area	3/16/2021 6:42 PM
47	Small homes less than 2,500 sf.	3/16/2021 6:20 PM
48	Please do not change residential area commercial space into residential. This does not help the communities they are in and only adds more people into a space that isn't suited for such. This also bring more crime into an area as well.	3/16/2021 6:10 PM
49	No	3/16/2021 6:06 PM
50	If new high density buildings are planned, I would like to see them incorporate a range of income levels. I don't want to see a huge complex with only lower income housing. I would like to see a mix of income levels in one complex.	3/16/2021 5:22 PM
51	No	3/16/2021 5:20 PM
52	Why we are just now hearing about SCAG and RHNA legislation	3/16/2021 5:18 PM
53	Not at this time	3/16/2021 5:06 PM
54	No.	3/16/2021 4:53 PM
55	No	3/16/2021 4:53 PM
56	None	3/16/2021 4:49 PM
57	none	3/16/2021 4:44 PM
58	no	3/16/2021 4:42 PM
59	Planning to meet RHNA requirements should not be made at the expense of the safety and quality of life currently enjoyed by RSM City residents. So placing living units near work environments, which would not increase traffic and noise and cause safety problems in high risk fire areas, will be key.	3/16/2021 4:35 PM
60	NA	3/16/2021 4:32 PM
61	Who are these people and where do they live? Investigate that and find out how many very low income homes they are putting in their back yards. HELLO. How many shopping centers and Churches are they ripping up??? HELLO Surely someone on the council must have a curious mind. If I cook food and I have you come over to eat then I sit there and do not eat my own cooking it would speak volumes. If they live some place and they are not doing this too where they are or doing in a very limited way then you can tell them to pound sand in court. You would win.	3/16/2021 4:18 PM
62	No	3/16/2021 4:12 PM
63	It's unfair to force communities to build housing that isn't wanted by the residents. I highly doubt more affluent coastal communities (Laguna, Newport, etc) are making space for high density low income housing.	3/16/2021 4:04 PM
64	Traffic please do not make RSM another Irvine where you sit light to light in peak hours.	3/16/2021 3:59 PM

RSM Housing Element Update Development Type Survey

65	Fight it, stop them from telling us we need to bring low income earners into our community that will lower our standard of life and quality of our community.	3/16/2021 3:59 PM
66	Please remember safety over \$.	3/16/2021 3:59 PM
67	No	3/16/2021 3:56 PM
68	RSM can only accommodate 680 more sites by converting existing office sites. Traffic will negatively impacted	3/16/2021 3:43 PM
69	RSM has no room for new housing, there is plenty of housing already.	3/16/2021 3:07 PM
70	Please do not over develop this city.	3/16/2021 10:20 AM
71	Consider where the natural resources would come from and the additional demand on placed on infrastructure such as roads, sewer systems internet. Also would there be a need to add additional SAMLARC parks or other common areas to support the additional people in the town Consider annexing the Las Flores neighborhoods to negotiate fewer homes in future requirements	3/15/2021 7:08 PM
72	No	3/15/2021 6:13 PM
73	Are you planning on improving infrastructure to meet the planned increase in housing and residents?	3/15/2021 5:46 PM
74	None	3/15/2021 5:41 PM
75	Write your Congress representative. Use undeveloped land onlyfor the RHNA plan	3/13/2021 3:00 PM
76	It would be great if you would treat this obligation as though you GOT to do it instead of you HAD to do it.	3/5/2021 1:04 PM
77	Factories are not homes.	3/3/2021 9:46 PM
78	No	3/2/2021 7:09 PM
79	No	3/2/2021 6:42 PM
80	good luck	3/2/2021 3:20 PM
81	no	3/2/2021 2:11 PM
82	Recalling Governor Newsom would help. The democrat leadership in this state wants more multi-family, low income housing to expand their base. It's not fair to cities for Sacramento to dictate that they have to add more housing.	3/1/2021 11:29 PM
83	We have a very small town with very little land left to build on. It doesn't seem fair that we are expected to build so many homes when there's so much vacant land in other communities, and it's obviously going to end up being apartments and worse, mixed use apartments.	3/1/2021 9:26 PM
84	I feel like there is a large amount of condo and apartment living here in RSM. Ideally, we would have a greater mix of single family homes in neighborhoods than adding more attached homes.	3/1/2021 8:05 PM
85	Is it possible to change the State laws? That might be the best tack.	3/1/2021 7:25 PM
86	Find a way to incentivize development AND property holders to be receptive to inclusion of affordable housing. Consider innovative ways to combat NIMBY-ism create tangible, monetary benefits to property owners as affordable housing is developed. By providing a direct benefit to residents of the city, people are more likely to support the effort vs oppose it.	3/1/2021 6:41 PM
87	no	3/1/2021 5:38 PM
88	No	3/1/2021 5:29 PM
89	Residents already have limited commercial options in RSM and limited job opportunities. Commercial space should not be reduced to provide housing as it is these commercial spaces that make for a vibrant community where people want to live and work.	3/1/2021 4:58 PM
90	We need Permanent Supportive Housing to provide for the successful integration of unhoused children, individuals and families	2/28/2021 2:32 PM
91	This mandated RHNA will destroy our city, can this be fought in court?	2/28/2021 9:43 AM
92	Please do not allow this to happen	2/28/2021 8:28 AM
93	All areas around toll roads are open. Remove toll roads!	2/27/2021 8:32 PM
94	In consideration of all the land available in California, rather than forcing city's to become over populated, there should be consideration to develop area's in the inland with supporting infrastructure.	2/27/2021 10:06 AM
95	We need to keep as much wild open space for our wildlife as possible. Combining mixed use space in a thoughtful and engaging way is the wave of the future	2/26/2021 9:40 AM
96	If must, develop closer to neighboring city and not near the city center	2/26/2021 12:33 AM
97	I believe there is undeveloped land at the north end of Antonio street and east of Antonio street and North of Las Flores. Those areas should be fine for more medium density homes.	2/25/2021 6:36 PM
98	I wish we didn't have to add more housing units to our lovely area	2/25/2021 5:30 PM
99	All the best. Let's keep our city beautiful!	2/25/2021 3:48 PM

RSM Housing Element Update Development Type Survey

100	If Dove Canyon plaza is developed it should be developed as single-family homes, not multi-dwelling units. I have lived in RSM for the last 18 years because of the access to open space, and the lack of traffic, and most of all the low crime rate. I do not want this to change.	2/25/2021 3:46 PM
101	There are ample opportunities in RSM to get creative with mixed use housing without putting residents in danger in an emergency or compromising the open space that is vital to the heart of the city.	2/25/2021 3:41 PM
102	Try to get out of it. RSM is already overcrowded with limited evacuation routes. Trapped to the East with Cleveland National Forest	2/25/2021 2:49 PM
103	We need to prove to RHNA that they need to pay RSM a visit in person instead of sitting behind a desk and see that the only buildable land left is in High Fire Severity Zones. If SB-55 passes then where do they want us to build?	2/24/2021 8:47 PM
104	n/a	2/24/2021 9:51 AM
105	What are RHNA priorities within the context of providing more homes: I understand housing, but resident well being or the difficulties in getting fire insurance or just high fire insurance seem to be ignored. Developers or city will need to plan for road infrastructure to safely accomodate residents evacuating from our communities.	2/24/2021 7:07 AM
106	There is an interesting development in Encinitas that is farm-focused that might work well in RSM. RSM needs to have wonderful places to live for all income levels. Young people & families bring vitality to a city. Underperforming shopping centers and underutilized office space that may never be filled post-COVID as many folks continue to work from home may be good sites for development. I look forward to RSM becoming a leader in providing housing for many of the people who work in this city but can't afford to live here. We need supportive housing for those who need it as well. Let's be innovative & make RSM a dynamic, inclusive place to live.	2/23/2021 2:21 PM
107	Nothing I can think of.	2/23/2021 1:23 PM
108	This is heavy handed government garbage policy designed to make a beautiful city into a dump like Santa Ana. Resist the strong arm tactics. My for sale sign is primed and ready if Rancho becomes another Moreno Valley hell hole because of some pipe dream of social equity being force-fed to our city.	2/23/2021 9:49 AM
109	unknown	2/23/2021 9:38 AM

Q7 Do you live and/or work in Rancho Santa Margarita? Note: Whether or not you are a resident, your input will still help the City plan to meet long-term housing needs.

