Narratives

Disaster Damage:

2018 was the deadliest year for wildfires in California's history. In August 2018, the Carr Fire and the Mendocino Complex Fire erupted in northern California, followed in November 2018 by the Camp and Woolsey Fires. These were the most destructive and deadly of the dozens of fires to hit California that year. In total, it is estimated over 1.6 million acres burned during 2018. The Camp Fire became California's deadliest wildfire on record, with 85 fatalities. 2019 was a quieter wildfire season, but still saw several fires, including the Kincade Fire, which burned over 77,000 acres in Sonoma County. Massively destructive wildfires returned in 2020 with the Creek fire, August Complex, SCU Lightning Complex, LNU Lightning Complex, North Complex, SQF Complex, and others.

1. July-September 2018 Wildfires (DR-4382)

At the end of July 2018, several fires ignited in northern California, eventually burning over 680,000 acres. The Carr Fire, which began on July 23, 2018, was active for 164 days and burned 229,651 acres in total, the majority of which were in Shasta County. It is estimated that 1,614 structures were destroyed, and eight fatalities were confirmed. The damage caused by this fire is estimated at approximately \$1.659 billion. Over a year since the fire, the county and residents are still struggling to rebuild, with the construction sector pressed beyond its limit with the increased demand. The Mendocino Complex Fire, which began on July 27, 2018 and was active for 160 days, is the largest fire in California's history, burning a total of 459,123 acres. It was comprised of the River Fire and Ranch Fire, and impacted Mendocino, Lake, Colusa, and Glenn counties. Lake County was identified as a designated county by FEMA in its DR-4382 disaster declaration. The majority of the fire burned forested areas however 246 structures were destroyed and there was one fatality. It is believed the fires caused damages upwards of \$267 million. Lake County is experiencing the compounding impact of over 10 disasters since 2015, with over 60 percent of the county's land mass burned in the last few fire seasons.

2. November 2018 Wildfires (DR-4407)

On November 8, 2018, the Camp and Woolsey wildfires ignited in Butte, Los Angeles, and Ventura counties. Together, the Camp and Woolsey wildfires claimed 89 lives and burned over 250,000 acres. These fires became some of the most

destructive in California's History. The Woolsey Fire spread quickly due to the southern blowing Santa Ana winds and destroyed 1,643 structures in Los Angeles and Ventura counties. This fire caused between \$3.5 billion and \$5.5 billion in damage to residential properties, according to a report released by CoreLogic. This is in a region already struggling with a housing shortage. The Camp Fire in Butte County has become California's deadliest and most destructive wildfire on record and destroyed approximately 19,000 structures, including 14,000 homes. Tragically, 85 lives were lost. Nearly the entire Town of Paradise was destroyed in this fire, which moved quickly and was fueled by high winds. Some of the impacted residents are attempting to stay and rebuild, others to relocate within their county, to neighboring communities, or even further. This will all take place under the effects of a housing crisis already impacting California, with low vacancy rates and ever-increasing costs to rebuild.

Recovery Needs:

The intensity and scale of the 2018 wildfires were fueled by high temperatures, strong winds, and dry conditions. Dead and dying trees also continue to pose a wildfire risk, a condition largely brought on by years of drought. The United States Forest Service estimated that 18 million trees had died in California in 2018, bringing the total to over 147 million trees since droughts began in 2010. And while the rate of mortality has slowed in recent years since the drought officially ended in 2017, Thom Porter, CAL FIRE Director and California's state forester stated, "...the forests of California are still under significant stress. The stress of drought, insects, disease, and prolific wildfire will continue to challenge the resilience of the state's forests."

Extreme weather conditions brought on by climate change, such as the droughts of previous years, will continue to heighten the risk of wildfire activity in California. A study out of Columbia University in 2019 found that California's wildfire activity has increased eightfold in summertime forest-fire area, largely driven by the dry conditions brought on by human-caused warming. The resulting tree mortality contributed to the fast-moving and intense nature of the fires that devastated California in 2018.

It is estimated that nearly 650,000 residences in California are at either high or extreme risk of wildfire, and the reconstruction cost value of those properties is valued at over \$280 billion. A McClatchy analysis identified more than 75 towns and cities with populations over 1,000 where, like Paradise, at least 90 percent of residents live within the Cal Fire "very high fire hazard severity zones," and the total population living in these very high fire hazard severity zones is believed to be over 2.7 million. While agencies such as Cal Fire and U.S Forest Service make strides in fire and forest management, the state must plan and prepare for future events such as the disasters that hit in 2018. 2019 was a quieter wildfire season, but still saw several fires, including the Kincade Fire, which burned over 77,000 acres in Sonoma County. Massively destructive wildfires returned in 2020 with the Creek fire, August Complex, SCU Lightning Complex, LNU Lightning Complex, North Complex, SQF Complex, and others.

Anticipated Unmet Recovery Needs

The Needs Assessment section details quantified losses resulting from the disasters, resources available to address the identified losses (as of the publication of this document), and the remaining unmet recovery needs.

Recognizing the requirement included in the Federal Register Notice to address housing needs first, HCD has determined that repairing and rebuilding owner-occupied and rental housing is the priority for CDBG-DR funding currently available to California.

HCD is committed to pursuing additional resources and leveraging other resources to support the statewide recovery effort. In addition, HCD is continuing to coordinate closely with local, state, and federal partners with respect to ongoing data collection efforts, identifying resources, and understanding how unmet needs evolve over time.

Federal Register Notice 85 FR 4681 outlines the methodology HUD used to determine serious unmet needs for the major disasters covered by Public Laws 115-254 and Public Law 116--20. HUD's methodology typically uses FEMA Individual Assistance and SBA home loan registrations to calculate serious unmet needs. For its part, HCD recognizes the importance of using a more granular and locally informed unmet needs methodology to build the foundation for an equitable distribution of recovery funds. To accomplish this, HCD has elected to utilize more detailed information and alternative data sources, particularly CAL FIRE damage assessments, to qualify both the impacts and remaining unmet needs for disaster declared areas. HCD also takes very seriously a commitment to not just anti-discrimination of protected classes, but also to support for those individuals who may be disproportionately impacted. Therefore, HCD used demographic analyses to determine allocation methodologies and scoring priorities.

The following provides a summary of disaster impacts from DR-4382 and DR-4407 across three categories: housing, infrastructure, and economic revitalization. Funding awarded or obligated represents funding already made available to address these impacts; this includes FEMA, Small Business Administration, and insurance funding. The gap between total impact and available funding makes up the unmet need. CDBG-DR funds must be used to address this unmet need and not duplicate or supplant other recovery funding. The availability of data shifts over the course of recovery; the unmet needs analysis uses the best available data at the time of analysis. As illustrated below, the major wildfires in California in 2018 caused approximately \$23 billion in total need, including housing, infrastructure, and economic factors. Almost \$16 billion of that need is covered through currently available funding sources, leaving an unmet need of \$7.2 billion.

Proposed Budget

\$ 17,868,376.00

Location Description:

Activity Description:

The project consist of public service activities (workforce training and participant supportive services) and public facility improvements to implement the training program.

The Paradise workforce training program will result in improving one workforce training facility, called the Paradise RISE Center. The public facility improvement activities will take place at an existing building on Paradise High School campus located at 5911 Maxwell Drive in Paradise. The building is 10,100 square feet, and currently consists of Career and Technical Education (CTE) training space with some equipment, as well as classroom space. The estimated budget for public facility improvements is \$5.5 million, this portion of the project will be closely coordinated with Paradise Unified School District. The scope of work for the facility improvements would update the facility for current equipment used in welding, sheet metal work, plumbing, electrical, and construction/wood working training. The interior of the space would be rehabilitated to current training standards for the training programs intended to occupy the space. Training programs and access to the participant supportive services will be provided at this location once the improvements are completed. Training will also be provided at Butte College. No improvements are needed to Butte College prior to training commencement.

Additionally, the Paradise RISE program will serve 500 LMI individuals with its workforce training program and offer 13 participant supportive services. The beneficiaries will be primarily high school students from the Paradise area for training in the construction and medical fields. Classes will also be available to college students and adults in Butte County.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
Workforce Alliance of the North Bay	Local Government	\$ 4,706,721.00

Location Description:

Activity Description:

The Lake Wildfire Resilience Workforce Program consist of Public Service activities (workforce training and participant supportive services) and Public Facility Acquisition and Improvement activities to implement the workforce training program. The Lake Workforce Program project will address several unmet needs in the Lake County workforce and economy resulting from the 2018 Wildfires through public service, public facility acquisition, and public facility improvement activities. Workforce Alliance of the North Bay (WANB) will partner with Tribal EcoRestoration Alliance (TERA) to provide wildfire resilience workforce training including conservation field work, ecological management, and wildland fire and forest restoration management. As a result, the Lake County region will be better equipped to face the long-term efforts needed to recover and rebuild from the 2018 disasters and will be more resilient to future disasters.

This project will serve 100 Lake County low- and moderate- income residents. Additionally, recruitment efforts will focus particularly on young adults recently graduating from high school or an alternative school who are ready to enter the workforce. Trainees in the program will be offered fourteen (14) supportive services provided by WANB which are crucial for long-term success. The WANB will acquire and make minor improvements to an existing property with three buildings, (a residence with an office, a barn, and a workshop) to provide a sufficient training facility. The facility will be the permanent homebase for TERA's suite of workforce development programs, which will provide the long-term, stable home necessary to continue operating this program in the community.

County of Ventura

Organization Type

Local Government

Proposed Budget

\$ 7,477,193.86

Location Description:

Activity Description:

The VC HEAL project will address the unmet needs from the 2018 wildfires in Ventura County through public service activities by offering workforce training for 215 LMI Ventura County residents in healthcare occupations, restoring healthcare infrastructure, creating job opportunities, promoting community well-being, strengthening disaster preparedness, and ultimately building a more resilient healthcare system and community. Enrollees of the healthcare training will take coursework in synchronous (virtual online) and asynchronous (online and self-study) interactive learning modalities. The required on-site clinical externships will take place at approved partner sites, (e.g. clinics and hospitals) in Ventura County. VC HEAL will acquire a mobile unit to reach out to communities that may have transportation barriers or difficulty accessing our traditional job centers, vital for residents in rural areas of Ventura County. By bringing services directly to residents, a mobile job center will reduce barriers to participation in the VC HEAL program, making it more convenient for eligible people to learn about and enroll in the healthcare training programs. The mobile unit job center will also be used to target outreach efforts to specific residents or populations that have been disproportionately affected by the disaster or that have a high need for healthcare training. VC HEAL will also provide participants supportive and career services to 215 eligible LMI participants.

Location Description:

Activity Description:

The Shasta County Workforce Recovery Training Program (WRTP) consist of Public Service activities (workforce training and participant supportive services) and Public Facility Acquisition activities to implement the workforce training program. The Workforce Recovery Training Program (WRTP) is a new program that will address unmet needs in Shasta County resulting from the 2018 wildfires by providing accessible workforce training pathways for LMI residents, so they can gain skills, receive supportive services, access jobs and advance overall long-term community recovery within Shasta County. This project provides public service activities through workforce training in trades that are essential to Shasta County disaster recovery, such as general construction, culinary, emergency response, forest restoration and management, healthcare, clerical and education personnel, and entrepreneur support. The WRTP will also offer twelve (12) participant supportive services. CDBG-DR funds will also be used for public facility acquisition activities by acquiring three (3) properties in Shasta County to serve as the WRTP hub where training will take place and acquire one (1) mobile unit that will bring the services of the WRTP to areas throughout rural areas in Shasta County.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
City of Redding	Local Government	\$ 3,494,440.00

Location Description:

Activity Description:

The CDBG-DR Multifamily Housing program has allocated \$16,660,145.00 to the City of Redding, which was heavily impacted by the 2018 federally-declared disaster, for new construction of low-to-moderate income housing units. Four new-construction projects have been funded and are captured under Activity Numbers D181-MFDC-M0056, D181-MFDC-M0057, D181-MFDC-M0058, and D181-MFDC-M0060. It is anticipated that two additional new-construction low-income MHP housing projects will be funded under this MSA. When these projects are finalized, separate Activities will be added and the budget reflected in this MSA-level Activity reduced.

