AUTHORITY, PURPOSE, AND SCOPE OF WORK

1. **Authority & Purpose**

The California Department of Housing and Community Development (hereinafter “Department” or “HCD”) is the lead and responsible entity for administering the Community Development Block Grant – Disaster Recovery (hereinafter “CDBG-DR”) funds appropriated under the Supplemental Appropriations for Disaster Relief Requirements (Appropriations Act), under United States Public Law 117-43 and allocated to the State of California by the Department of Housing and Urban Development (hereinafter “HUD”). The Department’s 2023 CDBG-DR Action Plan, which was approved by HUD on July 15, 2024, for federally declared disaster FEMA DR-4683 (hereinafter, the “Action Plan”) authorizes the use of CDBG-DR funds to assist eligible applicants based on the extent of disaster flood damage to their Manufactured Housing Unit (MHU) used as their primary residences. Additionally, Manufactured Home Replacement and Elevation Program (MHRE or Program) is designed to ensure that the housing needs of low- to moderate-income households (LMI) and vulnerable populations, including individuals that were made homeless because of the DR-4683 disaster, are addressed to the greatest extent feasible in the Most Impacted and Distressed (MID) areas. The MID areas for DR-4683 include the following counties in California: Merced, Santa Cruz, San Joaquin, San Luis Obispo, and Ventura. Data sources relating to these MID counties are further explained in the Unmet Needs Assessment section of the Action Plan.

2. **Scope of Agreement**

Grant Funds

Subject to the terms and conditions of this Standard Agreement (hereinafter “Agreement”), the Department has allocated and agrees to provide grant funds in the maximum amount identified in Exhibit B, Section 1 – Budget herein to the subrecipient identified as “Contractor” on page 1, Section 1 of the STD 213 form (hereinafter “Subrecipient”) for all Work (defined below) identified in this Agreement (hereinafter “Subrecipient Award”). All payments made to the Subrecipient will adhere to the provisions described in Exhibit B herein and will be made on a reimbursement basis only. In no instance shall the Department be liable for any costs or reimbursements in excess of this amount, nor for any unauthorized or ineligible costs or expenses including any contractor costs incurred or paid by Subrecipient prior to the Effective Date of this Agreement.

Implementation of Agreement

By entering into this Agreement and thereby accepting the Subrecipient Award on the terms and conditions set forth herein, the Subrecipient agrees to fully comply with and timely implement this Agreement in a manner satisfactory to the Department and HUD and in compliance with all applicable state and federal laws, regulations, guidelines, the Subrecipient Implementation Guide, Program Policies and Procedures (“hereinafter “PnPs”), and any amendments thereto as may be required from time to time, as a condition of the Department providing the

EXHIBIT A

Subrecipient Award, including but not limited to, all applicable CDBG-DR program administration and compliance requirements set forth by this Agreement and in accordance with the due diligence documentation previously provided by the Subrecipient and made a part hereof. The Department's providing of grant funds under this Agreement is specifically conditioned on Subrecipient's full and timely compliance with this provision and all other terms and conditions of this Agreement, as well as the most recently published version of the Action Plan and any amendments thereto, related Federal Register notices (<https://www.hcd.ca.gov/grants-and-funding/disaster-recovery-and-mitigation/action-plans-and-federal-register-notices-frns>), and the requirements of the authorities cited above, as all the same may be amended or supplemented from time to time.

This Agreement is subject to written modification and termination as necessary by the Department in accordance with requirements contained in any future state or federal legislation and/or state or federal regulations. All modifications to this Agreement must be in written form and approved by both parties.

3. **Subrecipient Scope of Work**

- A. The Subrecipient shall provide, or cause to be provided, the Manufactured Home Replacement and Elevation (MHRE) Program management activities (hereinafter "Scope of Work") as described in this Exhibit on behalf of HCD to assist eligible program participants by providing a replacement MHU that meets their housing needs as defined in the MHRE PnPs and the Subrecipient Implementation Guide.
- B. Subrecipient shall require that all staff, general contractors, and vendors participating in the MHRE program ("Participating Vendors") assigned to the Scope of Work follow all HUD regulations, best practices, and applicable Federal Register Notices governing the Scope of Work, as well as and California CDBG-DR Action Plans, HCD policies, including Management Memos, HCD-approved PnPs, and the most recently published Subrecipient Implementation Guide, all as may be subsequently amended from time to time. Subrecipient shall provide guidance and training to its staff as needed for Program consistency and compliance.
- C. **The Subrecipient Scope of Work and deliverables shall include:**
 - 1) **General Contractor Procurement**

Subrecipient must procure a duly licensed and insured General Contractor to perform the removal, replacement, and, if applicable the elevation of, all MHRE Program manufactured housing units using the Program-provided Request for Proposals (RFP) document. Any changes to the RFP beyond including Subrecipient contact and organizational information must be

approved by HCD in writing prior to implementation. The procurement

All MHU options must meet the California Building Standards Code and local building and zoning codes.