Answered: 233 Skipped: 3

ANSWER CHOICES	RESPONSES	
I live in RSM but my job is located somewhere else (pre-pandemic conditions)	54.94%	128
My job is in RSM (pre-pandemic conditions) but I live somewhere else	4.29%	10
I live and work in RSM (pre-pandemic conditions)	36.91%	86
I do not live or work in RSM	3.86%	9

Appendix E:

“Other Respondent” Responses to Surveys #1 and #2

Survey #1

Survey 1, Question 4: Do you currently own or rent your residence?

- Of other responses, most (64%) own their own residence, with 36% of respondents renting.

Survey 1, Question 6: Select the type of housing that best describes your current home.

- Of other responses, the majority (86%) live in a single-family home, with the next highest category being multi-family homes (7%).

Survey 1, Question 24: Which of the following best describes your household type?

- Of other responses, the most common types of households include couples (50%), followed by adult living with parents (25%). The remaining other responses was evenly split between single-person households and couples with children under 18.

Survey 1, Question 27: What age range most accurately describes you?

- Of other responses, respondents were primarily 56-74 years old (56%). The remaining age groups were evenly split with 11% each.

Survey 1, Question 5: If you wish to own a home in Rancho Santa Margarita but do not currently own one, what issues are preventing you from owning a home at this time? Select all that apply.

- Of other responses, the majority (54%) expressed the opinion that they do not wish to own or rent in Rancho Santa Margarita.

Survey 1, Question 13: Based on your monthly income before taxes, how much of your monthly income do you spend on housing?

- Of other responses:
 - Less than 30% of income spent on housing (56%)
 - Between 30%-50% of income spent on housing (33%)
 - More than 50% of income spent on housing (11%)

Survey 1, Question 11: How would you rate the physical condition of the residence you live in?

- Of other responses, approximately 31% answered that their residence showed signs of minor deferred maintenance such as peeling paint or chipped stucco.

Survey 1, Question 8: Which of the following housing upgrades or expansions have you considered making on your home?

- Of other responses:
 - Kitchen or bathroom remodels (38%)
 - Painting (31%)
 - Solar (31%)
 - Roofing (23%)
 - HVAC (23%)
 - Room addition (15%)
 - Accessory dwelling Unit (15%)
 - None (15%)
 - Other (15%)

Survey 1, Question 7: How satisfied are you with your current housing situation?

- Of other responses:
 - I am very satisfied (43%)
 - I am somewhat satisfied (43%)
 - I am somewhat dissatisfied 14%

Survey 1, Question 9: Do you think that the range of housing options currently available in the City of Rancho Santa Margarita meets the needs of the community?

- Of other responses:
 - Yes (62%)
 - No (38%)

Survey 1, Question 10: What types of additional housing are most needed in the City of Rancho Santa Margarita? (Select all that apply).

- Of other responses:
 - Single-family (detached) (38%)
 - Senior Housing (38%)
 - Other (38%)
 - Duplex/Attached Housing (31%)
 - Condominiums (multifamily ownership homes) (31%)
 - Apartments (multifamily rental homes) (31%)
 - Accessory Dwelling Unit (Granny Flat or Guest House) (31%)

Survey 1, Question 26: If you are currently employed, approximately how long is your one-way commute to work?

- Of other responses:
 - I am not currently employed (38%)
 - Less than 5 miles (25%)
 - I am employed, but work from home (25%)
 - 10-25 miles (13%)

Survey 1, Question 25: Has the Coronavirus impacted your housing situation?

- Of other responses:
 - Yes (13%)
 - No (88%)

Survey 1, Question 14: How important are the following factors in your housing choice?

- Of other responses:
 - Housing I can afford (90%)
 - The amount of money I have/had for deposit (90%)
 - Housing was available in the neighborhood I chose at the time I needed it (89%)
 - My credit history and/or credit score (80%)
 - Housing large enough for my household (78%)

Survey 1, Question 15: How important are the following housing priorities to you and your household?

- Of other responses:
 - Support programs to help neighborhoods that have suffered foreclosures (90%)
 - Provide more housing for all income levels (89%)
 - Promote affordable housing for working families (89%)
 - Support fair/equitable housing opportunities (89%)
 - Encourage more senior housing (80%)
 - Ensure that children who grow up in Rancho Santa Margarita can afford to live in Rancho Santa Margarita as adults (80%)
 - Establish programs to help at-risk homeowners keep their homes, including mortgage loan programs (80%)
 - Create mixed-use projects to bring different land uses closer together (78%)
 - Provide ADA-accessible housing (70%)

- Rehabilitate existing housing (67%)
- Integrate affordable housing throughout the community to create mixed-income neighborhoods (67%)
- Build more multi-family housing such as apartments and condos (55%)
- Build more single-family housing (60%)
- Provide housing for the homeless (56%)

Survey 1, Question 16: Please respond to each statement

- Of other responses:
 - There are grocery stores close to my neighborhood (80%)
 - There are banks and credit unions near where I live (80%)
 - There is a pharmacy close to my house (80%)
 - There are plenty of other public spaces near my home (80%)
 - There is a public library close to my house (80%)
 - The streets and sidewalks near my home are well kept (80%)
 - The streets and sidewalks in my neighborhood have adequate lighting (70%)
 - There are plenty of parks, playgrounds, or green space near me (70%)
 - The condition of the homes in my neighborhood are acceptable (60%)
 - I am satisfied with the schools in my area (50%)

Survey 1, Question 17: The federal Fair Housing Act prohibits discrimination in the sale, rental, and financing of housing based on race, color, national origin, religion, sex, familial status, and disability. Of those, which do you think is the biggest problem in housing discrimination in RSM?

- Of other responses:
 - Race/Ethnicity (44%)
 - Other (please specify) (33%)
 - Color (physical appearance) (11%)
 - National Origin (11%)
 - Religion (0%)
 - Sex (0%)
 - Familial status (0%)
 - Disability (0%)

Survey 1, Question 18: Have you ever experienced or witnessed housing discrimination in the City of Rancho Santa Margarita?

- Of other responses:
 - Yes (0% or no responses)
 - No (60% or 6 responses)
 - I don't know (40% or 4 responses)
- Of other responses for the prior question, no discriminatory factors were identified.

Survey 1, Question 20: Do you know of anyone in Rancho Santa Margarita who has faced the following: (select all that apply)

- Of other responses:
 - 100% of respondents indicated they didn't know of anyone who had encountered these unfair practices

Survey 2

Survey 2, Question 9: Do you currently own or rent your residence?

- Of other responses, the majority (89%) own their own residence, with 11% of respondents renting.

Survey 2, Question 10: Which of the following best describes your household type?

- Of other responses, the most common types of households include couples and couples with children younger than 18 (44% each), followed by unlisted household type (11%), such as couples with adult children living with them

Survey 2, Question 11: What age range most accurately describes you?

- Of other responses, respondents were primarily 40-55 years old (38%), followed by 56-74 years old (25%). The remaining age groups were evenly split with 13% each.

Survey 2, Question 12: What is your annual household income?

- Of other responses, most households made between \$100,000 and \$150,000 (50%), followed by households making between \$150,000 and \$200,000 (38%), and households making between \$75,000 and \$99,999 (13%).

Survey 2, Question 1: Please identify the top development types that you believe are most suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

- Of other responses:
 - Repurposing of neighborhood commercial centers to accommodate a mix of uses (78%)
 - Repurposing of general commercial centers to accommodate a mix of uses (67%)

- Development on undeveloped/underdeveloped sites (56%)
- Repurposing of office sites to accommodate a mix of uses (44%)
- Workforce housing in the business park (44%)

Survey 2, Question 2: Please identify the top development types that you believe are least suitable for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita

- Of other responses:
 - Accessory Dwelling Units (56%)
 - Repurposing of office sites to residential uses (33%)
 - Repurposing of neighborhood commercial centers to residential uses (33%)
 - Workforce housing in the business park (33%)

Survey 2, Question 3: Please rank the following general development types from most suitable (#1) to least suitable (#11) for future study to accommodate the State-mandated RHNA of 680 units in Rancho Santa Margarita.

