This spreadsheet includes Census Tract and county level data on the percentage of the population that is "minority" (not Hispanic or Latino, and White race alone) for 84 HOME activities and projects completed in FY 2019-20. Data on race and ethnicity are from the 2014-18 American Community Survey 5 year average estimates. Census Tract is not reported for Tenant Based Rental Assistance projects. "High minority concentration" is defined as Census Tracts where the population percentage minority exceeds the county population percentage minority by 10 percentage points or more.

Of the 84 total activities (excluding TBRA), 40 percent were in Census Tracts with high minority concentration. Examining the data by activity type, 27 percent of homebuyer acquisition activities were in Census Tracts with high minority concentration; 7 percent of owner occupied rehabilitation activities were in Census Tracts with high minority concentration; 80 percent of owner occupied new construction activities were in Census Tracts with high minority concentration; and 100 percent of rental projects (new construction, rehabilitation, and acquisition rehabilitation activities) were in Census Tracts with high minority concentration. The report contains two rental projects which have been highlighted in yellow. The rental project in Avenal contains 36 HOME units. The rental project in Dinuba contains 21 HOME units. All other activities listed by row represent a single HOME unit.