 - e) Enter into a written agreement with the Applicant and Subrecipient for the construction work.
 - f) Prepare plans and design documents for the replacement and, if applicable the elevation of, the MHU in compliance with all Program, federal, state and local building standards and requirements.

The Outreach Plan must detail each outreach activity, including but not limited to, social media, radio, and newspaper advertising, media buys and in-person events, a timeline of outreach activities, as well as how the Subrecipient will outreach to the

EXHIBIT A

most vulnerable and hardest to reach populations to promote the MHRE program and assist them with completing the MHRE program application.

- a) Subrecipient shall launch a public education and outreach campaign as set forth in the Outreach Plan for the purposes of encouraging Program participation. This will require Subrecipient to secure space and equipment necessary to stand up and operate temporary and/or “pop up” assistance events across multiple days or weeks in the disaster-impacted areas.
- b) Subrecipient shall create all printed and digital marketing materials that will assist disaster survivors in understanding the Program and will encourage participation in the Program and begin call-out and letter campaigns in accordance with the Outreach Plan and performance milestones in Sections 16-19 below. HCD strongly encourages the use of data breach insurance to protect the PII data of the applicants. In most cases, Program anticipates that intake may be completed using the Subrecipient System of Record, however, the Subrecipient is expected to continually provide necessary staffing and equipment that allows staff to complete client intake using physical (paper)

applications via mail, fax, or in-person interaction using leased office space or public space, if the subrecipient chooses to use a paper application.

DOB means receiving financial assistance from multiple sources for a cumulative amount that exceeds the total need for the same recovery purpose as the CDBG-DR funds per Section 312 of the Stafford Act. At minimum, to complete this review the Subrecipient must evaluate and verify all benefits reported by the Applicant for accuracy, coordinate with third-party data sources to identify potential DOB that was not reported by the Applicant, evaluate, and verify any amounts reported by the Applicant that may be excluded from the DOB amount, and deduct the final DOB amount from the Applicant’s total award amount. DOB review must be completed within thirty (30) business days from eligibility determination.

to proceed. The initial inspection and damage assessment shall take no more than thirty (30) business days per application to complete.

11) **Escrow**

- a) If DOB funds and/or additional funds over the grant cap are required from the Applicant, the Applicant must sign a duplication of benefit commitment form with Subrecipient and/or the Subrecipient's Program administrator and deposit those funds with licensed escrow company before the Applicant can execute a construction contract with the Subrecipient's General Contractor and before construction can begin. Subrecipient must follow applicable procurement rules regarding the escrow holder procurement.
- c) Subrecipient shall account for all funds requested and received from Applicant that are disbursed to an escrow account for the benefit of the Applicant's home replacement and maintain records in the Subrecipient's system of record. Subrecipient shall not charge any fee to the Applicant for the program or services provided to the Applicant. The escrow must record and document all payments through Electronic Funds Transfer (EFT) confirmations or cleared checks and Subrecipient shall maintain all information and documentation in the subrecipient's System of Record such that all documentation is available to HCD to review, monitor, and audit.

Therefore, the Subrecipient must report all funds obtained for the activity from any source from the date of the disaster until the project is completed.

Additionally, the Subrecipient, must perform a check for DOB prior to issuing a Conditional Award to ensure that duplicative assistance is not provided for the project. The Department also reserves the right to require that the Subrecipient perform additional DOB checks throughout the course of the awarded Applicant's project, up to and through the closeout of each award, to ensure there is no duplicative assistance throughout the course of the project. 35. **Combating Fraud**

False, Fictitious or Fraudulent Claims

Warning: Any person who knowingly makes a false claim or statement to the U.S. Department of Housing and Urban Development ("HUD") or the Department in connection with this Agreement may be subject to civil or criminal penalties under 18 U.S.C. 287, 1001 and 31 U.S.C. 3729.

Detecting, Preventing, and Reporting FRAUD

Fraud is a white-collar crime that has a devastating effect on the CDBG Program because the CDBG Program beneficiaries are victims of this crime when the CDBG Program is abused.

The Department wants to stop any criminal misuse of the CDBG Program it administers, and in so doing all CDBG funds go to people it was designed to help and to improve their living conditions.

Combating Fraud

The HUD Office of Inspector General (OIG) is committed to protecting HUD's programs, operations, and beneficiaries from dishonest individuals and organizations.

HUD cannot combat fraud alone.

HUD relies on the Department and CDBG-DR Subrecipients to combat CDBG-DR Program fraud. HUD also relies on Applicants for, and people receiving, HUD benefits, such as tenants receiving rental assistance, borrowers with HUD-insured loans, or citizens having their communities restored using HUD grants.

