

ESG-CV Duplication of Benefits (DOB) Calculation Worksheet

What is a Duplication of Benefits (DOB) review? DOB can arise when assistance from more than one source of funding is received or available for the same purpose or activity. A DOB review ensures that for all disaster recovery assistance received or expected by an applicant, there is no waste of government resources through the receipt of excess benefits. The Robert T. Stafford Disaster Assistance and Emergency Relief Act (Stafford Act) prohibits any person, business concern or other entity from receiving recovery funds if financial assistance has already been provided for the same purpose(s). The following worksheet identifies several of the most common sources of funds that may pose a Duplication of Benefit for ESG-CV activities.