- Of other responses, the most suitable development types were identified as repurposing of office sites to accommodate a mix of uses, accessory dwelling units, repurposing of general commercial centers to accommodate a mix of uses, repurposing of office sites to residential uses, and development on undeveloped/underdeveloped sites. Results were neither favorable nor unfavorable for repurposing of neighborhood commercial centers to accommodate a mix of uses. The least suitable development types were identified as housing on church sites, repurposing of neighborhood commercial centers to residential uses, workforce housing in the business park, and repurposing of surplus school property for residential uses.

Focus Group Summary

City of Rancho Santa Margarita Housing Element Update

May 2021

In partnership with De Novo Planning Group

Introduction

The City of Rancho Santa Margarita (RSM) is updating its Housing Element as part of the 2021-2029 Housing Element Cycle (Cycle 6). The Housing Element is a section of the City’s General Plan that looks at housing needs and conditions within Rancho Santa Margarita. It is a State-mandated policy document that identifies goals, policies, and programs that the City uses to direct and guide actions related to housing.

Each city and county in California is required to have a Housing Element and update it at least every eight years. Updating the Housing Element gives the City a clear picture of housing-related issues such as: housing supply and demand, the types of housing available within the City, housing affordability, and homelessness. Once the Housing Element is updated, it must be approved by the California Department of Housing and Community Development (HCD). Updating the Housing Element will ensure that the City meets State requirements, and makes Rancho Santa Margarita eligible for State grants and other funding resources. It will also give elected and appointed officials clear guidance on housing issues facing Rancho Santa Margarita.

The State requires that every city and county must help accommodate new housing growth. Since people often live and work in different places, housing needs are assessed at a regional level based on population trends and other factors to determine how much growth each local jurisdiction will need to accommodate. This is called the “Regional Housing Needs Allocation” or “RHNA” for short. The RHNA quantifies the need for housing on a regional level, and then allocates a portion of new growth to each city and county. Rancho Santa Margarita’s RHNA allocation for the 2021-2029 planning period is 680 units. This means that the City of Rancho Santa Margarita is responsible for identifying areas that can accommodate 680 new housing units. Rancho Santa Margarita’s RHNA allocation is divided into income categories, as detailed on the [project website](#). The City of Rancho Santa Margarita is NOT responsible for building new homes. However, Rancho Santa Margarita must demonstrate to HCD that there is enough land zoned for housing to accommodate the allocated share of new homes.

As part of the community outreach program for the Housing Element Update, the City facilitated an online survey to gain insight into the most acceptable development types to accommodate the City’s RHNA. Through the “Development Types Survey”, which is summarized under separate cover, the public identified the following development types as most acceptable to accommodate the RHNA:

1. Development on undeveloped/underdeveloped sites
2. Repurposing of office sites to accommodate a mix of uses
3. Workforce housing in the business park
4. Accessory Dwelling Units

To gain additional direction on the most acceptable development types (or combination of development types), the City hosted five focus group meetings with various stakeholders. Focus group participants were provided an overview of all potential sites within the four categories listed above (as identified in the public survey), and the potential development capacity for each. Participants were asked to weigh-in on the opportunities and challenges associated with these development types, and provide direction on the most acceptable strategy to accommodate the City’s RHNA while referencing *possible* scenarios, as illustrated in the table below. The scenarios were presented to the focus groups to help spark discussion, and are not intended to represent final recommendations or preferred strategies. Additional information, including maps of the potential development sites, are included in Appendix A.

HOW TO GET TO 680 UNITS?

- **What scenarios or components of the scenarios are most acceptable?**
- **What components are least acceptable?**
- **Are there any other development types we should consider?**

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

The five focus group meetings included discussions with the following:

1. Community Association of Rancho (CAR) Members
2. Community Association of Rancho (CAR) Alternates
3. Applied Medical Representatives
4. Housing Advocates
5. At-Large Community Members

This Report, including its Appendices, summarizes the results of these focus groups.

Key Findings

- The repurposing of office sites was found to generally to be a very acceptable option among all the groups; reasons for this included the land, infrastructure and access are already in place, and the sites provide good proximity to services.. Most groups felt that this option is likely to be most acceptable to existing residents.
- With respect to the addition of Workforce Housing in the Business Park, focus group members were generally comfortable with the idea of allowing housing in the Business Park or other nonresidential areas (with owners' cooperation) which would include regulations for a maximum number of units or square feet of residential in this category.
- Four of the five groups were generally supportive of development at Chiquita Ridge. However, one group preferred to maintain it as open space.
- All groups were generally accepting of development at the Rose Canyon site, given that it is surrounded by residential uses, but agreed that further study is needed.
- The groups expressed mixed feelings about development in the Sphere of Influence citing access and wildfire issues as primary concerns regarding future development there.
- Three groups expressed specific concerns regarding development in Very High Fire Hazard Severity Zones (VHFHSZ); however, some felt that development could occur in the VHFHSZ if planned properly.
- Within the Sphere of Influence area, many participants raised concerns about safe and secure access and the number of site development/planning issues that would need to be addressed through the project review process.
- The groups provided mixed input regarding Accessory Dwelling Units (ADUs), with two groups finding ADUs as the least acceptable development option.
- Practical vehicular access to properties and impacts on traffic in all development scenarios was a main concern.
- Most focus group members preferred a combination of the development scenarios and thought that distributing units across several or all development types would result in the best chance to see actual production of housing units appropriate for different income levels.
- Housing Advocate group participants stressed a need for a diversity of housing for mixed incomes and providing affordable ownership units in addition to rental units.

Development Type/Site Review Summary

Development Type/Site	Acceptability
Accessory Dwelling Units	Mixed response, two groups found these to be the least acceptable development type, three were groups were neutral to mildly accepting
Chiquita Ridge	Four of the five groups supported further study of development on the City-owned Chiquita Ridge Property
Repurposing of Office Sites	Acceptable to all groups
Rose Canyon	All five groups found Rose Canyon to be an acceptable site, subject to further study
Sphere of Influence	Mixed reactions, while not completely unacceptable for future study, all groups expressed a variety of concerns related to future development in this area
Workforce Housing in Business Park	Acceptable to all groups with limitation on total amount

Common Questions

The following is a list of questions and answers which were discussed in each of the five focus groups.

Q: Is the City responsible for developing the number of homes identified in the RHNA?

A: The City is required to identify specific sites in the Housing Element and to zone them to accommodate the City’s RHNA. The City must identify sites that can achieve objectives of the RHNA and cannot select sites that are completely infeasible. The City is not responsible for implementing or financing the development of housing. Once the zoning is in place, private developers may choose to develop housing on the selected sites. The City also cannot force any property owner to develop residential uses.

Q: What was methodology for determining number/percentage of units? Does it accurately reflect the needs of the City?

A: SCAG was allocated 1.3M housing units to accommodate in the region, and RSM was allocated 680 units. The State sets the income levels based upon Area Median Income (AMI). Orange County’s AMI was \$103,000 for 2020. The units and associated income categories are shown below:

Income Category	Number of Units	Percent of Total
Very-low Income (<50%AMI)	209	30.6%
Low-Income (50-80% AMI)	120	17.6%
Moderate Income (80-120% AMI)	125	18.3%
Above Moderate-Income (>120% AMI)	226	33.4%
Total	680	100%

The City does not agree with the allocation and did appeal it, but this appeal, along with essentially every other appeal, was denied by SCAG. Additional appeals are not available, therefore the City is required to move forward to plan for the RHNA in order to comply with State law. For a list of potential penalties the City would face for not complying with Housing Element law, visit the [project website](#).

Q: How were most/least acceptable development types determined?

A: The most/least acceptable potential development types were determined through a community survey that received 280 responses. Respondents were asked to indicate which development types they preferred and those they were not in favor of; open-ended questions also allowed for additional potential development types to be identified.