The HUD OIG Hotline number is 1-800-347-3735, which is the primary means to submit allegations of fraud, waste, abuse, mismanagement, or whistleblower-related matters for the CDBG Program to the Office of Inspector General.

HUD OIG accepts reports of fraud, waste, abuse, or mismanagement in the CDBG-DR Program from HUD employees, anyone administering the CDBG-DR program, anyone working in the CDBG-DR program, Subrecipients, contractors, and the public.

You can report mismanagement or violations of law, rules, or regulations by HUD employees or Program participants.

29. **Authority to Post Remediated Versions of Agreement**

Subrecipient hereby understands and acknowledges that the Department is obligated under federal law to post on the Department's website copies of all CDBG-DR executed contracts. As posted, such contracts must be compliant with federal and state law accessibility laws, including the California Government Code Section 11546.7 (2017 Assembly Bill 434) and the federal Americans with Disability Act, Section 508. The state law is most stringent of the two, so all posted documents must meet Web Content Accessibility Guidelines 2.0 (WCAG 2.0) accessibility level.

To comply, the Department must utilize document remediation tools that provide the compliant formatting. All remediation will only change formatting, color schemes, and update any tables so that screen readers can properly read out the content of the table. Thus, during remediation, the appearance of this Agreement may change, but under no circumstances shall any terms or tenets of the Agreement be changed in anyway.

Additionally, the Department shall offer website visitors the option to receive a scanned, un-remediated copy of this Agreement via email, which option Subrecipient also consents to.

The foregoing Subrecipient authorizations apply to both this original Standard Agreement as well as any and all subsequent amendments thereto.

13.1 Employee Discipline. If any person fails to comply with any of the privacy laws or requirements discussed in this Exhibit, that person shall be prohibited from performing any work under this Standard Agreement and shall be prohibited from accessing any data going forward.

13.2 Confidentiality Statement. All persons that will be working with any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data must sign a confidentiality statement that includes, at a minimum, General Use, Security and Privacy Safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data. The statement must be renewed annually. The data requester shall retain each workforce member's written confidentiality statement for HCD's inspection for a period of six (6) years following expiration/termination of the specified DSA.

13.3 Background Check. Before a workforce member may access any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, the workforce member shall undergo, at no cost to HCD, a state and federal fingerprint-based background check conducted by the Department of Justice (DOJ). A criminal history that warrants substantial concerns on the part of HCD as a result of either the initial DOJ background check or any subsequent criminal record review shall exclude the workforce member from having access to any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data.

14.0 Technical Security Controls

14.1 Workstation/Laptop encryption. All workstations and laptops that process and/or store any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data must be encrypted using a FIPS 140-2 certified algorithm which is 128 bit or higher, such as Advanced Encryption

EXHIBIT G

Standard (AES). The encryption solution must be full disk unless approved by the HCD Chief Information Security Office (CISO).

- 14.2 Server Security.** Servers containing any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must ensure all source data is fully encrypted and have sufficient administrative, physical, and technical controls in place to protect that data.
- 14.3 Minimum Necessary.** Only the minimum necessary amount of source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, required to perform necessary business functions may be copied, downloaded, or exported.
- 14.4 Removable media devices.** All electronic files that contain any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must be encrypted when stored on any removable media or portable device (i.e., USB thumb drives, CD/DVD, cellular devices, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128 bit or higher, such as AES.
- 14.5 Antivirus software.** All workstations, laptops and other systems that process and/or store any source data, including, but not limited to ReCoverCA MHRE Program PII, and other confidential data, must install and actively use comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- 14.6 Patch Management.** All workstations, laptops, cellular devices, and other systems that process and/or store any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data must have critical security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within five (5) calendar days of vendor release. Applications and systems that cannot be patched due to operational reasons must have compensatory controls implemented to minimize risk, where possible.
- 14.7 Data Destruction.** When no longer needed, or upon the termination or expiration of this Standard Agreement, whichever comes first, the data requester must certify in writing that all source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, has been destroyed using the Gutmann or US Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of the

EXHIBIT G

HCD CISO. Notwithstanding the foregoing, or anything else in this Exhibit, provided there are no breached as no early termination of this Standard Agreement, County is required to maintain all MHRE data for a minimum of five (5) years after the closeout of HCD's grant with HUD, as required by federal regulation.

14.8 Transmission encryption. All data transmissions of any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, outside of HCD's system of record, must be encrypted using a FIPS 140-2 certified algorithm which is 128 bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing PII can be encrypted.

This requirement pertains to any type of source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data in motion such as website access, file transfer, and E-Mail.

14.9 Intrusion Detection. All County owned and/or operated systems involved in accessing, holding, transporting, and protecting any source data, including, but not limited to ReCoverCA MHRE Program PII, and other confidential data, that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

15.0 Audit Controls

5.1 System Security Review. County must ensure audit control mechanisms that record and examine system activity are in place. All County owned and/or operated systems processing and/or storing any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must have at least a semi-annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.

