MOBILEHOME AND SPECIAL OCCUPANCY PARK CONSTRUCTION PLAN REVIEW BOOKLET

Northern Area Office 9342 Tech Center Drive, Suite 550 Sacramento, CA 95826 (800) 952-8356 NAOstaff@hcd.ca.gov Southern Area Office 3737 Main Street, Suite 400 Riverside, CA 92501 (800) 952-8356 SAOstaff@hcd.ca.gov

MOBILEHOME PARK AND SPECIAL OCCUPANCY PARK CONSTRUCTION PERMIT PROCEDURES

This booklet is provided as a guideline for construction permit applicants to explain the California Department of Housing and Community Development (HCD) procedures and application requirements. Please read through this booklet carefully to see what regulation requirements apply to your project. Procedures for **park construction are found in Part A** and for **park building construction in Part B**. Using this booklet helps you to avoid any omissions. Also, before proceeding you are encouraged to contact the appropriate Area Office (see contact information on the cover page of this booklet) to learn which local or other agency approvals are necessary for HCD to approve your project and to answer any questions relative to your project.

Once you have obtained any necessary local agency approvals and have completed all necessary plans, calculations, engineering, etc., required for processing your application, it is strongly recommended that you contact the appropriate Area Office for additional guidance. The purpose of this contact is to arrange a meeting, preferably at the appropriate Area Office, to review your construction application, plans, and other pertinent documents (project package). At that time, this booklet will be used as a worksheet to indicate if your project package is complete and ready to be submitted for plan check or explanation of what items are remaining to complete your permit package. If the project package is missing information, a second meeting may be recommended prior to submittal of the package for plan checking.

Fees will be charged for these preliminary plan check meetings as a technical service fee (\$238 per hour, \$238 minimum).

In addition to reviewing the completeness of your project package, the Area Office staff will calculate construction and plan check fees. Separate permits are required for grading, utility construction, swimming pools, and buildings. A copy of your worker's compensation insurance coverage must also be provided. Submit your application, two (2) sets of plans with calculations and specifications, and all required fees to the appropriate HCD Area Office **after** the project package is complete. An incomplete or incorrect submission will result in it being returned, additional fees being charged for resubmission, and project delays.

Once the submission is received in the HCD Area Office, it will be logged in and reviewed in the order it was received. Typically, plan review requires 4 to 6 weeks, so please plan accordingly.

If the package is approved as submitted, you will receive your permit and job copy of the plans and documents by mail unless otherwise specified and paid for in advance. If the plan check staff has questions, identifies errors, or finds information is missing from the submission, you will be notified by mail of who to contact and the approval process will be suspended until a satisfactory response is received.

DOCUMENTATION STANDARDS FOR PERMITS TO CONSTRUCT OR RECONSTRUCT MOBILEHOME PARK OR SPECIAL OCCUPANCY PARK UTILITY SYSTEMS, BUILDINGS, AND SWIMMING POOLS

The following checked items are required of a permittee prior to submittal of a permit to construct or reconstruct facilities or buildings in a mobilehome park, special occupancy park (RV park), or campground (California Code of Regulations (CCR), title 25, section 1032). The HCD Area Office will advise on which approvals are required.

Obtain approval and signature from the local planning department on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document.
Obtain approval and signature from the local health department on the Mobilehome and Recreational Vehicle Park Government Agency Approval form, or an equivalent document, for on-site water supply and on-site or private sewage disposal. Local health department approval is also required if there is any public food preparation as part of your development. Pool plans must have the local health department stamp upon them as well as a signature on the Mobilehome and Recreational Vehicle Government Agency Approval form or equivalent document.
Obtain approval and signature from the local public works department or engineering department on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document for the park surface or subsurface drainage system and encroachments.
Obtain approval and signature for fire protection from the local fire protection district on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document.
Obtain approval and signature from the California Coastal Commission on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document for developments within coastal zones.
Obtain approval and signature on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document from for
Obtain approval and signature on the Mobilehome and Recreational Vehicle Park Government Agency Approval form or equivalent document fromfor
Provide "will-serve" letters from gas, electric, water, and sewer providers.

Submit a permit application (form HCD MP 50) with two (2) sets of all plans and documents with appropriate fees to HCD after a preliminary plan review meeting has been completed. A separate application form is required for each building, utilities (combined), grading/drainage, etc.
Provide written evidence of compliance with the California Environmental Quality Act (Public Resources Code, division 13, commencing with section 21000). Note: this is typically provided on the use permit.

