I. Background and Summary of Changes

On January 6, 2021, the U.S. Department of Housing and Urban Development (HUD) released Federal Register Notice 86 FR 561 that allocated an additional \$64,907,000 of Community Development Block Grant Mitigation (CDBG-MIT) funds under Public Law 116-20 for the State of California. The additional funds are to support mitigation efforts in areas impacted by FEMA Disasters DR-4382 and DR-4407, covering Butte, Los Angeles, Ventura, Lake, and Shasta Counties, with no less than 50 percent of the funds expended in the most impacted distressed areas (MIDs).

HCD received approval for its prior 2017 CDBG-MIT Action Plan on June 4, 2020. The January 2021 Federal Register Notice states that grantees that have previously received CDBG-MIT allocations are able to amend their original Action Plan to create a single CDBG-MIT Action Plan covering both 2017 and 2018 disasters through a Substantial Action Plan Amendment.

HCD's substantial action amendment 2017 and 2018 CDBG-MIT Action Plan (MIT APA1) was submitted and approved by HUD in July of 2021. The 2017 and 2018 CDBG-MIT Action Plan Amendment two (MIT APA2) was submitted and approved by HUD in May of 2023. There was a subsequent non-substantial amendment done in December of 2023.

The 2017 and 2018 CDBG-MIT Action Plan Amendment four (MIT APA4) is a non-substantial amendment which updates the 2017 and 2018 Planning and Public Services program budgets.

Summary of Changes:

MIT APA 4 addresses the following item:

This Action Plan Amendment adjusts the 2017 and 2018 Planning and Public Services program budgets. The adjustment allows for sufficient funding of Public Services projects submitted in response to the 2017/2018 CDBG MIT-PPS and MIT-RIP NOFA. Funding is shifted from the 2017 Planning budget to the 2017 Public Services budget and from the 2018 Planning budget into 2018 Public Services budget.

V. Proposed Mitigation Projects and Leverage:
