AUTHORITY, PURPOSE, AND SCOPE OF WORK

1. Authority & Purpose

The California Department of Housing and Community Development (hereinafter “Department”) is the lead and responsible entity for administering the Community Development Block Grant – Mitigation (hereinafter “CDBG-MIT”) funds appropriated under Public Laws 115-123 and allocated to the State of California by the U.S. Department of Housing and Urban Development (hereinafter “HUD”). CDBG-MIT is used by the State of California to assist Local Jurisdictions, Nonprofit Organizations, and Tribal Entities to carry out strategic and high-impact activities to mitigate disaster risks and reduce future losses from the three primary hazards (wildfire, flooding, and earthquake) as established within the Mitigation Needs Assessment (MNA) of the CDBG-MIT Action Plan. These activities will support areas impacted by the Federal Emergency Management Agency’s Major Disaster Declaration DR-4344 and DR-4353. CDBG-MIT Planning and Public Services Program (hereinafter “MIT-PPS”) Projects are funded by CDBG-MIT to assist communities with Mitigation related planning or public services projects that will increase community resilience, reduce the risk of loss of life, and lessen the impact of future national disasters in the Most Impacted and Distressed (MID) Areas.

2. Scope of Agreement

A. Grant Funds

Subject to the terms and conditions of this Standard Agreement (hereinafter “Agreement”), the Department has allocated and agrees to provide grant funds up to the maximum amount identified in the Standard Agreement STD 213 Form to the Subrecipient identified as “Contractor” on page 1, Section 1 of the STD 213 form (hereinafter “Subrecipient”) for all Work (defined below) identified in this Agreement. All payments made to the Subrecipient will adhere to the provisions described in Exhibit B, Section 6 (Method of Payment) herein. In no instance shall the Department be liable for any costs in excess of the approved MIT-PPS budget as shown in the Budget section in Exhibit F, nor for any unauthorized or ineligible costs or expenses.

This Agreement governs the Subrecipient Award and the Project proposed by the Subrecipient and approved by the Department (“Approved Activity”).

B. Implementation of Agreement

17 MIT-PPS Round 2

Approved Date: 11/06/2023

Prep Date: 9/30/2024

EXHIBIT A

By entering into this Agreement and thereby accepting the Award of grant funds, the Subrecipient agrees to comply with and implement this Agreement in a manner satisfactory to the Department and HUD and consistent with all applicable laws, regulations, policies and procedures that may be required as a condition of the Department providing the grant funds, including but not limited to, all applicable MIT-PPS administration and compliance requirements set forth by this Agreement, and in accordance with the 2017/2018 CDBG-MIT Planning and Public Services and Resilient Infrastructure Program NOFA Application (hereinafter "Application") documentation previously provided by the Subrecipient, attached to Exhibit F, and made a part hereof. The Department's providing of grant funds under this Agreement is specifically conditioned on Subrecipient's compliance with this provision and all terms and conditions of this Agreement, the most recently published version of the Department's CDBG-DR Grant Administration Manual for 2017 and 2018 Disasters (www.hcd.ca.gov/grants-and-funding/disaster-recovery-and-mitigation/disaster-grant-administration-and-reporting) and 2017 Program Policies and Procedures (www.hcd.ca.gov/grants-and-funding/disaster-recovery-and-mitigation/mitigation-planning-and-public-services) , and any amendments thereto, related Federal Register notices (including future Federal Notices), and the requirements of the authorities cited above, as the same may be amended from time to time.

4. Availability of Funds

- A. The Department's provision of funding to Subrecipient pursuant to this Agreement is contingent on the availability of MIT-PPS funds subject to the requirements that the Department must spend fifty (50) percent of program funds to benefit the MID and must meet the requirement of fifty (50) percent of grant-wide funds for LMI benefit, but should strive for one hundred (100) percent, and continued federal and state authorization for MIT-PPS activities. A. Activity Costs

17 MIT-PPS Round 2

Approved Date: 11/06/2023

Prep Date: 9/30/2024

EXHIBIT B

No Activity costs may be incurred, or funds reimbursed, until and unless Subrecipient provides documented compliance with the National Environmental Protection Act (NEPA) requirements established in 24 CFR 50, 24 CFR 58, and 42 USC 4321, et seq. and California Environmental Quality Act (CEQA); California Code of Regulations, Title 14, Division 6, Chapter 3, Sections 15000 – 15387 as referenced in Exhibit D, section 14.

Activity Delivery Costs may be incurred prior to documented NEPA and CEQA compliance. See Section 6(A)(2) below for reimbursement requirements of Activity Delivery costs.

B. Priority of Funds

The Grantee agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available. To the extent available, the Subrecipient must first disburse funds available to the Approved Activity from, among other sources, Subrecipient funding, third-party loans or grants, contract settlements, audit recoveries, and interest earned on such funds before requesting or receiving MIT-PPS funds.

C. Withholding Funds

The Department reserves the right to withhold payments pending timely delivery of activity reports or documents as may be required under this Agreement, and for defaults by the Subrecipient, as noted in Exhibit D.

D. Disencumbering of Surplus Funds

The Subrecipient agrees that funds determined by the Department to be surplus upon completion of the Approved Activity, or that have not been spent on eligible costs prior to the Agreement Expiration Date, will be subject to disencumbrance by the Department.

E. Indirect Costs

The Department will consider reimbursement of indirect cost expenditures from Subrecipients that have an approved Indirect Cost Rate Proposal from the Department, HUD, or other cognizant federal agency. If Subrecipient does not have an approved Indirect Cost Rate Proposal, Subrecipient may utilize the de minimis rate as allowable per 2 CFR.414 which may be used indefinitely or until the Subrecipient chooses to negotiate for a new rate based on an indirect cost proposal prior to submission of Financial Reports for reimbursement of indirect cost expenditures. Procedures for establishing an indirect cost rate can be found

EXHIBIT B

at 2 CFR 200.414. All indirect costs that may be reimbursed with grant funds should be shown separately on Exhibit F, Budget Worksheet.

F. Compliance with the OMB Uniform Guidance Audit Requirements

Grant funds will not be disbursed to any Subrecipient identified by the State Controller's Office (SCO) as non-compliant with the Federal Single Audit Act, as described in the OMB Uniform Guidance and 2 CFR Part 200 Sub-Part F. No funds may be disbursed until compliance with the Uniform Guidance is demonstrated to the satisfaction of the Department.

G. Grant Administration

The Subrecipient agrees to administer this Agreement in accordance with the provisions of Section 7097 through and including Section 7126 of Title 25 of the California Code of Regulations.

6. Method of Payment

Payments will be made directly to the Subrecipient as reimbursements based on the documented and satisfactory completion of agreed upon performance milestones detailed in Subrecipient Scope of Work as indicated in Exhibit A, and confirmation of Subrecipient's compliance with the terms of this Agreement. Funds will be provided on a reimbursement basis; and no funds will be advanced to the Subrecipient by the Department.

Financial Reports must be submitted electronically through Grants Network. The Department will not authorize payments or reimbursements unless it has determined that the activities indicated in the Financial Report have been performed in compliance with the terms of this Agreement and any other agreements executed by the parties in connection herewith. Except for the Final Financial Report (see Section 6.8 below), Financial Reports shall be submitted by the Subrecipient to the Department no less frequently than monthly by the 10th of each month or as indicated in the 2017 Program's Policies and Procedures manual.

A. Reimbursements for Costs Incurred

- 1) The Subrecipient may use grant funds for reimbursement by the Department for Eligible Expenses as defined herein and used for Approved Activities. Eligible Expenses include costs associated with project implementation, delivery, and completion.
- 2) Activity Delivery Costs expenditures shall be paid only after such costs are

EXHIBIT B

expended for approved Work satisfactorily completed, provided the Department determines that the Performance Milestones in this Agreement are on track.

- 3) To receive reimbursement for Approved Activities, the Subrecipient must timely submit all required Department forms and necessary supporting documentation via Grants Network. Financial Reports must include the level of documentation specified by the Department, and in accordance with 2 CFR 200, in the Department's Grant Administration Manual, and any associated Financial Management memos, located on the Department's website, in order to be reviewed and processed.

B. Final Financial Reports

- 1) The Final Financial Report for the Subrecipient Award must be submitted to the Department at least ninety (90) days prior to the Agreement Expiration Date of this Agreement.
- 2) If the Final Financial Report for funds expended during the term of this Agreement has not been received by the Department by the deadline cited in Section 6.B.1 of this Exhibit, the Department may disencumber any funds remaining in which case grant funds will no longer be available to the Subrecipient.

7. Recapture of Funds

A Subrecipient may be required to repay all, or a portion of the funds received from the Department, including Activity Delivery, pursuant to this Agreement if the Subrecipient, among other things, does not fulfill its obligations under this Agreement or fails to meet applicable federal requirements. The reasons for a recapture of funds by the Department include, but are not limited to, the following:

- A. The Subrecipient does not comply with the terms of this Agreement, or any agreement executed by the Subrecipient and the Department in connection herewith.
- B. The Subrecipient withdraws from the program prior to completion of the Project(s) or Activity(ies).
- C. The Subrecipient fails to meet a National Objective.

The potential recapture of funds pursuant to this provision is in addition to, and not in lieu of, any other rights and remedies of the Department under this Agreement.

EXHIBIT B

8. **Project Budget Revisions and Amendments**

Budget line-item adjustments may be made in accordance with the following:

- A. Budget Revisions: Adjustments to the Budget that do not require an increase or reduction of total activity budget, a change in National Objective, or a change in the type or a reduction in number of beneficiaries assisted may be completed as a Budget Revision. Budget Revisions shall include but not be limited to:

- 1) Adjustments that reallocate funds between budget line items
- 2) Adjustments that increase or decrease the detail included in the submitted lined item budgets, including adding and removing budget line items, without increasing or decreasing the scope of work and without changing the overall budget.

Budget Revisions must be approved by the Department prior to implementation. Approval shall be provided either through the online grant management system, or in writing, as appropriate. If approved, Budget Revisions shall automatically be deemed a part of, and incorporated into, this Agreement. Project budget revisions must be submitted through Grants Network and subsequently approved by the Department prior to implementation. Approval shall be provided through Grants Network.

- B. Agreement Budget Amendments: Adjustments to the Subrecipient Award that result in an increased or a reduced total award amount shall require an Agreement amendment. Agreement amendments must be fully executed by both the Subrecipient and the Department prior to implementation.

9. **Approved Activity Closeout Procedures**

Once the Approved Activity is completed, the Subrecipient must submit the following to the Department at least ninety (90) days prior to the Agreement Expiration Date.

- A. Per Section 6.B of this Exhibit, the Final Activity Report (Project Completion Report) shall be submitted at least ninety (90) days prior to the Agreement Expiration Date. The Final Activity Report must include all required reporting data for the Activity including but not limited to eligible activities, costs, beneficiaries, and National Objective;
- B. If applicable, a copy of the produced plan;
- C. If applicable, Final Labor Standards Report as described in Exhibit

EXHIBIT B

D(18)(A) herein;

- D. Signed Closeout Memo asserting all conditions have been met;
- E. Evidence, satisfactory to the Department, of compliance with any other Special Conditions of this Agreement; and
- F. A resolution from the governing body of the Subrecipient acknowledging the accomplishments of the Approved Activity and confirming that the Approved Activity is complete and that all Financial Reports have been submitted.

Upon receipt and approval of the above documentation, the Department will close the Activity and finalize the activity in DRGR for final reporting to HUD.

10. **Document Retention Policy**

Subrecipient shall retain all books, records, accounts, documentation, and all other materials relevant to this Agreement for a minimum period of five (5) years after the Department notifies the Subrecipient that the applicable grant agreement between HUD and the State of California has been closed.

2. National Objectives

In accordance with 24 CFR 570.208, Section 104(b)(3) of the Housing and Community Development Act of 1974, all CDBG-MIT funded activities must meet a National Objective. Planning activities are not required to meet a national objective. All Public Service activities must meet one national objective criterion, LMI or UNM, related to its specific mitigation impact and defined direct benefits or service area.

The Subrecipient must report all funds obtained for the same Approved Activity from any source from the date of the disaster until the Approved Activity is completed.

The Subrecipient agrees to repay to the Department immediately upon demand any assistance later received for the same purpose as the MIT-PPS funds and that exceeds the total need for the particular recovery purpose.

EXHIBIT D

Remedies for Noncompliance: In addition to any other rights and remedies the Department may have under this Agreement, at law, or in equity, the Department may initiate remedies for noncompliance as identified in 2 CFR 200.339 at any time it has been determined that the Subrecipient is no longer meeting the terms and conditions of this Agreement. Remedies for noncompliance may be required in addition to, in lieu of, or prior to termination. Such remedies for noncompliance with a federal statute or regulation, a state statute or regulation, an assurance, in a state plan or application, or elsewhere may include, as appropriate:

7. **Waivers**

No waiver or any breach of this Agreement shall be held to be a waiver of any prior or subsequent breach. The failure of the Department to enforce, at any time, the provisions of this Agreement or to require, at any time, performance by the Subrecipient of these provisions shall in no way be construed to be a waiver of such provisions nor to affect the validity of this Agreement or the right of the Department to enforce these provisions. All waivers by the Department must be in writing to be valid.

