

Regional Early Action Planning Grants of 2021 (REAP 2.0) Annual Report Template for Metropolitan Planning Organizations

Tahoe Regional Planning Agency

For the reporting period of:
(7/1/2022) to (12/31/2023)

Instructions

This form is to be used for satisfying the reporting requirements of California Health and Safety Code section 50515.10. The report must be submitted to the California Department of Housing and Community Development (HCD) via email at reap2021@hcd.ca.gov in Microsoft Word format by April 1 of the year following award of funding, and annually thereafter by April 1 until all funds are expended.

Details about the REAP 2.0 program can be found at:

<https://www.hcd.ca.gov/grants-and-funding/programs-active/regional-early-action-planning-grants-of-2021>

Note: This Microsoft Word form uses cross-references and formulas to autofill some fields using information inputted by the user. Cross-references and calculations may not update immediately upon input. The user may force updates to cross-references by entering and exiting the Print Preview of Word (*shortcut: Ctrl+P, Esc*), or by saving, closing, and then reopening the document. Formulas may be updated by right-clicking the field and selecting *Update Field*.

Refer to the following instructions to complete each part of the report.

Part I – Overall Context

In 500 words or less, provide a brief overview regarding the current status of each Proposed Use and Subtask(s)¹.

- **Overview:** A general description of the overall Proposed Use(s) and Subtask(s).
- **Current Status:** A short summary of the information requested in Part III – Status of Activities on progress made by each Proposed Use to meet the REAP 2.0 objectives:
 - Accelerating infill development that facilitates housing supply, choice, and affordability,
 - Affirmatively Furthering Fair Housing (AFFH), and
 - Reducing Vehicles Miles Traveled (VMT).

¹ If one or more Proposed Uses includes suballocations, please provide additional context for each suballocated award.

Part II – Highlights, Challenges, Opportunities, and Accomplishments

In a paragraph or two per Proposed Use², discuss the highlights, challenges, opportunities, and accomplishments realized at regional, subregional, or local levels to date. This part may include updates about:

- Engaging stakeholders
- Building support for housing and transportation
- Developing strategies for reducing VMT
- Adopting policy reforms to remove barriers to housing production
- Completing project deliverables
- Fostering subregional collaboration on housing and transportation planning
- Administering technical assistance
- Best practices
- Exemplary highlights and program outcomes

Part III – Activity Status and Funding Summary

Provide details of each Proposed Use. Utilize the project timeline and budget from the approved advance allocation and full application to complete the tables for each Proposed Use according to the columns provided as follows:

- **Advance Allocation Application – Proposed Activities:**
 - **Activity Title** – Input Proposed Activity title.
 - **Timeline** – Approximate start and completion dates of work performed.
 - **Amount Proposed & Amount Expended** – Specify the grant amounts proposed and expended for each approved Activity.
 - **Status** – Select whether activity is not started, in progress, or completed as of the end of the reporting period.

² For Proposed Uses that are suballocated, please provide this detail for each suballocation award.

- **Full Application – Proposed Uses & Subtasks:**

- **Activity No.** – Should correspond with Activity Number in Proposed Use Timeline and Budget in full application.
- **Activity Title** – Should correspond with Activity Title in Proposed Use Timeline and Budget in full application.
- **Eligible Uses** – Indicate which eligible uses are being achieved through the activity as listed in 50515.08 (c)(1)(E)(i-iv) (reference section [50515.08 \(d\)\(4-7\)](#) for additional information):
 - (i) Accelerating infill development, including housing;
 - (ii) Supporting residents through realizing Multimodal Communities,
 - (iii) Shifting travel behavior through reducing driving, and/or
 - (iv) Increasing transit ridership.
- **Suballocation (Sub)** – Check the box for each activity that utilizes suballocated funds.
- **Timeline** – Approximate start and completion dates of work performed.
- **Amount Allocated & Amount Expended** – Specify the grant amounts allocated and expended for each approved Proposed Use and Subtask.
- **Status** – Select a status from the dropdown menu (not started, in progress, complete).

Part IV – Measurable Outcomes by Proposed Use

Provide information in the tables provided related to accelerating infill housing, reducing VMT, and Affirmatively Furthering Fair Housing resulting from the performance of activities as of the end of the reporting period.

Part V – Web Report

Provide the URL(s) on the grantee's public website containing existing maps that illustrate VMT generation patterns in their region. A grantee may submit maps produced in the development of the grantee's adopted sustainable community strategies. If public maps are not available on the grantee's website, a statement confirming that the VMT information in [Site Check \(https://sitecheck.opr.ca.gov\)](https://sitecheck.opr.ca.gov) accurately visualizes VMT patterns in their region is sufficient. Additional maps relevant to the proposed use(s) may also be included.

Part VI – Additional Information

Provide materials produced for REAP 2.0 activities as supplemental documentation to this report. This may include templates, announcements, or other program guidance. Common file formats such as PDF, Word document, JPEG, etc. are sufficient.

The grantee may add any other information as deemed appropriate to demonstrate the status and impacts of the overall REAP 2.0 activities. The grantee may also discuss any anticipated changes and limiting or confounding factors potentially impacting the effectiveness of the activities.

