

## **The 5 Statutory Objectives of the Regional Housing Needs Allocation (RHNA) Methodology**

This is the statutory language that describes the 5 statutory objectives that each Council of Government's (COG's) RHNA methodology must further.

### **Government Code Section 65584(d):**

The regional housing needs allocation plan shall further all of the following objectives:

- (1) Increasing the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner, which shall result in each jurisdiction receiving an allocation of units for low- and very low-income households.
- (2) Promoting infill development and socioeconomic equity, the protection of environmental and agricultural resources, the encouragement of efficient development patterns, and the achievement of the region's greenhouse gas reductions targets provided by the State Air Resources Board pursuant to Section 65080.
- (3) Promoting an improved intraregional relationship between jobs and housing, including an improved balance between the number of low-wage jobs and the number of housing units affordable to low-wage workers in each jurisdiction.
- (4) Allocating a lower proportion of housing need to an income category when a jurisdiction already has a disproportionately high share of households in that income category, as compared to the countywide distribution of households in that category from the most recent American Community Survey.
- (5) Affirmatively furthering fair housing.