Responsible Organization	Organization Type	Proposed Budget
CALABASAS, CITY OF	Local Government	\$ 0.00

Location Description:

Activity Description:

City of Calabasas is being funded to identify, select and submit potential multifamily projects for HCD approval up to their total contract amount of \$3,257,461.00. City of Calabasas will then oversee the construction and lease up of approved projects, and monitor the approved projects for compliance with affordability requirements through the term of the agreement. As projects are approved, they will be added as separate Activities and the budget for the City of Calabasas MSA reduced.

Butte County	Local Government	\$ 1,795,000.00

Location Description:

135 Tuscany Drive, Oroville, CA 95965

Activity Description:

The proposed project would construct 51-affordable housing units for seniors aged 55 and older on a 3.542-acre parcel. The complex would be comprised of a three-story residential building with a unit mix that includes 42 one-bedroom units with 709 square feet and 8 two-bedroom units with 929 square feet; one additional twobedroom unit would be designated for on-site management. The project would include necessary grading and site preparation, construction of the buildings, parking areas, landscaping and necessary infrastructure including, but not limited to, curbing, gutters, sidewalks, storm drains, street lighting and signage. The total estimated project cost would be approximately \$19,447,492, including \$1,600,000 funded by HCD.

Location Description:

Activity Description:

The project would develop approximately 6.6-acre site currently containing three multi-family residential buildings, two of which are abandoned. The proposed project would develop the site into a residential and senior housing community in two phases. Development would include senior housing (Oak Park Senior Apartments) with 18 studios, 41 one-bedroom units, and one manager unit and family housing (Oak Park Family Apartments) with 38 one-bedroom units, 18 two-bedroom units, and 18 three-bedroom units, and one a manager unit. At least one of the buildings currently residing on the site would need to be demolished. Other amenities would include parking stalls, various stores, management offices, and a pool.

Among 76 units within Oak Park Family Apartments (including 1 manager's unit), there are 60 DR units:

- 4 one-bedroom units @<30% AMI
- 4 one-bedroom units @<40% AMI
- 24 one-bedroom units @<50% AMI

Clearlake	Unknown	\$ 3,154,450.00

Location Description:

Activity Description:

Oak Valley Villas is a project that provides new construction of an 80-unit affordable multifamily housing project, targeting family households with incomes at 30, 40, 50, and 60 percent of AMI. The project site is located at 14789 Burns Valley Road, Clearlake, California, 95422 census tract 0007.01. The financing sources include 9 percent tax credits, HCD-CDBG funds, City donated land, and a City Fee carry back note.

The project will be comprised of five 2 and 3-story residential buildings with a unit mix of 20 one-bedroom units with 652 square feet, 36 two-bedroom units with 734 square feet, 18 three-bedroom units with 1,274 square feet, and 6 four-bedroom units with 1,486 square feet; one additional three-bedroom unit will be designated for on-site management for a total of 80 units. There are 79 restricted units and 1 manager's unit.

Among these, there are 33 DR units.

8 units@ <30% AMI include two (2) one (1) bedroom units, three (3) two (2) bedroom units, two (2) three (3) bedroom units, and one (1) Four (4) bedroom unit.

25 units @ <50% AMI includes five (5) one (1) bedroom units, thirteen (13) two (2) bedroom units, five (5) three (3) bedroom units, and two (2) Four (4) bedroom units.

Activity Description:

The Center of Hope Apartments Phase II Project is a proposed 49-unit supportive services housing project comprised of one-, two-, and three-bedroom units in three (3) residential buildings with a shared common area and community room and laundry area for low-income households. The project will include the extension of Alfreda Way from its terminus south of the site up to an extension of Industrial Street from its terminus to the west of the project site, including a bridge across Little Churn Creek. The project will consist of construction of the described residential buildings, with ground floor commercial space in one building, and all necessary infrastructure including, but not limited to, sidewalks, curbs, gutters, lighting, water, sewer and electrical connections (including undergrounding), water drains, parking lots, and landscaping. The three 3-story buildings will house 12 one-bed/one-bath units (1/1), 24 two-bed/two-bath units (2/2) and 13 three-bed/two-bath units (3/2). The one-bedroom units will be approximately 709 square feet, the two-bedroom units approximately 929 square feet, and the 3-bedroom units approximately 1,082 square feet.

Activity Description:

The total value of CDBG-DR funding is estimated at \$2,000,000 plus up to \$334,000 in Activity Delivery Costs outside of project total development costs. The total development cost of the Housing Project is estimated to be \$31,508,154 plus the \$1,858,800 estimated value of 55 HUD Section 8 project-based vouchers over 20 years.

The Piper Way Senior Housing Project is a proposed 60-unit affordable housing project to be built located at the terminus of Piper Way near the intersection of Placer Street and Buena Ventura Boulevard in the City of Redding. Twelve of the units will be DRMHP restricted. The project layout consists of two buildings in an "L" configuration paralleling Lear Way at the terminus Piper Way with at-grade parking along the north and west sides. Building heights would be 2-stories on the higher part of the lot and 3-stories on the lower part of the lot. Access to the site would be provided both from the extension of Piper Way and from Placer Street through a public access easement across the First Christian Church parking lot, with driveways connecting between these two access points. In addition, the project would include the installation of a new sewer line across an undeveloped parcel to San Francisco Street and in San Francisco Street to an existing trunk line at Placer Street.

The proposed 95-unit affordable housing project would consist of four (4) three-story residential buildings to be built in two phases of 47- units and 48-units, respectively, on two parcels totaling approximately 5.54 acres. Phase I would be comprised of two three-story residential buildings with a unit mix that includes 12 one bedroom units with 709 square feet, 22 two-bedroom units with 929 square feet, and 12 three-bedroom units with 1,082 square feet; one additional two-bedroom unit would be designated for on-site management. Phase II would be comprised of two three-story residential buildings with a unit mix that includes 12 one bedroom units with 709 square feet, 23 two-bedroom units with 929 square feet, and 12 three-bedroom units with 1,082 square feet; one additional two-bedroom unit would be designated for on-site management. The total estimated project cost would be approximately \$19,626,669, including \$2,500,000 funded by HCD.

Location Description:

Activity Description:

The proposed project is the new construction of 5 two-story buildings providing a total of 43-unit project (42 Units and 1 manager unit) and one community center with other open space play and passive areas on 6.53 acres. The project is located at 5975 Maxwell Drive within the Town of Paradise limits. The property is currently vacant and has a gradual sloping topography. The site offers good visibility and is located in a mixed-use area of the town with the local high school located directly to the South, vacant land to the East, and a large commercial retail center to the West. A mix of retail and commercial uses are located to the North.