Q: Does the order of the development scenarios have any significance? Can they be combined, or must they be selected as is?

A: The development scenarios were provided as conversation starters to illustrate possible ways in which the development types could be combined to achieve the RHNA. The scenarios were intended to spur discussion, and the order does not have any meaning. It is likely that a hybrid scenario will be needed to achieve the RHNA of 680 units.

HOUSING ELEMENT UPDATE AND DEVELOPMENT TYPE FOCUS GROUP DISCUSSION

CITY OF RANCHO SANTA MARGARITA

APRIL 2021

CHERYL KUTA, DEVELOPMENT SERVICES DIRECTOR

ckuta@cityofrsm.org

BACKGROUND

State Requirements for Cities

- General Plan with mandatory elements
- Housing Element must be updated **every eight years**
- CA Department of Housing and Community Development (HCD)
 - Sets regional housing need number
 - Reviews and certifies Housing Elements

Southern California Association of Governments (SCAG)

- Council of Governments for six-county region: Imperial, Los Angeles, Orange, Riverside, San Bernardino, Ventura
- 197 jurisdictions in SCAG Region including 191 cities
- Distributes regional housing need from State
 - Methodology
 - Appeals
- SCAG Housing Element updates due for “6th Cycle” October 2021
- Adopts Regional Transportation Plan
- Orange County Council of Governments is a **subregional** entity (34 cities, County, Special Districts)

WHAT'S IN A HOUSING ELEMENT?

- Provides goals, policies and programs to guide the City's actions toward housing production... What does that mean??

REGIONAL HOUSING NEEDS ALLOCATION (RHNA)

- 1,341,827 housing units to SCAG Region
 - Six counties: Imperial, Los Angeles, Orange, Riverside, San Bernardino, Ventura
 - 197 jurisdictions
- 183,430 housing units to Orange County
 - 34 Cities and County Unincorporated Areas
- Table shows sample of Orange County Cities' RHNA
- 3 cities with lower RHNA than RSM: Dana Point, Laguna Beach, Villa Park

Jurisdiction	RHNA
Rancho Santa Margarita	680
Aliso Viejo	1,193
Laguna Hills	1,980
Lake Forest	3,228
Mission Viejo	2,211
San Clemente	978
Irvine (highest in OC)	23,554
Villa Park (lowest in OC)	296

CITY OF RANCHO SANTA MARGARITA 6TH CYCLE RHNA

- 6th Cycle Housing Element: October 2021 to October 2029 (8 years)
- Breakdown impacts the types and densities of units that need to be planned
- Compare to March 2020 General Plan – 580 dwelling units over 20 years
- The City needs to identify specific sites to accommodate its RHNA at all income categories

RSM RHNA Breakdown

Income Category	Number of Units	Percent of Total
Very-low Income (<50% AMI)	209	30.6%
Low Income (50-80% AMI)	120	17.6%
Moderate Income (80-120% AMI)	125	18.3%
Above Moderate Income (>120% AMI)	226	33.4%
Total	680	

RHNA SITE CRITERIA

Existing Site Condition (occupied sites require special analysis)

Realistic Capacity Potential (not all sites will develop at maximum density)

Acceptable RHNA Site

Site Size and Ownership (sites should be between 0.50 and 10 acres)

Demonstrated History of Successful Development (can be local or regional history)

POTENTIAL DEVELOPMENT TYPES

Development Type	Examples	Potential Housing
Accessory Dwelling Units	Second units on existing residential property including attached, detached, and converted interior space; also known as guest house, granny-flat, or accessory apartment.	Accessory dwelling units may be developed on many residential parcels throughout the City.
Reuse/Repurpose of Office Sites	General and medical office sites in commercial or business park districts.	Office uses could be replaced with new residential development or new residential development could occur in conjunction with new or replacement office buildings (mixed-use).
Reuse/Repurpose of General Commercial Shopping Center Sites	Larger commercial centers with stores and businesses which serve a citywide or regional trade area.	Larger general commercial centers could be replaced with new residential development or new residential development could occur in conjunction with new or replacement commercial uses (mixed-use).

POTENTIAL DEVELOPMENT TYPES

Development Type	Examples	Potential Housing
Reuse/Repurpose of Neighborhood Commercial Shopping Center Sites	Smaller commercial centers with stores and businesses that serve the needs of nearby neighborhoods.	Smaller neighborhood commercial shopping centers could be replaced with new residential development or new residential development could occur in conjunction with new or replacement commercial uses (mixed-use).
Workforce Housing in Business Park	Office, Industrial, or Manufacturing sites in the business park area (surrounding Avenida Empresa and Avenida De Las Banderas).	Housing within the business park as homes for employees of local companies.
Housing on Church Property	Various.	Develop housing on church sites in addition to retaining existing church use(s).

POTENTIAL DEVELOPMENT TYPES

Development Type	Examples	Potential Housing
Housing on Surplus School Property	Various.	Develop residential uses on surplus school property, if ever identified by the School District.
Vacant or Underutilized Properties	Open space or agricultural properties.	To be determined based on site-specific evaluations. Larger sites could accommodate a mix of housing types.

PUBLIC INPUT – DEVELOPMENT TYPE SURVEY

Most Acceptable Development Types

- Development on undeveloped/underdeveloped sites
- Repurposing of office sites into mixed-use residential/office developments
- Workforce housing in the business park
- Accessory Dwelling Units (ADUs)

Least Acceptable Development Types

- Repurposing of neighborhood commercial centers
- Repurposing of general commercial centers
- Housing on church sites
- Repurposing of surplus school property

DEVELOPMENT ON UNDEVELOPED/UNDERDEVELOPED SITES: SPHERE OF INFLUENCE AREA

Opportunities

- Potential to identify capacity in Sphere of Influence
- Low-density development (already allowed under current County zoning/Specific Plan) can count towards above-moderate income units

Challenges

- Housing Element would need to include a program to annex property within 3 years
- Access and VHFHSZ issues
- Coordination with County of Orange

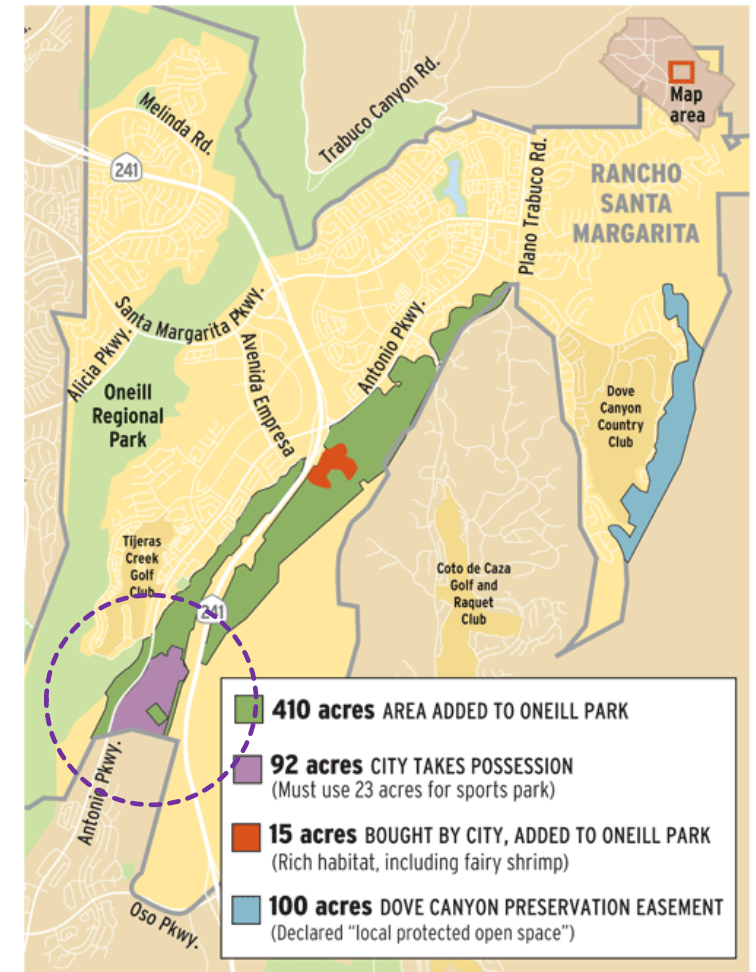

DEVELOPMENT ON UNDEVELOPED/UNDERDEVELOPED SITES: CHIQUITA RIDGE

Opportunities

- Owned by the City (very acceptable to HCD)
- Approximately 92 acres total; 32 acres available for development and 23 acres would be required to be developed as a sports park
- Prior scenario analysis to demonstrate capacity