The grantee may also add recent developments to the data inputted in the Annual Report submitted in the previous reporting period, if applicable. Self-reported data by cities and counties is available on [HCD's Housing Element and Implementation and APR Data Dashboard \(https://www.hcd.ca.gov/planning-and-community-development/housing-open-data-tools/housing-element-implementation-and-apr-dashboard\)](https://www.hcd.ca.gov/planning-and-community-development/housing-open-data-tools/housing-element-implementation-and-apr-dashboard) (note that HCD cannot independently verify most project-level data). HCD recognizes REAP 2.0 funds may not immediately impact production indicators for projects completed in 2023 and 2024, but that these numbers may be used as a baseline or context for indicating housing production at a regional scale.

Part I – Overall Context

Overview of Proposed Use(s) and Subtask(s):

The Proposed Use is to advance and implement the financial feasibility of affordable and workforce housing in town centers and close to transit and services in the Tahoe Region, by working with the Tahoe Living Working Group (a 20-member advisory body), the public, historically disadvantaged and underserved communities, and decision-makers. This Proposed Use focuses on implementing Lake Tahoe Sustainable Community Strategy (SCS) goals of accelerating infill development, reducing vehicle miles traveled (VMT), and achieving affordable and workforce housing goals.

This Proposed Use is to analyze and update the Tahoe Regional Planning Agency's (TRPA) density, height, coverage, and related regulations and programs to better incentivize multi-family development and accessory dwelling units (ADUs), particularly deed-restricted affordable, moderate, and “achievable” housing units.

Subtasks include:

- 1.1 Financial feasibility study to determine the development standards needed;
- 1.2 On-going community engagement and capacity building throughout all subtasks, including visualization and mapping;
- 1.3 Develop updated policies and codes;
- 1.4 Environmental analysis;
- 1.5 Consideration of updated policies and codes for approval by the TRPA Governing Board and committees; and
- 1.6 Integration of new codes into agency documents and tools.

Current Status:

TRPA and partners have completed most of the TRPA portion of Subtasks 1.1 – 1.5, which were to complete financial feasibility studies, develop and implement a community outreach and engagement plan, develop codes, complete environmental analysis, and bring proposed policies to the Governing Board for approval. On December 13, 2023, the TRPA Governing Board approved the set of code amendments that were envisioned and developed through this Proposed Use at the regional level. The agency is now working with local jurisdictions to update local area plans utilizing the new regional codes.

Part II –Highlights, Challenges, Opportunities, and Accomplishments

Using the REAP 2.0 funds, TRPA was able to expeditiously bring forward a set of updates to regional land use development codes that simultaneously removed barriers to infill housing for deed-restricted affordable, moderate, and “achievable” housing and mixed-use development with at least a 50 percent deed-restricted housing component, as well as introducing new strategies for improving water quality and reducing vehicle miles travelled (VMT). The adopted strategies helped implement best practices on parking requirements, and encouraging smaller, more affordable units through more flexible design standards for deed-restricted housing.

TRPA built on recommendations from its recently completed Transportation Equity Study to conduct targeted outreach to disadvantaged and historically underserved communities, as well as reaching out to a variety of groups through one-on-one meetings, booths at farmer’s markets and other events, a webinar, and utilized new tools such as a “flash survey.”

Challenges included translation from existing terms in TRPA’s code of ordinances, which connote environmental protections to many members of the public such as “density,” “height,” and “coverage,” to the benefits of moving away from strict development standards and into performance-based standards for affordable and workforce housing projects. For instance, although the new regulations TRPA proposed and ultimately adopted allowed more land coverage for deed-restricted affordable and workforce housing in certain locations (land coverage is the amount of land covered by non-permeable surfaces, which TRPA codes regulate as part of the basin’s overall water quality strategy), new developments that utilize this additional coverage must still meet as strong or better water quality standards. Aspects like this were either misunderstood or misconstrued in public debate. Similarly, although the new codes allow more building height in certain locations for deed-restricted affordable and workforce housing, buildings must still meet strict scenic standards and additional height is not allowed where it blocks scenic views or ridgelines. It was a challenge to convey these nuances and to counter misrepresentations made by members of the public. One lesson learned is to take more time early in the process to identify how technical terms can be relayed within the context of the overall benefit of the project.

A key accomplishment of the Proposed Use was to adopt regional-level standards that allow flexibility at the local level, while still holding local communities accountable for meeting housing goals, including the financial feasibility benefits provided with the regional amendments. The amendments have an “opt-out” provision where local jurisdictions may identify alternative standards, as long as the alternative standards provide an equal or greater cost reduction for new deed-restricted units compared to the new regional standards. If a local jurisdiction takes no action, within one year TRPA will assume lead agency role and update the area plan on behalf of the local jurisdiction, using the regional standards already approved by the TRPA Governing Board.

Part III – Activity Status and Funding Summary

Insert data in the tables below regarding the status of activities and funding allocations and expenditures for each Proposed Activity/Use.