Activity Description:

Lincoln Street Family Apartments is a proposed 61-unit affordable housing development that will target low-and very low-income families earning up to 30% and 60% of AMI. The unit mix is comprised of 31 two-bedroom apartments and 30 three-bedroom apartments, with gross monthly rents ranging from \$526 to \$1,215 depending on the unit type and AMI set asides. The Project, Phase I of a two phase project, is located on the southern portion of an approximately 11.8-acre parcel on the west side of Lincoln Street, just south of Wyandotte Avenue in the City of Oroville, California. The project will consist of 3 two- and three-story garden-style walk-up buildings with breezeways containing a mix of 2- and 3-bedroom units with one building including an attached amenity space with property management functions. The project will contain a total of 77,024 gross SF, which is comprised of 74,240 SF of residential space and 2,784 SF of amenity and property management space and will include infrastructure improvements as necessary.

Activity Description:

The Project will consist of eight 14' tall 1-story buildings containing 31 units. The building will be Type V 1-hour construction, fully sprinkled, per the California Building Code with wood frame construction. The foundation will consist of slab on grade construction. The exterior will be horizontal fiber cement board siding. The roof is designed to be gabled with space for mechanical systems and solar panels. Each apartment will include the following amenities: range, refrigerator, microwave, and dishwasher. All of the apartments will be designed for energy efficiency. Seven units will be one-bedroom apartments, 15 units will be two-bedroom apartments, and 8 units will be three-bedroom apartments. One unit will be a two-bedroom apartment to house a resident manager. The Project will have a management office, community building, and laundry room.

Location Description:

Activity Description:

Construction of a mixed-use development along the north and south sides of Shasta Dam Blvd. on approximately 2.09 acres on two sites consisting of 7 parcels within the downtown core. The project includes 49 units (55,700 square feet) of affordable housing primarily on the upper floors of four buildings with up to 7,500 square feet of commercial space on the ground floors. It will offer 15 one-bedroom units (all 1 bedroom/1 bath), 20 two-bedroom units (10 2 bedroom/1 bath and 10 2 bedroom /2 bath), 14 three-bedroom units (all 3 bedroom/2 bath) including 1 two-bedroom nonincome generating manager's unit for households earning between 30% and 50% of the Area Median Income. Shasta Lake Apartments is one component of a larger downtown revitalization project in the City of Shasta Lake in partnership with the City and the local Redding Rancheria Native American tribe.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
Butte County	Local Government	\$ 0.00

Location Description:

Activity Description:

The proposed project would construct one three-story building to provide a total of 64 new affordable apartment units for low-income families and individuals. The 64 units would be comprised of fourteen (14) one-bedroom units, thirty-three (33) two-bedroom units and sixteen (16) three-bedroom units and one manager unit. Community indoor services would include a cafe and community room totaling over 4,000 sq. ft. on the ground floor for community activity uses, management, service space, and laundry services. Community outdoor services would include a play yard, a pool area with hot tub with a covered porch area. The project would be constructed on a vacant lot comprising 2.85-acres at the southwest corner of Esplanade and Greenfield Drive, in the City of Chico, CA.

Among 64 units within the project (including 1 manager's unit), there are 63 DR units:

- 3 one-bedroom units @<30% AMI
- 6 one-bedroom units @<40% AMI
- 5 one-bedroom units @<50% AMI
- 7 two-bedroom units @<30% AMI
- 21 two-bedroom units @<40% AMI
- 5 two-bedroom units @<50% AMI
- 4 three-bedroom units @<30% AMI
- 8 three-bedroom units @<40% AMI
- 4 three-bedroom units @<50% AMI

Construction is expected to start in 10/2025 and complete in 3/2027 with lease up by 6/2027.

Activity Description:

The proposed project would include construction of a 64-unit affordable housing development to serve families, seniors, and persons with disabilities. The development would include eight, two-story residential buildings located along the western border of the site, and would consist of 16 one-bedroom units, 31 two-bedroom units, and 17 three-bedroom units. One of the three-bedroom units would be reserved for an on-site manager. Amenities would be located in the northern portion of the project site, and would include a community center, community garden, outdoor recreation area, and an on-site laundry room. The proposed units would be affordable for households earning between 30 to 60 percent of the area median income (AMI) for Butte County.

Among 64 units within the project (including 1 manager's unit), there are 63 DR units:

- 4 one-bedroom units @<30% AMI
- 3 one-bedroom units @<40% AMI
- 4 one-bedroom units @<50% AMI
- 5 one-bedroom units @<60% AMI
- 11 two-bedroom units @<30% AMI
- 5 two-bedroom units @<40% AMI
- 5 two-bedroom units @<50% AMI
- 10 two-bedroom units @<60% AMI
- 5 three-bedroom units @<30% AMI
- 3 three-bedroom units @<40% AMI
- 4 three-bedroom units @<50% AMI
- 4 three-bedroom units @<60% AMI

Construction is expected to start in TBD/2025 and complete in TBD/2026 with lease up by TBD/2027.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
County of Los Angeles	Local Government	\$ 2,708,009.00

Location Description:

Activity Description:

The proposed project involves demolition of the existing, one-story, 9,299-sf commercial office building and construction of a four-story, 41,500-sf apartment building consisting of 58 affordable units on a 0.58-acre site at 2052 Lake Avenue in the unincorporated Altadena area of the County of Los Angeles. Unit mix includes 57 one-bedroom units and a two-bedroom unit reserved for a full-time manager, which would be located throughout all four stories of the proposed building. Of the 58 total units, 54 units would be unit type 1A (580 sf), three units would be unit type 1B (671 sf), and the managers unit would be unit type 2A (799 sf). Furthermore, of the total units, 10 units would be ADA-accessible units for individuals with mobility disabilities (15 percent of all units), and an additional seven units would be designated as ADA-accessible units for individuals with communication disabilities (10 percent of all units). The proposed project would provide 5,139 sf of open space, consisting of a 3,250-sf courtyard, a 650-sf courtyard, and a 1,239-sf community room. The project would also include offices, a mail room, and a laundry room at ground level. The project would provide 21 "tuck-under" surface parking spaces at the rear of the building to the east, accessible via an ingress/egress driveway off Lake Avenue. Of the 21 parking spaces, five would be designated for electric vehicles (EV). The project would also provide a bicycle room with 29 bicycle parking spaces at ground level, consisting of 25 long-term spaces and four short-term spaces. Pedestrian access would be provided via the sidewalk along Lake Avenue, which connects to an entry walkway. 18 out of 57 restricted units are DR units. All 18 DR units are one-bedroom @ <30% AMI.