PART A — PARK CONSTRUCTION PLAN REQUIREMENTS

Section 1: Plot-Site Plan / Title Sheet

	Site location, including vicinity map with north arrow
	Address of proposed site
	Name and address of owner
	Name, address, telephone number, and email of person preparing the plans
	Index sheets on the title sheet
	Property lines, mobilehome or RV lot lines and dimensions of all lots
	Easements and/or right-of-ways, public or private, if any
	Location and size of all permanent buildings, parking spaces, and storage areas
	Roadway widths and any required parking signs
	Method of lot line permanent identification
	Engineer's stamp and wet signature if required
	Scale
Secti	ion 2: Drainage and Grading Plan
	General vicinity of the proposed site
	Property limits and accurate contours of the existing ground and details of the terrain and area drainage
	Limiting dimensions, elevations, or finish contours to be achieved by the grading, and proposed drainage channels and related construction
	Detailed plans (2 sets) of all surface and subsurface drainage devices, walls, cribbing dams, and other protective devices to be constructed with, or as part of the proposed work together with a map showing the drainage area and the estimated runoff of the area served by any drains
	The building pads (lots) shall indicate a surface or subsurface drainage gradient of at one (1) percent towards an approved drainage facility

	The location of any buildings or structures on the property where the work is to be performed and the location of any buildings or structures on land of adjacent owners which are within 15 feet of the property or which may be affected by proposed grading operations.		
	A geotechnical investigation report (3 copies) must accompany grading plans. This report must include a description of the geology of the site and shall include data regarding the nature, distribution, and strength of existing soils. The report shall include construction and grading requirements if any. Such recommendations and requirements must be noted on the grading plan.		
	Required grading plan notes:		
	1. A soils report has been prepared and shall be considered a part of these plans.		
	 All grading practices shall comply with the applicable sections of the current California Building Code. 		
	3. The design engineer shall provide a letter upon completion that the final grades are in compliance with approved plans and applicable codes.		
	4. Total volume of cut material and fill material.		
	5. Upon completion of the grading, the soils engineer shall submit a final report. The report shall include all test results certifying that the work is in compliance with the specifications and recommendations contained in the soils reports.		
	All drainage and grading plans and specifications must be signed by a California licensed civil engineer.		
Sect	Section 3: Electrical Distribution Systems		
Spec	<u>cifications</u>		
	Provide manufacturer specification sheets for park service equipment, transformers, substations, secondary distribution panelboards, and lot service equipment.		
	Specify the voltage, ampere and interrupting capacity rating, type, and class of overcurrent protective device in the park service equipment.		
	Specify the voltage, ampere and interrupting capacity rating, type, and class of overcurrent protective device for the primary system feeders and/or transformers.		
	Specify primary and secondary voltages. Specify KVA rating and impedance of		

	Specify the voltage, ampere and interrupting capacity rating, type, and class, of the overcurrent protective devices for the secondary system feeders.
	Specify the type of conductors (CU or AL), type of insulation, voltage rating, and temperature rating.
	If the system is to be installed or owned by a utility company, provide a will-serve letter confirming such service, including information regarding the point of termination. Complete electrical specifications, plans, and calculations are required if the point of termination does not comply with CCR, title 25, section 1184 or 2184.
	Alternate Approval Application (form HCD MP 511) if lot service equipment will not be terminated on the lot within four (4) feet of the manufactured home or mobilehome (only within mobilehome parks).
Elect	<u>trical Plans</u>
	Provide a single line diagram of the park electrical system, including lighting.
	Indicate the locations of all equipment devices and conductors in the system.
	Indicate all circuit lengths, conductor sizes and distance to the center of the load.
	Provide details of all conductor installations.
	Provide details of equipment installation and mechanical protective barriers if required.
	Provide details of the correct method of grounding the system and equipment.
	Provide details of the park lighting installation.
	Plans for systems exceeding 240 volts require the signature of a California registered electrical engineer.
Elect	rical Calculations
	Submit load calculations for all loads served—not to exceed a total combined voltage drop of 5 percent for any total run.
	Include all buildings in the load calculations.
	Submit calculations used to determine the interrupting capacity of overcurrent protective devices for each transformer.
	Submit calculations used to determine the interrupting capacity of overcurrent protective devices for secondary system feeders.