The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR Part 75.

The contractor acknowledges that subrecipients, contractors, and subcontractors are required to meet the employment, training, and contraction requirements of 24 CFR 75.19, regardless of whether Section

20. Agreements with Contractors

Prior to the commencement of any work, Grantee shall provide to the Department acceptable proof(s) of insurance confirming the required insurance coverages are in effect and naming the Department as an additional insured, where applicable. No insurance policy may be cancellable on less than thirty (30) calendar days prior notice to the insured and the Department. Grantees are responsible for requiring sufficient insurance, including but not limited to liability and workers compensation insurance, from all contractors and subrecipients. Grantees are recommended to be listed as an additional insured on policies held by contractors or subrecipients for the implementation of this award. Where a Grantee insurance policy is required to be purchased specifically for the execution or implementation of the activity funded

EXHIBIT D

This Agreement is subject to mandatory standards and policies relating to energy efficiency which are contained in the State Energy Conservation Plan issued in compliance with the federal Energy Policy and Conservation Act (Pub. L. 94-163, 89 Stat. 871).

35. **State Contract Manual Requirements (Section 3.11, Federally Funded Contracts (Rev. 3/03):**

- A. All contracts, except for State construction projects that are funded in whole or in part by the Federal government, must contain a 30-day cancellation clause and the following provisions:
 - 1). It is mutually understood between the parties that this contract may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.
 - 2). This contract is valid and enforceable only if sufficient funds are made available to the State by the United States Government for the purpose of this Program. In addition, this contract is subject to any additional restrictions, limitations, or conditions enacted by the Congress or to any statute enacted by the Congress that may affect the provisions, terms, or funding of this contract in any manner.
 - 3). The parties mutually agree that if the Congress does not appropriate sufficient funds for the Program, this contract shall be amended to reflect any reduction in funds.

- B. Detecting, Preventing, and Reporting Fraud - Fraud is a white-collar crime that has a devastating effect on the CDBG-DR program because the CDBG-DR program beneficiaries are victims of this crime when the CDBG-DR program is abused. The Department wants to stop any criminal assault on the CDBG-DR program it administers, and in doing so ensure all CDBG-DR funds go to people it was designed to help and improve their living conditions.
- C. Combatting Fraud - The HUD Office of Inspector General (OIG) is committed to protecting HUD's programs, operations, and beneficiaries from dishonest individuals and organizations. HUD cannot combat fraud alone; they rely on Department and DR Workforce Development NOFA Applicants to combat CDBG-DR program fraud. HUD also relies on Applicants for and people receiving HUD benefits, such as: tenants receiving rental assistance, borrowers with HUD insured loans, or citizens having their communities restored using HUD grants. The HUD OIG Hotline number is **1-800-347-3735**. This is the primary means to submit allegations of fraud, waste, abuse, mismanagement, or Whistleblower related matters for the CDBG-DR program to the OIG.

HUD OIG accepts reports of fraud, waste, abuse, or mismanagement in the CDBG-DR program from HUD employees, anyone administering the CDBG-DR program, anyone working in the CDBG-DR program, contractors, and the public.

You can report mismanagement or violations of law, rules, or regulations by HUD employees or program participants. Fraud, Waste and Abuse in the CDBG-DR program and its operation may be reported in one of the following four (4) ways:

EXHIBIT D

Complaints received by the State Auditor are confidential, and the identity of the complainant may not be revealed without the complainant's permission, aside from to an appropriate law enforcement agency conducting a criminal investigation.
- 2) There are many ways to file a complaint:
- a) By Telephone
You may call the Whistleblower Hotline at (800) 952-5665 to file a complaint by talking to one of the State Auditor's employees.  - c) Online
Although the State Auditor does not accept complaints by e-mail, you may file a complaint online at <https://www.auditor.ca.gov/contactus/complaint>

EXHIBIT D

The State Auditor will not undertake an investigation unless there is a basis for believing that your complaint has sufficient merit to warrant spending resources on an investigation. Your complaint should therefore include:

- i. A clear and concise statement of what you are alleging to be improper activity and why you believe it is improper.
- ii. The name or other information that clearly identifies the person you are alleging has acted improperly and the department where that person works.
- iii. The names and contact information for any witnesses who can confirm the truth of what you are saying.
- iv. Copies of any documents that will support what you are saying. (You should not submit original documents, as they cannot be returned.)

38. **Authority to Post Remediated Versions of Agreement**

Subrecipient hereby understands and acknowledges that the Department is obligated under federal law to post on the Department's website copies of all CDBG-DR executed contracts. As posted, such contracts must be compliant with federal and state law accessibility laws, including the California Government Code Section 11546.7 (2017 Assembly Bill 434) and the federal Americans with Disability Act, Section 508. The state law is most stringent of the two, so all posted documents must meet Web Content Accessibility Guidelines 2.0 (WCAG 2.0) accessibility level.

To comply, the Department must utilize document remediation tools that provide the compliant formatting. All remediation will only change formatting, color schemes, and update any tables so that screen readers can properly read out the content of the table. Thus, during remediation, the appearance of this Agreement may change, but under no circumstances shall any terms or tenets of the Agreement be changed in anyway. Additionally, the Department shall offer website visitors the option to receive a scanned, un-remediated copy of this Agreement via email, which option Subrecipient also consents to.

The foregoing Subrecipient authorizations apply to both this original Standard Agreement as well as any and all subsequent amendments thereto.

EXHIBIT E

DETAILED SCOPE OF WORK, BUDGET, AND APPLICATION

Name of Project: Disaster Preparedness Academies

Grants Network Unique Identifier (Contract Number): 17-MITPPS-23010

1. Program Overview

THE CDBG-MIT PPS ELIGIBLE ACTIVITY:

- Public Services (Sec. 105(a)(8))

THE NATIONAL OBJECTIVE TO BE ACHIEVED FOR EACH ACTIVITY AS A RESULT OF THIS PROJECT:

- Benefit to Low- and Moderate-Income Persons (LMI)

THE METHOD OF MEASURING THE NATIONAL OBJECTIVE, IF LMI:

- Benefit to Low- and Moderate-Income Persons: Limited Clientele

THE NUMBER OF INDIVIDUALS BENEFITTING AS A RESULT OF THIS PROJECT:

- Total beneficiaries: 360
- Total low/mod beneficiaries: 360

2. Activity Scope of Work (“Work”)

Nuestra Comunidad Disaster Preparedness Academies project is a vital community initiative that aims to empower individuals in disadvantaged communities by providing essential knowledge and skills for preparedness, response, and recovery from emergencies. This will target low-income families, farmworkers, seniors, and residents who are limited in English proficiency. The program addresses challenges such as limited resources and language barriers that hinder timely access to vital information.