Challenges

- Surplus Land Act
- Rezone would require an Environmental Impact Report (significant time and financial resources)
- In VHFHSZ
- Expensive to develop

DEVELOPMENT ON UNDEVELOPED/UNDERDEVELOPED SITES: ROSE CANYON

Opportunities

- Up to 3.5 acres subject to confirmation of ownership
- Surrounded by residential

Challenges

- Right-of-way abandonment process
- In VHFHSZ
- Further study is required to determine feasible capacity

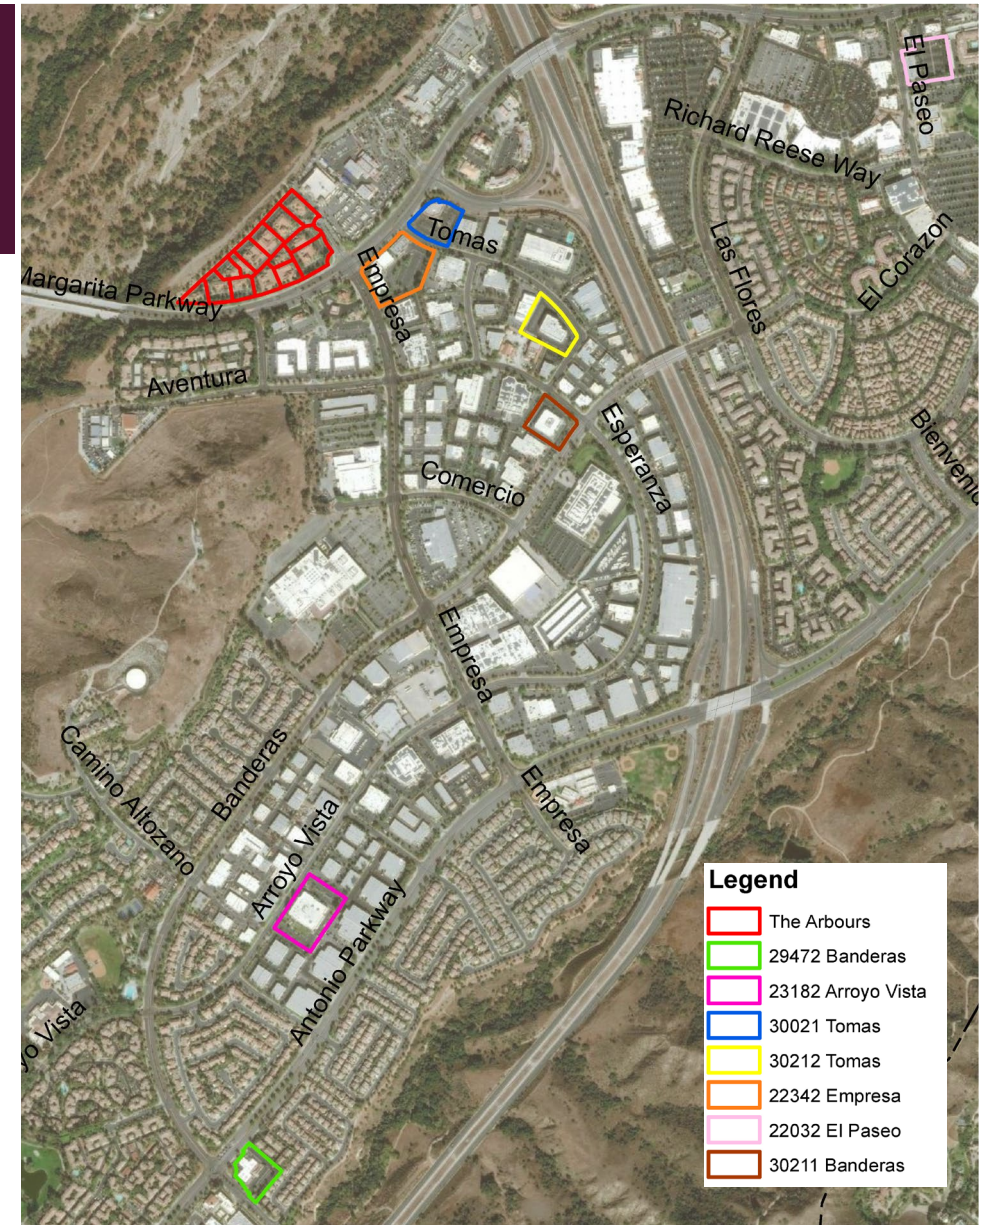

REPURPOSING OF OFFICE SITES

Opportunities

- Office footprints could be reduced due to new “work from home” trends
- Can accommodate residential only development or residential and offices uses in mixed-use formats
- History of similar redevelopment in the region
- Most are outside of VHFHSZ

Challenges

- Coordination with property owners of individual office sites is required

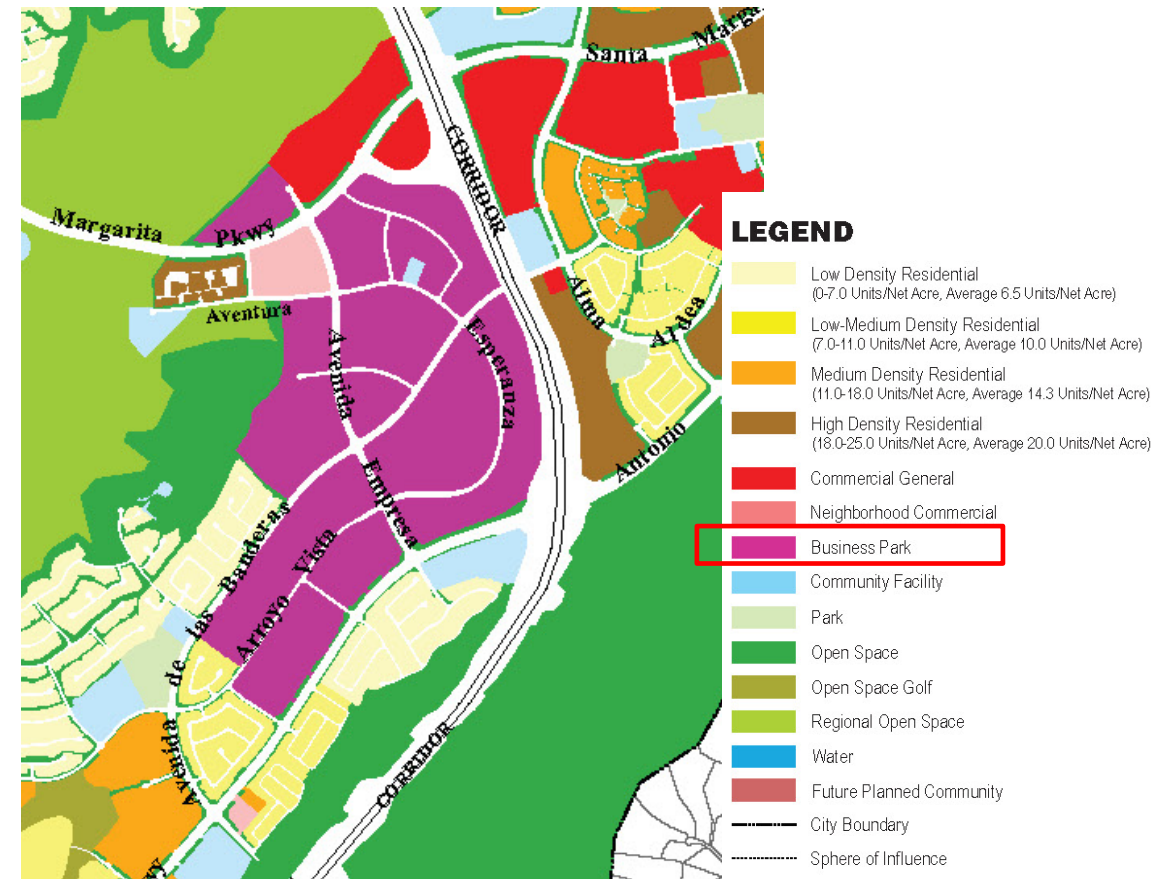

WORKFORCE HOUSING IN THE BUSINESS PARK

Opportunities

- Desire from the business community to allow residential development in the business park
- Opportunity to support employers and their employees
- Not in VHFHSZ

Challenges

- Potential to integrate residential development into a business park environment (limited access to goods and services)
- Need to identify specific sites

ACCESSORY DWELLING UNITS

Opportunities

- City is already required to allow ADUs in accordance with State law
- State considers ADUs a source of affordable housing
- HCD will allow ADUs to satisfy a portion of RHNA (safe harbor methodology, no additional research required)

Challenges

- State law dictates where ADUs are allowed and associated affordability levels
- HOA acceptance and regulations

Examples of Accessory Dwelling Units (ADUs)

ADUs in blue; main residence in white

APPROXIMATE DEVELOPMENT TYPE CAPACITY

Development Type	<u>Max</u> Lower Household Income Potential (at 30 du/ac, except for ADUs)	<u>Max</u> Above Moderate Household Income Potential	Total Potential
Sphere of Influence	-	612	612
Chiquita Ridge	540 (18 acres, could be in mixed-use format)	86 (18 acres, single-family detached format)	86 – 540 units (depends on density mix)
Rose Canyon	100 (assuming full 3.5 acres, could be less)	25 (5,500 sqft lots)	25 – 100
Repurposing of Office Sites	810 (27 acres) - Sites ranging from 0.50-10 acres	*	810
Workforce Housing in the Business Park	90 (assuming 3 acres of potential development, could be more)	*	90
Accessory Dwelling Units	39	1	40

* Units affordable to lower household incomes could also be used to satisfy the City's above moderate household income requirements

NOTE: Additional analysis will be required to confirm final capacity in compliance with State requirements

APPROXIMATE DEVELOPMENT TYPE CAPACITY

HOW TO GET TO 680 UNITS?

- For discussion purposes only, different scenarios to accommodate the City's RHNA are identified on the following slide
- The City must demonstrate it can accommodate 454 units in areas zoned for at least 30 du/ac (or through ADUs); the remaining 226 units can be above-moderate income, such as single-family detached units
- Additional research and analysis is required to ensure that the City's proposed strategy to accommodate its RHNA will be approved by the State

Reminder: RSM RHNA Breakdown

Income Category	Number of Units
Lower Income (> 120% AMI)	454
Above Moderate Income (> 120% AMI)	226
Total	680

HOW TO GET TO 680 UNITS?

- **What scenarios or components of the scenarios are most acceptable?**
- **What components are least acceptable?**
- **Are there any other development types we should consider?**

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

HOUSING ELEMENT SCHEDULE

NEXT UP

- Summarize survey results and post to website
- Planning Commission Workshop
- Prepare Public Review Draft Housing Element

HOUSING ELEMENT UPDATE AND DEVELOPMENT TYPE FOCUS GROUP DISCUSSION

CITY OF RANCHO SANTA MARGARITA

APRIL 2021

CHERYL KUTA, DEVELOPMENT SERVICES DIRECTOR

ckuta@cityofrsm.org

HOW TO GET TO 680 UNITS?

- What scenarios or components of the scenarios are most acceptable?
- What components are least acceptable?
- Are there any other development types we should consider?

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

Voting by Development Type (Order of Acceptability)

1. Chiquita Ridge

- Discussion:
 - Has highest probably because City owns the land, and infrastructure and access are already in place
- Number of participants finding the option acceptable: **6** (number one choice out of group)

2. (Tie) Repurposing of Office Sites

- Discussion:
 - Access and infrastructure already in place
- Number of participants finding the option acceptable: **5**

2. (Tie) Workforce Housing in the BP

- Discussion:
 - Yes, this is a good possibility
- Number of participants finding the option acceptable: **5**

4. (Tie) Sphere of Influence

- Discussion:
 - Number of issues to address from entitlement standpoint
 - Long time frame
 - Tabuco Canyon can't be widened
- Number of participants finding the option acceptable: **3**

4. (Tie) Rose Canyon

- Discussion:
 - Not ideal, too much opposition

Appendix B: CAR Focus Group Meeting Notes 4/13/21

- Rose Canyon cannot be arterial road
- Number of participants finding the option acceptable: **3**

6. ADUs

- Discussion:
 - Some members completely oppose ADUs
- Number of participants finding the option acceptable: **0**

General Discussion

ADUs

- What are the ADU standards?
 - State requires that City allow ADUs
 - Can be attached, detached, or reconfigured space
 - ADU requirements are here regardless of RHNA...ADUs are one way to meet RHNA requirement
 - City can require/allow ADUs above State requirements, but not less
 - City can count 40 ADUs toward RHNA
 - ADUs must have separate entrance and cooking facilities
- Concerns about building 3rd story affecting views
 - Zoning does not allow anything higher than 30 ft in residential zone
 - Stock photo - not advocating for 3rd stories
- Concerns about ADUs getting abused

Repurposing of Office Sites

- How would repurposing of office sites physically happen?
 - 2 paths forward:
 - 1st - property owner could choose to repurpose to full residential use
 - 2nd - residential developers could acquire and redevelop property
- What are the pre-covid occupancy rates vs. post?
- Has this had success in Ladera Ranch? SLC? La Verne?
- Is this a doable thing in our community?

Sphere of Influence

- Does this take into account the nursery property?
 - Looked at City's full SOI, including nursery property
- Would require some renegotiation with property owners
- Who are all the property owners within the SOI?
- Includes TCWD property

Chiquita Ridge

- Can the County help the City in terms of modifying agreements to help the City meet RHNA requirements?
 - Unknown

Eminent domain and access for northern sphere

- How would access to the community work? Shadow Rock?
- Who's going to build the bridge?
- Would eminent domain be used to build housing?

Appendix B: CAR Focus Group Meeting Notes 4/13/21

- No eminent domain is proposed
- City is not required to build housing, they are required to zone to accommodate housing
- Access would be addressed at time of development proposal
- At this time, the capacity for discussion purposes is consistent with the current zoning for the property
- The sphere property may be in the County's HE sites inventory

How were most/least acceptable development types determined?

- Through community survey, 280 responses
- Statistic difference between top 4 and bottom 4
- Hard to believe repurpose of surplus school property is in bottom 4 - did people misunderstand what this is/means?

Practicality of Proposed Solutions

- Need practical access to properties
- Does the State really care about how practical these options are?
- What level of reasonableness goes into selection of sites?
 - If access not reasonable, not ok
 - If hard/difficult, ok
 - City required to discuss circulation and access
 - If doesn't exist currently, what it might look like
 - Don't need details of cost and location at this time, but plan for what would happen at time of development
- What if properties ID'd are not feasible to develop?
 - City needs to ID appropriate zoning to meet RHNA
 - State recognizes the difficulties with implementing development
 - If they do not develop for whatever reason, the City would need to re-address those issues in future HE update
 - Want to pick sites that can achieve objective of RHNA, don't want to pick sites that are completely infeasible

Infrastructure

- Is it up to the developer to estimate and cover the cost of infrastructure?
 - Yes

School Sites

- How would school sites be redeveloped?
 - School District would have to designate sites and go through a disposition process, then developer would have to apply for rezoning
 - Anyone can submit an application to develop/rezone a property, even if not ID'd in the HE inventory

HOW TO GET TO 680 UNITS?

- What scenarios or components of the scenarios are most acceptable?
- What components are least acceptable?
- Are there any other development types we should consider?