	Submit park lighting calculations to substantiate compliance with CCR, title 25, section 1108 or 2108.		
	Calculations for systems exceeding 240 volts require the signature of a California registered electrical engineer.		
Secti	ion 4: Fire Protection Plan		
	Show the locations of the fire hydrants, type and manufacturer of the hydrants, location and type of shutoff valve, and the hydrants' head size.		
	Show the location and design of thrust blocks and provide sizing schedule.		
Secti	Section 5: Utility Trenches		
	Show details of trenches, including the depth, width, location, and spacing of the utilities in the trenches.		
	Show the types of bedding and covering for utilities, and the protection and backfill of the trenches and frost line.		
Secti	ion 6: Sewage Disposal System Plan		
	If applicable, show the location and design of the private sewage disposal system, including the sizes of tanks, distribution boxes, and drain fields.		
	Show the size, length, and grade of the sewer lines.		
	Show the type of pipe, manufacturer and pipe identification numbers, fittings, and location of the pipe.		
	Show the location of the vents and (if applicable) cleanouts.		
	Provide details of lot inlets, p-traps (if any), venting and protection of traps, and manufactured home/mobilehome or RV connection details.		
	Indicate the location of the sewer inlet on the mobilehome or RV lot.		
	Provide an engineered design and calculations for any on-site sewage lift or pump stations. Include the manufacturer's pump specifications, gate and backflow valve locations, and alarm details. The stamp and signature of the responsible California registered engineer shall be on all calculations.		
	Provide a design of any sanitary dump station if required or provided.		
	Indicate the location and connection to the public sewer system.		

	A signature and stamp of a California professional engineer is required if the grades of the system are less than specified in CCR, title 25, table 1268-2 or table 2268-2, or if the park drainage system exceeds the fixture unit loading in CCR, title 25, table 1268-1 or table 2268-1 (600 fixture units).
	A letter from the design engineer stating he/she will verify the grade of all sewer lines on the job site and provide the enforcement agency with a statement that he/she has inspected the grade of the lines.
Secti	ion 7. Water Distribution System
	Indicate the source and pressure of the water system.
	Provide the location of the connection to the source, meter size, backflow prevention devices (if required), assemblies and methods, pipe sizes, fittings, and type and material of pipe and fittings.
	Provide details of service riser to each lot, size, material, valves and backflow prevention devices, assemblies and methods, and mechanical barrier protection if required.
	Additions to existing systems shall include PSI at point of interconnection to an existing system and existing size of water main at the point.
	Provide water demand calculations consistent with the California Plumbing Code.
	Provide the location and design of thrust blocks and a sizing schedule consistent with the California Plumbing Code.
	Provide a complete single-line diagram of the new and existing system.
	Provide the locations of service risers for each lot.
Secti	on 8. Gas Distribution System Plan
	Show the source of the gas supply and pressure and indicate the type of gas: LP or natural.
	Provide calculations for the demand and pipe sizes (CCR, title 25, section 1230 and 1232, and/or section 2230 and 2232).
	Show the length of runs, location of runs and shutoff valves in the run. Show size transition locations in the runs. Show the BTUH demands. If adding to an existing system, provide complete demand calculations along with a single line diagram of the existing and the proposed system.

PART B — PARK BUILDING PLAN REQUIREMENTS

Section 1. Plot-Site Plan / Title Sheet

	Site location including vicinity map with north arrow
	Address of proposed site
	Name, telephone number, and address of owner
	Name, telephone number, email, and address of person preparing the plans
	Index sheets on the title sheet
	Show all property lines and dimensions
	Indicate easements and/or right of ways, public or private, if any
	Show location and size of the proposed building in relation to the property lines, existing buildings, park lot lines, streets, parking areas, trees, signs, swimming pools, etc.
	Provide engineer's stamp and wet signature if required and all structural calculations
	Indicate scale used
	Provide provisions for grading and drainage
	Specify occupancy classification of building
	Specify the fire hazard severity zone
Secti	ion 2. Foundation Plan
	Show dimensions and depth below finish grade or original grade of all walls and post foundations and frost line depth
	Indicate locations and size of anchor bolts, tie-downs, hold-downs, seismic reinforcement, and under-floor access
	Show typical sections through footing
	Indicate soil classification and bearing pressure
Section 3. Elevation Views	
	Show exterior finishes and roof coverings