15.2 Log Reviews. All County owned and/or operated systems processing and/or storing any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must have a routine procedure in place to review system logs for unauthorized access.

15.3 Change Control. All systems processing and/or storing any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must have a documented change control procedure that ensures

EXHIBIT G

separation of duties and protects the confidentiality, integrity and availability of data.

16.0 Paper Document Controls

16.1 Supervision of Data. No source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, in paper form shall be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. No source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, in paper form shall be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.

16.2 Confidential Destruction. All source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, must be disposed of through confidential means, such as crosscut shredding and pulverizing.

16.3 Faxing. Faxes containing any source data, including, but not limited to ReCoverCA MHRE Program PII, and other confidential data shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.

16.4 Mailing. Mailings of any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, shall be sealed and secured from damage or inappropriate viewing to the extent possible. Mailings of individually identifiable records of any source data, including, but not limited to ReCoverCA MHRE Program PII and other confidential data, shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission is obtained from HCD.

(2) Security Incident means the attempted or successful unauthorized access, use, disclosure, modification, loss or destruction of ReCoverCA MHRE Program PI or confidential data that is intended for the limited purposes set forth in this Exhibit.

18.0 Breaches and Security Incidents. During the term of this Standard Agreement, County agrees to implement reasonable systems for the discovery and prompt reporting of any breach or security incident, and to take the following steps in the event of a suspected or actual breach or security incident:

EXHIBIT G

18.1 Notice to HCD (1) To notify HCD **immediately by telephone call plus email** upon the discovery of a breach of unsecured ReCoverCA MHRE Program PI in electronic media or in any other media if the PI was, or is reasonably believed to have been, accessed or acquired by an unauthorized person, or upon the discovery of a suspected security incident that involves data provided to County by HCD. (2) To notify HCD **within 4 hours by email** of the discovery of any suspected breach or security incident, intrusion or unauthorized access, use or disclosure of PI in violation of this Exhibit and this Addendum, or potential loss of confidential data covered by this Exhibit. A breach shall be treated as discovered by County as of the first day on which the breach is known, or by exercising reasonable diligence would have been known, to any person (other than the person committing the breach) who is an employee, officer or other agent of County. Notice shall be provided to the HCD Point-of-Contact and the HCD Chief Information Security Officer (CISO). If the incident occurs after business hours or on a weekend or holiday and involves electronic PII, notice shall be provided by calling and emailing the HCD Point-of-Contact and the HCD CISO on that weekend or holiday. Notice shall be made using the protocols and forms found on the Information Security Management on the California Department of Technology (CDT) website in the Incident Management Samples and Templates section. (<https://cdt.ca.gov/security/resources/>).

Upon discovery of a breach or suspected security incident, intrusion or unauthorized access, use or disclosure of ReCoverCA MHRE Program PII, User shall take:

- immediate corrective action to mitigate any risks or damages involved with the breach and to protect the operating environment.
- any action pertaining to such unauthorized disclosure required by applicable federal and state laws and regulations.

18.2 Investigation and Investigation Report. To immediately investigate such security incident, breach, or unauthorized access, use or disclosure of ReCoverCA MHRE Program PII. Within 72 hours of the discovery, User shall submit updated reports and notices, to the extent known at that time to the HCD Point-of-Contact and the HCD CISO.

18.3 Complete Report. To provide a complete report of the investigation to the HCD Point-of-Contact and the HCD CISO as soon as possible but no later than five (5) calendar days of the discovery of the breach or unauthorized use or disclosure. The report shall be submitted pursuant to guidance and requirements found on the CDT website at <https://cdt.ca.gov/security/resources/> and shall include a full, detailed corrective action plan, including information on measures that were taken to halt and/or contain the improper use or disclosure. If HCD requests information in addition to that listed on the CDT templates, User shall make reasonable efforts to provide HCD with such information. If necessary, a

EXHIBIT G

supplemental report may be used to submit revised or additional information after the completed report is submitted, by submitting the revised or additional information on an updated CDT report form.

- 18.4 Responsibility for Reporting of Breaches.** If the cause of a breach of PI is attributable to User or its agents, subcontractors or vendors, User is responsible for such breach. If User has reason to believe that duplicate reporting of the same breach or incident may occur because its subcontractors, agents or vendors may report the breach or incident to HCD in addition to User, User shall notify HCD and User may take appropriate action to prevent duplicate reporting. The breach reporting requirements of this paragraph are in addition to the reporting requirements set forth in subsection 1, above.
- 18.5 Contact Information.** To direct communications to the above referenced staff, the User shall initiate contact as indicated herein. The parties reserve the right to make changes to the contact information below by giving written notice to the User.