Historical data from Sonoma County reveals that low-income and limited-English-proficiency residents were disproportionately affected during past wildfires due to their vulnerability and lack of financial means for recovery. The project's key features include inclusive training tailored to community needs, flexible delivery options, diverse teaching tools, and bilingual availability in English and Spanish.

The project will partner with Burbank Housing - a provider of low-income housing to the targeted community members. Through the partnership, Burbank Housing will assist with participant recruitment efforts and provide access to on-site

facilities for the delivery of trainings; therefore, reducing the potential for transportation burdens to many of their residents.

The Disaster Preparedness Academies will be offered directly to 360 LMI residents of that reside in Burbank Housing communities. Many residents in Burbank Housing experience multiple vulnerabilities and are significantly under-resourced. The beneficiaries of this program will have met Burbank Housing's eligibility criteria, with a household income of 60% or less of the Sonoma County median income, as well as age and disability requirements for some properties. The partnership is crucial to reach vulnerable low-income residents, including seniors, persons with disabilities, limited English proficient community members, farmworkers, and their families.

A Memorandum of Understanding (MOU) with Burbank Housing will formalize the partnership to include the terms for compensating Burbank Housing for the use of their facilities and their assistance with recruitment efforts related to this program.

Course content covers emergency planning, disaster go-bag essentials, response planning, disaster first aid, and next steps in preparedness. Each student will receive materials including a disaster-ready guide, printed visuals, and emergency supplies like a preparedness backpack, water filter, and stop the bleed kit. By focusing on these areas, the project seeks to enhance the resilience and preparedness of disadvantaged communities in the face of disasters.

The Disaster Preparedness Academy's curriculum is designed to increase community members' resilience by providing them with critical skills and knowledge to ensures that all community members, especially those that are LMI, are equipped to face and overcome emergencies and disasters. Academy curriculum will be delivered in either English or Spanish language depending upon the needs of the participants. During the typical training participants will engage in the following:

- Information and Communication during disasters (ex: overview of official alerting systems)
- 9-1-1 Awareness: insight into the 9-1-1 emergency response system and how it works
- Emergency Planning: creating a personal & family plan covering communication, evacuation and reunification
- Building disaster go-bags and stay home kits

- Disaster First Aide: training on hands only CRP & stop-the-bleed techniques
- Disaster Preparedness Next Steps: connecting with local preparedness & response groups like CERT (Community Emergency Response Team) and COPE (Communities Organized to Prepare for Emergencies).

The Disaster Preparedness Academy will be delivered by expert staff, in-person at six (6) Burbank Housing locations in Sonoma County: Harvest Grove – Healdsburg, CA., Larkfield Oaks – Santa Rosa, CA., Monte Vista – Santa Rosa, CA., Olive Grove – Santa Rosa, CA., Sonoma Valley Apartments – Sonoma, CA., and Springs Village – Sonoma, CA. Each location has an identified community room that can be made available; however, if a community room at any site is unavailable or cannot accommodate the number of participants, the training will take place at the Nuestra Comunidad Resilience Hub. The hub has adequate space for larger groups, is centrally located near bus stops, and is ADA compliant to ensure accessibility for all participants. The Disaster Preparedness Academy will typically occur on one day covering an 8-hour period. If an 8-hour, one-day training is not possible for participants, the delivery of the training will be adjusted over a required set of days or times as deemed necessary.

The project will implement a multi-pronged approach for program outreach and recruitment: developing a robust social media campaign, canvassing Burbank Housing complexes to distribute flyers, and collaborating with trusted community messengers, such as Promotoras, to disseminate program information and support recruitment efforts. All outreach and programmatic materials will be offered in English and in Spanish. Program participants will have multiple options to sign up for the NC Disaster Preparedness Academy, including:

- In-person sign-up, with assistance available, if needed
- Online registration through Sign-up Genius or a similar application
- Emailing or calling an outreach team member to request registration assistance

The project will empower disadvantaged communities, enhancing their preparedness and increasing their resilience in the face of emergencies and disasters. By training under resourced populations in Sonoma County, the project will lessen the impact of future disasters, ensuring that the most vulnerable populations are not left behind.

Exhibit F – Attachment 1: Grants Network Budget Narrative

The Disaster Preparedness Academy proposes a budget of \$500,00 to deliver 18, eight-hour trainings (or cohorts) within a 36-month program time frame. The program budget is a mixture of Activity Delivery Costs (staff time) totaling \$375,800 and Activity Costs, totaling \$124,200 (program direct costs not related to staff time) Activity Delivery Costs (\$375,800) - internal staff time allocated to carrying out the delivery of the 18 cohorts. There are two groups of staff required for delivering the program, the Outreach Team and the Executive Level Team. Each team has its own set of budgeted hours and hourly rates to support the delivery of the Academies. Hourly rates are inclusive of salaries, benefits, and indirect costs for overhead such as rent, insurance, and IT expenses. Full-Time Equivalents are (121 hrs. academy, for 18 academies = 2,183 total hrs. @ \$100/hr.) is responsible for promotional activities (ex: door-to-door canvassing, social media campaigns) trainings preparation (ex: preparing participant binders & equipment), training delivery (ex: leading certain training segments, support lead trainers), and post training activities (ex: survey collection and data input). (50 hrs. p/academy, for 18 academies = 900 total hrs @ \$175/hr.) responsible for the overall program delivery and management tasks including: RFP submission, developing training modules, leading the training cohorts, managing partner relationships, coordinating vendor deliverables, program reporting, and attending required program meetings. Additionally, the Executive Team is the main liaison with HCD. – non-staff specific costs that are necessary to deliver the disaster preparedness training academies. Activity Costs are separated into two sets of costs: participant training materials and partner/vendor expenses. Participant training materials (\$72,000 / \$200 per participant) includes hand-out materials for participants (ex: basic go-bags, CPR training aides, and stop-the-bleed kits), Staff Training Materials (\$7,200) are materials required by staff to deliver the trainings (ex: stop-the-bleed instructor kits, arm tourniquet training aides, and CPR manikins). The remaining budgeted activity costs are partner related expenses to 1) Burbank Housing (\$10,000 p/year, \$30,000 total) for facility rental & promotion activities, and 2) Program Evaluation services (\$15,000) for developing pre, and post-survey questionnaires, and coordinating the final program analysis and write-up. Plan for Budget Overruns - if there are any projected cost overruns to the approved budget, NC will mitigate the overruns by adjusting spending for the two budgeted external program partner expenses items for facility rentals and program evaluations. At the first sign of a potential budget overrun we would initially minimize the program evaluation services by reducing the number of services. Then, if necessary, we would limit facility rental expenses for Burbank Housing by replacing the delivery of academies at their low-income complexes by offering more trainings at our NC Resilience Hub facility.