	Indicate roof slopes
	Show significant height dimensions
	Indicate dimensions of overhangs
Secti	ion 4. Floor Plan
	Indicate the exact and complete dimensions of the structure.
	Provide identification of the proposed use for all rooms.
	Indicate location and sizes of all doors, windows, and openings, include glass/glazing requirements. Indicate rating of fire doors.
	Indicate location of all appliances and fixtures, such as range, oven, washer, dryer, furnace, water heater, air conditioner, sinks, etc.
	Show type of interior ceiling, wall, and floor finishes.
	Show change in floor level at all doorways.
	Designate on the plan the posting of the occupant load in accordance with the California Building Code.
	Indicate the type of locks or latches installed in the required doors.
	The minimum scale shall be 1/8 inch = 1 foot, 0 inches.
Secti	ion 5. Framing Plan
	Note design loads on drawings
	Indicate material type and grade
	Provide roof framing plan to include mansard or similar structure
	Provide floor framing plan
	Provide wall framing plan
	Provide ceiling joist-framing plan
	Provide framing details at wall openings
	Note braced wall lines, braced wall panels, and shear wall locations

	Provide typical reinforcement details for masonry and/or concrete construction	
	When prefabricated trusses are used, complete details and calculations of the specific truss used shall accompany the plans	
	Show attic separation walls in accordance with the California Building Code requirements and details	
	Indicate size and location of attic access	
	Where roof drains are required, show size and location of overflow drains	
Section 6. Details and Sections		
	Provide sufficient detailed and dimensioned sections through portions of the building to adequately clarify the framing details	
	Provide connection details at bearings of individual members	
	Provide connection details for top and bottom of partition walls	
	Provide connection details to adequately show lateral load transfer	
	Provide details of fireplace construction	
	Provide details of roof covering	
Secti	ion 7. Electrical Plan	
	Provide location of all panels indicating sizes	
	Indicate type, size and material of all conductor conduits	
	Indicate type and size of all conductors	
	Indicate proposed wiring method	
	Indicate location of all electrical outlets, including lights, plugs, receptacles, and junction boxes	
	Indicate method and location of grounding	
	Show location and rating of all electrical appliances	
	Provide a circuit schedule, indicating the size of overcurrent protection	

Secti	ion 8. Plumbing Plan
	Provide a single-line and isometric drawing of the drain, waste and vent system showing sizes, dimensions, types and identification of all fittings and materials
	Indicate location of all cleanouts
	Indicate termination of vents
	Provide a single-line drawing of the water supply system showing sizes, lengths of runs, type of materials, and valves
	Show available pressure at meter or regulator
	Indicate type and number of fixtures
Secti	ion 9. Mechanical Plan
	Indicate type of fuel
	Provide a single-line drawing of the fuel lines, showing size and type of material, and change in pipe sizes
	Indicate location, type, size, and rating (in BTUH or CFM) of all appliances
	Show type of flue, indicating location and termination
	Show combustion air and how it is provided
	Indicate fire dampers and assemblies
	Provide details when mechanical ventilation is used to ensure minimum required air changes
Secti	on 10. Disabled Access
	All park public buildings and public areas shall comply with disabled access requirements per California Building Code, title 24, chapter 11B. Provide details showing compliance. Note: Park buildings and areas not for the general public are not required to be accessible.
	ALL AREAS of RV parks are required to comply with the disabled access requirements contained in California Building Code, title 24, chapter 11B. Provide details showing compliance.
	All park offices shall comply with disabled access requirements. Provide details showing compliance with accessibility requirements.

	All park swimming pools, recreational buildings, and recreational areas shall be required to comply with disabled accessibility requirements if they are offered for rent, lease, rented or leased to, or used by the general public at any time. Show compliance with accessibility requirements where required.		
Secti	on 11. Energy Requirements		
	Provide details showing compliance with California Code of Regulations, title 24 and title 25, if the building is heated or cooled.		
Section 12. Wildland Urban Interface (Fire Hazard Zone)			
	Submit a completed Wildland Urban Interface Classification form (attached), or an equivalent document to indicate the fire hazard severity zone.		
Section 13. Fire Sprinklers			
	Where buildings are required to have sprinklers, provide a single-line drawing of the water supply system showing sizes, lengths of runs, type of materials, water source, type of sprinkler heads, and head locations.

INSTRUCTIONS

ACCESSORY STRUCTURES: Complete Sections 1, 3, 5 and Contractor/Owner Builder Declarations. Submit the completed application and the required fees to the appropriate Area Office listed below.

MANUFACTURED HOME/MOBILEHOME INSTALLATION: Complete Sections 1, 4, 5, and Contractor/Owner Builder Declarations. Submit the completed application and required fees to the appropriate Area Office listed below.