Location Description:

Activity Description:

The proposed 12-unit housing project will be built on an approximately 1.09-acre parcel located at 1561 Kay Court in the Town of Paradise (APN: 053-170-144). Kathy Court Rebuild Project proposes a new 100% affordable project on land previously occupied by a 12-unit apartment complex destroyed in the 2018 Camp Fire in Paradise, California. The project will consist of 1 two-story building containing two (2) one-bedroom, eight (8) two-bedroom, and two (2) three-bedroom residential dwelling units, and 25 surface parking spaces.

Location Description:

Activity Description:

Construction of a mixed-use development along the north and south sides of Shasta Dam Blvd. on approximately 2.09 acres on two sites consisting of 7 parcels within the downtown core. The project includes 49 units (55,700 square feet) of affordable housing primarily on the upper floors of four buildings with up to 7,500 square feet of commercial space on the ground floors. It will offer 15 one-bedroom units (all 1 bedroom/1 bath), 20 two-bedroom units (10 2 bedroom/1 bath and 10 2 bedroom /2 bath), 14 three-bedroom units (all 3 bedroom/2 bath) including 1 two-bedroom non-income generating manager's unit for households earning between 30% and 50% of the Area Median Income. Shasta Lake Apartments is one component of a larger downtown revitalization project in the City of Shasta Lake in partnership with the City and the local Redding Rancheria Native American tribe.

Location Description:

Activity Description:

The project would consist of 70 units of family rental housing with a mix of 1-, 2-, and 3- bedroom units. The resident population would be households with incomes and affordable rents from 30% to 60% of the Area Median Income (AMI); 25 project-based Section 8 vouchers are assumed to be available to subsidize affordability further. Amenities for Phase 1 would include 86 surface parking spaces, a shared 5,730 square foot (sf) community center, 2 playgrounds, and open space, including a central green in the middle of the buildings located on the former convalescent hospital site. The Family Housing project will utilize the existing large wastewater disposal field located on APN 050-140-155. This field served the Cypress Acres Convalescent Hospital (CACH) and has a historical capacity of 10,800 gallons per day per Operating Permit (NorthStar 2022).

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
PARADISE, TOWN OF	Local Government	\$ 3,850,000.00

Location Description:

Activity Description:

The project is a new construction development consisting of 71 affordable units plus one manager unit, spread between six buildings (Building B through Building G) within the project site. Buildings B through G would each be two stories with 12 apartment units per building, and Building A would be developed as a 2,988-square-foot (sf) community building, which would include management offices, laundry facilities, and a community room with a kitchenette and a computer library. Each unit would have a private entrance, and either a front porch or private deck. Units would range in size from 620 to 1,156 sf.

Among 72 units within this project (including 1 two-bedroom manager's unit), there are 71 DR units:

- 5 one-bedroom units, 5 two-bedroom units, 5 three-bedroom units @ <30% AMI
- 9 one-bedroom units, 13 two-bedroom units, 7 three-bedroom units @<50% AMI
- 10 one-bedroom units, 11 two-bedroom units, 6 three-bedroom units @<60% AMI

The proposed project would provide a total of 106 parking spaces throughout the site, including 14 parking spaces designed in compliance with the Americans with Disability Act. Landscaping, including trees, shrubs, and open space areas, would be provided throughout the project site, surrounding the proposed buildings and parking areas.

The project has received Tax Credit April 2025 and construction is expected to start November 2025.

PARADISE, TOWN OF	Local Government	\$ 3,850,000.00

Location Description:

Activity Description:

The approximately 1.66-acre project site, identified by APN 050-082-023 is undeveloped and bounded by Pentz Road to the east and Kingdom Court to the south. Surrounding existing uses include a pair of single-family residences immediately to the north; rural single-family residences to the east, across Pentz Road; the Paradise Ridge southern Baptist Church and an associated surface parking lot to the south, across Kingdom Court; and vacant land immediately to the west that contains remnants of residential building foundations. Additional rural single-family residences are located further to the north and west of the site. The Town of Paradise General Plan designates the site as Community Service (C-S) and the site is zoned C-S. The proposed project would include development of an affordable senior housing complex. The complex would consist of two residential buildings comprised of a total of 21 units, each measuring 620 square feet (sf). With respect to amenities, a dog park would be located adjacent to the southern site boundary and a community garden would be located between the two residential buildings, adjacent to the northern site boundary. A total of 27 vehicle parking spaces would be provided throughout the site, including two spaces designed in compliance with the Americans with Disabilities Act (ADA).

Cypress Lane Senior Apartments will provide attractive and affordable housing for low-income residents seeking to return to their hometown following the 2018 wildfire. Centrally located off Clark Road in Paradise, California, the community will comprise 70 newly constructed garden-style apartments on 10.97 acres of land serving seniors aged 62 and above. The Project will have elevators to assist transporting seniors to the floor where their units are located. All 69 low-income units are one-bedroom units with the exception of a 2-bedroom manager's unit.

NATIONAL COMMUNITY RENAISSANCE OF CA	Non-Profit	\$ 4,740,645.75

Location Description:

Activity Description:

Agoura Hills Housing is an 81-unit new construction project with 40 two-bedroom, 40 three-bedroom serving households with incomes ranging from 30-65% of Area Median Income (AMI) and 1 manager's unit. Each unit will have all standard appliances, air conditioning, dishwasher, and storage space. On-site amenities include gated entry, elevator, laundry room, community room, community kitchen, computer room, fitness room, picnic/BBQ area, and bike parking. Off-site amenities, located within 2 miles of the project include a transit stop, a grocery store, a pharmacy, parks, an elementary school, and a medical clinic.