2017 Round 2 & 2018 MIT-PPS Application

A. General Information

1. Profile

Below, please enter Application Title for your application.

Application Title Format: [Applicant Name] - [Project Name]

Example: Sacramento, City of – Community Food Bank.

2. ApplicationTitle

Disaster Preparedness Academies

B. Eligible Activity

All projects funded through the MIT-PPS program must qualify under one of two CDBG-MIT eligible activities:

- Planning and Capacity Building (HCDA Section 105(a)(12)) or
- Public Services (HCDA Section 105(a)(8))

Eligible activities are defined by 24 CFR 570.482 et. Seq. (<https://www.law.cornell.edu/cfr/text/24/570.482>), Policies and Procedures (P&P) MIT- PPS section 2.1 and the 2017/2018 MIT NOFA section II.D.

Choose the eligible activity that applies to your project.

1. Eligible Activity Category

Public Services

2. Explain how your project meets the definition of the eligible activity that you selected in the question above?

Nuestra Comunidad's Disaster Preparedness Academy meets the definition of a provision of public service by specifically informing and equipping the Sonoma County community with the knowledge and skills necessary to prepare for, and build resilience during and after, emergencies and disasters - with a special focus on disadvantaged populations including low- and moderate-income (LMI) and Limited English Proficient (LEP) community members.

Public Services

To utilize CDBG-MIT funds for a public service, the funds must either be used for a new service or be used to expand an existing service. This provision was put into place by HUD to prevent the substitution of CDBG-MIT funds for support of public services that are recently being supported by local or state government funds.

- A new service: No local or state funding is in place for the service/project.
- An expanded service: CDBG-MIT funds may only be used to expand a service that has been funded by local or state funds at least 12 months prior to the application. Applicants must demonstrate how the CDBG-MIT funds will result in a quantifiable increase in the level of the existing service.

1. Is this a new or expanded service?

Expanded Service

Provide a narrative establishing there is a need for the new or expanded service in your community. Narrative should incorporate third party evidence, studies, analysis, assessments, etc. Anecdotal letters of support are not documentation of need.

For expanded services, include:

- How long the current service has been in operation,
- How this project, if funded, would result in a quantifiable increase in that service, and
- Why the service increase is needed.

2. Please explain justification for new or expanded services.

Nuestra Comunidad's Disaster Preparedness Academy is a new service aimed at educating some of our community's most vulnerable residents in disaster preparedness strategies with the goal of building resiliency at the individual, family, and community levels. This new service aimed at benefiting vulnerable communities within Sonoma County will address an existing gap in their accessibility to life saving training.

According to Measure of America of the Social Science Research Council's Portrait of Sonoma County – 2021 Update, an important ideal in the human development framework is the concept of human security. "Human security is concerned with the safety and freedom of human beings, rather than the integrity and protection of the state against foreign intervention and civil disorder. The crises that have best Sonoma since 2017, from COVID -19 to wildfires, and the disproportionate effects that have on some groups, including Black, Latino, and Native American people, children, the elderly, immigrants, people who are undocumented and low-income communities, call out for a way to understand what is needed to keep people safe. Disasters like these threaten human life, shake our sense of safety, and wipe out years of progress and lifetimes of hard work in a matter of days or weeks. But preparedness, prevention, and protection can mitigate their effects" (A Portrait of Sonoma County - 2021 Update, page 8).

As a leading nonprofit in the area of disaster preparedness education, we know from experience that many of our vulnerable community members understand the importance of being prepared, but are often constrained in their ability to prepare due to a host of challenges including, language barriers, the cost of trainings, access to transportation, and a reluctance to participate with institutionalized programs that could potentially jeopardize their safety (or their family members) given mixed immigration statuses. The Disaster Preparedness Academy is unique in its approach to meet these challenges with the goal of building resiliency where it has been previously difficult to build.

3. Upload evidence of need for new or expanded public service.

Evidence supporting Disaster Preparedness Academy.pdf

Indicate whether there is a lack of service or if existing services do not meet demand. Describe documentation supporting the lack/shortage of services and document there is no reasonable access to the proposed service or program from another service provider.

4. Provide a narrative indicating there is no reasonable access to the service.

NC has a deep understanding of the needs of our service area - through canvassing, tabling, surveying, hosting neighborhood events and working with our Consumer Advisory Board, we learn of service gaps that exist, and can address them in real time. As such, we developed the Academy curriculum specifically with limited English proficiency in mind - we know that there are no Stop the Bleed or CPR courses offered in Spanish that are accessible to our community. While there are some emergency preparedness training services along a bus route that accommodates our service locations - those services are not offered in Spanish. While there is a bus route that connects our service locations to other providers, those buses run only every one to two hours. These under resourced communities need culturally and linguistically competent service providers that can meet them where they are - around their work and personal schedules, in ways that ensure they have attained the necessary skills to prevent and address critical situations and to create plans to ensure the safety of their neighborhoods and community in the event of an emergency.

Documentation may include maps indicating location of closest services, lack of routes or insufficient frequency in public transportation to provide access to existing locations, listings and descriptions of active nonprofits and public agencies in the area to demonstrate a lack of service providers. Documentation should support that there is a need for the service in the community. Letters of support or anecdotal statements of inaccessibility will NOT be considered adequate documentation.

5. Upload Reasonable Access supporting documentation.

Map of NC Service Gap Provision.pdf

Describe the target population for the service. Indicate whether the population is growing or shrinking and if/how that change is related to the need for services. Describe how you intend to reach that population in your community.

6. Provide a narrative indicating why the population needs this service.

Sonoma County is home to nearly 480,000 residents, a –0.5% change from 2022 (California Department of Finance). According to state figures, the county's population peaked at just over 500,000 in 2017, before the October Tubbs Fire that ravaged Sonoma County – and it has slowly declined since, with 14 major emergencies and disasters in the years afterwards. Although disasters affect the community equally, the response to disasters does not. Unfortunately, disaster responses have disproportionately and negatively affected people of color, aging citizens, those who are low income and/or unhoused, and military veterans. With a population that is 29% Hispanic or Latinx and 5% Asian; 51% female; 22% aged 65 or older; 16% foreign born; 26% speaking a language other than English at home; and 9% living in poverty (US Census Data, 2022), Sonoma County is in need of culturally relevant, accessible and timely services.