Advance Allocation Application – Proposed Activities

If the grantee did not submit the REAP 2.0 advance allocation application, check the following box and proceed to Full Application – Proposed Uses & Subtasks: ☐ Not Applicable

Activity Title	Timeline	Amount Proposed	Amount Expended	Status
Early program development, outreach to local jurisdictions	December 2021 – June 2022	1,600.00	1,600.00	Complete
Outreach to local jurisdictions, housing partners, Tribal entities, historically underserved communities	July - November 2022	12,000.00	12,000.00	Complete
Drafting program description, drafting evaluation metrics, drafting materials for seeking input	June – November 2022	18,300.00	18,300.00	Complete
Approval from Local Government and Housing Committee, TRPA Board	September – November 2022	2,000.00	2,000.00	Complete
Grant administration, including advance set-up work for full grant	September 2022 – December 2023	2,995.00	2,995.00	Complete
Advance Allocation Total Award:		36,895.00	36,895.00	Complete

Part IV – Measurable Outcomes by Proposed Use

Input estimates in the tables below resulting from the performance of each REAP 2.0 activity. Please complete to the best of your ability regardless of whether the activity has been fully implemented or not.

Accelerating Infill Development

Proposed Use	Measurable Outcome	Baseline	Target	Results
1	Allowable densities in town centers and in the vicinity of town centers	In town centers: Maximum 25 units/acre; In the vicinity of town centers: Maximum 15 units/acre	Greater than what is currently allowable	In town centers: Deed-restricted affordable, moderate and “achievable” housing exempt from density maximums in regional codes; In the vicinity of town centers (areas zoned multi-family): Deed-restricted affordable, moderate and “achievable” housing exempt from density maximums in regional codes.
2	Gross densities in town centers; gross densities within ½ mile of transit on the California side	Gross densities in town centers: Stateline/Ski Run - 9.6 Kings Beach Commercial Core - 4.3 Tahoe Valley Area Plan (South Y) - 3.9 Tahoe City - 1.6;	Gross densities in town centers: Stateline/Ski Run - 20 Kings Beach Commercial Core - 10 Tahoe Valley Area Plan (South Y) - 10 Tahoe City - 5;	No change yet in gross (actual) densities in town centers – this will change over time as land use patterns shift in response to the new codes

Proposed Use	Measurable Outcome	Baseline	Target	Results
		Within ½ mile of transit - 2.4	Within ½ mile of transit - 5

4				
5				
6				
7				
8				

Affirmatively Furthering Fair Housing

Proposed Use	Measurable Outcome	Baseline	Target	Results
1	Percent of Area Median Income needed to afford to purchase the median-priced home	El Dorado County – 180% of AMI; Placer County – 290% of AMI	120% of AMI	This is a long-term goal; new codes have not been in effect long enough yet to influence AMI needed to purchase the median-priced home
2	Number of ADU permits issued per year	ADU permits issued per year: 2021 – 3 2022 - 17	40 ADU permits per year	2023 – 8 ADU permits issued (these were not yet influenced by the new codes)
3	Number of new deed-restricted affordable, moderate, “achievable” or non-deed-restricted workforce rental units constructed per year	Units constructed per year between 2020-2021: Deed-restricted: 42/year affordable; 1/year “achievable”; Non-deed-restricted: 14/year rental units; 1/year ADU; 58 units/year total	1000 units per year to 2026, within growth limitations	Units constructed in 2021: 0 units In 2022: 3 “achievable”; In 2023: 3 moderate; Average: 2 units/year This metric is not yet affected by the new codes

Reducing Vehicle Miles Traveled

Proposed Use	Measurable Outcome	Baseline	Target	Results
1	Daily Average VMT per capita	12.48 daily average VMT per capita	<11.63 daily average VMT per capita by 2045	This metric is not yet affected by the new codes
2	Allowable densities in town centers and in the vicinity of town centers	In town centers: Maximum 25 units/acre; In the vicinity of town centers: Maximum 15 units/acre	In town centers: increasing to between a max of 40-75 units/acre, also evaluating no density maximum in "pilot areas" such as town centers with transit hubs; In the vicinity of town centers: Minimum 3 units allowable on all multi-family parcels; overall maximum of 25 units/acre	In town centers: Deed-restricted affordable, moderate and "achievable" housing exempt from density maximums in regional codes In the vicinity of town centers (areas zoned multi-family): Deed-restricted affordable, moderate and "achievable" housing exempt from density maximums in regional codes
3	Gross densities in town centers; gross densities within ½ mile of transit on the California side	Gross densities in town centers: Stateline/Ski Run - 9.6 Kings Beach Commercial Core - 4.3 Tahoe Valley Area Plan (South Y) - 3.9 Tahoe City - 1.6; Within ½ mile of transit - 2.4	Gross densities in town centers: Stateline/Ski Run - 20 Kings Beach Commercial Core - 10 Tahoe Valley Area Plan (South Y) - 10 Tahoe City - 5; Within ½ mile of transit - 5	No change yet in gross (actual) densities in town centers – this will change over time as land use patterns shift in response to the new codes