18551 FOUNDATION SYSTEM: Complete Sections 1, 2, 5 and Contractor/Owner Builder Declarations. Submit the completed application and the required fees to the appropriate Area Office listed below.

PARK UTILITIES: Complete Sections 1, 2, 5 and Contractor/Owner Builder Declarations. Submit the completed application and required fees to the appropriate Area Office listed below.

NEW PARKS AND PERMANENT BUILDINGS: Complete Sections 1, 2, 5 and Contractor/Owner Builder Declarations. Submit the completed application and required fees to the appropriate Area Office listed below.

Northern Area Office 9342 Tech Center Drive, Suite 550 Sacramento, CA 95826 (800) 952-8356 Southern Area Office 3737 Main St., Suite 400 Riverside, CA 92501 (800) 952-8356

- SECTION 1 OWNER/APPLICANT INFORMATION: Enter the park name and address. Indicate if the park is located in an unincorporated area or an incorporated area. Enter the park owner's name(s). Enter the applicant's name, address and telephone number (The Department will contact or correspond with the party that is entered as the applicant.) Check the appropriate box to describe the applicant. If the box "Other" is marked, please indicate the relationship to the owner. If the requested services involve an architect or engineer, enter the architect or engineer's name, address, telephone number, and license number.
- SECTION 2 DESCRIPTION OF WORK AND VALUATION: Provide a description of the work to be performed (i.e., installing a manufactured home on a foundation system, etc.) Enter the total cost of the work to be performed (total contract price).
- ACCESSORY BUILDINGS or STRUCTURES: Check the appropriate box to indicate if the accessory building/structure is a new installation or a reinstallation. A new installation means a new accessory building or structure or an accessory building or structure that has not previously been installed with the unit. A reinstallation means an accessory building or structure that is being reinstalled for the same purpose as the original installation. Enter the Standard Plan Approval Number if this is a new installation. Check the appropriate box to indicate the type of accessory building/structure. If the box "Other" is checked, enter the type of building/structure on the line provided (i.e. storage building, greenhouse, etc.). Enter the name, telephone number and address of the owner. If the occupant of the manufactured home/mobilehome is other than the owner, enter the name of the resident, telephone number and the lot number where the unit is located.
- MANUFACTURED HOME/MOBILEHOME INSTALLATION: Enter the name, telephone number and address of the owner. If the occupant of the manufactured home/mobilehome is other than the owner, enter the name of the resident and the lot number where the unit is located. Enter the serial number(s) of the manufactured home/mobilehome. The serial number(s) can be located on the Manufacturer's Certificate of Origin, the Certificate of Title, registration documents or on the front cross member of the unit. Enter the year the unit was manufactured. Enter the manufacturer's name and Model name. This information can be obtained from the Manufacturer's Certificate of Origin, the Certificate of Title, registration documents or may be designated on the outside of the unit itself. Enter the California Insignia Number(s) or HUD Label Number(s) issued for this unit, if known.
- SECTION 5 PARK OWNER, OPERATOR OR MANAGER SIGNATURE: The signature of the park owner, operator or manager is required along with the date the form is signed. This signature is an acknowledgment that the park is aware and approves of the services being requested in this application.

CONTRACTOR/OWNER BUILDER DECLARATIONS

Contractor: Contractors proposing construction are required by state law to provide the following information:

- Item 1 Licensed Contractor Declaration: Enter the contractor's license class, license number, date the license expires, the contractor's signature and date.
- Item 3 Workers' Compensation Declaration: Place a check mark next to the declaration regarding the workers' compensation coverage that applies to the contractor. If the second declaration is marked, the contractor must also provide the carrier's name and policy number. This item must be signed by the contractor and dated.
- Item 4 Construction Lending Agency: If there is a construction lending agency for the performance of the work for the service being requested, enter the name and address of the lending agency. If there is no lending agency involved, enter the word "none."
- Item 5 Certification: The certification must be signed and dated by the contractor or agent on behalf of the contractor.

Owner Builder: If the work or activity as described on the application, is being completed by the owner, the owner must complete the following items:

- Item 2 Owner-Builder Declaration: Place a check mark next to the declaration which is applicable. If the third declaration is marked, enter the section number from the Business and Profession Code which provides the exemption and the reason for the exemption. The owner must also sign and date this section.
- Item 5 Certification: The certification must be signed and dated by the owner.