We identify service areas for our populations by comparing census tract demographic information (i.e., number of minorities, poverty data, tract population) with the Social Vulnerability Index (SVI) - a measure of a census tract's hazard exposure relative to other California census tracts. (An SVI number closer to 1 indicates an area is more vulnerable to hazards than a number closer to zero.) The SVI for each of our proposed housing community locations ranges from 0.55 to 0.7 - indicating a medium to high level of vulnerability.

Documentation may include growth or changes in specific populations (such as the homeless, elderly, youth, large families, individuals living below the poverty line) that are the targeted beneficiaries of the services. Documentation may also include information that identifies the lack of services as a component to population loss (e.g., lack of senior support services means seniors cannot age in place and must relocate to other areas where there are more services) documentation should be as specific as possible and use public data sources (US census, PIT counts, school district data, academic studies, needs assessments, newspaper articles etc.) whenever possible. Letters of support or anecdotal statements of causality will NOT be considered adequate documentation.

7. Population documentation.

CDC SVI.pdf

If fees will result from the Public Services activity, the Applicant must provide additional information.

Note: Fees may not be assessed in order to participate in or benefit from the Public Services project, especially for LMI beneficiaries.

8. Will any fees be assessed as a result of project activities?

No

For CDBG-MIT program purposes, code enforcement is defined as a process whereby local governments gain compliance with ordinances and regulations regarding health and housing codes, land use and zoning ordinances, sign standards, and uniform building and fire codes.

Code enforcement involves the payment of salaries and overhead costs directly related to the enforcement of state and/or local codes. CDBG-MIT funds may only be used for targeted code enforcement efforts that meet the definition of mitigation. Eligible code enforcement activities do not include the costs of correcting code violations identified during routine inspections.

9. Is this a code enforcement program?

No

C. Project Location

Provide the address where the project will take place.

If the project will occur in more than one place, the Applicant's address will be used.

For example:

- Project occurs in one location: food bank
- Project occurs in more than one location: community education project for an entire jurisdiction OR planning project for an entire jurisdiction.

1. Will the project occur in one location?

No

D. Scope of Work

Enter a detailed description of your project which should include at a minimum: what the project is, why it is needed, who the beneficiaries will be, where it will take place, how it will be done and when it will be completed. This should be a similar description provided for the NEPA. Additionally, please indicate if this will be a new project, a modification to an existing project, or if a new type of assistance will be added to an existing project. By completing the narratives below the Applicant is demonstrating a knowledge of need for the project and the steps needed to achieve the desired outcome.

For Planning projects only, provide the following information: What is the end result of the project, specifically the outcome or deliverable. How will the end result of the project be immediately actionable? For example, detail the process and timeframe of how the project deliverable will be utilized and implemented.

1. Project description

The NC Disaster Preparedness Academy is a vital community initiative designed to empower individuals, particularly those from disadvantaged groups, with the essential knowledge and skills to prepare for, respond to, and recover from emergencies and disasters. This program targets low-income families, farmworker families, seniors, and Limited English Proficient (LEP) community members.

Disadvantaged communities face significant challenges in disaster preparedness due to limited resources and language barriers that impede timely access to crucial information and support. Historical data from Sonoma County highlights these issues, showing that during past wildfires, low-income and LEP residents were disproportionately affected. These communities often reside in fire-prone areas and lack the financial means to recover from disasters, exacerbating their vulnerability.

Key features of the Academy include:

1. Inclusive Training: The program offers training that addresses the specific needs of disadvantaged communities, ensuring that all members can participate and benefit.
2. Flexible Delivery: Training can be delivered in a single 8-hour session or multiple shorter sessions to accommodate different audiences and schedules.
3. Diverse Teaching Tools: To cater to various literacy levels and learning styles, the Academy uses a mix of lectures supported by photos and videos, group discussions, and hands-on training and skills practice.
4. Bilingual Availability: Recognizing the importance of language accessibility, the Academies will be available in both English and Spanish.

The Academy will offer a flexible curriculum tailored to diverse audience needs. Key components of the program include, but are not limited to: Emergency Planning, Building a Disaster Go-bag and Stay Home Kit, Response Planning, Disaster First Aid, and Disaster Preparedness Next Steps. Course materials will include a disaster-ready guide, printed visuals, and emergency preparedness supplies and equipment valued at over \$200 per student, with items such as a disaster preparedness backpack, water filter, Stop the Bleed Kit, and other essentials. (Materials provided may vary based on availability.)

By focusing on these areas, the NC Disaster Preparedness Academy aims to empower disadvantaged communities, enhancing their preparedness and resilience in the face of emergencies and disasters.

Provide a detailed narrative describing the steps to be taken to complete the activity (i.e., task 1 - create marketing plan; task 2 - hold town hall meeting; task 3 - analyze feedback etc.) This task narrative should indicate your knowledge of the steps and actions necessary to complete your activity. Narrative should include all actions taken to reach readiness through actions necessary for closeout.

2. Detailed Scope of Work - Task Narrative

The Academy will be conducted at six (6) low-income housing complexes, a senior mobile park, and the new NC Resilience Hub. It will require participant recruitment activities, planning and implementation and will accept six (6) cohorts per year for the duration of this grant.

Phase 1: Planning and Outreach

Curriculum Development:

Task 1.1 Content: Develop and finetune curriculum based on specific needs and learning styles of selected community groups.

Task 1.2 Accessibility: Ensure materials are culturally appropriate, offered in multiple languages, and use visuals for non-readers.

Task 1.3 Delivery: Plan for interactive learning, hands-on activities (practice building kits, mock drills), and incorporate local perspectives from community leaders.

Logistics and Resources:

Task 2.1 Location: Identify and reserve accessible spaces for workshops in the selected housing complexes and mobile park.

Task 2.2 Trainers: Train and prepare staff to deliver the curriculum.

Task 2.3 Materials: Secure course materials needed (supplies and equipment) for expected number of students.

Task 2.4 Calendar: Establish an Academy calendar, offering workshops at time(s) of day and day(s) of the week will optimize attendance and participation of the target communities.

Marketing and Outreach:

Task 3.1 Develop Promotional Materials: Create flyers, posters, and social media content in the target languages highlighting the Academy's benefits.

Task 3.2 Outreach: Canvas in target communities and promote Academy through social media channels (Instagram and Facebook).