Among 81 units within this project (including 1 three-bedroom manager's unit), there are 80 DR units:

- 8 two-bedroom units, 8 three-bedroom units @ <30% AMI
- 8 two-bedroom units, 8 three-bedroom units @ <50% AMI
- 24 two-bedroom units, 24 three-bedroom units @ <65% AMI

Construction is expected to start early 2026.

Proposed Budget

\$ 58,600,000.00

Location Description:

Activity Description:

Roe Road Extension - Phase 1 Project will construct a new three-lane, 1.25-mile roadway with wide shoulders. The project will include a Class I multi-use pathway, ADA curb ramps, storm drain infrastructure, and improvements to intersections at Pentz Road, Edgewood Lane, and South Libby Road.

Roe Road Extension - Phase 1 Project is part of a five-phase project to construct a new east-west roadway connection between Skyway and Pentz Road. The proposed project will construct 1.25-miles of roadway between South Libby Road and Pentz Road to improve circulation and connectivity throughout the Town and provide alternative ingress/egress routes for residential neighborhoods. The project will also construct a parallel Class I bikeway for travel by people walking and bicycling and provides first responders a dedicated bi-directional travel lane during emergency events. The project improves access to evacuation routes, completes missing road segments, reduces dead-end streets, reduces fire fuel proximity to the roadway, and is consistent with the Town Long-Term Recovery Plan.

All five phases of Roe Road Extension will provide a three-lane roadway and Class I path that connects Pentz Road to Skyway. This creates an additional route that is critical for emergency evacuations and supports the Town's rebuilding efforts.

Location Description:**Activity Description:**

The Off-System Road Rehabilitation Project repairs damaged sections of roadway with Hot Mix Asphalt (HMA) and Aggregate Base (AB), and re-striping when necessary to rehabilitate 47 miles of roadway segments of off-system roadway. The project, funded through FEMA Public Assistance, includes a combination of pavement rehabilitation strategies depending on the severity of damage. In areas of light damage, the pavement will be repaired by cold planing the existing asphalt 2 to 3 inches and then applying an AC overlay of 3 inches. In areas of moderate damage, the pavement will be reconstructed with a new pavement section including 4.8 inches of AC and 2 to 15 inches of aggregate base. In areas of heavy damage, the pavement will be repaired using full depth reclamation (FDR) or pulverization, with thickness ranging from 5.4- to 13.8-inches. All FDR/pulverization surfacing will include an AC overlay ranging from 3 to 3.6 inches in thickness. The pavement strategies were determined based on current road condition surveys, road usage, and existing soil conditions. The project also upgrades non-compliant ADA curb ramps, and adjusts utility facilities and survey monuments to finished grade.

The project will repair 47 miles of off-system roadways that sustained heavy damage in the wake of the Camp Fire. The critical condition of the current roadways risks pavement failure and creates unsafe road conditions. The project will improve safety along public roads that are not part of the federal-aid system. These roads include local roads and rural minor collectors, which provide evacuation routes connecting to the federal-aid system.

Location Description:**Activity Description:**

The On-System Road Rehabilitation Project repairs damaged sections of roadway with Hot Mix Asphalt (HMA) and Aggregate Base (AB), and re-striping when necessary to rehabilitate 32 miles of roadway segments of on-system roadway. The project includes various pavement rehabilitation strategies depending on the severity of damage. In areas of light damage, the pavement will be repaired by cold planing the existing asphalt 2 to 3 inches and then applying an AC overlay of 3 inches. In areas of moderate damage, the pavement will be reconstructed with a new pavement section including 4.8 inches of AC and 2 to 15 inches of aggregate base. In areas of heavy damage, the pavement will be repaired using full depth reclamation (FDR) or pulverization, with thickness ranging from 5.4- to 13.8-inches. All FDR/pulverization surfacing will include an AC overlay ranging from 3 to 3.6 inches in thickness. Pavement rehabilitation strategies were determined based on current road condition surveys, road usage, and gathered field information regarding existing soil conditions. The project also includes modifications to 12 signalized intersections and construction of ADA compliant curb ramps.

The project will repair 28 miles of on-system roadways that sustained heavy damage in the wake of the Camp Fire and debris removal efforts. The critical condition of the current roadways risks pavement failure and creates unsafe road conditions. The project will improve safety along public roads that are part of the federal-aid system. These arterial roadways are either evacuation routes or primary east-west connections to those evacuation routes.

Location Description:

Activity Description:

The Early Warning System project will design, install, and implement a network of emergency warning systems for the purpose of rapid hazard notification.

This project will provide an early warning system with multiple notification channels, including IPAWS/WEA, AM Radio, SMS, social media, and outdoor siren/speakers capable of broadcasting audible alert tones and clear voice messages. The siren/speaker system will be installed in 21 locations throughout Paradise. The system is intended to have battery backup, AC, solar power, user-friendly cloud-based software, and a reliable connection that is not reliant on local power or cell towers.

8554

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
PARADISE, TOWN OF	Local Government	\$ 800,000.00

Location Description:

Activity Description:

The Paradise Gateway Project will construct an 8,554-foot long, grade-separated, Class I multi-use facility along Neal Road from the southern Town limits to Skyway. The project also constructs 28 ADA ramps, up to 2 Rectangular Rapid Flashing Beacons (RRFBs), and undergrounds overhead utilities.

Skyway is a main arterial and evacuation route within Town. Neal Road is also a significant evacuation route. As high-capacity roadways, the settings can be uncomfortable for people travelling without a vehicle. The proposed project will provide infrastructure improvements for people walking and bicycling in the corridor to safely reach destinations throughout Town. The project will provide an 8,554-foot grade-separated, Class I multi-use facility along Neal Road and 2 RRFBs on Neal Road.