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

General Discussion

ADUs

- Least favorite – would directly impact more homeowners than any other options
- Would not impact me personally, but could impact others
 - Concerns with blocking views
 - Would need to look at further
- How can HOAs prohibit ADUs if required by state law?
 - CCRs have limitations that aren't part of state law
 - HOAs currently having this fight with state
 - New legislation to lessen reach of HOAs
 - As a City, we make zoning consistent with state law
- Who gets the 39 units?
 - Not limited to 39, if less or more ok
 - 1 ADU has been built to date
 - In this instance, HCD will not require identification of specific sites

Repurposing of Office Sites

- Preferred option
 - Numbers make it look like this is easiest way
 - Would impact the least amount of homeowners
- Open to this b/c a lot of it seems to be sitting there empty
- Do we have a lot of vacant offices right now is RSM?
 - Building in blue: 46% vacant
- What would impact be on infrastructure? Want to make sure infrastructure could accommodate additional growth.
 - Analysis done at time of development proposal to make sure can accommodate housing units
 - Infrastructure upgrades responsibility of developer

Appendix C: CAR Alternates Focus Group Meeting Notes 4/21/21

- Would want to make roads adequate to prevent gridlock
 - Signals, wider streets, etc.
- Commercial/retail opportunities?
 - Great opportunity to zone for mixed use which would allow office to stay
- Possibility to convert existing office buildings to apartments?
 - Not sure – it would be up to developers
- Would be opposed to high rise buildings
 - More appropriate in LA or Irvine
- High rise probably not option for RSM
 - City Council is very committed to master plan and character of community
 - Will plan for additional units at most appropriate density possible

Very High Fire Hazard Severity Zones

- Nobody wants to build in these zones
- Dove Canyon just had fire last weekend
- Would prefer not to put any more development in that area, including nursery
- Because street where people would have to evacuate not adequate
- Tiny road in canyon would be nightmare for emergency evacuation
- Don't picture anyone in that area being receptive to development
- Difficulty putting in additional roads
- Don't want to be in a situation where people are stuck like Paradise or Yosemite
- Firewall breaks in community made it comforting to live here
 - People who move here understand the fire risk
 - But also wind can blow and situation can turn on a dime
- Not opposed to having a few developments in Chiquita Ridge or Rose Canyon
 - But also moved here because liked feeling of openness and not having view blocked
 - Mixed feelings on Chiquita Ridge and Rose Canyon, ok with it as long as done properly
 - Want to keep openness of what I bought into

Workforce Housing

- Second choice behind office sites
- Will help take pressure of roads

Access for northern sphere

- Nursey land right next to our property
- Shadow Rock access would highly impact our community

Infrastructure

- Subdivision Map Act and CEQA – requires analysis of infrastructure
- CEQA has section on wildfire risk
- 3 Bills in current legislative session dealing with development in high fire hazard zones

Questions

- Who is paying for this? How much does RSM have to pay? Is the City responsible for doing the development?
 - No (same answers as previous notes)
- Who has final say so in which direction we are going to go with?

Appendix C: CAR Alternates Focus Group Meeting Notes 4/21/21

- We are developing recommendations based on citizen feedback and professional opinions
- Focus group feedback will be shared with Planning Commission in June
- Ultimate decision rests with CC

HOW TO GET TO 680 UNITS?

- What scenarios or components of the scenarios are most acceptable?
- What components are least acceptable?
- Are there any other development types we should consider?

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

Discussion

Statements

- Group is supportive of anything that would help keep RSM progressive and moving forward
- If all business park gets converted to residential, could change nature of the City
 - Can do overlay on specific parcels with owners' cooperation (ideal)
 - Potential to regulate "up to X # of units" or "XX sq ft of residential"
 - For example, commercial recreation is currently allowed only up to 150K sq ft, once developed, no more CUPs (can do something similar for residential)
 - Larger overlay with safety valve for X # of units to prevent criticism of benefitting specific property owners only
- Might be more acceptability for higher cap if larger overlay zone
- Leave it floating so no owner/developer would disproportionately benefit from zoning
- Consensus that the information presented is very detailed, group not sure if able to rank choices at this time (needs more time to think about the issues/opportunities)
 - Voting does not commit to final choice
 - We will have ongoing discussions
 - Will provide copy of presentation to participants; keep to selves until complete all focus group meetings
- No matter how you slice it, RSM is small community, and shortage of all types of properties (including housing), concern if we convert too many properties to residential, could create shortage of other property types
- RSM is master planned community for 50K, and that's what we have, so any additional development needs to be carefully considered
- In general, the 3 undeveloped sites seem to represent low hanging fruit
- Support for both repurposing office and workforce housing in the business park but
- Interested in what the approach would be – blanket zoning or specific areas – and if there would be a cap on residential development for these development types

Appendix D: Applied Medical Focus Group Meeting Notes 4/15/21

Questions & Answers

- How are SOI and Rose Canyon in Scenario D?
 - Order doesn't have any meaning
- What is the ownership in SOI?
 - All under private ownership, all within unincorporated County
 - One nurse there
 - William Lyon Homes
- How would access work in SOI because currently no road?
 - Access determined at time of development proposal
- Was workforce housing ranked high by the community?
 - Yes
- Why no repurposing of commercial?
 - Not desirable by community through survey
- Is eminent domain proposed?
 - No
 - The goal is zoning at this point
- What happens if none of the units are developed in next 8 years?
 - Then must deal with during next HE update
- How would repurposing of office sites work?
 - Could completely rezone office sites, and they would be legal non-conforming
 - Could do overlay zone – office properties could accommodate residential, but office sites stay and don't become legal non-conforming
 - Can also do overlay zones in business park area
- Do you get credit for potential # of homes, or must be actual # of homes?
 - Potential, based on similar scenarios
 - HE must ID specific sites by APN that have programs in place to accommodate City's RHNA at different densities
 - State says that at 30 DUs/AC, that density threshold is adequate for lower income categories (result in units affordable to low-income), but we know that's not always true in practice
- What is the significance of outlined parcels in the business park slide?
 - Parcels with 100% office use
- What is the schedule for the HE update?
 - Oct 15th of this year
 - Must implement zoning within 3 years of HE being adopted (Oct 2024)
- How are income thresholds defined?
 - State sets thresholds
- What was methodology for determining number/percentage of units?
 - SCAG allocated 1.3M units across the region
- Does it accurately reflect the needs of the City?
 - RSM did appeal 680 unit allocation
 - 60% of OC cities appealed
 - Over 100 cities throughout SoCal appealed
 - SCAG denied all but 2 appeals
- Does anything not seem like a good idea?
 - No strong concerns
 - Nothing on slide is really bad idea, but don't know enough yet to choose favorite(s)

HOW TO GET TO 680 UNITS?

- What scenarios or components of the scenarios are most acceptable?
- What components are least acceptable?
- Are there any other development types we should consider?

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

General Discussion

Chiquita Ridge

- What is current zoning?
 - Open space, so would need to be rezoned
- 23 of the 92 acres shown in purple must be dedicated to a sports park as part of settlement agreement with County
 - No indication that County is willing to change this
- 18 acres is estimated pad development size after grading

Rose Canyon

- Are most residents above moderate income here?
 - Yes
- Might be good spot to focus on for low-income residents to help with disparities in availability of services/lack of services

Repurposing of Office Sites

- Some people will be able to work from home, but some will also need to go back to offices, so should keep some office space

ADUs

- Any flexibility on splitting lots to convey to another owner to create another source of revenue?
- Appreciate you don't think ADUs will solve all housing problems
- How were ADUs #s calculated?
 - 5 /year for 8 year planning period

Workforce Housing

- 10% of homeowners work for cities, 10% teachers and police and fire, ministers or pastors

Appendix E: Advocate Focus Group Meeting Notes 4/21/21

- Could be good option if people could live and work in same area

How important is access to transportation?

- Depends on of quality of transportation route, and whether it helps get people to work
- From financing perspective – affordable housing funding prioritizes areas that have services and transportation, could help with tax credits
- H4H matches people with a product that will make quality of life easier, avoid huge commutes
- If not close to people's jobs and services, then no good
- Cheaper doesn't equal better
 - i.e. cost of living in Riverside doesn't offset cost of commuting from Riverside

Policies/Programs

- Aside from density, are you looking at any other policies or programs that would help provide affordable units?
 - City will explore role that policies and programs play
 - Not at this stage yet
- Important for policies/program to go hand-in-hand, otherwise you lose the opportunity
 - Other cities have not been able to do after the fact because property owners want to retain land value

Home Ownership

- Majority of conversation re: affordable housing is on rental units
 - This is a massive key part of equation, important to have stable rental option
 - But also need to provide affordable ownership units
- Moderate income for a family of 4 is just over \$100K in OC
 - If they can't afford market rate rent, they are never going to be able to afford moving from an affordable rental to a market rate home
 - Cannot go from \$2,600 to \$5,000/mo payment
- Must provide missing link in continuum from rental to ownership
- There is a gap in home ownership between whites and other races
- City should be careful to not segregate affordable rental units from market rate homes
- Equity in home ownership helps with generational wealth

Preferred Scenarios

- SOI could be good, but maybe a Scenario F could have some units in all locations
- Agree with mix of scenarios (with some units in all locations)
- Distributing across all locations would be best chance for affordable housing
- A, C and E are better ones
- Need diversity of housing, needs to be for mixed-income levels in all locations
- A and B could be good opportunities,

Misc conversation at end of meeting

- Repurposing areas could increase property values
 - Happening in Santa Ana
- What is considered affordable in OC?
- Be careful of moderate-income units counting as low-income
- Make sure to include affordable housing provision to increase affordable housing at all income levels

Appendix E: Advocate Focus Group Meeting Notes 4/21/21

- In lieu fees not effective
 - In lieu fee should be an amount that will allow to leverage funding an enable affordable housing
- Inclusionary Zoning
 - % to different income levels
 - Gives developer heads up so can consider when cost estimating
 - Knowing specifics will make development easier
- Find innovate ways and incentives other than inclusionary policies
 - H4H can help develop and fill units
 - H4H tried to partner with developer... offered to make 10 units affordable and put families in homes, and take burden away from developer but stopped by NIMBYs
 - In a commercial use site, developer took housing money and in lieu fees to partner with H4H to create mixed use
- Similar framework to ADU incentives
 - Keep at affordable level, get discounted fees or other incentives

- A lot of cities are concerned about providing affordable units, but they all end up being for moderate income, then they have to go back and rezone for very low and low income, would save manpower in future by having zoning in place in place ahead of time
- Be pragmatic about how development moves forward
- Zonings or overlays are opportunities to capture affordability
- Be careful how to describe affordable housing because saying that \$90-100K is low income is staggering to a lot of people
- Explain we are trying to house individuals who already work in our communities and having trouble paying rent
- “Softer density” – ADUs and duplexes and splitting lots, triplex that looks same and matches aesthetic of 1-2 single family housing
- Land use and city zoning are a subsidy, are a way to increase development
 - Important for city to look with this framework, instead of just trying to meet numbers
 - Make sure we don't lose when allowing for new opportunities, subsidizing market rate development
 - Make sure to capture affordability
- Typical H4H home costs \$450K, partly paid for by owner, part donations
 - If can build 2-4 homes instead of 1, helps with costs
 - Allowed to maximize land available

HOW TO GET TO 680 UNITS?

- What scenarios or components of the scenarios are most acceptable?
- What components are least acceptable?
- Are there any other development types we should consider?

Development Type	Scenario A	Scenario B	Scenario C	Scenario D	Scenario E
Sphere of Influence	-	-	-	612 (SFD)	-
Chiquita Ridge	540 (MF)	-	86 (SFD)	-	-
Rose Canyon	-	-	-	28	100
Repurposing of Office Sites	30	640	464	-	440
Workforce Housing in the BP	60	-	90	-	90
Accessory Dwelling Units	40	40	40	40	40
Total	680	680	680	680	680

General Discussion

SOI and Chiquita Ridge

- Would these two communities stand alone, or would they be part of larger RSM (SAMLARC)? i.e., Robinson Ranch doesn't fall into RSM or get perks of living here. Would they be allowed to use the lake, parks, etc.?
 - None if those properties are currently within SAMLARC
 - Process to develop their own HOAs
 - Any park within Chiquita Ridge would be public
- Northern area and SOI not a good idea
- Has any traffic study been done? Would need massive change throughout the canyon.
 - Does not get into specifics of how infrastructure would be developed – that would happen at the time of subdivision application
- Nice flat land, but probably too much work to not make that a traffic nightmare

Repurposing of Office Sites

- A lot of housing being developed in LA County is taking biz parks and converting into housing units – is that a possibility in RSM?
- Strong believer of switching from biz park to housing units – has that been considered?
 - Yes, 2 options supported by community: Repurposing of some office properties and subset of allowing for workforce housing
- RSM Pkwy – is RV dealership part of that or could it be?
 - Not at this point in time
- Conversion of commercial centers was popular b/c wanting to maintain balance
- Conversion of office spaces would be more acceptable by citizens
- Going into open space not good idea
- Great part of living in RSM is open space
- Going into open space b/c of environmental reasons won't be looked upon well by residents

Appendix F: Community At Large Focus Group Meeting Notes 4/29/21

- Moved here because of the views
- To develop undeveloped land you lose the wilderness effect
- I agree 100%, we should look into commercial properties where owners are willing to convert their properties into residential
- Business not returning in blue square on office sites slide, will mostly be vacant
- Envisioning as future homeowner, where I would prefer to buy...
 - Tomas along RSM Pkwy, 30212, where dentist office is
 - Walking proximity to everything is extremely ideal
 - Ideal repurposing sites
- What kind of research is being done about existing businesses and what would be taken away, and how that would affect the community?
- If we eliminate those, then everyone has to drive out of community to get needs met
 - Next steps will be to reach out to specific property owner and see if they would be interested
 - Development happens in free market, no one be forced, can redevelop if so desire
- Is there some limit that city puts on numbers of dentists, etc.
 - Idea with re-use is that maybe there is too much and can consolidate, and housing could be added to what's there
- If property owner says no, then might not be possible even if we like it?
 - Yes, but started with community input first b/c have to start somewhere
 - We want mutually agreeable decisions

Rose Canyon

- Is already in middle of developed area
- Better idea b/c a lot of people's concerns are traffic, best location as far as flow of traffic
- Agree with last commenter, commercial property already used/spoken for
- Work home trends will continue
- Doesn't make a lot of sense
- Quality of life, residents live close to golf course b/c walking paths, trails
- The more you nip away at that, the more you reduce quality of life
- Why was Rose Canyon never developed?
 - Road ROW where road was supposed to continue up to switch backs
 - Transition road that never happened

High Risk Fire Areas

- Still not over Sept/Oct, has completely changed where considered moving
- Don't want to live in these areas
- Maybe eliminate Chiquita Ridge and Rose Canyon

Questions

- In the past, the biz center near Dove Canyon has been talked about as potential for changing to residential? Why not considered?
 - Rated as least acceptable by community
 - Application on file (incomplete for 1.5 years)
- Are we zoning for someone like Toll Brothers to come in and develop homes?
 - One possibility
 - Allocations for low and very low and moderate income housing
 - Need to zone for a host of development types
- Does the every 8 years have an end point? When do we run out of space?

Appendix F: Community At Large Focus Group Meeting Notes 4/29/21

- 1.3M housing units given to region by the State; Gov Newsom and legislature have made housing a priority
- A lot of Southern California cities unhappy with RHNA allocation process
- Call to change process currently in progress
- On existing housing, will owners be able to get tax credits to build addition that they can rent out?
 - Not aware of any that exist right now
- Are there really 40 properties in RSM that have adequate lot size for ADU?
 - RSM has limited experience (only 1 ADU)
 - There are lots that are appropriate
 - Unlikely to think 40 will be developed over next 8 years
 - Allowed to count as credit, like a free BINGO space
- Does RSM have limit on how high we can build? Is it a consideration to go higher to get more units out of the same land?
 - Yes, fine balancing act. Council very supportive of maintaining master plan, so no high rise
 - Option to go a little higher, but need to find happy medium

Overall Consensus

- Focus on sites in developed areas first
- Then if need to look at any other areas, SOI and Chiquita Ridge would be least preferable
- Rose Canyon might be ok to explore
- Will probably be combination of scenarios