Task 3.3 Partnerships: Collaborate with community leaders, faith-based organizations, and local media to spread awareness and encourage participation.

Phase 2: Implementation and Evaluation

Academy Launch:

Task 4.1 Host workshops: Begin each Academy cohort as planned, communicating frequently with enrolled participants and being transparent about any changes necessary to the workshop calendar.

Task 4.2 Provide incentives: Plan and coordinate for lunch and light refreshments as well childcare vouchers as incentives to participate.

Program Monitoring and Evaluation:

Task 5.1 Gather feedback: Conduct surveys or hold focus groups after workshops to gauge participant comprehension and satisfaction.

Task 5.2 Track participation: Monitor enrollment and completion rates to measure the Academy's reach and effectiveness.

Grant Management and Closeout:

Task 6.1 Fiscal Management: Monitor and track grant spending, submitting accurate and on-time reports.

Task 6.2 Programmatic Management: Monitor and track grant activities and deliverables, submitting accurate and on-time reports.

Task 6.3 Develop long-term strategy: Explore options for continuing the academy (annual events, online modules) to maintain preparedness knowledge.

Provide a detailed narrative describing the deliverables that will be completed as part of this project (i.e., deliverable 1- marketing plan; deliverable 2- town hall meeting minutes; deliverable 3- labor compliance files etc.). This deliverable narrative should indicate your knowledge of the documentation necessary to monitor and evaluate project compliance. These documents should be part of your project file and will be reviewed as part of your onsite monitoring.

3. Detailed Scope of Work - Deliverable Narrative

Need: In alignment with the National Objectives: MIT-PPS Public Service Project Requirement, our project targets Low and Moderate Income (LMI) community members. To best reach this population, we will partner with Burbank Housing - a provider of low-income housing to the targeted community members. Our collaboration with Burbank Housing is crucial as it allows us to reach vulnerable low-income residents, including seniors, persons with disabilities, limited English proficient community members, farmworkers, and their families. Through our partnership, Burbank Housing will assist with participant recruitment efforts and provide access to on-site facilities for the delivery of trainings; therefore, reducing the potential for transportation burdens to many of their residents.

Beneficiaries: Disadvantaged communities face significant challenges in disaster preparedness due to limited resources and language barriers that impede timely access to crucial information and support. Historical data from Sonoma County highlights these issues, showing that during past wildfires, low-income and LEP residents were disproportionately affected. These communities often reside in fire-prone areas and lack the financial means to recover from disasters, exacerbating their vulnerability. By focusing on disadvantaged communities, we can ensure that those who are most at risk receive the critical support and resources they need.

NC is partnering with Burbank Housing, a local nonprofit dedicated to building quality affordable housing in the North Bay, to offer the Academy directly to 360 LMI residents that reside in their communities. Many residents in Burbank Housing experience multiple vulnerabilities and are significantly under-resourced. The beneficiaries of this program will have met Burbank Housing's eligibility criteria, with a household income of 60% or less of the Sonoma County median income, as well as age and disability requirements for some properties. This partnership is crucial as it allows us to reach vulnerable low-income residents, including seniors, persons with disabilities, limited English proficient community members, farmworkers, and their families.

Curriculum: The Academy's curriculum is designed to increase community members' resilience by providing them with critical skills and knowledge to ensure that all community members, especially those that are LMI, are equipped to face and overcome emergencies and disasters. Academy curriculum will be delivered in either English or Spanish language depending upon the needs of the participants. During the typical 8-hour academy training participants will learn:

- Information and Communication during disasters (ex: overview of official alerting systems)
- 9-1-1 Awareness: insight into the 9-1-1 emergency response system and how it works
- Emergency Planning: creating a personal & family plan covering communication, evacuation and reunification
- Building disaster go-bags and stay home kits
- Disaster First Aide: training on hands only CPR & stop-the-bleed techniques
- Disaster Preparedness Next Steps: connecting with local preparedness & response groups like CERT (Community Emergency Response Team) and COPE (Communities Organized to Prepare for Emergencies).

Where: The Academy will take place at six (6) Burbank housing locations in Sonoma County: Harvest Grove – Healdsburg, CA., Larkfield Oaks – Santa Rosa, CA., Monte Vista – Santa Rosa, CA., Olive Grove – Santa Rosa, CA., Sonoma Valley Apartments – Sonoma, CA., and Springs Village – Sonoma, CA. Each location has an identified community room that can be made available to NC; however, if a community room at any site is unavailable or cannot accommodate the number of participants, we will host the training at the Nuestra Comunidad Resilience Hub. Our hub has adequate space for larger groups, is centrally located near bus stops, and is ADA compliant to ensure accessibility for all participants.

How: In addition to leveraging our relationship with Burbank Housing, we will implement a multi-pronged approach for program outreach and recruitment: developing a robust social media campaign, canvassing Burbank Housing complexes to distribute flyers, and collaborating with trusted community messengers, such as Promotoras, to disseminate program information and support our recruitment efforts. All our outreach and programmatic materials will be offered in English and in Spanish. Program participants will have multiple options to sign up for the NC Disaster Preparedness Academy, including:

- In-person sign-up, with assistance available if needed
- Online registration through Sign-up Genius or a similar application
- By emailing or calling one of our outreach team members to request registration assistance

The Academy will be delivered by our expert staff, in-person at Burbank Housing sites, typically on one day covering an 8-hour period. If an 8-hour, one-day training is not possible for participants, we will adjust the delivery of the training over a required set of days or times as deemed necessary. We are finalizing a Memorandum of Understanding (MOU) with Burbank Housing that will formalize our partnership to include the terms for compensating Burbank Housing for the use of their facilities and their assistance with recruitment efforts related to this program.

When: Over a 36-month period, we will deliver 18 disaster preparedness academies to 360 participants. We will deliver approximately six trainings per year, in either English or Spanish, commencing in the Fall of 2024.

G. Geographic Eligibility

Projects must benefit the area designated by HUD as the most impacted and distressed areas, or “MID,” within the disaster declared impacted counties under DR-4344, DR-4352, DR-4382, and DR-4407.

See 17MIT-PPS P&Ps Section 2.4. and 18MIT-PPS P&Ps Section 2.3.

H. Mitigation Eligibility

HUD defines mitigation as: Activities that increase resilience and reduce or eliminate the long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship, by lessening the impact of future disasters. See (17MIT-PPS P&Ps Section 2.6 or 18MIT-PPS P&Ps Section 2.6)

1. Provide a detailed description of how the project will meet the definition of mitigation.

NC's Disaster Preparedness Academy meets the HUD definition of mitigation by empowering disadvantaged communities, enhancing their preparedness and increasing their resilience in the face of emergencies and disasters. By training under resourced populations in our County, we intend to lessen the impact of future disasters, ensuring that our most vulnerable populations are not left behind.