The proposed Class I facility serves a dual purpose by providing a dedicated ingress/egress lane for emergency response vehicles and first responders during evacuation events. The project contributes to the development of a connected walking and bicycling network throughout Town and is consistent with the Town Long Term Recovery Plan Tier 1 Project Initiatives.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
PARADISE, TOWN OF	Local Government	\$ 41,347.00

Location Description:

Activity Description:

The Off-System Culvert Replacement Project involves replacing damaged On-System High Density Poly Ethylene (HDPE) culverts and rehabilitation of the roadway section above the pipe at 31 locations. The project is funded through FEMA PA. Roadways targeted for culvert replacements include: Foster Road, Merrill Road, Nunneley Road, Kibler Road, Pine Creek Way, Maxwell Drive, Hollybrook Drive, Paradisewood Drive, Greenwood Drive, De Mille Road, Royal Canyon Lane, Bille Road, Bille Road Extended, Shay Lane, Hensen Road, Valstream Drive, Black Olive Drive, Lucky John Road, Elliott Road, and Chandler Drive,

The project will repair damaged culverts at 31 locations along neighborhood roads connecting to evacuation routes to improve safety and provide safe and effective management of storm runoff. The culverts targeted for inspection were identified by using the Town's Acela inventory database. Plastic culverts that were listed as off the federal and state system and located within the burn areas were identified. Culverts were inspected visually from the surface and/or if possible, using a camera provided and operated by Town staff. In May 2020, culverts were inspected for heat damage. Heat damage was discernible from impact damage by the melted appearance as opposed to a bent or punctured appearance. Heat damage was also identified by discoloration not caused by soil or vegetation.

Proposed Budget

\$ 51,000,000.00

Location Description:

Activity Description:

The Pentz Road Widening project will widen 3.75-miles of Pentz Road from Skyway to the Pearson Road to include a 12-foot-wide center turn lane, widened shoulders, and a multi-use pathway. The project builds upon the FHWA disaster recovery efforts that are rehabilitating the existing roadway pavement.

Pentz Road serves as a primary north-south ingress/egress route for Town residents. Widening the road will improve evacuation efficiency along this route, provide an adequate shoulder to park disabled vehicles and reduce fire fuel proximity to the traveling public. This provides a facility that accommodate daily traffic demand and multimodal needs.

\$ 7,500,000.00

Location Description:**Activity Description:**

The Elliott/Nunnelely Road Extension Project will extend the existing roadway 0.7 miles from its easterly terminus to Pentz Road. The extension will include a two-lane roadway with sidewalks, bike lanes, and lighting.

Elliott Road and Nunnelely Road are primary east-west routes for Town residents with a critical missing link between Sawmill Road and Pentz Road. Elliott Road dead-ends just east of Sawmill Road, resulting in a single ingress/egress route for residents on Cameron Lane, Elliott Road, Nelson Drive, and Nelson Court. Nunnelely Road dead-ends at Homestead Place, resulting in a single ingress/egress route for residents on Kibler Road, Woodglen Drive, Thorneau Lane, and Locust Valley Road. The project will either extend Elliott Road or Nunnelely Road 0.7 miles east to Pentz Road and provide alternative ingress/egress for the neighborhood as well as interconnectivity between primary evacuation routes within Town. A feasibility study will be conducted to determine whether Elliott Road or Nunnelely Road will be extended. The project also supports daily multimodal access and circulation needs of the community. The project improves access to evacuation routes, completes missing road segments, reduces dead-end streets, reduces fire fuel proximity to the roadway, and is consistent with Town Long-Term Recovery Plan.

Location Description:

Activity Description:

The Upper Skyway Widening project will widen Upper Skyway from Bille Road to Wagstaff Road to include a center turn lane, widened shoulders, and a multi-use pathway. The project builds upon the FHWA disaster recovery efforts.

Skyway serves as the primary ingress/egress route for Town residents. Widening the road will improve evacuation along this route, provide an adequate shoulder to park disabled vehicles and reduce fire fuel proximity to the traveling public. Consistent with the Long-Term Recovery Plan, the project includes a multi-use bike and pedestrian pathway create an interconnected path system. This pathway can function as an emergency ingress/egress during future evacuation events and provide an additional fire break. The increased evacuation capacity also improves public safety and compatibility for affordable multi-family housing for the region.

PARADISE, TOWN OF	Local Government	\$ 3,000,000.00

Location Description:

Activity Description:

The Oliver Curve Pathway Phase I project will construct 6,164 linear feet of a 10-foot-wide Class I multi-use facility complete with 2-foot-wide shoulders, lighting, and storm drain accommodations. Additional improvements include 29 new ADA ramps, 1 new crosswalk, and retaining walls.

The Oliver Curve Pathway Project Phase I proposes a Class I pathway on Oliver Road, stretching from Skyway to Bille Road and on Bille Road to Bille Park. The multi-use facility is 10 feet wide with 2-foot shoulders and includes 29 ADA ramps (this may need to be updated based on new linear footage), pathway lighting, and retaining walls along Honey Run Creek. The project will also include replacement of the existing under-sized culverts under Oliver Road for Honey Run Creek. The project will provide improved access for people walking and bicycling to access destinations throughout Town including improved connectivity to the Yellowstone Kelly Heritage Trail.

The proposed improvements serve a dual purpose by providing additional walking/biking facilities for citizens as well as ingress/egress for emergency response vehicles during evacuation events. The project contributes to the development of an interconnected multi-use path system throughout Town, provides dedicated lanes for first responders during an emergency event, reduces fire fuel proximity to the roadway, and is consistent with the Town Long-Term Recovery Plan Tier 1 Project Initiatives.

Location Description:

Activity Description:

Skyway is a main arterial and evacuation route within Town, and as a high-capacity roadway the settings can be uncomfortable for people travelling without a vehicle. The proposed project will provide infrastructure improvements for people walking and bicycling in the corridor to reach destinations throughout Town. The project will provide 2,000 feet of sidewalks, 5 ADA ramps, and 3,165 feet of Class I multi-use path. The proposed improvements serve a dual purpose and provide increased capacity for citizens as well as ingress/egress for emergency response vehicles during evacuation events

Responsible Organization	Organization Type	Proposed Budget
City of Chico	Local Government	\$ 6,621.11

Location Description:

Activity Description:

The Project consists of the construction of a new bridge to connect the existing roadway sections of Notre Dame Boulevard over Little Chico Creek. The new structure will accommodate two 12-foot travel lanes separated by a 6-foot-wide center median, eight-foot bike lanes, a five-foot sidewalk on the west side and an eight-foot multi-use path on the east side. The new bridge is anticipated to be a multi-span structure, approximately 100 feet long and 56 feet wide. The structure type is expected to be a three-span, cast-in-place, reinforced concrete bridge with 30-degree skew, a 2.0% Cambered 20" thick concrete deck, and will include rock slope protection at the banks under and adjacent to the bridge. In addition to the bridge, the existing bike path on the south side of the creek will be re-routed to a new bridge undercrossing and connect to the multi-use path crossing the bridge. Construction of the bridge will involve excavation for and construction of concrete abutments and piers, founded on either spread footings or deep foundation. Other temporary work within Little Chico Creek includes falsework erection and removal, and installation of scour countermeasures at the support locations. Little Chico Creek is a seasonal creek and construction is anticipated to proceed without the need for a temporary water diversion system. Construction of the roadway approaches will involve the removal and realignment of a portion of the existing bike path on the south bank. The approach roadway will tie into the existing curb, gutter, and sidewalk on the north and south portions of Notre Dame Boulevard. Approach roadway work will include both median and parkway landscape per city standards as well as street lighting and public utility extensions crossing the creek.