NC has years of experience with cultivating and sustaining neighborhood networks and a strong background in facilitating neighborhood events and activities, particularly in underserved communities and hard-to-reach places. Our staff are experts in providing outreach training and information sessions in English and Spanish focusing on five steps of preparedness: 1) receiving emergency alerts and learning how to respond, 2) making a plan to protect people, 3) properly preparing a go-bag, 4) building a well-provisioned Stay-at-Home box for when residents can't leave their homes, and 5) helping friends and neighbors to get ready for disasters. Mitigation and resilience are at the core of our service model, and NC's vision is for all of Sonoma County's diverse residents to be armed with the necessary emergency preparedness knowledge and materials to protect themselves during disasters.

I. National Objective & Beneficiaries

Choose the national objective from the list. Criteria for national objectives can be located at 24 CFR 570.483

<https://www.law.cornell.edu/cfr/text/24/570.483>, 17MIT-PPS P&Ps Section 2.5 or 18MIT-PPS P&Ps Section 2.5

1. National Objective

Low- and Moderate-Income

1a. National Objective - LMI

Limited Clientele (LMC)

Please indicate the proposed number of beneficiaries that will benefit or be served by this project. Projects utilizing the LMI national objective must have at least 51% of beneficiaries that are low-to-moderate-income individuals.

Depending on the selected national objective, provide the following information:

- LMA: number of LMI persons in the project service area that will benefit. This number will come from the HUD Census data;
- LMC: number of LMI persons that will benefit from the project. This number will come from the project information;
- UNM total number of individuals to be served.
 - UNM projects must also provide a proposed LMI percentage but there is no threshold requirement for that percentage. The LMI persons proposed to benefit from a UNM project may be determined by using HUD Census data for the project area.

Note: Planning projects must provide the number of proposed LMI beneficiaries and proposed total beneficiaries of the project but there is no LMI percentage requirement as a national objective does not apply to Planning projects.

Only enter numbers, do not enter commas nor periods.

2. What is the total number of proposed beneficiaries to be served by this project?

360

3. What is the total number of proposed LMI beneficiaries to be served by the project?

360

4. What is the proposed LMI beneficiary percentage?

1.00

LMI - Limited Clientele

To qualify under the LMI-Limited Clientele (LMC) national objective, the activity must meet the criteria under HUD's basically CDBG manual, Chapter 3: 3.2.2:

Activities in this category provide benefits to a specific group of persons rather than everyone in an area. It may benefit particular persons without regard to their residence, or it may be an activity that provides a benefit to only particular persons within a specific area.

With respect to determining the beneficiaries of activities as LMI and qualifying under the limited clientele category, activities must meet one of the following tests:

- Benefit a clientele that is generally presumed to be principally LMI. This presumption covers abused children, battered spouses, elderly persons, severely disabled adults (see the box below), homeless persons, illiterate adults, persons living with AIDS and migrant farm workers; or
- Require documentation on family size and income in order to show that at least 51 percent of the clientele are LMI; or
- Have income eligibility requirements limiting the activity to LMI persons only;
- Project is of a nature and in such a location that the Project's beneficiaries are primarily LMI persons.

1. How will the project meet the LMC national objective?

Project will income certify beneficiaries as LMI

4. Describe how the project will implement a process to income certify beneficiaries as LMI.

Program beneficiaries for the Academies are residents from low-income housing complexes in Sonoma County operated by Burbank Housing. Residents that live in Burbank Housing low-income complexes are presumed to be certified as LMI since Burbank Housing qualifies residential applicants based upon federal affordable housing standards as defined by HUD.

J. PPS Thresholds

Projects must meet an HCD Program Threshold. Details on HCD Program Threshold compliance documentation, including, when applicable, lists of qualifying geographic areas and maps, are provided in the MIT-PPS Policies and Procedures Section 2.5 and Appendix B.

1. Select the HCD Program Threshold the project will meet:

Benefit households living in affordable housing

Threshold: Benefit Households that Live in Affordable Housing

To meet the HCD program threshold "Benefit Households that Live in Affordable Housing" the project must qualify under the following definition:

At least 51 percent of project beneficiaries must be residents of an affordable housing community with units designated for affordability.

1. Describe how the project is designed to serve or be located at an affordable housing community.

NC is working with the local non-profit called Burbank Housing that owns 63 affordable housing communities in Sonoma County. Specifically, we have identified six low-income housing complexes that mostly house Limited English Proficiency (LEP), farmworker families in our area. Burbank Housing provides housing services to farmworkers, seniors, special needs, and general families. To qualify households must be income-eligible, typically at 60% or less of the Sonoma County median income. Income limits will also vary by number of household members and specific government programs. M

2. Identify the program or funding source of the affordable housing community and its affordability period.

Burbank Housing receives funding from various sources including federal, state, and local housing departments.

3. Upload proof of affordable housing program/funding and affordability period.

K. Budget

HCD must review projects submitted for funding in terms of cost reasonableness, in accordance with federal regulations found at 2 CFR 200. To fulfill this requirement all projects must be able to support the CDBG-MIT funding request with an explanation of how the amount was determined.

Additionally, projects submitted for CDBG-MIT funding, where CDBG-MIT funding will not fund 100% of the project, must demonstrate that other funds are committed and available to complete the project. The Total Project Budget template found in the application files must be completed to demonstrate the total project cost as well as any other sources of funding.

Funded projects will use Grants Network to submit financial drawdown/reimbursement requests; therefore, the linked eCivis Budget must be completed.

1. CDBG-MIT Funding Amount Requested

500000

2. Provide a basis for the requested funding amount.

Cost Estimate

3. Does the CDBG-MIT funding request equal the total budget amount?

Applications submitted without a complete Grants Network budget cannot be considered for award and will be returned to the Applicant.

7. Have you completed and submitted your CDBG-MIT budget in the Grants Network portal?

Yes

Budget narrative should include information about activity viability if the project is only partially funded. For instance, can the project scope be reduced the number of beneficiaries be reduced, can the project be scaled to the amount of funding available. Include budget information that describes your

activity budget as uploaded. Make sure the budget narrative has a relationship to the tasks and deliverables described in the application.

Applications submitted without a complete Grants Network budget narrative cannot be considered for award and will be returned to the Applicant.

8. Have you completed a detailed narrative of your MIT-PPS budget within the Grants Network budget template?