Activity Description:

The Ophir Road Rehabilitation Project will restore 1.63 miles of Ophir Road, starting from CalTrans right of way at Hwy 70 to the intersection of Ophir Road at Lincoln Blvd. The project will restore the road to its original design, function and capacity. Of this total distance, 1.06 miles of the roadway fall under the jurisdiction of Butte County, while the remaining 0.57 miles is within the city limits of Oroville. The County of Butte and City of Oroville will collaborate to deliver this critical rehabilitation, treating it as one project as ratified by a "Memorandum of Understanding" with Butte County serving as the lead agency.

Location Description:

Activity Description:

This project is a capacity expansion project, involving numerous facilities at the WWTP, as well as an upgrade project to improve the quality of water discharged to the Feather River and allow the plant to handle existing peak flows. The Project will construct a variety of structures, devices and plumbing to upgrade the existing wastewater treatment plant. The component upgrades will result in an additional average loading capacity increase of about 9% and a hydraulic loading capacity increase of about 41%. The upgrades to the plant will add 1,852 Equivalent Dwelling Units (EDUs) to the current 20,703 EDUs, for total new capacity of 15 MGD.

Location Description:

Activity Description:

The Magalia Local Road Repair project will restore these roads through asphalt overlay and slurry seal resurfacing. In select locations, digout rehabilitation will repair localized failure of roadway foundation that includes removal of roadway structure and rebuild the foundation and surface. The primary treatment will be a combination of overlay resurfacing (placing a thick asphalt mat over the existing roadway to bridge minor cracking, repairing surface defects and addressing minor structural problems) and an asphalt slurry seal (placement a non-structural layer of liquid asphalt and a thin layer of aggregate to seal the roadway surface from minor surface cracking. The project will cover 6.81 centerline miles of roadway (this includes 33 roadways that make up 6.81 miles of road). All repair and rehabilitation work will include an in-kind replacement or restoration of any roadway attached or adjacent features such as survey monuments, pipe culverts, AC dike, driveway aprons, thermoplastic striping, traffic markers, and other items directly impacted by activities involving the road repair and rehabilitation work.

Location Description:

Activity Description:

The Magalia Collectors Road Repair project will rehabilitate 1.99 miles of Dogtown Road and repair 0.67 miles of Rosewood Drive in Magalia, which experienced significant damage to the surface and base due to the Camp Fire recovery efforts. Repair of Rosewood Drive will involve the application of an asphalt surface seal to protect against surface cracking. Rehabilitation of Dogtown Road involves pulverizing the roadway and adding cement and gravel to build the foundation strength, followed by two to three inches of asphalt surface treatment.

Location Description:

Activity Description:

The Magalia Local Road Rehabilitation Project will repair 3.21 miles of road surface of 14 two-way local roads within the existing footprint in Magalia. The roads were damaged during the 2018 Camp Fire, as a result of the response to the incident, and predominantly, during recovery efforts. The repair involves a chip seal surface repair of 2 inch depth of all roads. All repair and rehabilitation work will include an in-kind replacement or restoration of any roadway attached or adjacent features such as survey monuments, pipe culverts, AC dike, driveway aprons, thermoplastic striping, traffic markers, and other items directly impacted by activities involving the road repair and rehabilitation work.

Location Description:

Activity Description:

The County must meet the increasing mental health needs of low-to-moderate income adults and children in the growing Gridley and Biggs communities, which can only be accomplished through a significant investment in service infrastructure. The Gridley Integrated Behavioral Health Project will construct an approximate 14,000 square foot service building in the Gridley area to provide best practice, integrated, trauma-recovery services. This will include facility space for individual counseling offices, and large meeting rooms for group therapy and staff training.

Proposed Budget

\$ 4,723,750.00

Location Description:

Activity Description:

The November 2018 Camp Fire caused massive destruction to Paradise and the Upper Ridge in Butte County (collectively referred to as the Paradise Ridge). The fire burned more than 150,000 acres; resulted in 85 fatalities; displaced approximately 36,000 people; destroyed nearly 19,000 physical structures, including 14,000 homes and almost 530 commercial or public buildings; disabled thousands of infrastructure assets and other utility structures; and burned over one million trees.

Reconstituting the post-disaster community by rebuilding roads, housing, services, businesses, employment, and community organizations must be done simultaneously to shoring up the lifelines and resilience of community members. This requires a Butte County Community Service Center for the Paradise Ridge to provide comprehensive support services and mental health services.

Proposed Budget

\$ 30,000,000.00

Location Description:**Activity Description:**

The unmet needs analysis established that the Town of Paradise lost 83 percent of its residents during the Camp Fire and, as the town builds back and re-establishes its pre-fire population level, an integrated sewer system will support the recovery of housing and economic activity within the Sewer Service Area. The extreme heat of the Camp Fire led to water pollution issues in the town which require costly infrastructure repairs to ensure the long-term safety and resilience of the potable water systems. The sewer project is listed by Paradise as a "Tier I" recovery priority project in the Paradise Long-Term Community Recovery Plan. Specifically, the Recovery Plan notes that, once completed, the sewer project will allow for accompanying land use and zoning changes to cluster multi-unit housing complexes, including affordable housing.

\$ 197,381.65

Location Description:

Butte Lake, Los Angeles, and Shasta Counties affected by the DR4407 and DR4382 disasters.

Activity Description:

2018 Planning - TA & CB Across Activities will fund costs across activities. As the program is developed, additional Technical Assistance and Capacity Building activities will be added to support necessary capacity building at the County and municipal levels and to provide technical assistance to jurisdictions impact by disasters DR-4382 and DR-4407.
